

Note:

- Your fax function will work properly only if it is supported by your GSM operator.
- The fax is already included in GDP-04 desktop phone (as the PC fax), please do not connect external fax with the device.
- Your fax function "Receive Fax" will not work properly, if the software "JabloSuite" runs on your PC. You have to shut down the software first and then you can use "Receive Fax" function.

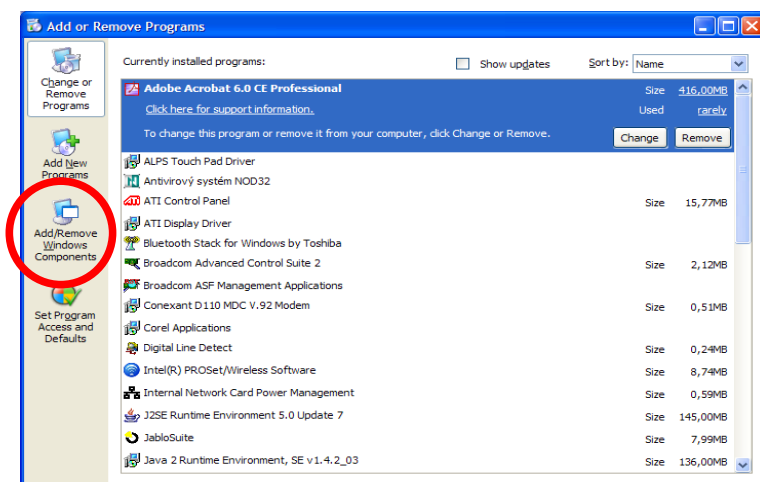

1. Install JabloCOM CD-ROM on your computer

Note:

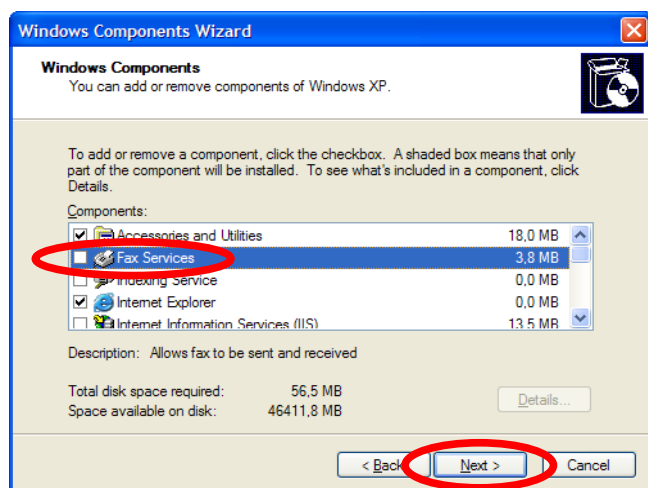

- Installation of JabloCOM software on your computer - for help please consult with the „JabloSuite Installation Guide“.

Check the settings of Fax driver:

- click Start ⇒ Settings ⇒ Control Panel ⇒ Add or Remove Programs ⇒ Add or Remove Windows Components

- wait until the dialog window "Windows Components Wizard" is displayed on your PC ⇒ signify "Fax Services" ⇒ click **Next**

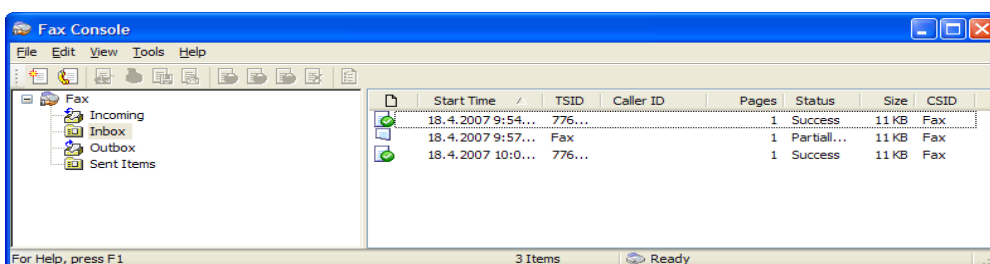

- wait until the dialog window "Windows Components wizard" is displayed on your PC ⇒ click **Finish**

