

Larry W. Whitfield

Larry W. Whitfield is vice president-general manager of Strategic Management and Business Development for the Government Communications Systems Division (GCSD). Mr. Whitfield reports to the division president. GCSD develops and produces advanced communication and information systems for the Department of Defense and other government agencies and their prime contractors.

Prior to rejoining Harris in 2001, Mr. Whitfield was president of Exigent Software Technology, Inc. From 1996–1999 he served Harris GCSD in the positions of vice president of Business Development and Communications and vice president of Information and Transportation Management Systems. Prior to joining Harris in 1996, he was vice president of Commercial Space at Lockheed Martin.

Mr. Whitfield holds a B.S. from California State University, San Jose, and has completed leadership and executive development programs at the University of Santa Clara, Stanford University and Wharton's School of Business at the University of Pennsylvania. He is a member of the U.S. Space Foundation, the Armed Forces Communications and Electronics Association, the Air Traffic Control Association, and the Association of the United States Army.

Harris Corporation is an international communications equipment company focused on providing product, system, and service solutions for commercial and government customers. The company's five operating divisions serve markets for microwave, broadcast, network support, tactical radio, and government systems. Harris has sales and service facilities in more than 90 countries.
