

For sound get anything

For music and movies get Kenwood

**KENWOOD**

home audio 1996

**Genuine Kenwood** To explain what we do is simple: we strive to build products that deliver more. More solid technology. More style. More easy-to-use features. And more enjoyment. Because audio is all we do, we have to do it right.

**KR-V990D Audio/Video Receiver** This is the receiver Video magazine praised as "powerful and capable of kicking out very fine sound quality," and noted, "If basic performance-per-dollar is more important to you than esoteric features . . . the 990D really is a steal." For both movies and music, the 990D excels. For home theater, it includes Dolby Digital (AC-3)—the newest, most advanced surround-sound available—and produces 105 watts per channel for the left, right, and center speakers, and 70 watts for each surround speaker. For music, its 120 watts per stereo channel and discrete amplifier circuitry makes recordings come alive. With 4 audio inputs, 5 video inputs, and a universal pre-programmed remote, the 990D makes a powerful centerpiece to a complete entertainment system.

KR-V990D

**Spectrum 1050 Full-Size System** Since music reflects personal style, we think a music system should, too. The 1050's clean lines, raised speakers, and curved, smoked-glass door were designed to stand out in a world of uninteresting systems. The unique stands put the speakers at the best listening level, cutting floor reflection to deliver more direct, pure sound. The 1050's electronics include Dolby Surround Pro Logic circuitry for true home theater surround sound. The removable subwoofer can slide out from the system cabinet to be placed where the bass sounds best. There's also a 5-disc rotary CD changer, dual cassette deck, digital tuner—even video inputs and outputs so you can connect your TV and VCR and use the Spectrum 1050's remote to control your entire system. As for power, the 1050 features an impressive 100 watts each for the left, right, center and subwoofer channels—and another 20 watts for each surround speaker.

KVS Speakers

**KVS Speakers** With our new KVS line of speakers, we've made choosing the right speakers for stereo or home theater easy. These are high quality, American designed and built 3-way and 2-way speakers. Because Kenwood engineers have sonically matched their drivers, enclosures, and voicing, they will deliver accurate, transparent sound in any combination. Buy just a pair as superior music speakers, or add the matched center channel speaker and dipole surround speakers for a complete surround-sound home theater system.

CenterStage

**CenterStage Instant Home Theater** If you want the home theater experience but don't want a lot of components, Kenwood has a remarkable product. CenterStage: four amazingly small enclosures (left, center, right, and surround) with all the electronics you need, including amplifiers and a Dolby Surround Pro Logic processor. All you add is any video source you like: a stereo TV, cable TV, satellite, VCR, or laserdisc player. Setup takes only minutes because cables and easy instructions are included. Once it's set, you can forget it, because CenterStage even turns itself on and off automatically. Use the second input to add a CD player or tape deck. With matched drivers, a dipolar surround speaker configuration, and built-in subwoofers, this system's astonishing surround sound surpasses many others that are twice its size and price.

**KR-V990D Audio/Video Receiver**

- ▼ Dolby® Digital (AC-3)
- ▼ 120 Watts per Channel in Stereo
- ▼ 105 Watts per Channel (Left/Center/Right)
- ▼ 70 Watts per Channel (Surround)
- ▼ Full Digital Dolby Surround Pro Logic
- ▼ Subwoofer Output and 5 Preouts
- ▼ Universal Pre-Programmed Remote

**KR-V8080 Audio/Video Receiver**

- ▼ 100 Watts per Channel (Left/Center/Right)
- ▼ 30 Watts x 2 (Surround)
- ▼ Dolby Surround Pro Logic
- ▼ High-Current Power Supply
- ▼ 3 DSP Ambience Settings
- ▼ Preout for Subwoofer
- ▼ Universal Pre-Programmed Remote

**KR-V6080 Audio/Video Receiver**

- ▼ 100 Watts per Channel in Stereo
- ▼ 70 Watts per Channel (Left/Center/Right)
- ▼ 20 Watts x 2 (Surround)
- ▼ Dolby Surround Pro Logic
- ▼ Theater Logic Sound Enhancement
- ▼ Full-Function Remote

**KR-A5080 Stereo Receiver**

- ▼ SRS® (Sound Retrieval System®) 3-D Stereo
- ▼ 100 Watts per Channel in Stereo
- ▼ 40 Station Presets (FM/AM)
- ▼ Motorized Volume Control
- ▼ Full-Function Remote

