Prior to Firmware A.04.05: **Option 266, 8566/68B Code Compatibility, is not compatible with all measurement personalities**

Some measurement personality options cannot be installed with Option 266.

Choose "Firmware Without Option 266" to install the following options:

BAC	cdmaOne
BAE	NADC/PDC
BAF	WCDMA
B78	cdma2000
202	GSM w/EDGE
204	cdma1xEV-D0
226	Phase Noise

Note: If Option 266 is currently installed in your analyzer, it will be removed.

Choose "Firmware With Option 266" to install the following option:

266	8566/68B Code	Compatibility

Note: All PSA options which are not compatible with Option 266 will be removed when Option 266 is installed.