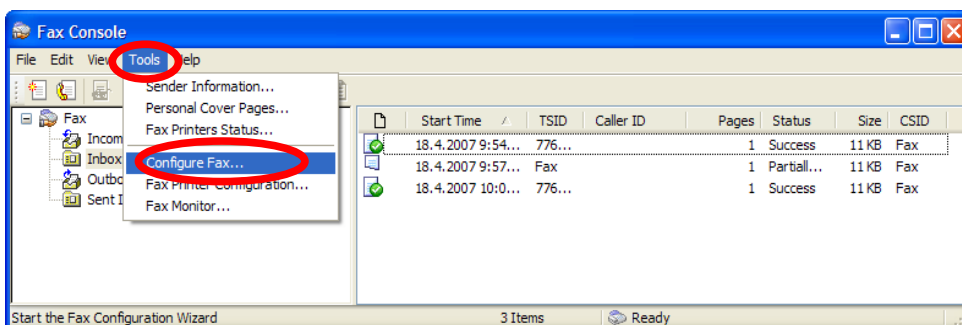

2. Fax Configuration

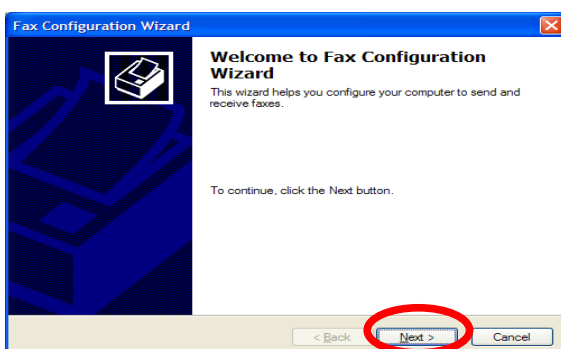

- click Start ⇒ All Programs ⇒ Accessories ⇒ Communications ⇒ Fax ⇒ Fax Console ⇒ wait until the dialog window "Fax Console" is displayed on your PC

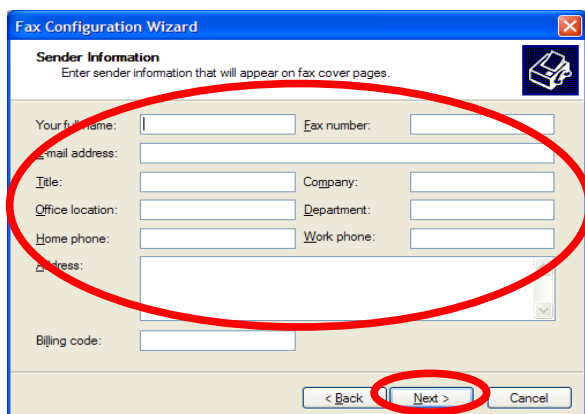

- choose Tools ⇒ Configure Fax

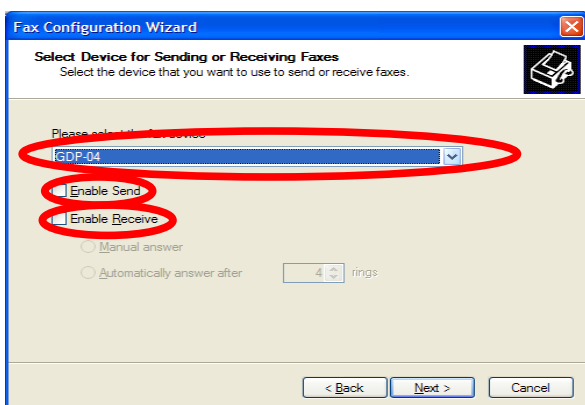

- wait until the dialog window "Fax Configuration Wizard" is displayed on your PC ⇒ Next