- ▼ KR-V7080 Audio/Video Receiver

- ▼ KR-V5580 Audio/Video Receiver
- ▼ KR-A3080 Stereo Receiver

**Kenwood components have a reputation for delivering impressive performance and for being built to higher standards. Reviewers who look inside our receivers often comment on the discrete amplifiers, larger capacitors, and true extruded aluminum heat sinks. Although you probably don't want to become an audio expert (that's our job), you should know that these features mean our receivers offer truer fidelity, handle powerful music better, and resist heat build-up to last longer. We also make our components easier to use with features like One-Touch CD Recording. When a Kenwood CD player and cassette deck are linked together, you only need to push one button to start recording: the components scan the CD, set the optimum recording level, start the CD playing and begin recording.**

- DP-J1070 100-Disc CD Player**
- ▼ 100-Disc Changer with Twin Vertical-Load CD Trays
  - ▼ Dual 1-Bit D/A Converters
  - ▼ One-Touch CD Recording (CCRS) Compatible
  - ▼ Multi-Changer Interface (Linking up to 3 Changers)

- DP-R6080 Rotary CD Player**
- ▼ 5-Disc Rotary CD Player with 4-Disc Play Exchange
  - ▼ DRIVE Distortion Reduction Circuitry
  - ▼ Dual 1-Bit D/A Converters
  - ▼ Optical Digital Output
  - ▼ Full-Function Remote
  - ▼ Kenwood 100-Disc Changer Interface

- DP-R4080 Rotary CD Player**
- ▼ 5-Disc Rotary CD Player with 4-Disc Play Exchange
  - ▼ Dual 1-Bit D/A Converters
  - ▼ One-Touch CD Recording (CCRS) Compatible
  - ▼ Full-Function Remote

- KX-W6080 Dual-Well Cassette Deck**
- ▼ Dual Full-Logic Auto-Reverse Mechanisms
  - ▼ Dolby B and C Noise Reduction
  - ▼ Dolby HX Pro Headroom Extension
  - ▼ One-Touch CD Recording (CCRS)
  - ▼ Relay Recording

**also available**

- ▼ DP-J2070 100-Disc CD Player
- ▼ KX-W4080 Dual-Well Cassette Deck
- ▼ GE-7030 Graphic Equalizer
- ▼ DP-R3080 Rotary CD Player
- ▼ KX-W1060 Dual-Well Cassette Deck
- ▼ KE-2060 Graphic Equalizer

full-size

mini  
systems

What sets Kenwood Full-Size Systems, Mini Systems, and Home Theater Systems apart from others is the quality of their sound. Because we only make audio products, our engineers are experts at designing systems that deliver clear, accurate sound. With a Kenwood system, you may actually hear things in a favorite recording that you weren't able to hear before. And to make it easy to enjoy your music, we add features like One-Touch Edit on our Mini Systems: a single button that starts a CD track playing, starts the cassette deck recording, turns off both at the end of the song, and leaves 4 seconds of blank space so you're all set to record another. Finally, Kenwood systems feature enclosures and cabinets that combine acoustic performance with sleek design to produce excellence in both sound and style.

#### Spectrum 850AV Audio/Video System

- ▼ 100 Watts per Channel in Stereo
- ▼ 70 Watts per Channel (Left/Center/Right) in Dolby Surround Pro Logic and Dolby 3 Stereo Modes
- ▼ 15 Watts x 2 (Surrounds)
- ▼ 5-Disc Rotary CD Player with 4-Disc Play Exchange
- ▼ Dual Auto-Reverse Cassette Deck
- ▼ 3-Way Left and Right Front Speakers with 12" Woofer plus Center and Surround Speakers

#### Spectrum 755AV Audio/Video System

- ▼ 100 Watts per Channel in Stereo
- ▼ 70 Watts per Channel (Left, Center, Right) in Dolby Surround Pro Logic and Dolby 3 Stereo Modes
- ▼ 15 Watts x 2 (Surrounds)
- ▼ 5-Disc Rotary CD Player with 4-Disc Play Exchange
- ▼ Dual Auto-Reverse Cassette Deck
- ▼ 2-Way Left and Right Front Speakers Plus Center and Surround Speaker Package
- ▼ 8" Subwoofer with Built-In Amplifier in Ported Enclosure

#### STS-1000 CenterStage Instant Home Theater System

- ▼ 4 Speaker Surround Sound System with Built-In Subwoofers
- ▼ Built-In Power for all Speakers
- ▼ Dolby Surround Pro Logic
- ▼ Dual Inputs for Movies and Music
- ▼ Wireless Remote Control

