KERN®

BALANCES & TEST SERVICE

for laboratory, industry and food

fast

- 24 hours delivery service – ordered today, on its way tomorrow
- Sales & service hotline available from 8:00 am to 6:00 pm

reliable

- 3 years warranty for balances over € 400,-
- Precision in weighing technology for more than 170 years

competent

- DAkkS accreditation DIN EN ISO/IEC 17025
- Certified QM system DIN EN ISO 9001:2008
- Authorisation for initial verification by the manufacturer 2009/23/EC
- Medical certifications DIN EN ISO 13485 and 93/42/EEC

versatile

- One-stop shopping: from pocket balances through to floor scales – everything from one supplier
- Find the product you want at lightning speed with the “Balance Quick-Finder” at www.kern-sohn.com

 **Order hotline**
+49 [0] 7433 9933-0

 **Online-Shop**
www.kern-sohn.com

 **Our team of consultants will assist you**
from Monday to Friday
from 8:00 am to 6:00 pm

 **Service hotline**
+49 [0] 7433 9933-199

 **E-mail order**
info@kern-sohn.com

 **www.kern-sohn.com**
For product specification sheets, user manuals, useful information, technical glossary pictures and much more as well as a smart search engine for test weights and balances

 **Calibration hotline**

2015

BALANCES & TEST SERVICE – for laboratory, industry and food

2015

How do I quickly find the product I am looking for?

The tried and tested quick search system – “Quick-Finder” ahead of each product group allows you to base the search for a certain target group on weighing data you need such as readout, weighing range and main features for each model.

And it's as simple as that – find the product you want in 2 steps:

1. Go to the product group index on page 3
2. Pick the appropriate product group and find the product you want using the Quick-Finder.

... or use the model name and find the product quickly and efficiently using the A-Z model list:

We also have lots of new models in our range for 2015.
Innovative products in the usual KERN quality:

Bench scale with IP rating WTB-M

Ideal in the food industry, thanks to its IP65 rating and special checkweighing display, now with EC type approval [M]

from € 235,-
Further details → page 70

Bench scale with IP rating FXN

Robust, space-saving bench scale, protected through stainless steel and IP68

only € 320,-
Further details → page 74

Platform scale SXS

Stainless steel platform scale with protection against dust and water splashes IP68 and EC type approval [M]

from € 630,-
Further details → page 76

ATEX scales IEX / OEX

Robust platform scale with ATEX approval for use in potentially explosive atmospheres

from € 2150,-
Further details → page 78 / 79

Bottle stocktaking scale SMT

Innovative stocktaking scale with touchscreen to efficiently measure the residual amount of a beverage in a bottle and transfer the information to the PC

only € 950,-
Further details → page 89

Stocktaking counting system FKC

Innovative touchscreen stocktaking scale to measure large numbers of articles and transfer these to the PC – now also as a high-resolution counting system!

from € 1260,-
Further details → page 99

Floor scale BXS

IP67 floor scale with IP68 stainless steel display device and EC type approval [M], detachable weighing plate

from € 1350,-
Further details → page 128

Floor scale BAN

Stainless steel floor scale with dust and spray protection (IP68), extra large platform and EC type approval [M]

from € 2790,-
Further details → page 128

Floor scale BBN

State-of-the-art premium floor scale with touchscreen, made of stainless steel with the complete range of functions for demanding processes

from € 4740,-
Further details → page 128

Axle load scale VHP

Modular axle load scale for the mobile monitoring of vehicles up to 15 tons

only € 7150,-
Further details → page 130/131

Crane scales HFA / HFC

Compact crane scales (tensile force measurement device) for use in harsh environmental conditions, available with integrated display or a hand-held terminal

from € 590,-
Further details → page 151/152

Crane scale HTS

Robust industrial crane scale up to 10 tons and EC type approval [M]

from € 1070,-
Further details → page 154

Touchscreen models KERN AET · PET · ILT · KEN · KET – State-of-the-art premium touchscreen balance series with the complete range of functions for demanding processes

Come and enjoy the many benefits of the innovative touchscreen models

- Space-saving for high-tech laboratories,
- With XL weighing plate for large containers,
- With removable display so that the balance can be used under exhaust hoods or in glove bags
- As a separate display device allowing you to build your own weighing systems

... you do always find the right model with KERN.

KERN – Weighing can be this simple.

Features of the new touchscreen models KERN AET · PET · ILT · KEN · KET

2 infrared sensors

to initiate functions such as TARE, zeroing, for carrying out, starting or aborting adjustment, calling up database or menu and much more, without having to touch the balance – just give it a wave!

Innovative touchscreen

Large backlit and touch-sensitive LCD screen with digit height 17 mm, screen size 5.7" (approx. 145 mm), WxH 115x86 mm. Dimensions of display device WxDxH 208x71x150 mm.

Intuitive use, increases efficiency and saves costs

Easy capture of article data at the PC, call up of items on the balance using the connected barcode or RFID scanner, output of weighing data using the large or second display or control outputs, data transfer to the PC, printer or alibi memory.

Electronic level indicator

permanently checking the position of the balance, sounding an alarm when the device is out of balance and giving visual instructions on how to correct this (not ILT-GM)

3 rapid assignment keys

for frequently recurring applications, functions, settings or memory contents

Individual print formats

up to 16 printouts to be edited easily at the PC

Convenient recipe-weighing

complete recipes with all recipe ingredients and associated nominal values, names, tolerances, tare weights etc. can be stored. With an excess amount of one recipe ingredient the practical back calculation function automatically calculates the new nominal weights of the other ingredients. Recipes and their ingredients can be multiplied at will at the press of a button, which is ideal for the production of larger containers, bulk packs etc. (Multiplier function)

High level of connectivity

- 1 x Ethernet
- 2 x RS-232
- 2 x USB
e.g. for data exchange or connecting barcode or RFID scanners
- Digital I / O (4 in / 4 out) e.g. to control machines and plants
- 1 x additional display

Individual user settings can be stored

- User name and number
- Password
- Authorisations
- Menu language (DE, GB, FR, IT, ES, PL)
- User profiles
- Additional guest mode for users without user log-in

Statistical function

for statistical analysis of series of measurements. The graphic display (only AET, PET) of measurements can be used by the operator to check and evaluate their results

High level of process reliability

you can define limit values for selected parameters, such as, for example, temperature, humidity (only models where [d] = 0,01 mg), levelling, minimum load, adjustment etc. When the value falls outside these limits, a warning message will be issued. Limit values and warning messages can be archived with the weighing result

Alibi memory

Paperless archiving of weighing results, see also page 11

Enormous database (1 GB)

with optional software KERN PET-A01 this can be filled in easily at the PC. Particularly beneficial when counting a large number of individual items, as part of a stocktaking, for checkweighing, recording recipes etc.

Data exchange via USB

to download software updates, export recipes or weighing results, export / import databases, balance settings, data exchange between individual balances and much more

Pocket balances

TEE	9
Designer pocket balance	
TCB	9
This is where the fun starts with pocket size weighing	
CM	9
Pocket balance with integrated calculator	
CM-C	9
Compact pocket balance with carat display – ideal for jewellers	
TAB	9
High-precision pocket carat balance for jewellers and travelling salesmen	

Pocket size precision

Pocket balances are the ideal helpers whenever mobility and high precision are required. Since they have fewer keys, operation is simple and fast. Different weighing units stored in the pocket balance, such as g, oz, ct, gn, etc., make them universally usable. An integrated calculator lets you use the measured weight immediately in calculations, to e.g. determine a price, quantity, average value and much more. Compact in size and well protected with a flap or protective cover, which can be used as a convenient taring container, the pocket balance is always a useful tool for mobile weighing.

- In production, to control of production weights or during the picking of small parts
- In quality control for the quick testing of small parts like plastic parts from injection moulding machines, milled parts, screws, etc.
- For mobile weighing, on-site sampling, and fast analysis wherever there's no power outlet
- In hobbies and sports, e.g. when filling black powder, weighing parts from modelling kits etc.
- In commerce, for the fast determination of the weights of coins, jewellery, precious stones, etc.

- In veterinary sector for the weighing of small animals, the mixing of feed, etc.
- In the food sector for the preparation of spice or tea mixes, for the weighing of food in line with a diet sheet.

Of course, all KERN pocket balances can also be calibrated and delivered with a DAkkS calibration certificate (optional). This ensures the high level of accuracy of your balance.

Compact precision balance with large weighing range, as well as EC type approval [M] and automatic internal adjustment		High-resolution model with large weighing range and large weighing plate for special laboratory applications	
EWJ	27		
High-quality precision balance with automatic internal adjustment, also with EC type approval [M]			

Single-cell cutting edge technology Precision balances

To meet stricter requirements for precision, speed, and → **reproducibility** of weight values, monolithic load cells are ever more often becoming the standard. These are measuring sensors for the determination of weight that are made of a compact piece of aluminium. These systems distinguish themselves from conventional load cells in terms of both quality and performance:

- Higher measuring speed
- Better measuring precision
- Stable temperature behaviour
- Improved mechanical sturdiness
- Higher corner load reliability

KERN precision and analytical balances equipped with this measuring system are designated as using "Single Cell Technology" (→ **SC TECH**)

→ See the glossary on page 191 – 192

Interesting facts about density determination

One of the main areas of application for laboratory balances is determining densities, i.e. determining the specific weight of liquids and solids. To do this you will need a highly accurate precision balance and a density set. It is particularly convenient if the balance can calculate and display the density right away. It has become apparent that by means of weighting when in the process of determining the density of liquids and solids according to the buoyancy method particularly accurate results can be obtained (Archimedes' principle).

Density determination of liquids:

By means of measuring the buoyancy with a glass plummet immersed in the liquid to be measured

Density determination of solid matter:

The density is the ratio of weight [g] : Volume [cm³]. The weight is derived by weighing the sample in air. The volume is determined from the buoyancy $A = \text{weight loss in [g]}$ of a sample, which is submerged in a liquid. The density D [g/cm³] of this liquid must be known. The volume [cm³] is a result of $A : D$.

Applications:

- Pre-packaged goods control, whenever a product is sold according to its volume [cm³]. This volume is calculated with weight [g] : density [g/cm³].
- Materials analysis
- Density of porous materials

You can find examples of balances for density determination on pages 16 (EMB-V), 23 (PLE-N), 29 (PLJ-C / PLJ-G), 30 / 31 (PKT), 32 / 33 (PLS / PLJ), 37 (PLT), 38 / 39 (PBS / PBJ), 45 (ABS-N / ABJ-NM), 112 (DS), 114 / 115 (IKT)

Interesting facts about alibi memory

In commercial trade, measuring results must be determined by verified measuring devices and need to be correct. It is standard practise in almost every company today data which is recorded by measuring devices to then further process this data by peripherals, mostly being commercially available PCs.

In accordance with verification regulations, peripheral devices are treated the same as measuring devices. The Weights and Measures Act and Verification Ordinance take this situation into account and stipulate certain requirements for PCs and programmes used in commercial trade.

Where a balance is to be used for purposes for which verification is mandatory, a connected PC may only be used not verified to further process these measuring results, e.g. to produce business documents, if

- the balance or a verified peripheral device which belongs to the balance is going to record or store the measuring results in an unalterable and permanent form,
- these values are accessible to both the parties concerned with the measurement.

This exception from obligatory verification does not apply to balances which are used for direct sale to the public. For these applications, displays and printers must be verified, even if a verified data memory is available.

The above-mentioned peripheral device for recording or storing measuring results refers to verified alibi printers or verified data memories (alibi memory). If these are not connected, then for the whole system (consisting of a balance, PC and program) a type approval is required issued by the PTB (German Weights and Measures authority).

