---

## Procedure

1. Exit all open applications and insert the “Firmware and Measurement Personality” CD from the Firmware Update Kit into your CD-ROM Drive. A menu should be displayed automatically.
  - a. If it does not, click **START** in the lower left corner of your Windows display, then select **RUN** and type “D:\menu.exe” (assuming “D” is the designation for your CD-ROM Drive).
2. Select Installation Procedure.
3. Carefully follow all parts of the procedure to complete the firmware upgrade and measurement personality installation.
