

Introduction

The STP-ENCL is a standard Keithley accessory box that has cable cutouts and board supports, and is for use with those STA and STP models that do not normally have an enclosure. It can be used with the following STP and STA models:

STA-3108-A1
STA-3108-A2
STA-3108-D1
STP-36
STP-36CJC
STP-37, -37/F
STP-50
STP-68
STP-3140

The following accessories are too large and DO NOT FIT:

CONN-3160D1
STA-1800HC
STA-300*
STA-3108-A3
STP-100, -100U
STA-3110*

*Information is available on a compatible enclosure for these boards. Keithley does not stock this enclosure.

Parts list

Qty.	Keithley part number	Description
1	22070	Plastic case with lid.
4	12021	Screws for the case.
4	12620	Circuit board supports

Installation

1. Insert the circuit board supports in the mounting holes of the STA/STP to be installed.
2. Dry-fit the STA/STP into the box and verify the proper positioning for cable access.
3. Peel the paper liner off of the adhesive foot of the board supports.
4. Press firmly into the desired location within the enclosure.