You will find balances with alibi memories on pages 29 (PLJ-C / PLJ-G), 40 / 41 (PET), 47 (AES-C / AEJ-CM), 50 / 51 (AET), 113 (ILS-C / ILJ-C), 116 / 117 (ILT)

Entry level laboratory balance with tremendous weighing performance

Features

- **Simple and convenient 2-key operation**, making them ideal for use in schools and universities
- **Tare function** facilitates formulation work
- **Particularly flat design**
- **Secure and non-slip positioning** with rubber feet
- **Ready for use:** Batteries included. AUTO-OFF function to preserve the batteries, can be switched off
- **1 Ring-shaped draught shield** standard, only for models with weighing plate size **A**, weighing space ØxH 96x35 mm

- **Hook for underfloor weighing** standard

Technical data

- Large LCD display, digit height 15 mm
- Weighing plate dimensions Ø
 - A** 82 mm
 - B** 105 mm
 - C** 150 mm, see enlarged picture
- Weighing plate material
 - A** Plastic, with conductive lacquer
 - B, C** Plastic
- Net weight approx. 0,5 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Ring-shaped draught shield** standard, only for models with weighing plate size **A**, weighing space ØxH 90x40 mm, can be retrofitted, KERN EMB-A01, **€ 20,-**
- **2 Stainless steel weighing plate**, only for models with weighing plate size **B**, KERN EMB-A02, **€ 26,-**
- **3 Stack frame** for space-saving storage of precision balances from the KERN EMB range, scope of delivery 5 pieces, for models with housing dimensions WxDxH
 - 170x240x39 mm: KERN EMB-A07, **€ 60,-**
 - 170x240x53 mm: KERN EMB-A09, **€ 60,-**

Entry level laboratory balance with integrated density determination function

Features

- **Density determination made easy!** Thanks to the self-explanatory, graphic-assisted control panel, the density of solids and liquids can be determined in seconds, making them ideal for use in schools and universities
Interesting facts about density determination see page 11
- Visualised process means avoiding operating errors
 - No learning time = reduces costs
 - Ideal for untrained users
- The 4 steps are carried out from left to right:
- **1** Tare the balance by pressing the [TARE] key
- **2** Select density determination mode (solids/liquids)
- **3** Weighing of samples/plummet in air
- **4** Weighing of samples/plummet in liquid. The density will be shown on the display right away
- **Particularly flat design**
- **Hook for underfloor weighing** standard

- **Ready for use:** battery 9 V Block standard. AUTO-OFF function to preserve the batteries, can be switched off
- Balance and appropriate set for density determination should be ordered at the same time, see accessories

Technical data

- Large LCD display, digit height 15 mm
- Weighing plate dimensions, plastic, Ø
 - A** 82 mm, with conductive lacquer, see enlarged picture. The illustration shows the EMB 200-3V model with optional density set YDB-01
 - B** 150 mm
- Dimensions housing WxDxH 170x240x53 mm
- Net weight approx. 0,764 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- for KERN EMB 200-3V:**
- **5** **Set for density determination** of liquids and solids with density $\leq/\geq 1$. Scope of delivery: Weighing plate, beaker, sample holder, plummet, KERN YDB-01, **€ 215,-**
 - **Calibration certificate for the plummet** (20 g), KERN 962-335V, **€ 141,-**
- for KERN EMB 2000-2V:**
- **6** **Set for density determination** of liquids and solids with density $\leq/\geq 1$. Scope of supply: Weighing plate, beaker, sample holder, plummet, KERN YDB-02, **€ 330,-**
 - **Calibration certificate for the plummet** (200 g), KERN 962-338V, **€ 141,-**

Entry level model in the low-cost range with large weighing plate

Features

- Especially suitable for use in schools and universities, for example for biology, chemistry, physics
- **Large, shock proof plastic weighing plate**
- **Particularly flat design**
- **Ergonomically optimised key pad** with large keys and a high-contrast LCD display
- **Secure and non-slip positioning** with rubber feet
- **Adjusting program CAL**, external test weights at an additional price, see page 165 ff.
- **Draught shield** standard, only for models with weighing plate size **A**, weighing space WxDxH 145x145x65 mm

Technical data

- LCD display, digit height 15 mm
- Weighing plate dimensions
 - A** Ø 105 mm
 - B** WxD 160x160 mm, see enlarged picture
- Weighing plate material
 - A** Plastic, with conductive lacquer
 - B** Plastic
- Dimensions housing WxDxH 200x280x63 mm
- Optional battery operation, battery 9 V Block not standard, operating time up to 40 h, AUTO-OFF function to preserve the battery
- Mains adapter external, standard
- Net weight approx. 1,4 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **2 Stainless steel weighing plate**, only for models with weighing plate size **B**, KERN EMS-A01, **€ 30,-**
- **Suitable test weights**, also with calibration certificate, see the internet

The standard in the laboratory

GLP/ISO record keeping of weighing data, balance adjustment etc. with date, time and identification no. in combination with an appropriate KERN printer. Ideal for monitoring and documenting your processes in accordance with your quality management system

Piece counting

Thanks to its high level of accuracy, it is ideal for counting very small parts

With the **recipe function** you can weigh the different ingredients of a mixture. For control purposes you can also call up the total weight of all the ingredients

Precision balance KERN PCB

02

Features

- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Freely programmable weighing unit**, e.g. display direct in special units such as length of thread g/m, paper weight g/m², or similar
- **Percentage determination**: makes it possible to store a given weight value (100 %) and to determine deviations from this target value
- **Ring-shaped draught shield** standard, only for models with weighing plate size **A**, weighing space ØxH 90x40 mm

Technical data

- Backlit LCD display, digit height 15 mm
- Weighing plate dimensions
 - A** Ø 81 mm
 - B** Ø 105 mm
 - C** WxD 130x130 mm
 - D** WxD 150x170 mm, see enlarged picture
- Weighing plate material
 - A** Plastic, with conductive lacquer
 - B, C, D** Stainless steel

- Optional battery operation, battery 9 V Block not standard. AUTO-OFF function to preserve the battery, can be switched off
- Overall dimensions (without draught shield) WxDxH 163x245x79 mm
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, **€ 25,-** for models with weighing plate size
 - A** KERN PCB-A02
 - B** KERN PCB-A03
 - C** KERN PCB-A04
 - D** KERN PCB-A05
- **Hook for underfloor weighing** of hanging loads, standard, can be retrofitted, KERN 440-A01, **€ 25,-**
- **Rechargeable battery pack internal**, can be retrofitted, operating time up to 48 h without backlight, charging time approx. 8 h. AUTO-OFF function to preserve the battery, can be switched off, KERN PCB-A01, **€ 65,-**
- **Software Balance Connection**, for details see page 159, KERN SCD-4.0, **€ 150,-**

- **Individual header data**: the free software KERN SHM-01 can be used to print 4 header lines on the printout for printers YKN-01, 911-013 and YKB-01N
- **RS-232/Ethernet adapter** to connect balances with an RS-232 interface to a network via Ethernet, for details see page 158, KERN YKI-01, **€ 390,-**
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** see page 157 ff.

High-resolution precision balance with removable display for maximum flexibility

Features

- **Laboratory balance with separate platform:** Ideal when working in glove bag or fume cupboard. Particularly practical for weighing toxic, volatile or contaminated substances
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Freely programmable weighing unit**, e.g. display direct in special units such as length of thread g/m, paper weight g/m², or similar
- **Level indicator and levelling feet** to level the balance precisely, fitted as standard, to give the most accurate weighing results
- **Draught shield** standard for models with weighing plate size **A**, weighing space WxDxH 146x146x70 mm

Technical data

- Backlit LCD display, digit height 21 mm
- Weighing plate dimensions
 - A** Ø 105 mm
 - B** WxD 160x160 mm, see enlarged picture
- Weighing plate material
 - A** Plastic, with conductive lacquer
 - B** Stainless steel
- Optional battery operation, 9 V Block, not included, operating time up to 12 h. AUTO-OFF function to preserve the battery
- Overall dimensions WxDxH 165x245x142 mm
- Cable length of display device approx. 0,88 m
- Net weight approx. 1,1 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over the display device, KERN PCD-A05, **€ 25,-**
- **1 Stand** to elevate display device, height of stand approx. 250 mm, KERN PCD-A03, **€ 45,-**
- **2 Foot switch**, ideal when application requires two free hands. TARE or PRINT function can be selected. Scope of delivery: foot switch, junction box, connection cable. For the PRINT function you will need the RS-232 interface cable, see page 158, KERN YKF-01, **€ 80,-**
- **Rechargeable battery pack internal**, operating time up to 48 h, charging time approx. 8 h. AUTO-OFF function to preserve the battery, can be switched off, KERN PCD-A04, **€ 50,-**
- **RS-232/Ethernet adapter** to connect balances with an RS-232 interface to a network via Ethernet, for details see page 158, KERN YKI-01, **€ 390,-**
- **Suitable printers** see page 157 ff.

Quick-displaying precision balance with user-friendly operation modes and EC type approval

Features

- **Easy use:** All primary functions have their own key on the keypad
- **Compact size,** practical for small spaces
- **Capacity display:** A bar lights up to show how much of the weighing range is still available
- **Level indicator and levelling feet** to level the balance precisely, fitted as standard, to give the most accurate weighing results
- **Draught shield** standard for models with weighing plate size **A** and **B**. Removable metal cover with pipette opening. Weighing space WxDxH 158x143x64 mm
- **Separate second display** standard for models PFB 600-1M and PFB 6000-0M.

Suitable for direct sales to the public. The verification value is the same as the readout. Large backlit LCD display, digit height 16 mm. Interface cable to the balance, cable length approx. 1 m, standard. Dimensions WxDxH 250x180x105 mm

Technical data

- Backlit LCD display, digit height 15 mm
- Weighing plate dimensions (stainless steel)
A Ø 80 mm, **B** Ø 120 mm
C WxD 155x145 mm, see enlarged picture
- Overall dimensions (without draught shield)
WxDxH 200x190x87 mm
- Net weight approx. 2 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Separate second display**, ideal for training and demonstration purposes in laboratories or industry, not permitted for direct sales to the public, KERN PFB-A08, **€ 95,-**
- **Bluetooth data interface** for wireless data transfer to PC, must be ordered at purchase, KERN PFB-A10, **€ 90,-**
- **Suitable printers** see page 157 ff.

Precision balance KERN PLE-N

High-resolution precision balance with large range of functions

Features

- **Compact size**, practical for small spaces
- **Piece counting**: Reference quantities selectable. Display can be switched from piece to weight
- **Weighing sum memory** sums up individual weighing results
- **Glass draught shield**, standard for models with weighing plate size **A**. Removable metal cover with pipette opening. Weighing space ØxH 125x70 mm
- **Underfloor weighing**: load support with hook on the underside of the balance by means of a built-in loop (only KERN PLE 4200-2N), hook not included

Technical data

- Backlit LCD display, digit height 15 mm
- Weighing plate dimensions, stainless steel
A Ø 80 mm
B Ø 135 mm, see enlarged picture
- Dimensions housing WxDxH 185x250x80 mm
- Net weight approx. 2,5 kg
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Rechargeable battery pack internal**, operating time up to 30 h without backlight, charging time approx. 10 h, KERN PLE-A06, **€ 35,-**
- **Set for density determination** of liquids and solids with density $\leq/\geq 1$, similar to illustration. For additional information see page 11.
For all models with readout [d] = 0,001 g, KERN ALT-A02, **€ 350,-**
For all models with readout [d] = 0,01 g, KERN PLT-A01, **€ 350,-**
- **RS-232/Ethernet adapter** to connect balances with an RS-232 interface to a network via Ethernet, for details see page 158, KERN YKI-01, **€ 390,-**
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** see page 157 ff.