#### UD 505 Audio/Video Mini System

- ▼ 70 Watts per Channel in Stereo
- ▼ SRS® (Sound Retrieval System®) 3-D Stereo
- ▼ Dolby Surround Pro Logic
- ▼ 5 Equalizer Listening Modes
- ▼ 3-Disc Rotary CD Player
- ▼ Dual Auto-Reverse Cassette Deck with Dolby B and Dolby HX Pro
- ▼ 3-Way Main Speakers plus Center and Surround Speaker Package

**KVS-60 2-Way Surround Speakers**

- ▼ 5" Polypropylene Woofer
- ▼ Two 3" Mid-Range Tweeters
- ▼ Dipole Design for More Realistic Surround Sound
- ▼ Wall-Mountable
- ▼ White to Blend with Room Decor

**KVS-50 2-Way Center Speaker**

- ▼ Two 5" Polypropylene Woofers
- ▼ 3/4" Dome Tweeter
- ▼ Adjustable Foot Allows Aiming Directly at Listener
- ▼ Angled for Floor Placement

**SW-300 Powered Subwoofer**

- ▼ 10" Cone Woofer
- ▼ Built-In 100-Watt RMS Amplifier
- ▼ Ported Design
- ▼ Variable Crossover Frequency and Output Level Controls
- ▼ Dual Line-Level and Speaker-Level Inputs

s p e a k e r s

At Kenwood we put the same design expertise into our speakers that we do in our components. Our new KVS series is a good example.

These speakers are designed and built in America, where our engineers have devoted countless hours to finding the best combination of drivers, adjusting the performance of the crossovers, and tuning the ported enclosures. We used a dipolar design for our KVS-60 Surround Speakers (like our acclaimed THX-certified LS-X1S speakers) which creates a spacious, involving surround sound. The KVS-50 Center Channel Speaker features an angled side and an adjustable foot so it can be precisely aimed at the listener. And all KVS speakers are sonically matched so that they will sound great in any combination. The result is natural sound that's perfect for both music and home theater, from speakers that display the clean, sophisticated look of black wood-grain finishes, slim lines and small footprints.

- ▼ LS-X1F THX Front Speakers
- ▼ LS-X1S THX Surround Speakers
- ▼ SW-X1 THX Subwoofer
- ▼ KSS-500 Home Theater Speaker System
- ▼ KSS-200 Stereo Speaker System
- ▼ CRS-300 Center and Surround Speaker Package
- ▼ SW-200 Powered Subwoofer
- ▼ RS-05 Surround Speakers

personal  
audio

Kenwood portable CD players offer special protection against skipping. They feature an oil-damped suspension that stops most bumps in the first place, and most add a digital anti-skip system that stores from 3 to 10 seconds of music in memory so the music plays right through major bumps. We also let you turn off the memory if you don't need it, which helps batteries last longer. Included with most players is a car cassette and cigarette lighter adapter for mobile listening. And with dual 1-bit D/A converters and bass boost, the sound delivered by our personal CD players lives up to the high standards set by all of Kenwood's audio products.

#### DPC-971 Portable CD Player with Car Accessories

- ▼ Switchable 5 or 10-Second Anti-Skip Buffer
- ▼ Powerful Bass Boost
- ▼ Illuminated Display
- ▼ Skip-Resistant Oil-Damped Suspension
- ▼ Rechargeable NB-130 Batteries with 60% More Capacity
- ▼ Add-On Battery Pack for Long Listening
- ▼ Car Cassette and Power Adapter
- ▼ High-Performance Over-Ear Headphones
- ▼ Full-Feature Remote

#### DPC-671 Portable CD Player with Car Accessories

- ▼ Switchable 10-Second Anti-Skip Buffer
- ▼ Powerful Bass Boost
- ▼ Skip-Resistant Oil-Damped Suspension
- ▼ Battery-Saving Auto Shut-Off
- ▼ High-Performance Over-Ear Headphones
- ▼ Car Cassette and Power Adapter
- ▼ Rechargeable NB-88 Batteries
- ▼ AC Adapter

#### DPC-472 Portable CD Player with Car Accessories

- ▼ Switchable 10-Second Anti-Skip Buffer
- ▼ Powerful Bass Boost
- ▼ Skip-Resistant Oil-Damped Suspension
- ▼ Battery-Saving Auto Shut-Off
- ▼ Car Cassette and Power Adapter
- ▼ Over-Ear Headphones
- ▼ Rechargeable NB-88 Batteries
- ▼ AC Adapter
