Warning (Please follow all the guidelines below)

Never cut or damage the power cord!

● If the AC plug is not the right shape, or the power cord is not long enough, use an appropriate plug adapter or extension cable. (Consult your retailer.)

Never place anything on the TV!

● Placing liquids, naked flames, cloths, paper, etc. on the TV may cause a fire.
Never try to repair the TV yourself!

➡ If the problem cannot be solved in "Is it broken?" (P. 29), unplug the power cord and contact your retailer.

Follow this manual regarding setup!

● Connect only to a 110-240V, 50/60Hz AC outlet.

Unplug the power cord when going out!

● The power buttons on the remote control and the TV unit cannot completely turn off the TV. (Make appropriate arrangements for bedridden people.)
Never insert objects into the cabinet openings!

● It may cause a fatal electric shock. Take care when children are near.

■ For more details on installation, usage and safety ➡ Consult your retailer

3

Never expose to rain or moisture!

● To prevent fire or electric shock, never allow liquids to enter the unit.

If the TV is damaged or behaving strangely, stop using it at once!

➡ Unplug the power cord and contact your retailer.

Do not allow the TV to fall!

● Do not rest your elbows on, or allow children to hang from the TV.
There is a risk that the TV will fall and cause injuries.

Hold the TV so as not to scratch the screen!

● Do not touch the screen when carrying the TV.

Do not carry the TV on your own!

● In order to prevent accidents, ensure that the TV is carried by two or more people.

When attaching the TV to the wall, use the optional JVC wall mounting unit!

● Consult a qualified technician.
● See the included manual on mounting procedures.
● JVC assumes no responsibility for damage due to improper mounting.

Never dismantle the rear panel!

● It may cause an electric shock.

Never obstruct the ventilation holes!

● It may cause overheating or a fire.

Handle LCD panel with care!

● Use a soft, dry cloth when cleaning.

## Never listen to headphones at high volume!

● It may damage your hearing.

TROUBLE?

Initial settings

Set the menu language, installation location and automatically register the TV channels.
These channels can be edited later in "Editing channels" (P. 11).
(Channel data on the TV can be sent to a connected recording device that is compatible with T-V LINK.)

- ■ To the previous screen ➡ BACK

- ■ Exit ➡ TV

- ■ If the "JVC" logo does not appear or if you wish to make changes later
  ➡ "LANGUAGE" and "AUTO PROGRAM" (P. 26)

What is "T-V LINK"?

Connecting the TV to a T-V LINK compatible device allows :

- ● Channels on the TV to be instantly registered on the device.
- ● The "DIRECT REC" function to be used.
  ➡ "Technical information" (P. 32)

■ T-V LINK variations

"T-V LINK" (JVC)   "Q-LINK" (Panasonic)
"Megalogic" (Grundig)   "Data Logic" (Metz)
"SMARTLINK" (Sony)   "Easy Link" (Philips)

Troubleshooting

Severe noise or snow

- ● Is the TV connected correctly to the aerial?
- ● Change the direction of the aerial.
- ● Is the aerial or its cable damaged?
  - ➡ Consult your retailer

Patterns, stripes or noise

- ● Is the aerial receiving interference from high-voltage power lines or wireless transmitters?
  - ➡ Consult your retailer
- ● Are connected devices too close to the TV?
  - ➡ Insert the minimum distance between the aerial and the cause of interference until no interference

Ghosting
(Doubling of images)

- ● Are you receiving interference from signals reflected off mountains or buildings?
  - ➡ Adjust the direction of your aerial, or change to a good-quality directional aerial
I can't turn it on!

- ● Is the power cord connected to the AC outlet correctly?

The remote control doesn't work!

- ● Are the batteries flat?
- ● Are you more than 7 metres away from the TV?
- ● Is the "VCR/TV/DVD SWITCH" set to "TV"?
- ● When viewing teletext, the TV menu bar does not appear.
- ● Depending on the stability of the signal, there may be a time lag when changing channels.