Large backlit graphic display

All relevant information for the mode you are using is displayed clearly, at a glance and assigned to the keys on the keyboard overlay

Laboratory specialist with clear easy graphic for easy user guidance

Weighing with tolerance range

(checkweighing): Input of an upper/lower limit value. A visual signal assists with portioning, dispensing or grading

Convenient recipe weighing

you can save up to 5 complete recipes in the memory with up to 7 components of each. The individual components of a mixture can be printed out clearly with their name, weight and grand total

GLP/ISO record keeping of weighing data, balance adjustment, etc. with date, time and identification no... Ideal for monitoring and documenting your processes in accordance with your quality management system

Precision balance KERN PKS

Features

- Based on the KERN bestseller KB, many typical laboratory functions have been expanded to include a clear graphic screen, which shows the relevant information and makes it significantly easier to operate and read the weights off the display
- Navigation pad** for super quick navigating through the menus
- 40 memories for each operation mode**
- Extensive print formatting - up to 20 lines with fixed and variable texts
- High mobility:** thanks to rechargeable battery operation (optional), compact, lightweight construction, it is suitable for the use in several locations (laboratory, production, quality control, commissioning, ...)
- Ring-shaped draught shield** standard for models with weighing plate size **A**, weighing space ØxH 90x53 mm
- Hook for underfloor weighing** of hanging loads standard

Technical data

- Large backlit LCD graphic display, screen diagonal 3,2" (approx. 81 mm)
- Weighing plate dimensions
 - A** Ø 81 mm
 - B** WxD 130x130 mm
 - C** WxD 150x170 mm, see larger picture
- Weighing plate material
 - A** Plastic, with conductive lacquer
 - B**, **C** Stainless steel
- Dimensions housing WxDxH 167x250x85 mm
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- Protective working cover** over keyboard and housing, standard, can be retrofitted, **€ 25,-** for models with weighing plate size
 - A** KERN PCB-A02
 - B** KERN PCB-A04
 - C** KERN PCB-A05
- Rechargeable battery pack external**
Operating time up to 15 hours with backlight, charging time approx. 10 h, KERN KS-A01, **€ 180,-**
- Rechargeable battery pack internal**,
Operating time up to 10 hours with backlight, charging time approx. 10 h, KERN KB-A01N, **€ 50,-**
- RS-232/Ethernet adapter** to connect balances with an RS-232 interface to a network, via Ethernet, for details see page 158, KERN YKI-01, **€ 390,-**
- Suitable test weights**, also with calibration certificate, see the internet
- Suitable printers** and an extensive accessories range, see page 157 ff.

Modes

- ① Weighing
- ② Counting
- ③ Dispensing
- ④ Recipe weighing
- ⑤ Checkweighing
- ⑥ Totalizing with daily total
- ⑦ Percentage determination
- ⑧ Animal weighing
- ⑨ Surface weight

Functions

- Capacity display, with ① - ②, ⑤ - ⑦, ⑨
- Dispensing assistance (-/+), with ③, ④
- Net/Gross display, permanently with ①, ③ - ⑤, ⑧ - ⑨
- Variable reference quantity, with ②
- Automatic reference optimization, with ②
- Tare deduction numerical or from the memory unit, with ① - ⑦
- Entering of item or batch description, operator etc., with ① - ⑦
- Freely programmable weighing unit, e.g. display direct in special units such as length of thread g/m, grammage g/m², or similar, with ⑨
- Date/time, with ① - ⑨
- Statistical function, with ①
- GLP printout, with ① - ⑨
- Individual formatting of print-outs, with ① - ⑨

Precision balance KERN EWJ

High-quality precision balance with automatic internal adjustment, also with EC type approval [M]

Features

- **Easy to use:** All primary functions have their own key on the keypad
- **Automatic internal adjustment** time-controlled every 4 hours. Guarantees high degree of accuracy and makes the balance independent of its location
- Ideal for mobile applications which require verification, such as ambulatory gold and jewellery purchasing
- **Capacity display:** A bar lights up to show how much of the weighing range is still available
- **Draught shield** with removable cover and opening for using a pipette, standard for models with weighing plate size **A**, **B**, weighing space WxDxH 145x160x80 mm
- **RS-232 and USB interfaces** for transferring weighing data to the PC, printer, USB sticks etc.

Technical data

- Large backlit LCD display, digit height 16,5 mm
- Weighing plate dimensions, stainless steel
 - A** Ø 80 mm
 - B** Ø 135 mm
 - C** WxD 155x145 mm
- Overall dimensions WxDxH without draught shield 220x315x90 mm incl. draught shield 220x315x180 mm
- Permissible ambient temperature 5 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN EWJ-A04, **€ 25,-**
- **Rechargeable battery pack internal**, operating time up to 15 h without backlight, charging time approx. 4 h, KERN KFB-A01, **€ 35,-**
- **USB interface kit** for bi-directional data exchange between balance and computer. Scope of delivery: USB cable, driver, Software Balance Connection, KERN DBS-A02, **€ 290,-**
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Precision balances

All-rounder e.g. as laboratory, counting or checking balance, as well with EC type approval [M]

Features

• Thanks to the many typical laboratory functions, such as, for example, recipe function, percentage determination, GLP record keeping, combined with the high level of precision, the KERN 572 is a reliable partner for day-to-day work in the laboratory. Their robustness due to an aluminium diecast housing, typical industrial functions, such as piece-counting, vibration-free weighing and the large weighing ranges do make these balances ideal for all industrial applications, where a high level of precision is required

- The robust metal housing helps to keep the balance stable, protect the weighing system and is sturdy enough to cope with everyday use
- Only 572: **Ring-shaped draught shield** standard (weighing plate **A**), weighing space ØxH 157x43 mm
- Hook for underfloor weighing, standard on all models with [d] = 0,001 g
- **UNITS:** For further weighing units see the internet (only 572)

Technical data

- Large backlit LCD display, digit height 18 mm
- Weighing plate dimensions, stainless steel,
 - A** Ø 106 mm
 - B** Ø 150 mm
 - C** WxD 160x200 mm, see enlarged picture
- Overall dimensions WxDxH 180x310x130 mm
- Permissible ambient temperature
 - KERN 572: 10 °C / 40 °C
 - KERN 573: 10 °C / 30 °C

Accessories

- **Protective working cover** standard, can be retrofitted, KERN 572-A02, **€ 25,-**
- **Only 572: Rechargeable battery pack external**, operating time up to 25 h, charging time approx. 10 h, KERN KS-A01, **€ 180,-**
- **Large glass draught shield** with 3 sliding doors for easy access to the items being weighed. Weighing space WxDxH 150x140x130 mm (only for models with weighing plate size **A**), KERN 572-A05, **€ 160,-**
- **Hook for underfloor weighing**, for models with [d] ≥ 0,01 g, can be retrofitted, KERN 572-A03, **€ 25,-**
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** see page 157 ff.

Process reliability thanks to automatic internal adjustment and EC type approval [M]

Features

- **Automatic internal adjustment** in the case of a change in temperature ≥ 3 °C and time-controlled every 3 hours
- **Draught shield** standard (on all models with readout [d] = 0,001 g). Weighing space WxDxH 140x140x65 mm

Characteristics KERN PLJ-C:

- **2** Weighing principle: Force compensation
- **Alibi memory:** paperless way to archive weighing results, see also page 11
- **Internal memory** for up to 999 weighing results, 1000 items, 100 container weights, 100 users
- **USB interface** for transferring weighing data to the PC, printer, USB sticks etc.

Characteristics KERN PLJ-G:

- **3** Weighing principle: Strain gauge
- **4** **Rechargeable battery pack internal**, standard, operating time up to 45 h without backlight, charging time approx. 12 h

Technical data

- Backlit LCD display
PLJ-C: digit height 17 mm
PLJ-G: digit height 19 mm
- Weighing plate dimensions, stainless steel, WxD
A 128x128 mm
B 195x195 mm, see enlarged picture
- Overall dimensions WxDxH
without draught shield 206x335x85 mm
incl. draught shield 206x335x157 mm
- Net weight approx. 3,6 kg (incl. draught shield approx. 4 kg)
- Permissible ambient temperature 15 °C / 30 °C

Accessories

- **Protective working cover** standard, can be retrofitted, KERN ALS-A02, € 25,-
- **5** **Set for density determination** of liquids and solids with density ≥ 1 , only suitable for models with readout [d] = 0,001 g. The density is indicated directly on the display, sim. to illustration, KERN PLS-A01, € 530,-
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** and an extensive accessories range, see page 157 ff.

NEW New Model

For more information, please visit www.kern-sohn.com/en/PLJ-C_PLJ-G · Order hotline +49 [0] 7433 9933-0

Precision balances

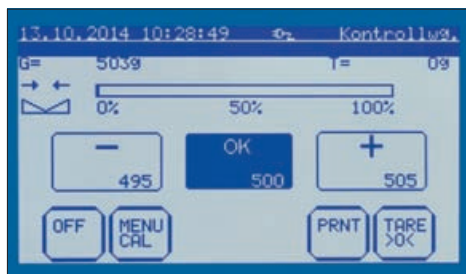

Touchscreen laboratory balance with extensive range of functions

Display at full size, operating mode weighing

- **Innovative touchscreen:** High-contrast, backlit and touch-sensitive display for comfortable use and easy reading
- **Advantages:**
 - The menu and processes are self-explanatory
 - No more errors or lost time through keys which have several functions or unclear markings
 - Large keys, which can also be operated while wearing gloves
 - More efficient and fast in use

Weighing with tolerance range

(checkweighing): Input of an upper/lower limit value. A visual signal assists with portioning, dispensing or grading

Convenient recipe weighing

you can save up to 99 complete recipes in the memory with up to 10 components each. The individual components of a mixture can be printed out clearly with their name, weight and grand total

Easy entering of text and values

e.g. up to 80 item descriptions, user name, weights of tare containers, etc. using the large keypad

Precision balance KERN PKT

Features

- **80 memories for each operation mode**, e.g., for checkweighing, PRE-TARE, reference weight, target weight when dispensing etc.
- **Convenient recipe-weighing**: the recipes can be generated easily in an Excel list in the PC and transferred to the balance using the RS-232 interface. Alternatively, the recipes can also be entered directly using the keypad. If there is an excess amount of one recipe ingredient the practical back calculation function automatically calculates the new target weights of the other ingredients. The actual and target values and the proportionate percentage can then be printed
- **Multiplier function**: recipes where the ingredients have been entered as percentages can easily be multiplied when you enter the new target weight, which is ideal for the production of larger containers, bulk packs etc.
- **Rapid function** for shortened stabilisation time with reduced resolution
- **16 print forms** which can store up to 20 different information, such as, for example, date, time, operator, item, net, tare, gross, PCS, target weight, PRE-TARE etc. The print forms can be generated easily in an Excel list in the PC and transferred to the balance using the RS-232 interface
- **Ring-shaped draught shield** standard for models with weighing plate size **A**, weighing space ØxH 157x57 mm
- **Hook for underfloor weighing**, standard on all models with readout [d] = 0,001 g

Technical data

- Large backlit LCD touch display, digit height 15 mm, screen diagonal 4,3" (approx. 109 mm), WxH 91x54 mm
- Weighing plate dimensions, stainless steel, **A** Ø 106 mm
B Ø 150 mm
C WxD 160x200 mm, see enlarged picture
- Overall dimensions WxDxH 180x310x90 mm
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** standard, can be retrofitted, KERN 572-A02, **€ 25,-**
- **Rechargeable battery pack external**, Operating time up to 15 hours with backlight, charging time approx. 10 h, KERN KS-A01, **€ 180,-**
- **Large glass draught shield** with 3 sliding doors. Weighing space WxDxH 150x140x130 mm (only for models with weighing plate size **A**), KERN 572-A05, **€ 160,-**
- **Set for density determination** of liquids and solids with density $\leq/\geq 1$, **2** for models with weighing plate size **A**, KERN YDK-01, **€ 205,-**
3 for models with weighing plate size **B**, KERN YDK-02, **€ 310,-**
- **RS-232/Ethernet adapter**, for details see page 158, KERN YKI-01, **€ 390,-**
- **Hook for underfloor weighing**, for models with [d] $\geq 0,01$ g, can be retrofitted, KERN 572-A03, **€ 25,-**
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** see page 157 ff.

