CAUTIONS

Listening precautions

- Do not play your earphones at a high volume.
- · Hearing experts advise against continuous extended play.
- If you experience a ringing in your ears, reduce volume or discontinue use.
- Do not use while operating a motorized vehicle. It may create traffic hazard and is illegal in many areas.
- You should use extreme caution or temporarily discontinue use in potentially hazardous situations.
- Even if your earphones are an open-air type designed to let you hear outside sounds, do not turn up the

volume so high that you cannot hear what is around you. Sound can be deceiving. Over time your hearing "comfort level" adapts to higher volumes of sound. So what

sounds "normal" can actually be loud and harmful to your hearing. Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.

To establish a safe level:

- Start your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, and without distortion.
- Once you have established a comfortable sound level:
- Set the dial and leave it there.

To prevent damage to the batteries and electrolyte leakage, heed the following points.

- Align the ⊕ and ⊖ polarities properly when inserting the batteries.
- Remove the batteries if you do not plan to use the player for a long period of time.
- Do not throw batteries into a fire, and do not short-circuit, disassemble or subject them to excessive heat. • Do not attempt to recharge dry cell batteries.
- Carrying dry cell batteries around

When putting dry cell batteries in a pocket or bag, ensure that no other metal objects such as a necklace are placed together with them. Contact with any metal may cause short-circuiting which may cause a fire.

- No altering or remodeling
- This can cause malfunctioning.
- No dropping or strong impacts
- This may damage the player Locations to be avoided
- Avoid using the player in the following locations since they can cause malfunctioning.
- 1. Bathrooms and other moisture-prone places.
- 2. Warehouses and other dusty places
- 3. Very hot places near heating appliances, etc.

Do not leave the player exposed to direct sunlight for long periods of time This may deform or discolor the player and may also cause malfunctioning.

- Do not place any naked flame sources, such as lighted candles, on the apparatus.
- the disposal of these batteries must be followed strictly.
- Do not expose this apparatus to rain, moisture, dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

For Canada Only:

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

INFORMATION

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus as set out in the interference-causing equipment standard entitled "Digital Apparatus", ICES-003 of the Department of Communications.

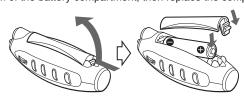

GETTING STARTED

POWERING UP

This digital audio player operates on battery.

BATTERY POWER

Remove the battery compartment cover and insert one LR03 (AAA) alkaline battery matching the polarities (+ and –) indicated in the bottom of the battery compartment, then replace the compartment cover.

On the Battery remain indicator

The battery remain indicator in the display changes as follows.

low battery change the battery If all the slashes disappear and the icon itself blinks, you need to change the battery.

Important Battery Information

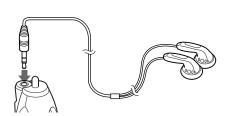

- If you are not going to use your player for a month or more, be sure to remove the battery in case the battery leaks and causes damage.
- Dispose of batteries in the proper manner, according to federal, state, and local regulations. - Discard leaky batteries immediately. They can cause skin burn or other personal injury.

EARPHONES

LVT1330-001A [B/C/US/UJ]

Connect the supplied earphones to the \bigcap jack on the player.

Incorrect connection of the earphones may cause interference due to static electricity during play.

NECK STRAP

You can use the supplied neck strap for easy carrying.

TRANSFERRING THE DATA

You can transfer MP3 and WMA format audio files from the computer to your player.

SYSTEM REQUIREMENTS

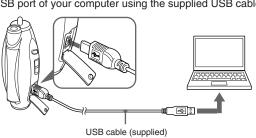

- Microsoft Windows 98SE/Me/2000/XP (Home/Professional)
- CD-ROM drive
- Pentium 200 MHz
- RAM 32 MB (Windows 98SE, Me, 2000) or 64 MB (Windows XP)
- 20 MB HDD space (or more HDD for storing music file)

CONNECTING TO THE COMPUTER

For Windows 98SE user:

Before connecting your player to the computer for the first time, be sure to install the USB driver from the supplied CD-ROM into your computer. Place the CD-ROM in your disc drive and follow the instructions displayed on the computer.

