your music

behind

*Pack a **portable CD player** from Kenwood.

Gone for long?

We've got models that **play up to 40 hours**.

On a noisy plane, bus, or train?

Our top-of-the-line features **noise-canceling headphones** that use serious electronic magic to cut the background noise way down.

Expecting a bumpy ride?

Check out our players with **20-Second Digital Anti-Skip buffer**.

Portable Mini Disc Players

like to
hear music
your way?

Mini Discs record like cassettes but **sound like CDs!**

Smaller and more rugged

Only 3 1/2" across, they stay and play in their own plastic case.

Build a whole Mini Disc system

Kenwood has **home, car, and personal Mini Disc** components

DMC-G7R Portable MD Player/Recorder

custom build your own system on our Web site

www.kenwoodusa.com

On our Web site (www.kenwoodusa.com) it's easy to find out everything you need to know about Kenwood products. In the Catalog section, you'll find a complete listing of features and specifications for everything we make. Head over to "Build a Home System" and you'll learn about what you need to create a great home theater—and you can build one on-screen that will fit the size of your own living room. Or try "Build a Car System," where you can put together a system that fits your car. Then find out where your nearest Kenwood dealer is by using the Catalog section's "Retailer Locator," which will even draw you a map that you can print out!
