Introduction

The Measurement Personality Retrofit Kit allows you to add or change measurement personalities in your PSA Spectrum Analyzer. The total installation time is approximately 1 hour. The measurement personalities and firmware upgrade are on the CD in this kit.

Installation Kit Parts List

Contents of Measurement Personality Installation Kit

Quantity	Description	Agilent Part Number
1	Option Upgrade Entitlement Certificate	---
1	Personality Measurement Guide	Personality dependent
1	Installation Note	this note
1	Firmware Update Kit	---

Tools Required

❑ Microsoft® Windows® based Personnel Computer with Local Area Network (LAN) card.

❑ Windows NT® 4.0 or greater, Windows® 98

❑ CD-ROM drive

Microsoft®, Windows®, and Windows NT® are US registered trademarks of Microsoft Corporation.

Procedure

1. Exit all open applications and insert the "Firmware and Measurement Personality" CD from the Firmware Update Kit into your CD-ROM Drive. A menu should be displayed automatically.

   If it does not, click START in the lower left corner of your Windows display, then select RUN and type "D:\menu.exe" (assuming "D" is the designation for your CD-ROM Drive).

2. Select Installation Procedure.

3. Carefully follow all parts of the procedure to complete the firmware upgrade and measurement personality installation.

   The entitlement certificate supplied in this kit allows you to obtain a license key from our Agilent website so you can enable this upgrade option. Once you have retrieved the license key, you can begin the process of activating the option.

   A step by step procedure to install the license key is included in the "Installation Procedure" on the firmware update CD-ROM.