- complete the form with your personal / company details ⇒ click **Next**

- choose "GDP-04" and possibilities of specification:
 - A) "Enable Send" for outgoing Fax
 - B) "Enable Receive" for incoming Fax
 - C) "Enable Send" + "Enable Receive"

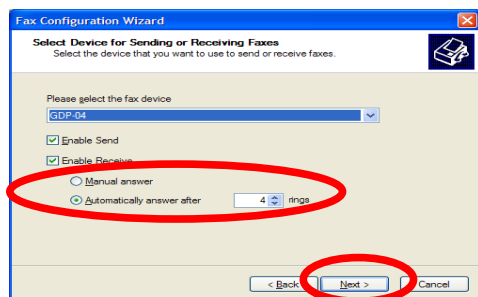

Note:

ATTENTION – when „Enable Receive” selected, you cannot use "JabloSuite" not even any other software communicating with GSM Desktop Phone GDP-04, because your USB port is occupied with fax at the moment. All GDP-04 functions are enabled.

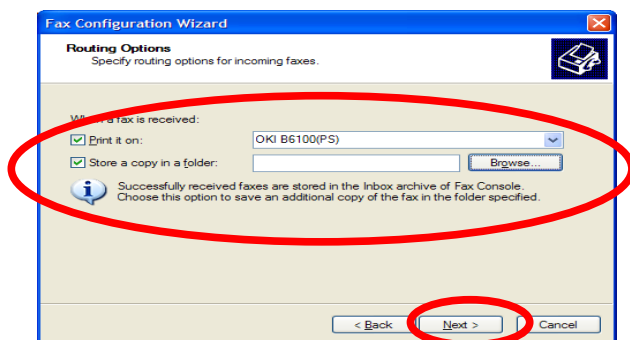

When „Enable Send" is selected, you can use "JabloSuite" software without any limitation

- if you signify "Enable Receive" you can choose how you want to receive incoming faxes manually – signify "Manual answer" or automatically – signify "Automatically answer after" ⇒ **Next**

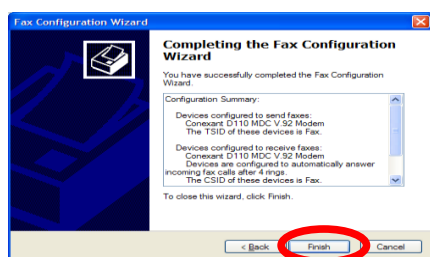

- complete the "TSID" form with your details for signification on your outgoing Fax ⇒ **Next**
- complete the "CSID" form with your details or signification on your incoming Fax ⇒ **Next**

- if you want to print your incoming Fax signify "Print it on" and choose your printer
- if you want to save a copy of your incoming fax in special folder signify "Store a copy in a folder" ⇒ for choosing folder click "Browse" ⇒ Next

- click **Finish** for completing the wizard

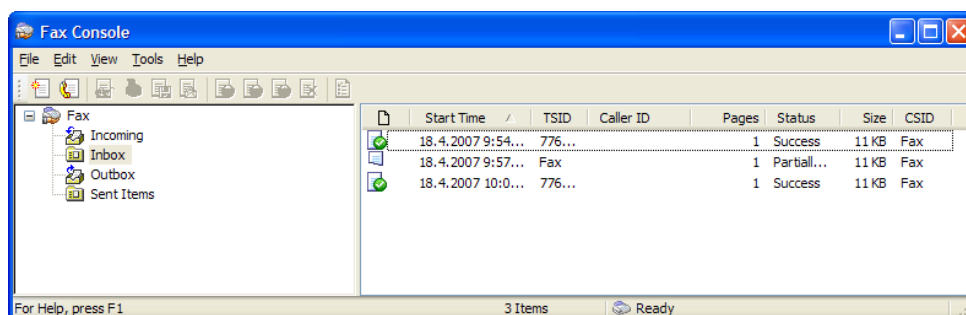

3. Fax Console Table

Fax console contains following folders in its left window:

