

IC-T2H

More than enough power...

6 W* of transmit power and 500 mW* of audio output

The IC-T2H provides a powerful 6 W* of RF output power with the supplied Ni-Cd battery pack. More than enough for long distance communications. And on the receiving side a generous 500 mW* of audio is emitted for clear reception even in noisy operating environments.

*Typical at 9.6 V DC.

Commercial grade durability

Built tough. The IC-T2H is designed and constructed to deliver reliable performance under demanding conditions.

Tone squelch standard

The built-in tone squelch system provides quiet standby (the squelch only opens for calls directed to you) as well as pocket beep and tone scan functions. Pocket beep provides a method of keeping track of calls directed to you (like a 'common' pager) and tone scan allows you to detect subaudible tone frequencies that are needed to open a repeater, etc.

Easy operation with customizable keys

Default key functions have been assigned with ease of operation in mind. However, eight keys on the keypad are customizable allowing you to assign functions to them other than the defaults. This can be performed via cloning or directly from the keypad.

DTMF encoder with memory channels

A DTMF encoder with 5 DTMF memory channels is built-in—DTMF codes of up to 32 characters can be stored. And an automatic re-dial function provides simple operation for autopatching, etc.

Cloning capabilities

Cloning between handhelds or between handheld and PC provide quick and easy transfer of settings. An OPC-474 CLONING CABLE is required for transceiver-to-transceiver cloning and an OPC-478 CLONING CABLE plus the CS-T2 CLONING SOFTWARE is required for PC-to-transceiver cloning.

Other outstanding functions

- Guide function for quick reference to key functions
- LCD backlight with timer
- 40 memory channels available
- 2-step power saver function increase battery life
- Automatic repeater function (USA version only)
- Microphone simple remote control function (optional HM-75A required)
- Monitor function
- Lock function
- 10 weather channels (USA version only)
- ANI (Automatic Number Identification) function*

*Available for some versions only.

SPECIFICATIONS

GENERAL

Frequency coverage:

Version	Transmit	Receive
USA	144-148 MHz	136-174 MHz*
Europe	144-148 MHz	144-148 MHz
Italy	144-148 MHz	136-174 MHz*
Asia, S. America	144-148 MHz	136-174 MHz*

*Guaranteed range: 144-148 MHz

- Mode : FM
- No. of memory ch.: 43 (incl. 2 scan edges and 1 call)
- Frequency stability : ±10 ppm (0°C to +50°C)
- Operating temperature range: -10°C to +60°C; +14°F to +140°F
- Power supply requirement: (negative ground) 9.6 V DC (supplied Ni-Cd cells)
- Current drain (at 9.6 V DC):
 - Tx at 6.0 W 1.6 A (typical)
 - at 1.0 W 0.7 A (typical)
 - Rx max. audio 210 mA (typical)
 - standby 80 mA (typical)
 - power saved 25 mA (typical)
- Antenna connector : BNC (50 Ω)

OPTIONS

BATTERY PACKS AND CASE

*Ni-Cd cells in BP-194 BATTERY CASE must be purchased separately.
Approx output powers and operating times (Tx high) : Rx Stand-by=1: 8

BP-194 (w/Ni-Cd cells)	BP-195	BP-196
6.0 W/3.7 h	6.0 W/3.7 h	6.0 W/5.5 h

LC-145 CARRYING CASE

Helps protect the transceiver from scratches, etc. Fits any battery pack.

HS-51 HEAD SET

Allows you hands-free operation. Includes VFO, PTT, "one-touch PTT" (TOT).

BC-119 DESKTOP CHARGER + AD-81 DESKTOP CHARGER ADAPTER

Rapidly charges battery packs BP-195 or BP-196. Installed Ni-Cd cells cannot be charged via supplied BP-194 BATTERY CASE. Both AC (using an AC adapter) and DC can be used to power the charger. The AD-81 must be purchased separately.

CP-12/L CIGARETTE LIGHTER CABLE WITH NOISE FILTER
OPC-254/L DC POWER CABLE

Allows you to charge the connected battery pack (13.5 to 16 V DC required). For charging ONLY—the transceiver cannot be simultaneously operated.

SPEAKER-MICROPHONES

HM-46 : Compact and lightweight. Equipped with an earphone jack.
HM-54 : Durable, full-sized speaker-microphone.
HM-75A : Allows you to remotely select memory channels operating frequency, etc. Simple remote and normal remote are selectable.

SP-13 EARPHONE

Provides clear audio in noisy environments.

BC-110A/D/V WALL CHARGER
Standard wall charger. The same as supplied with some versions.CS-T2 CLONING SOFTWARE
+ OPC-478 CLONING CABLE

Provides quick and easy programming of memory channels, memory names and set mode contents, for local repeater frequencies, etc., via an IBM compatible PC.

OPC-474 CLONING CABLE
Used for handheld-to-handheld data cloning.MB-68 BELT CLIP
Attaches the transceiver to your belt. Same as supplied.
