HP 3065 CL/CLR/CL+/CX/CXR/CX+,ST Systems:

Y2K update information only, recommending upgrade path.

To Be Performed By: HP-Qualified Personnel

Situation:

HP 3065 CL/CX/ST Systems have been discontinued; however, compliance can be achieved by installing a Year 2000 Compliance Patch to be available in March 1999. The year 2000 patch will address dates through the year 2011; therefore, these systems will not be fully Year2000 Compliant. Support for these products will end in 2004.

Solution / Action:

- Customers can install the patch tape on systems at software revision 5.0 or greater.
- Customers with HP Support Agreements will receive the software patch at no cost.
- Non-contract customers can purchase the following:
 E1073A Option 600 for DAT Media \$1000.00
 E1073A Option 601 for Cartridge Media \$1100.00

For customers who have systems at revisions less than 5.0 software please contact your local Board Test Sales Representative.

Software release history:

- Year2000 Software Release November 1998
- Revision 5.11 - 5.14 TestJet Software March 1995