Modes

- ① Weighing
- ② Counting
- ③ Dispensing
- ④ Recipe weighing
- ⑤ Checkweighing
- ⑥ Totalising with daily total
- ⑦ Percentage determination
- ⑧ Animal weighing
- ⑨ Surface weight
- ⑩ Density determination, only with **A**, **B**
- ⑪ Rapid function

Functions

- Capacity display, with ① - ②, ⑤ - ⑦, ⑨ - ⑪
- Dispensing assistance (-/+), with ③, ④
- Net/Gross display, permanent, with ①, ③ - ⑤, ⑧ - ⑪
- Variable reference quantity, with ②
- Automatic reference optimisation, with ②
- Tare deduction numerical or from the memory unit, with ① - ⑦, ⑪
- Entering item or batch description, operator etc., with ① - ⑦
- Freely programmable weighing unit, e.g. display direct in special units such as length of thread g/m, paper weight g/m², or similar, with ②
- Date/time, with ① - ⑪
- Statistical function, with ①
- GLP printout, with ① - ⑪
- Individual formatting of up to 16 printing forms, recipes, operating mode master data in MS Excel, import via RS-232, for examples, see the internet, with ① - ⑪

User-friendly operation modes, as well as internal automatic adjustment

GLP/ISO record keeping of weighing data, balance adjustment, etc. with date, time and identification no... Ideal for monitoring and documenting your processes in accordance with your quality management system

Piece counting

Thanks to its high level of accuracy, it is ideal for counting very small parts

Percentage determination: parts taken out of a container on the weighing plate can be displayed as a percentage value. Convenient when carrying out drying processes, during which the evaporated moisture or the remaining weight can be displayed as a percentage

Precision balances KERN PLS · PLJ

Features

- **1 Ergonomically optimised keypad** for left and righthanded users
- **Glass draught shield**, standard for models with weighing plate size **A**. Removable metal cover with pipette opening, weighing space ØxH 150x60 mm
- **2 KERN PLJ: Automatic internal adjustment**, guarantees high degree of accuracy and makes the balance independent of its location. Ideal for mobile applications which require verification, such as ambulatory gold and jewellery purchasing
- **3 KERN PLS: Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price, see page 165 ff.

Technical data

- Backlit LCD display, digit height 17 mm
- Weighing plate dimensions, stainless steel,
 - A** Ø 110 mm
 - B** Ø 160 mm, see enlarged picture
 - C** WxD 200x175 mm
- Overall dimensions WxDxH
 - without draught shield: 210x340x100 mm
 - with draught shield: 210x340x160 mm
- **4** KERN PLS/PLJ-F: Strain gauge
- **5** KERN PLS/PLJ-A: Force compensation
- Net weight approx. 4,6 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** standard, can be retrofitted, KERN PLJ-A01, **€ 30,-**
- **6 Hook for underfloor weighing** of hanging loads, not included, KERN PLJ-A02, **€ 30,-**
- **Set for density determination** of liquids and solids with density ≤ 1 . The density, is indicated directly on the display. On all models with readout [d] = 0,001 g, KERN ALT-A02, **€ 350,-** on all models with readout [d] = 0,01 g, KERN PLT-A01, **€ 350,-**
- **RS-232/Ethernet adapter** to connect balances with an RS-232 interface to a network, using Ethernet, details see page 158, KERN YKI-01, **€ 390,-**
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Precision balances

The classic balance with a robust tuning fork measuring system

GLP/ISO record keeping of weighing data, balance adjustment, etc. with date, time and identification no. etc. Ideal for monitoring and documenting your processes in accordance with your quality management system

Percentage determination: makes it possible to store a given weight value (100 %) and to determine deviations from this target value

Weighing with tolerance range (checkweighing): a visual signal helps with portioning, dispensing or grading

Features

- **1** only EG-NM: **Internal adjustment (CAL)** by **rotary knob** on the side. Guarantees high degree of accuracy and makes the balance independent of its location
- **2** only EW-NM: **Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price, see page 165 ff.
- **Capacity display:** A bar lights up to show how much of the weighing range is still available
- **Precise counting:** The automatic reference weight optimisation gradually improves the average value of the piece weight
- **Totalising** of pieces when counting
- **Draught shield** standard for models with weighing plate size **A**. Removable metal cover with pipette opening, weighing space WxDxH 158x130x78 mm

Technical data

- Large LCD display, digit height 17 mm
- Weighing plate dimensions, stainless steel
 - A** Ø 118 mm, see enlarged picture
 - B** WxD 170x142 mm
 - C** WxD 180x160 mm
- Overall dimensions (without draught shield) WxDxH
 - A, B** 182x235x75 mm
 - C** 192x265x87 mm
- Net weight approx. 1,3 kg
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted. For models with weighing plate size
 - A, B** KERN EG-A05, € 30,-
 - C** KERN EG-A09, € 30,-
- **Rechargeable battery pack internal**, operating time up to 32 h without backlight, charging time approx. 12 h. AUTO-OFF function to preserve the battery, can be switched off. For models with weighing plate size
 - A, B** KERN EG-A04, € 105,-
 - C** KERN EG-A06, € 110,-

- **3 Large glass draught shield** with 3 sliding doors for easy access to the items being weighed, weighing space WxDxH 150x140x130 mm, can be retrofitted for models with weighing plate size **A**, KERN EG-A03, € 235,-
- **Loop for underfloor weighing**, not included, for models with weighing plate size
 - A, B** KERN EG-A07, € 40,-
 - C** KERN EG-A08, € 40,-
- **RS-232/Ethernet adapter** to connect balances with an RS-232 interface to a network, via Ethernet, for details, see page 158, KERN YKI-01, € 390,-
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Robust laboratory and industrial precision balance, with EC type approval [M]

Features

- **2** only PEJ: **Automatic internal adjustment**
- **3** only PES: **Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price, see page 165 ff.
- **Metal housing:** robust and sturdy
- **Weighing with tolerance range (check-weighing):** Input of 2 upper and 2 lower limit values through 4 arrow keys. An audible signal assists with the portioning, dispensing or grading
- **1 Draught shield** standard on all models with readout [d] = 0,001 g, weighing space WxDxH 170x150x100 mm. Removable metal cover with pipette opening

Technical data

- Fluorescent display, bright with high contrast, digit height 13 mm
- Weighing plate dimensions, stainless steel, WxD
 - A** 140x120 mm
 - B** 200x200 mm, see enlarged picture

Precision balance KERN PLT

High-quality precision balance with convenient graphic display

Features

- **Convenient recipe-weighing:** with the recipe database, in which up to 99 recipes can be stored, each with up to 20 recipe ingredients with name and target value
- **Rapid and efficient operation** thanks to the graphic display
- **Simple plain text user guidance in the display,** following languages available: DE, GB, FR, IT, ES, PT
- **Automatic internal adjustment** in the case of a change in temperature > 1,5 °C and time-controlled every 20 minutes
- **Percentage determination:** makes it possible to store a given weight value (100 %) and to determine deviations from this target value
- **Weighing with tolerance range,** ideal for portioning, dispensing, grading
- **GLP/ISO record keeping** of weight results with date, time and serial number

- **Glass draught shield,** standard for models with weighing plate size **A**. Removable metal cover with pipette opening, weighing space ØxH 150x60 mm

Technical data

- Large backlit LCD display, digit height 15 mm
- Weighing plate dimensions, stainless steel, **A** Ø 110 mm
B Ø 160 mm, see enlarged picture
- Overall dimensions (incl. draught shield) WxDxH 210x340x160 mm
- Net weight approx. 4 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN PLJ-A01, € 30,-
- **Set for density determination** of liquids and solids with density $\leq/\geq 1$ on all models with readout [d] = 0,001 g, KERN ALT-A02, € 350,- on all models with readout [d] = 0,01 g, KERN PLT-A01, € 350,-
- **RS-232/Ethernet adapter** to connect balances with an RS-232 interface to a network, via Ethernet, for details see page 158, KERN YKI-01, € 390,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Precision balances

Multifunctional laboratory balance with single-cell weighing system and EC type approval [M]

2 only PBS: **Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price

Simple recipe weighing and documenting with a combined tare/print function. In addition, the mixing ingredients for the recipe are numbered automatically and printed out with their corresponding number and nominal weight

Percentage determination: makes it possible to store a given weight value (100 %) and to determine deviations from this target value

Features

- **1** only PBJ: **Automatic internal adjustment** in the case of a change in temperature and time-controlled at defined intervals, guarantees high degree of accuracy and makes the balance independent of its location of use. Ideal for mobile applications which require verification, such as ambulatory gold and jewellery purchasing
- **Metal housing:** robust and sturdy
- **Dosage aid:** High-stability mode and other filter settings can be selected
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual signal assists with portioning, division, dispensing or grading
- **Totalising** of individual weighing results
- **Identification number:** 4 digits, printed on calibration protocol freely programmable
- **Automatic data output to the PC/printer** every time the balance is steady
- **2** **Draught shield** standard, on all models with readout [d] = 0,001 g, weighing space WxDxH 180x193x87 mm

Technical data

- Large backlit LCD display, digit height 14 mm
- Weighing plate dimensions, stainless steel, WxD
 - A** 108x105 mm
 - B** 170x180 mm, see enlarged picture
- Overall dimensions (without draught shield) WxDxH 209x322x78 mm
- Net weight approx. 3 kg
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, **€ 25,-** for models with weighing plate size
 - A** KERN PBS-A01
 - B** KERN PBS-A02
- **4** **Set for density determination** for models with weighing plate size
 - A** KERN PBS-A04, **€ 1390,-**
 - B** KERN PBS-A03, **€ 1390,-**
- **RS-232/Ethernet adapter** to connect balances RS-232 interface to a network, via Ethernet, for details see page 158, KERN YKI-01, **€ 390,-**
- **Suitable test weights**, also with calibration certificate, see the internet
- **Suitable printers** and an extensive accessories range, see page 157 ff.