- 1. Open the rubber cap of the USB connector.
- 2. Connect the player to a USB port of your computer using the supplied USB cable.

DOWNLOADING THE DATA

- 1. Open the player's folder (removable disk or device) from My Computer or Explorer.
- 2. Copy and paste or drag and drop the MP3/WMA files from the computer into the player's folder.

REMOVING FROM THE COMPUTER

Disconnect the player from the computer by following the necessary steps according to your computer for safety

For Windows 2000/Me/XP users:

Left-click the 🏅 icon in the taskbar, and follow the messages appear.

For Windows 98SE users / When the icon is not displayed in the taskbar:

- 1. Open "My Computer" on your computer.
- 2. Click on "Removable Disk", then right-click to select "Eject". 3. Remove the player from the computer.

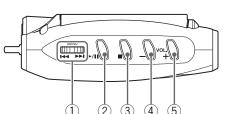

- The player supports MP3 ID3 V1 tags, ID3 V2 tags and WMA tags.
- The player can be used as a removable disk.
- Music protected by Windows Media Player cannot be played even if you download it. The player skips the
- protected music and starts playback of the next track.

a file or disconnect the player after the backlight turns off.

- · The FM broadcast and voice tracks recorded by this player can be uploaded to a computer. However, MP3 and WMA files in the player cannot be uploaded.
- MP3 and WMA files in the player cannot be played on a computer. - When connecting to a computer, the backlight of the player will blink for a short while. Start uploading/downloading
- The operation with an USB hub or extended USB cable is not guaranteed. - Operation is not guaranteed with all computers that meet the system requirements mentioned above.
- · Microsoft, Windows and Windows Media are either trademarks or registered trademarks of Microsoft Corporation in the United States and other countries.
- Other names of systems and products mentioned in these instructions are usually registered trademarks of the manufacturers who developed the system or product concerned.

001.voice001 .WAV Key Locked!

The Lock icon will be displayed. To unlock Controls, release the a (hold) switch.

001.voice001 .WAV Key UnLocked!

TROUBLESHOOTING TIPS

Problem	Solution
The player does not function.	This player provides versatile operations under microcomputer control. If the player cannot be properly operated by pressing any button, remove the battery and insert it again after a while. Make sure the HOLD switch is off. Replace the battery.
There is no sound or a lot of noise.	- Make sure the earphone is correctly connected to the player Wipe the earphone plug with a clean cloth Keep the player away from other equipment, such as mobile phones or televisions Turn the volume up.
The player suddenly stops working.	- Take the battery out for about 10 seconds and re-insert it.
The display is too dark or too bright.	- Adjust the contrast.
Your computer does not recognize the player.	- If your operating system is Windows 98SE, be sure to install the USB driver from the supplied CD-ROM in your computer.

SPECIFICATION

Maximum Dimension Size (Approx.):

Accessories Supplied:

Memory Size: Built-in 256 MB Flash Memory. Stereo (2 Channel) for Music Play and Channels:

Mono (1 Channel) for Voice Recording. Playback Frequency Range: 20 Hz to 20 kHz

Audio Output: 5 mW + 5 mW (32 Ohm) Power Supply: DC 1.5 V "LR03" or "AAA" size battery × 1 Battery Life (Approx.):

Playback: 10 hours (Alkaline Battery) Maximum Duration of Recording (Approx.):

Voice Track: 12 hours

FM Broadcasts: 6 hours

87 (L) × 35.5 (W) × 27.5 (H) mm 35 g (Battery not included)

Earphones \times 1 USB cable \times 1

Neck strap \times 1

CD-ROM (USB driver) × 1 Instruction manual \times 1

NOTES

• Specifications are subject to change without notice.

• The battery life may differ depending on condition. • The maximum duration of recording indicated above is when no file is stored in the player.