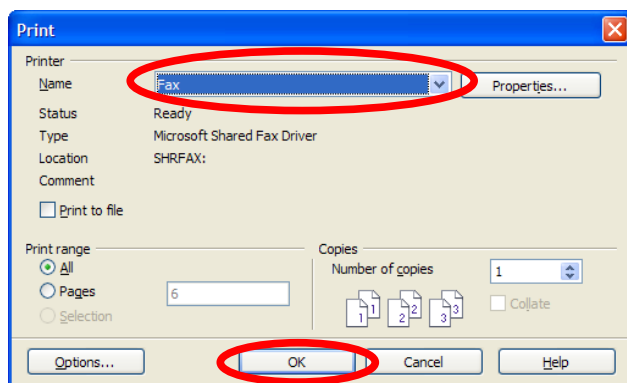

- Incoming = *incoming faxes*
- Inbox = *delivered faxes*
- Outbox = *outgoing faxes*
- Sent Items = *sent faxes*

The right window shows details for the faxes stored in the folders.

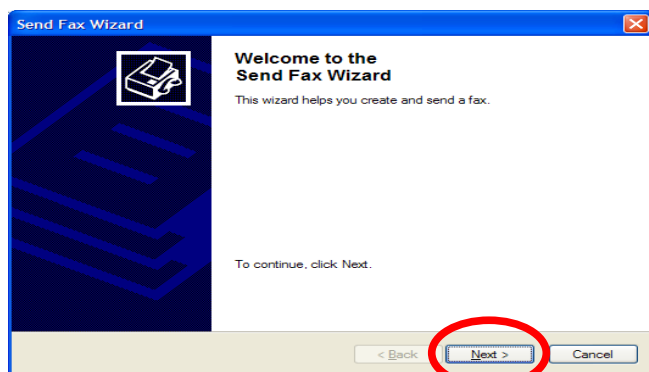

4. Fax Sending

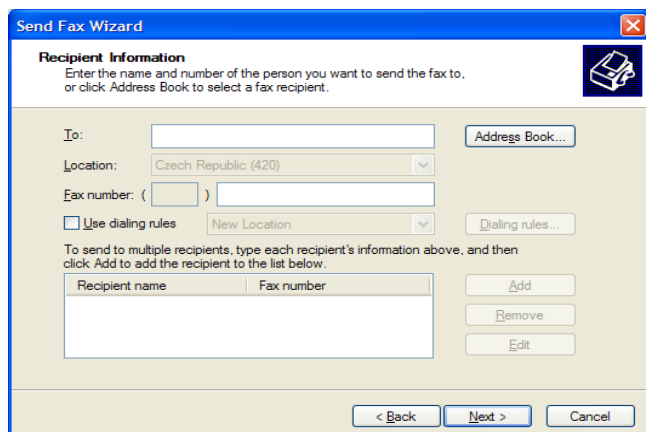

- open the document you want to send and choose File ⇒ Print
- wait until the dialog window "Print" is displayed on your PC ⇒ choose "Fax" in the "Name" field ⇒ click **OK**

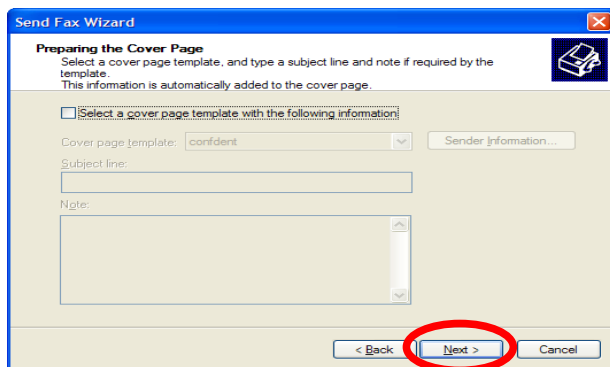

- wait until the dialog window "Send Fax Wizard" is displayed on your PC ⇒ click **Next**

