

3 GHz Spectrum Analyzer HM5530

Frequency range : 100 kHz to 3 GHz

Low phase noise by HAMEG YIG oscillator, -110 dBc @ 100 kHz

Resolution bandwidth (RBW) 9 kHz, 120 kHz and 1 MHz

Amplitude measurement range: -110 dBm to +20 dBm

Interface for documentation and control software RS-232,
USB optional

Additional measurement functions for pre-compliance EMI
measurements

Intuitive one pushbutton operation

Adjustable test signal output 50 MHz, 0 bis -10 dBm
