

# HP 35s Firmware Release

---

**Release Date:** 2012-12-10

**Version information:** Rev. 19048

## Emulator Re-Open

This error only occurs in Windows Vista! The emulator does not store the preference data of skins on exit. This means that every time the emulator is opened it will open in the Compact Mode. To change the skin, simply select the desired skin each time the calculator is opened.

No other known issues exist.