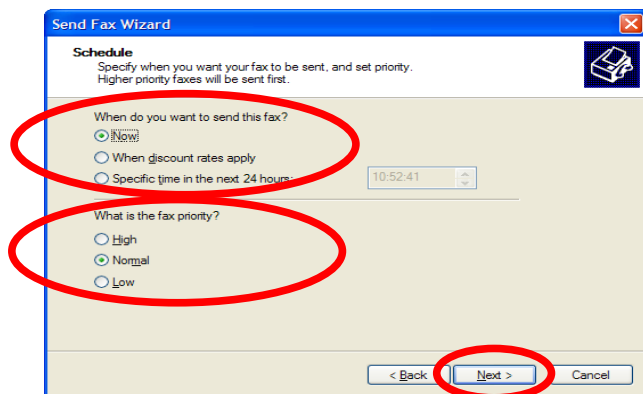

- Fill up the form - "To:" = *company or recipient name* and "Fax Number:" = *number in correct formatting* – are mandatory.
- If you use Microsoft Outlook as your default e-mail client, you can use "Address Book" for finding the Recipient in your Contacts
- click **Add** for sending the document to more recipients ⇒ click **Next**

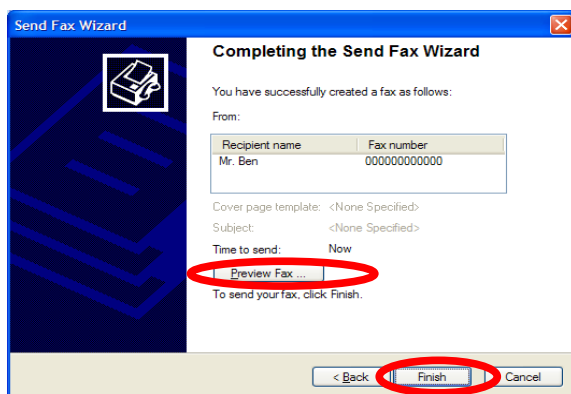

- choose your cover page or click **Next**

- select when you want to send the fax and its priority ⇒ click **Next**

- control your fax page before it will be sent ⇒ click **Preview Fax** ⇒ wait until the dialog window "Preview Wizard" is displayed on your PC ⇒ click **Finish**

Note:

- For monitoring the fax status click – Start ⇒ All Programs ⇒ Accessories ⇒ Communications ⇒ Fax ⇒ Fax Console

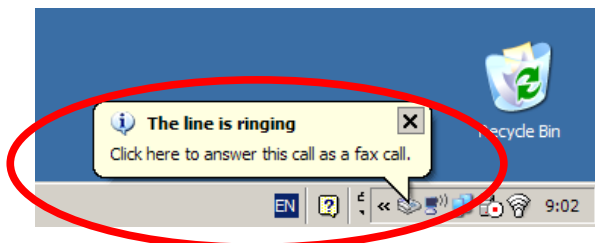

5. Fax Receiving

Note:

- Your fax receiving depends on your set-up - see section 2. Fax Configuration

Manual answer

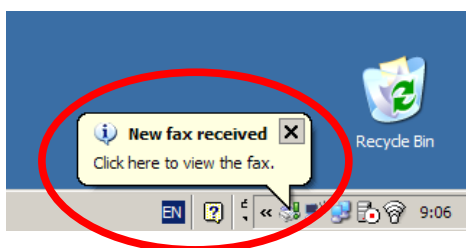

- GDP-04 is ringing ⇒ Windows indicate incoming fax ⇒ for receiving the fax click on the "Info Bubble" jumping from the taskbar

- wait until the dialog window "Fax Monitor" is displayed on your PC ⇒ click "Answer now"

- when the incoming fax is received "Info Bubble" from the "taskbar" indicating "New fax received" appears ⇒ click on it to view the fax

Automatic answer

"Automatically answer after x rings" - the fax will be received automatically

Note:

- If you want to cancel "Incoming" or "Outgoing" fax – see the window "Fax Monitor" ⇒ click **Disconnect**
