Multimedia audio was always the low-tech poor cousin of the computer revolution. Harman Kardon SoundSticks® changed all that. As advanced and stylish as the Apple® Macintosh® computers they're designed to complement, and as versatile as all the iPods® and CD, DVD and MP3 players they also support, SoundSticks are a powerful, award-winning new approach to desktop and portable audio. And in the PC universe, Toshiba® and Hewlett-Packard® are demolishing the status quo with elegant Harman Kardon systems.
