

# SUPER Small and Lightweight Switching Power Supply Kenwood KPS-15

## Kenwood KPS-15

Kenwood is pleased to announce a new switching power supply, model KPS-15. Rated at 23 amps, a size similar to the TS-50S, and weighing 3.3 pounds, the KPS-15 is ideal for use in the home or on the road. The primary input voltage is easily changed from 115V to 230V by an internal switch - great for trips abroad.

The KPS-15 is the result of Kenwood's demanding requirements for high reliability, low noise, and the desire to have a companion supply for the TS-50S. Look at these specifications.

DC Switching Supply, 117/230 (internally selectable)	<h2 style="text-align: center;">Available At Your Kenwood Amateur Radio Dealer!</h2>
<b>Output voltage:</b> 13.8V DC	
<b>Size:</b> 7.2" wide x 2.2" high x 8.7" deep	
<b>Weight:</b> Approximately 1.5kg / 3.3 pounds	
<b>Rated Output Current:</b> 23 Amps. Max Continuous, 25 Peak	
Over Current & Over Voltage Protection	
Output Ripple & Noise Less Than 15 MV RMS	
<b>Cooling:</b> Temperature Controlled Forced Air	
<b>Chassis:</b> Aluminum, Black Anodized
