

L 2 O T

Pro Sound Comes Home.

JBL, the most respected speaker name in recording studios and concert halls, has designed the new "L" Series speakers to provide the highest quality professional sound in the home environment. The compact L20T, a 2-way 6 1/2" bookshelf system, offers extended frequency response, original dynamic range, and the recreation of the full sound stage. Its combination of a pure titanium high frequency transducer, filled polypropylene mid/low frequency transducer and high spatial identification dividing network yields unparalleled sound reproduction. This system is housed in cabinetry finished on all six surfaces by JBL craftsmen with hand oiled hardwood veneer.

The L20T...Bringing Pro Sound
all the way home.

5000 BRUSH HOLLOW ROAD, WESTBURY, NEW YORK, 11590 (516) 364-3800