5 Single-cell advanced technology:

- **Fully automatically manufactured weighing**
- **cell from one piece of material**
- **Stable temperature behaviour**
- **Short stabilisation time: 3 sec**
- **Improved mechanical sturdiness**
- **High corner load performance**

Precision balances

PREMIUM

KERN PET [d] = 0,01 g

KERN PET [d] = 0,001 g

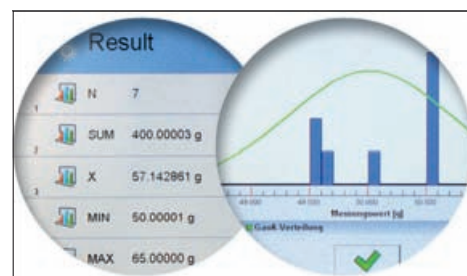

State-of-the-art premium touchscreen precision balance with the complete range of functions for demanding processes

Individual print formats: Printouts can be individually adjusted depending on operating mode, application or your own requirements, directly at the balance or the PC. In this way the data related to these processes is documented accurately, efficiently and clearly

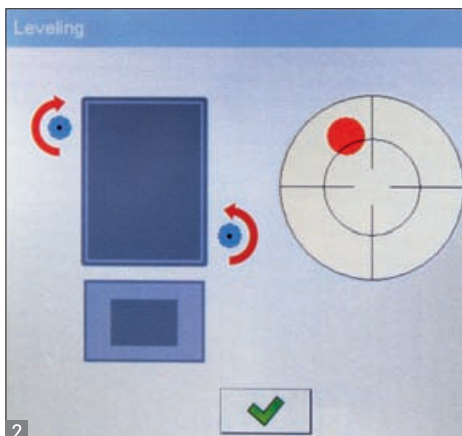

Convenient recipe-weighing: complete recipes with all recipe ingredients and associated target values, names, tolerances, tare weights etc. can be stored. If there is an excess amount of one recipe ingredient the practical back calculation function automatically calculates the new target weights of the other ingredients

Statistical function for statistical analysis of series of measurements. Graphic display of measurement values can be used by the operator to check and evaluate the results

Precision balance KERN PET

Features

- **Intuitive operation, increases efficiency and saves costs:** Easy entering of item data at the PC, call up of items on the balance using the connected barcode or RFID scanner, output of weighing data using the large or second display or control outputs, data transfer to the PC, printer or alibi memory.
- **Individual user settings can be stored**
 - User name and number
 - Password
 - Menu language
 - User profile
 - Additional guest mode for users without log-in
 - Authorisations, e.g. capture or modification of a recipe only with authorisation, recipe weighing can be carried out by the user
- **Best-before dates** can be stored and printed for each item
- **Difference determination:** Weighing a sample before and after a machining process and automatic output of the difference value
- **Multiplier function:** recipes and their ingredients can be multiplied at will at the press of a button, which is ideal for the production of larger containers, bulk packs etc.
- **Enormous database (1 GB)** for thousands of weighing results, items, recipes, recipe ingredients, container weights, user data etc.
- **Alibi memory:** paperless archive of weighing results, see also page 11

- **2 Electronic level indicator** continuously checks the position of the balance, sounds an alarm when the device is out of balance and gives visual instructions on how to correct the situation
- **3 High level of process reliability:** you can define limit values for selected parameters, such as, for example, temperature, levelling, minimum load, adjustment, etc. When the value falls outside these limits, a warning message will be issued and this can be stored with the measuring result
- **Draught shield** standard for models with weighing plate size **A**, weighing space WxDxH 140x140x65 mm
- **For further features, see page 7**

Technical data

- Backlit and touch-sensitive LCD display with digit height 21 mm, screen diagonal 5,7" (approx. 145 mm), WxH 115x86 mm. Dimensions of display device WxDxH 215x156x71 mm
- Hook for underfloor weighing standard
- Weighing plate dimensions, stainless steel, WxD
 - A** 128x128 mm
 - B** 195x195 mm
- Overall dimensions WxDxH
 - A** 431x221x168 mm
 - B** 431x221x99 mm
- Permissible ambient temperature 15 °C / 35 °C

Accessories

- **RS-232 barcode scanner**, hand-held version, dimensions WxDxH 152x84x63 mm, for details see page 163, KERN PET-A05, **€ 350,-**
- **USB barcode scanner**, hand-held version, dimensions WxDxH 152x84x63 mm, details see page 163, KERN PET-A09, **€ 350,-**
- **USB keyboard** for easy capture of items, descriptions etc., dimensions WxDxH 440x128x24 mm, details see page 164, KERN PET-A06, **€ 45,-**
- **Second display**, dimensions WxDxH 150x33x80 mm, details see page 164, KERN PET-A03, **€ 210,-**
- **Direct thermal label printer**, software for easy editing of (adhesive) labels included, for details see page 163, KERN PET-A13, **€ 980,-**
- **Thermal transfer and direct thermal label printer**, software for easy editing of (adhesive) labels included, for details see page 163, KERN PET-A14, **€ 1000,-**
- **Software for database management**, for convenient maintenance of item data at the PC. Data transfer to the balance using the interface cable (see page 158), details see page 163, KERN PET-A01, **€ 300,-**
- **Set for density determination** of liquids and solids, as well as porous materials (soaked in oil) $\leq/\geq 1$. For details see page 161. KERN YDB-03, **€ 520,-**
The internal density determination software in the balance takes you through the process, step by step, and shows the density on the display. You can also use a pycnometer

Precision balances

High-precision balances for heavy loads

High-capacity precision balances can be used when the weighing ranges of classic laboratory balances are not sufficient or the items to be weighed are relatively bulky.

KERN PES

KERN DS

KERN ILS-C / ILJ-C

KERN IKT

KERN PES 31000-1M

Robust laboratory and industrial precision balance

Ideally suited for compact, very dense samples, such as those which might be found in road building or the construction industry, for example.

Weighing range: 31 kg
Read-out: 0,1 g
Weighing plate: 250x220 mm

For additional information see page S. 36

KERN DS 8K0.05

Affordable platform balance with laboratory accuracy

Best for bulky or heavy samples, thanks to the robust platform with stainless steel weighing plate and display device which can be positioned to suit you. Of course it has all the features related to laboratory work, which will make your processes more efficient and reliable.

Weighing range: 8 kg
Read-out: 0,05 g
Weighing plate: 308x318 mm

For additional information see page 112

KERN ILS 50K-4C

High-resolution laboratory platform scale for the most precise results up to 50 kg

The high-quality finish, exceptional weighing data and extensive configuration package all go to make this range particularly suitable for demanding requirements.

Weighing range: 50 kg
Read-out: 0,1 g
Weighing plate: 347x259 mm

For additional information see page 113

KERN IKT 3K0.01S

High-resolution platform scale with stainless steel weighing plate and separate touchscreen display device

Particularly practical when working with toxic, volatile or contaminated substances in glove bags or fume cupboards.

Weighing range: 3 kg
Read-out: 0,01 g
Weighing plate: 228x228 mm

For additional information see page 114 / 115

Interesting facts about Analytical balances

To avoid relevant result deviations when weighing with high-precision analytical balances, we recommend to keep in mind a few basic things:

- Daily → **adjustment**, particularly if there are temperature variations, etc.
- Internal automatic adjustment feature is strongly recommended
- Avoidance of air movement, e.g. open doors, windows, → **draught shield**
- Avoidance of adjacent heat sources such as, for example, heaters, laboratory equipment which heats up and other items
- Use of a special weighing table, e.g. KERN YPS-03, page 44
- Use of an ioniser to neutralise electrostatic charges on the items being weighed, e.g. KERN YBI-01, page 44

→ See the glossary on page 191 – 192

Often it is the small things which make daily laboratory life easier.

On this page we have put together a small selection of practical accessories for your demanding weighing processes.

For additional details and further accessories, please see page 157

Weighing table

Accurate measuring results require stable working conditions! The KERN YPS-03 weighing table has been constructed to absorb vibrations and oscillations, which would otherwise distort the weighing result.
Suitable for all KERN analytical balances with total dimensions \leq WxD 270x410 mm

KERN YPS-03, € 900,-

Ioniser to neutralise electrostatic charge

Goods to be weighed which are non-conductive, such as plastic, china, glass, etc often carry electrostatic charge. The electromagnetic field which then occurs between the goods to be weighed and the balance can cause the weighing result to be distorted by up to a gramme. Suitable for all KERN analytical balances.

KERN YBI-01, € 1350,-

Protective dust cover

For protection from dust and light.
Suitable for all KERN analytical balances.

KERN ABS-A08, € 30,-

Universal density set

Universal density set for precise and convenient density determination of liquids and solids \leq/\geq 1. Suitable for all KERN analytical balances.

KERN YDB-03, € 520,-

Thermal statistics printer

For printing weights, recipes etc. or for GLP record keeping of weighing data with date and time print. With extensive statistical functions for the analysis of measurements series. Suitable for all KERN analytical balances (except AET).

KERN YKS-01, € 390,-

- 4 Single-cell advanced technology:
- Fully automatically manufactured weighing cell from one piece of material
 - Stable temperature behaviour
 - Short stabilisation time: 3 sec
 - Improved mechanical sturdiness
 - High corner load performance

The bestseller in analytical balances, with high-quality single-cell weighing system, also with EC type approval [M]

Features

- **1** only ABJ-NM: **Automatic internal adjustment** in the case of a temperature change > 2 °C and time-controlled every 4 hours
- **2** only ABS-N: **Adjusting program CAL**, external test weights at an additional price, see page 165 ff.
- **Dosage aid:** High-stability mode and other filter settings can be selected
- **Simple recipe weighing and documenting** with a combined tare/print function. In addition, the ingredients for the recipe are numbered automatically and printed out with their corresponding number and weight value

- **Automatic data output** to the PC/printer each time the balance has obtained a stable weighing result
- **Identification number:** 4 digits, printed on calibration protocol freely programmable
- ABJ-NM has an OIML-Certificate

Technical data

- Large LCD display, digit height 14 mm
- Weighing plate dimensions, stainless steel, Ø 91 mm
- Overall dimensions WxDxH 210x340x325 mm
- Weighing space WxDxH 174x162x227 mm
- Permissible ambient temperature 10 °C / 30 °C
- Net weight approx. 6 kg

Accessories

- **Protective working cover** standard, can be retrofitted, KERN ACS-A02, € 30,-
- **3** **Data interface RS-232** interface cable included, KERN ACS-A01, € 75,-
- **4** **Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 162, KERN YPS-03, € 900,-
- **5** **Set for density determination** of liquids and solids with density $\leq/\geq 1$, details see page 161, KERN YDB-03, € 520,-
- **7** **Ioniser** to neutralise electrostatic charge, see page 162, KERN YBI-01, € 1350,-
- **Suitable printers** see page 157 ff.

Analytical balances

Precision and price united in harmony, with automatic internal and external adjustment

Features

- **1** only ALJ-A: **Automatic internal adjustment** in the case of a change in temperature $> 1,5\text{ }^{\circ}\text{C}$
- **2** only ALS-A: **Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price, see page 165
- **Ergonomically optimised keypad** for left and righthanded users
- **Large glass draught shield** with 3 sliding doors for easy access to the items being weighed
- **Compact size**, practical for small spaces
- **Percentage determination**: makes it possible to store a given weight value (100 %) and to determine deviations from this target value
- **Weighing with tolerance range**, ideal for portioning division, dispensing, grading

Technical data

- Backlit LCD display, digit height 17 mm
- Weighing plate dimensions, stainless steel, $\varnothing 80\text{ mm}$
- Overall dimensions (incl. draught shield) WxDxH 210x340x330 mm
- Weighing space WxDxH 160x140x205 mm
- Net weight approx. 5,7 kg
- Permissible ambient temperature $5\text{ }^{\circ}\text{C} / 35\text{ }^{\circ}\text{C}$

Accessories

- **Protective working cover**, KERN ALJ-A01, **€ 25,-**
- **Protective dust cover**, KERN ABS-A08, **€ 30,-**
- **Set for density determination** of liquids and solids with density $\leq/\geq 1$, details see page 161, KERN YDB-03, **€ 520,-**
- **3** **Ioniser** to neutralise electrostatic charge, see page 162, KERN YBI-01, **€ 1350,-**
- **4** **Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 162, KERN YPS-03, **€ 900,-**
- **Suitable printers** and further, extensive accessories from page 157 ff.

