EASIWAVE

Trouble-free communications!

Easiwave is a simple radio service that is affordable, requires no complex multi-function products and offers a high degree of flexibility. It allows you to communicate between members of a group in and around buildings and over short distances. Icom Easiwave radios can even be customized to meet specific needs.

Auto-channel function

Finding free channels for communications is easy with this function—the radio automatically searches through usable channels until an unoccupied one is found.

Rugged construction

This is a radio you can depend on. Its rugged, polycarbonate case covers a one-piece, die-cast aluminum chassis for reliable operation under demanding conditions.

Simple operation

Pushing just a few switches puts the power of 2-way radio communications in your palm. Whether you're communicating indoors in a factory setting or on a building site, operation couldn't be simpler. For visual reference an LCD clearly shows operating status at a glance. In addition, operation and functions can be customized* for specific needs.

*Ask your dealer for details.

Group mode

Group mode provides communication among members of a group. Don't get distracted by calls not meant for you—only calls directed to you or others in your group can be heard.

Other outstanding features

- An S-meter displays received signal strength
- A power saver function extends battery life for longer operating times
- Lock function helps prevent accidental setting changes
- Pager function notifies you of calls received when temporarily away from the transceiver

Icom Inc.

SPECIFICATIONS

- Dimensions (projections not included):
57(W) × 140(H) × 37(D) mm
- Weight (w/BP-195) : 370 g

Supplied accessories

- Battery pack
- Antenna
- Belt clip
- Wall charger*

*Depending on version.

OPTIONS

BATTERY PACKS AND CASE

BP-194
R6 (AA)
batteries×8

BP-195
9.6 V/700 mAh

BP-196
9.6 V/1050 Ah

*Ni-Cd cells in BP-194 must be purchased separately.
Approx. output power and operating times. (Tx high Rx/Standby=5.5/30)

BP-194 (w/20 cells Ni-Cd cells)	BP-195	BP-196
0.5 W ERP/8 hrs.	0.5 W ERP/8 hrs.	0.5 W ERP/12 hrs.

BC-119 DESKTOP CHARGER
+ AD-81 DESKTOP CHARGER ADAPTER

Rapidly charges battery packs BP-195 or BP-196. Cannot charge Ni-Cd or Ni-MH cells installed in the BP-194. Both AC and DC can be used to power the charger.

BC-121 MULTI-CHARGER
+ AD-81 DESKTOP CHARGER ADAPTER

For rapid charging up to 6 battery packs. An AC adapter may be supplied depending on version. One AD-81 is necessary for each battery pack to be charged. Charging time: 1.5 to 2 hrs.

SPEAKER-MICROPHONES

HM-46

HM-54

HM-75A

HM-46 : Compact and lightweight. Equipped with an earphone jack.
HM-54 : Durable, full-sized speaker-microphone.
HM-75A : Allows you to remotely select memory channels operating frequency, etc. Simple remote and normal remote are selectable.

HS-51 HEAD SET

Allows you hands-free operation. Includes VOX, PTT, "one-touch PTT" (TOT).

BC-110 WALL CHARGER

Regularly charges battery packs. Supplied with some transceiver versions.

CP-12L CIGARETTE LIGHTER CABLE WITH NOISE FILTER
OPC-254L DC POWER CABLE

Allow you to operate the transceiver through a 12 V cigarette lighter socket or 4.5 to 16 V external DC power supply with the CP-12L or OPC-254L, respectively. The connected battery pack is charged simultaneously (12 to 16 V DC necessary).

SP-13 EARPHONE

Provides clear audio in noisy environments.

MB-68 BELT CLIP

Attaches the transceiver to your belt, etc. Same as supplied.
