

KENWOOD

MARINE
AUDIO

Premium audio for the boating industry

Offer your customers the world-class sound of Kenwood

Introducing MASK,
the world's only
self-hiding,
revolving faceplate

Featured on two of our head units, MASK is revolutionary. Turn off the ignition and it automatically rolls over to reveal a blank panel. Plus, a security code locks out intruders. And because the CD or cassette opening is protected behind the panel, there's less chance of water getting inside.

A brand that makes a statement

People know Kenwood—and know it means quality. Kenwood is one of the three best-selling car audio brands year after year. Offering Kenwood tells your customers you're serious about giving them the best sound available.

Sound that's clearly better

Kenwood performance wins top reviews. Just one example: *Car Audio and Electronics Magazine* said the Kenwood unit they tested "had the flattest frequency response and lowest distortion in this group and delivered the best sound quality."

Rugged products for the marine environment

- Water-resistant polypropylene woofer cones and rubber surrounds
- ABS plastic molded baskets with rubber sealing
- Vinyl-tube-protected tinsel leads
- Splash-resistant polycarbonate plastic molded grilles
- Tested to withstand ultra violet light, salt, fog, and high temperature
- Anti-corrosive gold-plated terminals on speakers and amplifiers
- CD players tested to withstand g-forces along three planes of axis to resist skipping—even in rough seas

European and American frequencies

Customers can easily switch most Kenwood radios between American and European frequencies by entering a simple code.

The kind of service you need

Kenwood USA grew as an independent American company specializing in sales and distribution. We know how to work with any size business, meet deadlines, and keep product available.

Value for both you and your customers

You won't find another supplier who can provide such high levels of performance at such outstanding prices.

CD & CASSETTE PLAYERS

KDC-7007 CD Player/Receiver with Changer Control

- MASK Self-Hiding Revolving Faceplate
- Maximum Power: 35 watts x 4
- Full Bandwidth Power: 20 watts x 4 (less than 1% THD)
- Changer Control with Disc Naming
- 3-Color Liquid Crystal Display
- Security Code System
- Optional Remote Control available

KDC-4007 CD Player/Receiver with Changer Control

- Maximum Power: 35 watts x 4
- Full Bandwidth Power: 20 watts x 4 (less than 1% THD)
- Changer Control
- Rear RCA Preouts (1,800 mV)
- Removable Faceplate with Carrying Case
- Optional Remote Control available

KDC-S3007 *CD Player/Receiver*

- Maximum Power: 30 watts x 4
- Full Bandwidth Power: 18 watts x 4 (less than 1% THD)
- Rear RCA Preouts (1,800 mV)
- Removable Faceplate with Carrying Case

KDC-S2007 *CD Player/Receiver*

- Maximum Power: 30 watts x 4
- Full Bandwidth Power: 18 watts x 4 (less than 1% THD)
- Rear RCA Preouts (1,800 mV)

KRC-903 *Cassette Player/Receiver with Changer Control*

- MASK Self-Hiding Revolving Faceplate
- Maximum Power: 35 watts x 4
- Full Bandwidth Power: 20 watts x 4 (less than 1% THD)
- Changer Control with Disc Naming
- RDS (Radio Data System)
- Full-Function 10-Key Remote
- Security Code System

KRC-403 *Cassette Player/Receiver with CD Changer Control*

- Maximum Power: 35 watts x 4
- Full Bandwidth Power: 20 Watts x 4 (less than 1% THD)
- Front and Rear RCA Preouts (1,800mV)
- Changer Control with Disc Naming
- Removable Faceplate with Carrying Case
- Full Logic Transport with Auto-Reverse
- Optional Remote Control available

KRC-S300 *Cassette Player/Receiver with Changer Control*

- Maximum Power: 30 watts x 4
- Full Bandwidth Power: 18 watts x 4 (less than 1% THD)
- Changer Control
- Rear RCA Preouts (1,800 mV)
- Removable Faceplate with Carrying Case

KRC-S100 *Cassette Player/Receiver*

- Maximum Power: 20 watts x 4
- Full Bandwidth Power: 13 watts x 4 (less than 1% THD)
- Rear RCA Preouts (1,800 mV)

KRC-1007 *Cassette Player/Receiver*

- Maximum Power: 8 watts x 2 or 6 watts x 4
- Full Bandwidth Power: 5 watts x 2 (less than 1% THD)
- Rear RCA Preouts (1,000 mV)
- Auto-Reverse Transport
- Clock

KCA-R6M *10-Key Remote*

- Optional Remote for KDC-7007, KDC-4007, KRC-403
- Water-resistant unit mounts on console
- Hard-wired to allow topside control of components in cabin

AMPLIFIERS

KAC-746 Multi-Channel Power Amplifier

- 4, 3, or 2 Channels of Amplification
- 35 watts x 4
- Power MOSFET Switching Power Supply
- Variable High-Pass/Low-Pass Electronic Crossover for both A/B Channels
- Tri-Mode Operation (Bridgeable)
- 2-ohm Stable

KAC 526 2-Channel Power Amplifier

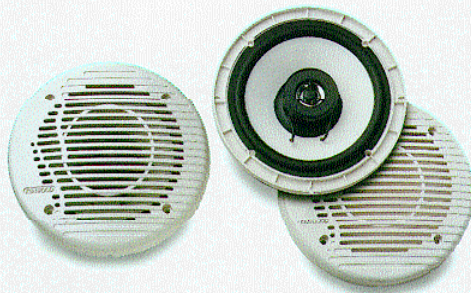

- 35 watts x 2
- Power MOSFET Switching Power Supply
- Stereo or Mono Operation
- Tri-Mode Operation (Bridgeable)
- 2-ohm Stable

SPEAKERS

KFC-HQ691 6" x 9" 3-Way Speaker

- Water Resistant Polypropylene Woofer Cone
- 2 3/4" Cone Midrange
- 1" Polyamide Film-Balanced Dome Tweeter
- 200 Watts Power Handling
- Impedance: 4 Ohm Rated

KFC-165MR 6-1/2" 2-Way Speaker

- Water Resistant Polypropylene Woofer Cone
- PET Film Balanced Dome Tweeter
- Molded ABS Plastic Frame With Rubber Sealing
- Molded Polycarbonate Plastic Grille
- Corrosion-Resistant Gold-Plated Terminals
- Anti-Corrosive Tinsel Leads, Protected With Vinyl Tubing
- 100 Watts Power Handling
- Impedance: 4 Ohm Rated
- Tested For UV Light, Salt, Fog, Temperature (120° C.)

KFC-163MR 6-1/2" Dual-Cone Speaker

- Waterproof and Anti-Corrosive Construction
- ABS Plastic Molded Grill
- Gold-Plated Terminals
- Water-Resistant Cone
- Anti-Corrosive Tinsel Lead
- Available in Black or White
- 80 Watts Power Handling
- Impedance: 4 Ohm Rated

XD-500 Mini System

- Shelf-size perfect for cabins
- 50 Watts per Channel Power Amplifier
- 3-Disc Rotary CD Player
- Dual Auto-Reverse Cassette Deck with Dolby B
- 3-Way Speaker System
- 3 Pre-Set Equalizer Listening Modes (Pop, Rock, Classical)

For larger vessels, Kenwood also manufactures a complete line of home audio products, including mini-systems, full-size systems, a space-saving home theater system, home theater receivers, cassette decks, CD players and speakers.