Compact high-end analytical balance with useful pipette calibration program and alibi memory

Features

- only AEJ-CM: **Automatic internal adjustment** in the case of a change in temperature > 0,8 °C and time-controlled every 3 hours
- Intuitive pipette calibration function** to ensure data integrity and to minimise the risks in the daily work with your pipettes
- Higher weighing speed by switching off the last digit
- Modern all glass draught shield** for ideal visibility of the weighing object
- Dispensing mode:** By pressing one key you can set all relevant parameters for dispensing
- Alibi memory:** Paperless archiving of up to 100,000 weighing results. Additional information on page 11

- Internal memory** for up to 999 weighing results, 1000 items or recipe ingredients, 100 container weights, 100 users

Technical data

- Large backlit LCD display, digit height 17 mm
- Dimensions of weighing plate, stainless steel, Ø 85 mm
- Overall dimensions WxDxH 206x335x335 mm
- Weighing space WxDxH 168x160x225 mm
- Net weight approx. 5,4 kg
- Permissible ambient temperature 18 °C / 30 °C

Accessories

- Protective working cover**, standard, can be retrofitted, KERN ALS-A02, **€ 25,-**
- Set for density determination** of liquids and solids with density ≤/≥ 1, for details see page 161. Step-by-step user guidance and calculated density shown immediately on the display, KERN YDB-03, **€ 520,-**
- Ioniser** to neutralise electrostatic charge, see page 162, KERN YBI-01, **€ 1350,-**
- Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 162, KERN YPS-03, **€ 900,-**
- Suitable printers** see page 157 ff.

Analytical balance KERN ALT-B

Analytical balance with extensive recipe database

Features

- **Convenient recipe-weighing:** with the recipe database, in which up to 99 recipes can be stored, each with up to 20 recipe ingredients with name and target value
- **Rapid and efficient operation** thanks to the graphic display
- **Simple plain text user guidance in the display,** following languages available: DE, GB, FR, IT, ES, PT
- **Automatic internal adjustment** in the case of a change in temperature $> 1,5^{\circ}\text{C}$ and time-controlled every 20 minutes
- **Percentage determination:** parts taken out of a container on the weighplate can be displayed as a percentage. Convenient when carrying out drying processes, during which the evaporated moisture or the remaining weight can be displayed as a percentage

• Weighing with tolerance range

- (**checkweighing**): Input of an upper/lower limit value. A visual signal assists with portioning, dispensing or grading
- **Vibration-free weighing:** When the weighing conditions are unstable, a stable weight is calculated based on an average value
- **GLP/ISO record keeping** of weight values with date, time and serial number
- **Modern all glass draught wind shield** for ideal visibility of the weighing object

Technical data

- Large backlit LCD display, digit height 15 mm
- Dimensions weighing surface \varnothing 80 mm
- Dimensions housing WxDxH 210x340x330 mm
- Weighing space WxDxH 160x140x205 mm
- Net weight approx. 5,7 kg
- Permissible ambient temperature $5^{\circ}\text{C} / 35^{\circ}\text{C}$

Accessories

- **Protective working cover,** KERN ALJ-A01, € 25,-
- **Protective dust cover,** KERN ABS-A08, € 30,-
- **Set for density determination** of liquids and solids with density $\leq/\geq 1$, for details see page 161. Step-by-step user guidance and calculated density shown immediately on the display, KERN YDB-03, € 520,-
- **Ioniser** to neutralise electrostatic charge, see page 162, KERN YBI-01, € 1350,-
- **2 Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 162, KERN YPS-03, € 900,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

- Weighing space WxDxH 168x172x223 mm
- Net weight approx. 7 kg
- Permissible ambient temperature $10\text{ }^{\circ}\text{C} / 30\text{ }^{\circ}\text{C}$

Single-cell advanced technology:

- **Fully automatically manufactured weighing cell from one piece of material**
- **Stable temperature behaviour**
- **Short stabilisation time:** Steady weight values within approx. 5 sec under laboratory conditions
- **Improved mechanical sturdiness**
- **High corner load performance**

Accessories

- **Protective working cover**, standard, can be retrofitted, KERN ABT-A02, **€ 26,-**
- **Set for density determination** of liquids and solids with density ≤ 1 . The density is indicated directly on the display, for details see page 161, KERN YDB-03, **€ 520,-**
- **1 Ioniser** to neutralise electrostatic charge, see page 162, KERN YBI-01, **€ 1350,-**
- **2 Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 162, KERN YPS-03, **€ 900,-**
- **Suitable printers** and an extensive accessories, see page 157 ff.

Analytical balances

PREMIUM

KERN AET [d] = 0,1 mg

KERN AET [d] = 0,01 mg

State-of-the-art premium touchscreen analytical balance with the complete range of functions for demanding processes

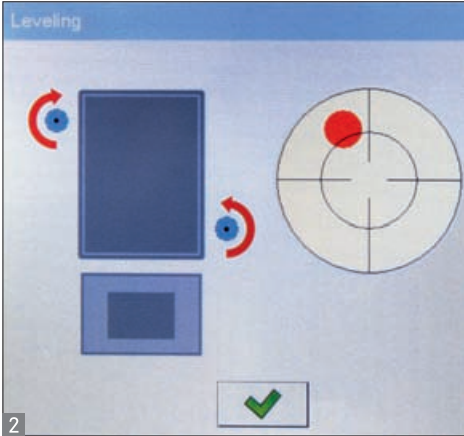

Intuitive pipette calibration in accordance with ISO 8655: The user is guided through the pipette calibration procedure step by step, in accordance with the requirements of the norm. This helps to ensure that the pipetting volumes are correct and minimises the risks in daily pipetting work

Convenient recipe-weighing: complete recipes with all recipe ingredients and associated target values, names, tolerances, tare weights etc. can be stored. If there is an excess amount of one recipe ingredient the practical back calculation function automatically calculates the new target weights of the other ingredients

Statistical function for statistical analysis of series of measurements. Graphic display of measurements can be used by the operator to check and evaluate the results

Features

- **Intuitive operation, increases efficiency and saves costs:** Easy entering of item data at the PC, call up of items on the balance using the connected barcode or RFID scanner, output of weighing data using the large or second display or control outputs, data transfer to the PC, printer or alibi memory.
- **Individual user settings can be stored**
 - User name and number
 - Password
 - Menu language
 - User profile
 - Additional guest mode for users without log-in
 - Authorisations, e.g. capture or modification of a recipe only with authorisation, recipe weighing can be carried out by the user
- **Best-before dates** can be stored and printed for each item
- **Difference calculation:** Weighing a sample before and after a machining process and automatic output of the difference value
- **Multiplier function:** recipes and their ingredients can be multiplied at will at the press of a button, which is ideal for the production of larger containers, bulk packs etc.
- **Enormous database (1 GB)** for thousands of weighing results, items, recipes, recipe ingredients, container weights, user data etc.
- **Alibi memory:** paperless archive of weighing results, see also page 11
- **Electronic level indicator** continuously checks the position of the balance, sounds an alarm when the device is out of balance

- and gives visual instructions on how to correct the situation
- **High level of process reliability:** you can define limit values for selected parameters, such as, for example, temperature, levelling, minimum load, adjustment, etc. When the value falls outside these limits, a warning message will be issued and this can be stored with the measuring result
 - **Grid weighing pan and hook for suspended weighing** as standard
 - **For further features, see page 7**

Technical data

- Backlit and touch-sensitive LCD display with digit height 21 mm, screen diagonal 5,7" (approx. 145 mm), WxH 115x86 mm. Dimensions of display device WxDxH 215x156x71 mm
- Weighing plate dimensions, stainless steel, Ø 85 mm
- Dimensions housing WxDxH on all models with
 - [d] = 0,01 mg: 573x348x217 mm
 - [d] = 0,1 mg: 348x360x217 mm
- Weighing space WxDxH 168x160x225 mm
- Permissible ambient temperature 18 °C / 30 °C

Accessories

- **Protective working cover** over the display device, standard, can be retrofitted, suitable for the series AET, PET, ILT, KERN ILT-A02, **€ 25,-**

- **Protective dust cover,** KERN ABS-A08, **€ 30,-**
- **RS-232 barcode scanner,** hand-held version, dimensions WxDxH 152x84x63 mm, details see page 163, KERN PET-A05, **€ 350,-**
- **USB barcode scanner,** hand-held version, dimensions WxDxH 152x84x63 mm, details see page 163, KERN PET-A09, **€ 350,-**
- **USB keyboard** for easy capture of items, descriptions etc., dimensions WxDxH 440x128x24 mm, details see page 164, KERN PET-A06, **€ 45,-**
- **Second display,** dimensions WxDxH 150x33x80 mm, details see page 164, KERN PET-A03, **€ 210,-**
- **Direct thermal label printer,** software for easy editing of (adhesive) labels included, for details see page 163, KERN PET-A13, **€ 980,-**
- **Thermal transfer and direct thermal label printer,** software for easy editing of (adhesive) labels included, for details see page 163, KERN PET-A14, **€ 1000,-**
- **Software for database management,** for convenient maintenance of item data at the PC. Data transfer to the balance using the interface cable (see page 158), details see page 163, KERN PET-A01, **€ 300,-**
- **Set for density determination** of liquids and solids, as well as porous materials (soaked in oil) $\rho \geq 1$. For details see page 161. KERN YDB-03, **€ 520,-**
The internal density determination software in the balance takes you through the process, step by step, and shows the density on the display. You can also use a pycnometer

Analytical balances

Moisture analysers

DBS	53
Modern moisture analyser with 10 memories and graphic display	
DLB	54
Robust moisture analyser for samples up to 160 g	
MLB-C · MLS-C	55
Moisture analysis in an instant: Infrared moisture analyser with graphic display and a high capacity memory	
DLT-N	56
High-end moisture analyser with touch-sensitive tablet and innovative Android® operating system	

Moisture analysing is an integral part of production and processing many raw and finished products and has a crucial impact on the quality of the product.

Moisture analysers are used particularly in the food industry, water resource management (sewage plants, etc.), plastics industry, agriculture and the energy industry (bio-energy plants, etc.).

Determining moisture requires a great deal of experience. Depending on the type of sample and the task involved, various drying processes are used.

KERN has concentrated on the most widely-used drying method: halogen drying, which brings many advantages:

- Sample is evenly warmed from above, without risk of burning the sample surface
- Affordable purchase costs ensure rapid amortisation of the device
- Most common temperature ranges from 35 – 200 °C
- High measuring precision, up to 0.01 %
- Sufficient buffer capacity, weighing range up to 160 g
- Various drying programs (gentle drying, standard drying, gradual drying, rapid drying (Boost))

The numerous memories of the KERN moisture analyser are particularly useful, as they hold information on the complete drying processes with drying parameters such as drying time, drying period, drying temperature, display settings, switch off criteria, etc. This saves an enormous amount of time and helps to achieve repeatable results.

On the internet, you will find a practical application handbook containing many examples, field reports, settings and tips for each KERN moisture analyser.