	Problem		Actions	page
Basics	Remote control stops working	▶	● Unplug TV, several minutes later plug it in again.	—
Screen	Aspect ratio changes unintentionally	▶	● Press ⊙ZOOM to return to your settings.	17
Picture	Poor picture quality	▶	● Unnatural colour >>> Adjust COLOUR and BRIGHT-1. 　　　　　　　　　　Check your COLOUR SYSTEM. ● Noise >>> Set to the following functions. 　　PICTURE MODE : STANDARD 　　DIGITAL VNR :　　AUTO (HIGH) 　　Super DigiPure :　MIN ● Dull picture >>> Set to the following functions. 　　PICTURE MODE : BRIGHT 　　DIGITAL VNR :　　MIN 　　Super DigiPure :　MAX	26 28 26 27 27 26 27 27
	Strange picture when using an external device	▶	● If you connected S-Video output device, check the "S-IN" setting. ● If the top of the image is distorted, check the video signal quality itself. ● If movement appears unnatural when receiving a signal from a DVD player, etc. with 625p (progressive-scanning), change the output setting of the external device to 625i (interlace-scanning).	22 — —
Sound	Poor sound	▶	● Adjust the BASS and TREBLE. ● If receiving a poor signal in "STEREO / I · II", switch to MONO. ● Adjust the channel reception using "MANUAL".	26 26 11

Troubleshooting (continued)

	Problem		Actions	page
HDMI	Wrong screen size		● Switch SIZE in HDMI SETTING to "1" or "2".	26
	No sound		● Switch AUDIO in HDMI SETTING to ANALOGUE or DIGITAL.	26
	Green and distorted screen		● Wait a little for the signal to stabilize when switching the signal format for an HDMI device.	–
Functions	Some functions do not work		● It is not a malfunction. Some functions (dark background) in the menu do not work depending on the situation.	–
	Some inputs cannot be selected in the sub-picture		● EXT-4, EXT-5 inputs and PC mode cannot be selected in the sub-picture.	–
Display	"FEATURE NOT AVAILABLE" appears		● Is the T-V LINK compatible device connected to EXT-2? ● Is the SCART CABLE "Fully Wired"? ● Is the T-V LINK compatible device turned on? After confirming all the conditions above, press "OK" button again.	32 32 –
	"ACI ERROR" appears		● Press ◀ to start ACI again. If you still receive the "ACI ERROR" after numerous tries, press ▶ to cancel ACI.	–
Screen	Black or white dots appear on the screen		● LCD panels use fine dots ("pixels") to display images. While more than 99.99% of these pixels function properly, a very small number of pixels may not light, or may light all the time. Please understand that this is not a malfunction.	–

Technical information

ENGLISH

IMPORTANT!

PREPARE

USE

SETTINGS

TROUBLE?

What is T-V LINK?

T-V LINK allows the TV to share information easily with a connected T-V LINK compatible device.
By using T-V LINK :
● You can send the channel information programmed on the TV to the T-V LINK compatible device, so that both
the TV and the external device have the same channel settings. When connecting a new external device,
channel information is loaded into it, allowing channel setup to be completed very quickly. For more details,
refer to the external device's manual.
● You can easily record the TV programme you are viewing on a T-V LINK compatible device by using the
"DIRECT REC" feature. For more details, refer to the external device's manual.

What is ACI (Automatic Channel Installation)?

Some cable companies transmit a signal called ACI which contains information that allows TV channels to be
registered automatically on your TV.
When an ACI signal is received, "ACI START / ACI SKIP" appears in the "AUTO PROGRAM" screen.

Receivable broadcast systems

Depending on the country selected during "AUTO PROGRAM", the receivable broadcast system differs.

● UNITED KINGDOM: Receive only PAL-I.
● FRANCE: Can receive SECAM-L.
To receive SECAM-L in countries other than France:
1) Change the "COUNTRY" to "FRANCE" in "AUTO PROGRAM".
2) Press the "BACK" button to return to the menu and enter the channel using "INSERT" or "MANUAL".

PC Signals that can be displayed

Macintosh computers are not supported.
(Macintosh is a registered trademark of
Apple Computer, Inc.)
● If the signal doesn't appear, check that the vertical
frequency on the PC is set to 60Hz.

Resolution	640 x 480 (VGA)	1024 x 768 (XGA)
Vertical frequency (Hz)	60.0	60.0
Horizontal frequency (kHz)	31.5	42.0

Connect DVI devices

Connect a DVI device to EXT-5 (HDMI) using DVI-HDMI conversion cable. Connect analogue sound output of
the DVI device to L and R terminals in EXT-4.
● Set AUDIO in HDMI SETTING to Analogue or AUTO ➡ (P. 26)

Licence

CH/CC List

To use the INSERT function (P. 11), find the CH/CC number corresponding to the TV's Channel number from this table.
● When the COUNTRY setting is "FRANCE", select a three-digit CH/CC number.
