The **EH4700 Series** is designed to accept CCD cameras with either fixed focal length lenses or motorized zoom lenses (up to 10X). The camera sled is removable and can be inverted to accommodate various camera and lens combinations.

The enclosure opens from the rear by unlatching the rear-mount, link-lock latch. The forward opening lid allows for maximum accessibility during installation/servicing and can be removed, if necessary. A unique gas spring securely holds the lid when fully opened. If desired, the link-lock latch can be secured with a padlock of suitable size for additional security.

The **EH4700 Series** is available with a full complement of factory and field installed accessories which include blower, heater, window defroster, sun shroud, thermal insulation, 120 VAC electrical outlet and preset position lens wiring harness.

The **EH4700 Series** can be used in fixed mount applications or mounted to a medium duty pan/tilt such as our PT680 Series.