Moisture analysers KERN MLB-C · MLS-C

KERN MLB-C

KERN MLS-C

Moisture analysis in an instant: Infrared moisture analyser with graphic display and a high capacity memory

Features

- Backlit graphic display, digit height 14 mm
- **Infrared heater** 400 W
- **Internal memory** for automatic run of complete drying programs (MLB-C: 20, MLS-C: 100) and 100 drying processes already executed (only MLS-C), which can be called up individually
- The last value measured remains on the display until it is replaced by a new measurement

- The large ventilation slots in the heating cover combined with the sample viewing window in form of a metal grid, ensure that moisture exhausts quickly which leads to shorter drying times
- Drying programs with optimised drying characteristics for rapid sample warming and therefore shorter drying times
- **10 sample plates included**
- **Application handbook:** There are many practical examples in the user manual

- 1 Unit of the shown result, e.g. moisture [%]
- 2 Current moisture content in %
- 3 Printout in moisture %
- 4 Drying mode *Standard*
- 5 Switch off criteria
- 6 Previous drying time
- 7 Current temperature
- 8 Drying process active

only MLS-C:

- 9 Printer interval 30 sec
- 10 Status bar
- 11 Target temperature

- **Thermal printer**, KERN YKB-01N, € 355,-

NEW

PREMIUM
★★★★

High-end moisture analyser with touch-sensitive tablet and innovative Android® operating system

Features

- **Innovative touchscreen:** Touch-sensitive, backlit LCD touch tablet with very good contrast for easy operation and convenient reading
- **Clear menu structure with plain text captions on the display.** The menu and processes are self-explanatory. This reduces training times, avoids operating errors and in this way, ensures a more efficient functionality

- **High mobility thanks to tablet operation,** data is available any time, anywhere
- **High-performance Android® operating system**
- **Lots of memory** for your applications
- **Memory for automatic run of 300 complete drying processes** (12 free digits per memory) and 100 drying processes already executed, which can be called up individually

- **Practical weighing assistance** to arrive at a defined target value [g] with an adjustable tolerance range of 1 – 25 % of the target value
- **10 sample plates included**
- **Wireless connection to a Bluetooth printer** allows for the printing of weighing data and drying curves for archiving purposes
- **Halogen quartz glass heater 400 W**
- **Colour LCD Display,** digit height 12 mm, screen diagonal 7" (approx. 178 mm), all information at a glance:
 - 1 Drying process active
 - 2 Status information, available for display
 - 3 Current moisture content in %
 - 4 Current temperature
 - 5 Android®-specific navigation elements
 - 6 Drying rate
 - 7 Switch off mode
 - 8 Drying type *Standard*

Checkweighing and portioning scale, also with EC type approval [M]			
GAB-P	63		
Checkweighing and portioning scale with integrated printer and EC type approval [M]			

Compact industrial weighing technology

Thanks to their compact dimensions, low weight, robust internal mechanism and the fact that they can be operated independent of mains power, bench scales can be used not only in a stationary situation, but also as mobile scales.

With weighing ranges between 3 kg and 65 kg, bench scales can cover a wide range of applications. Whether as a commissioning scale in the warehouse, for inventory purposes, on a production work station, in quality control, in small workshops, in service cars or in sales offices, bench scales are the first choice.

Durable stainless steel weighing plates, easy to read backlit displays, useful functions such as piece counting, PRE-TARE – subtraction of a known container weight, or → **interfaces** to PC and printer, all these support the user in their daily work.

→ **Dual range** scales cover a particularly wide range of applications. With these scales, the total weighing range is divided into 2 subranges and begins with a high resolution read-out in the fine weighing range. If this range is exceeded the balance automatically switches to the higher weighing range with the lower resolution read-out.

All KERN bench scales have an adjustment program (CAL) to adjust the accuracy. In this way, the high level of accuracy is guaranteed at all times, even during harsh everyday use. Find the right test weights for you, see page 165 f.

Touchscreen balances

The newest development for an even greater level of user-friendliness is the intuitive touchscreen operation, which is being integrated into new KERN models, see page 30 / 31 (PKT), 40 / 41 (PET), 50 / 51 (AET), 66 / 67 (FKT), 81 / 82 (FKTF), 98 (FKA), 99 (FKC), 114 / 115 (IKT), 116 / 117 (ILT)

Plain, mobile, uncomplicated

Features

- **High mobility:** Battery operation, compact, flat construction, recessed grips on the underside and low weight make this balance ideal for use in several locations
- **Particularly large weighing plate**
- **Very fast display:** steady weight values within 2 sec
- **Simple and convenient 2-key operation**
- **Adjusting program CAL,** external test weights at an additional price, see page 165 ff.

Technical data

- Large backlit LCD display, digit height 21 mm
- Weighing plate dimensions (1 ECE: Plastic, ECB: stainless steel) WxD 320x260 mm
- Overall dimensions WxDxH 320x300x60 mm
- Optional battery operation, 6 x 1.5 V AA not included, operating time up to 100 h. AUTO-OFF function to preserve the batteries
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Rechargeable battery pack internal,** operating time up to 30 h, charging time approx. 10 h. AUTO-OFF function to preserve the battery, can be retrofitted, KERN PCB-A01, **€ 65,-**
- **Rechargeable battery pack external,** operating time up to 270 h, charging time approx. 10 h, can be retrofitted, KERN KS-A01, **€ 180,-**
- **Tare pan made from stainless steel,** ideal for weighing loose small parts, fruit, vegetables etc., WxDxH 370x240x20 mm, for details see page 161, KERN RFS-A02, **€ 50,-**

Entry-level bench scale – mobile, practical, lightweight

Features

- **Simple and convenient 2-key operation**
- **Very fast display:** steady weight values within 2 sec
- **1** Ideal as a compact letter and parcel scale, especially where space is limited
- **2** Ideal as a grading, commissioning or simple checkweighing scale in production or dispatch

Technical data

- Large LCD display, digit height 25 mm
- Weighing plate dimensions, plastic, WxD 252x228 mm
- Overall dimensions WxDxH 270x345x106 mm
- Optional battery operation, 9 V Block not included, operating time up to 12 h. AUTO-OFF function to preserve the battery.
- Net weight approx. 2,5 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN FCB-A02, **€ 25,-**
- **B** **Stainless steel weighing plate**, robust, removable, for easy cleaning, KERN FCB-A01, **€ 35,-**
- **Rechargeable battery pack internal**, **AUTO-OFF** function to preserve the battery, can be switched off, operating time up to 20 h, charging time approx. 10 h, can be retrofitted, KERN FCB-A01, **€ 45,-**

Bench scale KERN FCB

05

Bench scale with second display on the backside

Features

- **Second display** on the rear of the balance
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **High mobility:** Battery operation/rechargeable battery pack (optional), compact construction and low weight make this balance ideal for use in several locations (production, warehouse, dispatch department etc.)

Technical data

- Backlit LCD display, digit height 25 mm
- Weighing plate dimensions, plate, stainless steel, WxD 252x228 mm
- Overall dimensions WxDxH 270x345x106 mm
- Optional battery operation, battery 9 V Block not standard, operating time up to 12 h
- Net weight approx. 3 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN FCB-A02, **€ 25,-**
- **Rechargeable battery pack internal**, operating time up to 10 h without backlight, charging time approx. 10 h, can be retrofitted, KERN FCB-A01, **€ 45,-**
- **Suitable printers** see page 157 ff.

Checkweighing and portioning scale, also with EC type approval [M]

Features

- **Compact size**, practical for small spaces
- **High mobility**: thanks to battery operation (optional)
- **Weighing with tolerance range (checkweighing)**: Input of an upper/lower limit value. A visual and audible signal assists with portioning, dispensing or grading
- **Totalising** of weights

Technical data

- Large backlit LCD display, digit height 24 mm
- Dimensions of weighing plate (stainless steel) WxD 294x225 mm

- Overall dimensions WxDxH 320x330x125 mm
- Net weight approx. 3,3 kg
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Protective working cover**, KERN CFS-A02, € 25,-
- **Signal lamp** for visual support of weighing with tolerance range. Three-colour LED (yellow, green, red), for details see page 160. Overall dimensions WxDxH 100x180x300 mm, KERN CFS-A03, € 250,-
- **Rechargeable battery pack internal**, operating time up to 90 h without backlight, charging time approx. 12 h, can be retrofitted, KERN GAB-A04, € 40,-

Application examples:

- Small industrial scale for pharmacies
- Hand mixtures of tea, coffee, chocolates
- Portioning of dough, meat, fish, poultry, mixed salads in cafeterias etc.
- Mobile weighing of freshly picked fruit on site
- High-precision industrial applications

Note: Official verification duties in commercial trade

- **Y cable** for parallel connection of two terminal devices to the RS-232 interface on the balance, e.g. signal lamp and printer, KERN CFS-A04, € 35,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Checkweighing and portioning scale with integrated printer and EC type approval [M]

Features

- Precise bench scale for applications (which require verification), where the weight values must be documented and archived through print outs or data transfer, such as, e.g. quantities obtained in stocktaking
- **High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department, ...)
- **Compact size,** practical for small spaces
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual and audible signal assists with portioning, dispensing or grading

- The determined weight, quantity, totals, percentage etc. can be printed out clearly with date and time
- **Internal printer:** Robust high-speed thermal printer. Fast and easy change of paper rolls thanks to innovative paper compartment construction

Technical data

- Large backlit LCD display, digit height 20 mm
- Weighing plate dimensions, stainless steel, WxD 365x235 mm
- Overall dimensions WxDxH 371x366x131 mm
- Net weight approx. 4,4 kg
- Permissible ambient temperature -10 °C / 40 °C

Application examples:

- Small industrial scale for pharmacies
- Hand mixtures of tea, coffee, chocolates
- Portioning of dough, meat, fish, poultry, mixed salads in cafeterias etc.
- pick your own fruit and vegetable sales
- High-precision industrial applications, piece counting or stock-taking

Note: In commercial trade, official verification duties exist

Accessories

- **Thermal receipt rolls** (10 pieces), width 56 mm, Ø 51 mm, KERN RFS-A10, **€ 35,-**
- **Signal lamp** for visual support of weighing with tolerance range, WxDxH 100x180x300 mm, KERN CFS-A03, **€ 250,-**
- **Rechargeable battery pack internal,** standard, operating time up to 150 hours without backlight and use of printer, charging time approx. 12 h, can be retrofitted, KERN HFM-A01, **€ 50,-**
- **Suitable printers** an extensive accessories range, see page 157 ff.

Bench scale up to 65 kg with large weighing plate

Features

- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Particularly practical:** thanks to the large weighing ranges and compact dimensions, you can accurately weigh heavy loads in the most restricted of spaces. Useful for determining very small weight differences, such as, for example, gas wastage, abrasion of mechanical parts etc.
- Freely programmable weighing unit, e.g. display direct in special units such as length of wire g/m, surface weight g/m² (paper, material, metal) or els

Technical data

- Large backlit LCD display, digit height 25 mm
- Weighing plate dimensions, stainless steel, WxD 340x240 mm
- Overall dimensions WxDxH 350x390x120 mm
- Optional battery operation, 9 V Block not included, operating time up to 12 h
- Net weight approx. 6,5 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing standard, can be retrofitted, KERN FKB-A02, **€ 25,-**
- **Rechargeable battery pack internal**, operating time up to 8 h, charging time approx. 10 h can be retrofitted, KERN PCB-A01, **€ 65,-**
- **Suitable printers** an extensive accessories range, see page 157 ff.

Large, high resolution bench scale, also with EC type approval [M]

Features

- Thanks to the high resolution of up to 360.000 points it is ideal for high-precision weighing in the industrial field. It is also available in a version with EC type approval class II for applications which require verification (FKB-M)
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- not for FKB-M: **Freely programmable weighing unit**, e.g. direct display in special units such as length of wire g/m, surface weight g/m², or else
- **Particularly practical**: thanks to the large weighing ranges and compact dimensions, you can accurately weigh heavy loads in the most restricted of spaces. Useful for

determining very small weight differences, such as, e.g. gas wastage, abrasion of mechanical parts, rock samples, minerals, druses, silver etc.

Technical data

- Backlit LCD display, digit height 18 mm
- Weighing plate dimensions, stainless steel, WxD 340x240 mm
- Dimensions housing WxDxH 350x390x120 mm
- Optional battery operation, batteries 6 x 1.5 V Size C, not standard, operating time up to 40 h
- Net weight approx. 6,5 kg
- Permissible ambient temperature
KERN FKB: 10 °C / 40 °C
KERN FKB-M: 10 °C / 30 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN FKB-A02, **€ 25,-**
- only FKB: **Rechargeable battery pack external**, operating time up to 25 hours with backlight, charging time approx. 10 h, KERN KS-A01, **€ 180,-**
- **Tare pan made from stainless steel**, ideal for weighing loose small parts, fruit, vegetables etc., WxDxH 370x240x20 mm, for details see page 161, KERN RFS-A02, **€ 50,-**
- **Suitable printers** an extensive accessories range, see page 157 ff.

