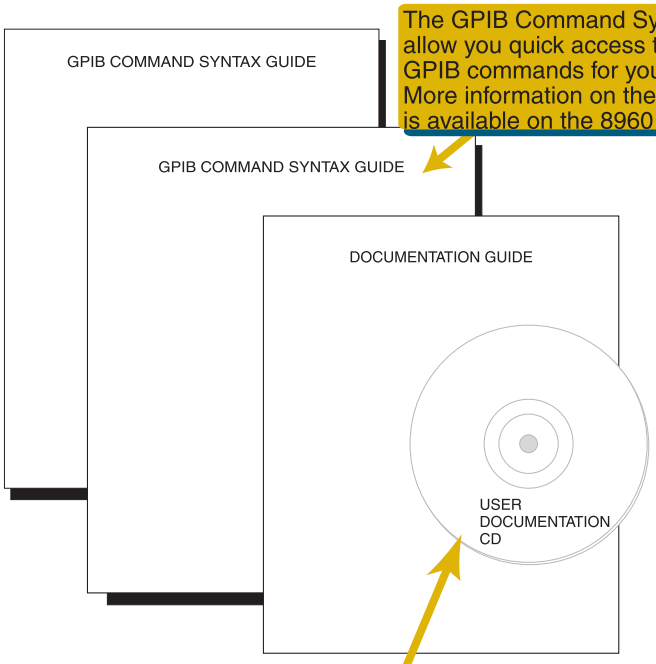
Agilent Technologies

8960 Series 10 Documentation Guide

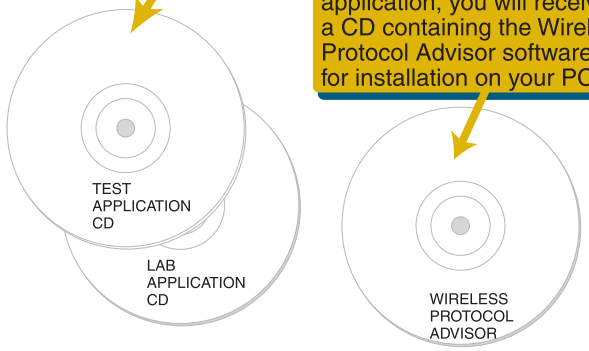
Paper Documents and CDs Shipped with Your Application or Test Set:



The GPIB Command Syntax Guides allow you quick access to all of the GPIB commands for your application. More information on the commands is available on the 8960 web site.

OPTIONAL: If you ordered option 010 for your application, then you will receive one of these CDs. These CDs contain test application or lab application software. Use the CD to install your application onto your test set.

If you ordered a lab application, you will receive a CD containing the Wireless Protocol Advisor software, for installation on your PC.



The User Documentation CD contains a copy of most of the information on the 8960 web site. Check the web site frequently for the latest information: www.agilent.com/find/8960

You can also download the latest test application, lab application and wireless protocol advisor software at: www.agilent.com/find/8960TA/, www.agilent.com/find/8960LA/, and www.agilent.com/find/E6584A/ A valid licence is required for installation.

For the Complete Set of User Documentation, Visit Agilent's 8960 Web Site:

www.agilent.com/find/8960

Select a link for more information on your lab application or test application

To access the 8960 online manual, select "8960 Online User's Guides" from the Key Library Information.
