O ICOM

VHF MARINE TRANSCEIVER

IC-M401EURO

Easy to See! Easy to Hear!

Large LCD (27 x 43mm)

A large LCD is incorporated into the design allowing easy viewing

of the large channel display and the scrolling 10-character channel name system-even in direct sunlight, or when water has splashed on the screen. In addition, the 4-step amber backlighting for both the LCD and switches allows the set to be seen in low-light conditions.

The photo shows actual display size.

Compact Front Panel

The IC-M401EURO has a flush mount body and compact front panel making it ideal for installation in a steering panel or bulkhead. The front panel design is well organised and contains welllabelled switches and controls providing simple operation even in the roughest weather conditions.

Waterproof Protection

The IC-M401EURO, including the microphone and the optional DS-100 have a waterproof protection, equivalent to JIS waterproof specification grade 7*. You can wash away any dirt or any salt with fresh water after your outing.

* 1m depth for 30 minutes; except cables.

Superior Audio with Large Speaker A newly designed large speaker grille gives excellent audio quality from the frontmounted speaker. This result

White Type

in clear reception, even over wind or engine noise.

Optional ITU Class-D DSC Controller, DS-100

If you are really concerned about DSC operation not only for "Distress" situation, but also for private ship-to-ship or shore calls, the LCD and switches must be large for convenient use. The DS-100 has a 21 character \times 8 line display, that shows full dot-matrix characters with excellent clarity. Individual, group and all ships calls can be made easily with the large keypads. Up to 40 received message memory, and a total of 70 individual or group ID's can be programmed.

And More

- Dual and tri-watch functions for monitoring Ch 16 and/or another channel, while receiving on another channel
- Supplied 'smart' microphone for instant channel selection
- Simple and easy tag scanning system
- Up to 22 free channels are available
- Black or white color types available

VHF MARINE TRANSCEIVER

SPECIFICATIONS

	GENERAL
 Frequency range 	: Tx 156.025–157.425MHz Rx 156.025–162.025MHz
 Type of emission 	: 16K0G3E (FM),16K0G2B (DSC)
Usable channels	: All International channels * All USA channels additionally available depending on version
 Power supply 	: 13.8V DC
Current drain (at 13.8	BV DC):
Tx high	6.0A max.
Max. audio	1.2A max.
 Operating temp. range 	e: –20°C to +60°C
 Frequency stability 	: ±1.5kHz (–20°C to +60°C)
 Antenna connector 	: SO-239 (50Ω)
 Dimensions (proj. not incl.) 	: 153(W)×67(H)×141.6(D) mm
Weight (approx.)	: 900g

TRANSMITTER

- Output power : 25W or 1W (at 13.8V DC)
- Modulation system : Variable reactance phase mod.
- Max. Freq. deviation: ±5.0kHz
- Spurious emissions : 0.25µW

OPTIONS

MB-69: For mounting the IC-M401EURO to a panel. MB-75: For mounting the DS-100 to a panel.

RECEIVER
: Double conversion super- heterodyne
: Less than –2dBµ EMF at 20dB SINAD

• Squelch sensitivity : Less than 0dBµ EMF • Intermod. rejection : More than 68dB • Spurious response : More than 70dB • Adj. Ch. selectivity : More than 70dB • Audio output power : 2W at 10% distortion with a 4Ω load

Supplied accessories: Hand microphone • DC power cable Mounting bracket kit Spare fuses

Measurements made in accordance with EN301 025. All stated specifications are subject to change without notice or obligation.

DS-100 DSC CONTROLLER UNIT (Ver. 02)