Touchscreen industrial scale with enormous range of functions, also with EC type approval [M]

Display at full size, operating mode Counting

- **Innovative touchscreen:** Large touch-sensitive, backlit screen with very good contrast for easy operation and convenient reading
- **Advantages:**
 - The menu and processes are self-explanatory
 - No more errors or lost time through keys with several functions assigned to them or unclear markings
 - Large keys, which can also be operated while wearing gloves
 - More efficient, rapid operation

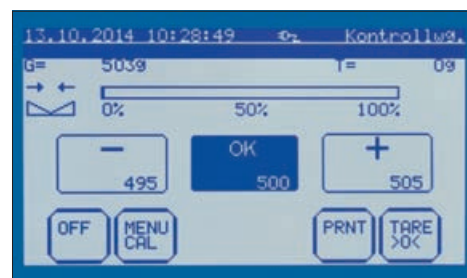

Easy entering of text and values

e.g. up to 80 item descriptions, user name, weights for tare containers, etc. using large keypad

80 memories for each mode (FKT-M: 40)

e.g. for checkweighing, PRE-TARE, reference weight, target weight when dispensing etc.

Weighing with tolerance range

(checkweighing): a visual and audible signal helps with portioning, dispensing or grading

Bench scale KERN FKT

Features

- **Convenient recipe weighing:** 99 recipes with 10 components each can be stored in plain text (FKT-M: 5 recipes with 7 components each). If there is an excess amount of one recipe ingredient the practical back calculation function automatically calculates the new target weights of the other ingredients. The actual and target values and the proportional percentage can then be printed. The recipes can be generated easily in an Excel list at the PC and transferred to the balance using the RS-232 interface. Alternatively, the recipes can also be entered directly using the keypad
- **Multiplier function:** recipes where the ingredients have been recorded as percentages can easily be multiplied when a new target weight is entered, target weight, which is ideal for the production of larger containers, bulk packs etc.
- **16 print forms** which can store up to 20 pieces of information, such as, e.g. date, time, operator, item, net, tare, gross, PCS, target weight, PRE-TARE etc. The print forms can be created easily in an Excel list at the PC and transferred to the balance using the RS-232 interface
- **Rapid function** for shortened stabilisation time with reduced resolution
- **Control outputs (optocoupler, digital I/O)** to connect relays, signal lamps, valves etc. (35 V / 80 mA)
- **Hook for underfloor weighing** of hanging loads standard for models with weighing plate size **B**

Technical data

- Backlit LCD graphic display with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm)
- Weighing plate dimensions WxD
 - A** 253x228 mm
 - B** 340x240 mm, see enlarged picture
- Overall dimensions WxDxH
 - A** 270x345x106 mm
 - B** 350x390x120 mm
- Optional battery operation, only for models with weighing plate size **B**, 6 x 1.5 V Size C not included, operating time up to 20 h
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, for models with weighing plate size
 - A** KERN FCB-A02, € 25,-
 - B** KERN FKB-A02, € 25,-
- **Rechargeable battery pack external**, operating time up to 10 h with backlight, charging time approx. 10 h, not for FKT-M, KERN KS-A01, € 180,-
- **Signal lamp** for visual support of weighing with tolerance range, for details see page 160, KERN IKT-A04, € 250,-
- **RS-232/Ethernet adapter**, to connect balances with an RS-232 interface to a network via Ethernet, for details see page 158, KERN YKI-01, € 390,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Modes

- ① Weighing
- ② Counting
- ③ Dispensing
- ④ Recipe weighing
- ⑤ Checkweighing
- ⑥ Totalising with daily total
- ⑦ Percentage determination
- ⑧ Animal weighing
- ⑨ Surface weight
- ⑩ Density determination, only with **B**, not for **M**
- ⑪ Rapid function, not for **M**

Functions

- Capacity display, with ① - ②, ⑤ - ⑦, ⑨ - ⑪
- Dispensing aid (-/+), with ③, ④
- Net/Gross display, permanent on, with ①, ③ - ⑤, ⑧ - ⑪
- Variable reference quantity, with ②
- Automatic reference optimisation, with ②
- Tare deduction numerical or from the memory unit, with ① - ⑦, ⑪
- Input of item or batch description, operator etc., with ① - ⑦, ⑪
- Freely programmable weighing unit, e.g. direct display in special units such as length of thread g/m, grammage g/m², or similar, with ⑨
- Date/time, with ① - ⑪
- Statistical function, with ①
- GLP printout, with ① - ⑪
- Individual formatting of up to 16 printer forms, recipes, operating mode master data in MS Excel, import via RS-232, for examples, see the internet, with ① - ⑪

KERN scales – not scared of water at all!

Scales used in industrial situations are often exposed to extreme stresses and strains. Water, oils, fats, varnish, dust, dirt, flour, small parts, etc. are all natural enemies of a scale. In industries such as the chemical, pharmaceutical, food, manufacturing industries, etc. scales must be able to cope with these stresses without this affecting their performance.

For use in such harsh environmental conditions, levels of protection are defined, which specify which environmental stresses a system can be exposed to with respect to the level of contact, foreign object and moisture protection, without damage being caused to the unit. These levels of protection are described in the following standard: "DIN EN 60529: protection types through housing" The IP code usually consists of a two-digit combination, which gives the relevant level of protection, e.g. IP68. The first digit specifies the protection level for contact protection and protection against foreign bodies (dust protection), the second digit is for the water and moisture protection (protection against splashes of water).

The stainless steel weighing plates of the IP65...68 protected KERN stainless steel balances meet the 1.4301 (DIN X5CrNi18-10) standard and support you in your HACCP-compliant quality system.

Your KERN product specialist will be happy to help:

IP protected bench scale KERN WTB-N

Ideal for the food industry, thanks to its IP65 protection and special checkweighing display, now also with EC type approval [M]

Features

- **Suitable for the ever-increasing hygienic requirements in the food industry**
- **IP65:** Protected against dust and water splashes (only when using rechargeable battery pack)
- Weighing plate stainless steel, removable, for easy cleaning
- Your support in an **HACCP**-compliant quality system
- **2 Second display** on the rear of the balance
- **3 Innovative weighing with tolerance range (Checkweighing):** The colour of the display changes depending on the weight (too light/ok/too heavy) and is an aid to help with portioning, dosing and grading

- **High mobility** thanks to its rechargeable batteries (optional) and low weight
- **Recessed grips on the underside** of the scale for easy transportation

Technical data

- Large backlit LCD display, digit height 25 mm
- Weighing plate dimensions WxD 260x200 mm
- Overall dimensions WxDxH 286x316x126.5 mm
- Net weight approx. 3,2 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, can be retrofitted, KERN RFB-A01, **€ 25,-**
- **Rechargeable battery pack internal**, operating time up to 50 h, charging time approx. 12 h, can be retrofitted, KERN WTB-A01N, **€ 35,-**
- **4 Tare pan made of stainless steel**, ideal for weighing loose fruit and vegetables, WxDxH 370x240x20 mm, for details see page 161, KERN RFS-A02, **€ 50,-**
- **Sturdy transport case** to protect and store the scale, dimensions WxDxH 510x360x220 mm, for details see page 162, KERN RFB-A02, **€ 95,-**

IP protected bench scale KERN FFN-N

Robust, space-saving bench scale, stainless steel and IP65 protected, also with EC type approval [M]

Features

- **1 Ideal for the food industry**
- **2 Ideal for robust industrial appl.**
- **High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations such as production, kitchen, sales office etc.
- **Stainless steel housing,** rust-proof and easy to clean
- **Recessed grips on the underside** of the scale for easy transportation
- **3 IP65:** Protected against dust and water splashes (only when using rechargeable battery pack)

- Your support in an **HACCP**-compliant quality system

Technical data

- Large backlit LCD display, digit height 25 mm
- Weighing plate dimensions stainless steel, WxD 230x190 mm
- Overall dimensions 230x300x130 mm
- Rechargeable battery pack internal, standard, operating time up to 50 h without backlight, charging time approx. 12 h
- Net weight approx. 3,2 kg
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Tare pan made of stainless steel,** ideal for weighing loose small parts, fruit, vegetables etc., WxDxH 370x240x20 mm, for details see page 161, KERN RFS-A02, **€ 50,-**

Robust, space-saving bench scale, stainless steel and IP68 protected

Features

- **Ideal for the food industry**
- **Ideal for robust industrial application**
- **IP68 protection:** very high class of protection against dust and water. Making it very robust and durable. Ideal for harsh ambient conditions. Submersion in water actually possible
- **Stainless steel housing,** rust-proof and easy to clean
- **Very fast display:** steady weight values within 2 sec
- **High mobility:** Battery operation, compact construction and low weight make this balance ideal for use in several locations (production, kitchen, sales office etc.)
- **Recessed grips on the underside** of the scale for easy transportation

• Weighing with tolerance range

- (**checkweighing**): Input of an upper/lower limit value. A visual and audible signal assists with portioning, dispensing or grading
- Your support in an **HACCP**-compliant quality system

Technical data

- Large backlit LCD display, digit height 25 mm
- Weighing plate dimensions, stainless steel, WxD 236x195 mm
- Overall dimensions WxDxH 240x280x120 mm
- Ready for use: Batteries included, 4 x 1.5 V Size D, operating time up to 200 h, AUTO-OFF function to preserve the batteries, can be switched off
- Net weight approx. 3,5 kg
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Tare pan made of stainless steel,** ideal for weighing loose small parts, fruit, vegetables etc., WxDxH 370x240x20 mm, for details see page 161, KERN RFS-A02, **€ 50,-**

Stainless steel platform scales KERN SFB · SFB-H

1 KERN SFB

3 KERN SFB-H

Stainless steel platform scales with IP65 protection, also with XL platform or EC type approval [M]

Features

- **Ideal for robust industrial application**
- **Scale entirely out of stainless steel**
- **Load cell stainless steel**, silicone-coated, IP67
- **Display device: IP65** (only when using rechargeable battery pack)
- **only SFB-H: Stand** to elevate display device, standard, for models with weighing plate size 300x240 mm: height of stand approx. 200 mm 400x300 mm: height of stand approx. 400 mm, **enlarged picture**

- Your support in an **HACCP**-compliant quality system

Technical data

- Large backlit LCD display, digit height 52 mm
- Dimensions of display device WxDxH 266x165x96 mm
- Cable length of display device approx. 2 m
- Rechargeable battery pack internal, standard, operating time up to 35 h without backlight, charging time approx. 12 h
- Permissible ambient temperature SFB: 0 °C / 40 °C, SFB-M: -10 °C / 40 °C

Accessories

- **Data interface RS-232**, interface cable included, approx. 1.5 m, must be ordered at purchase, KERN KFN-A01, **€ 95,-**
- **Only SFB: Stand** to elevate display device, to be screwed onto the platform, height of stand approx. 600 mm, KERN SFB-A01, **€ 70,-**
- **Suitable printers** an extensive accessories range, see page 157 ff.

Stainless steel / IP65...68 Protection

Stainless steel platform scale with stainless steel IP68 display and EC type approval [M]

Features

- **Ideal for robust industrial application**
- **1** Substruction in wing design, extremely resistant to bending, stainless steel
- **2** **Scale entirely out of stainless steel** with IP68 protected display device, very high class of protection against dust and water. Ideal for harsh environmental conditions, industrial applications or the food industry, hygienic and easy to clean. Display device with integrated power supply. Wall mount standard. For further details on the KERN KXS-TM display device, see page 136

- **3** **Load cell stainless steel**, silicone-coated, IP67
- **Superior display size:** digit height 55 mm. Bright backlight for easy reading of weight, even in poor lighting conditions
- Thanks to the RS-232, RS-485 and Bluetooth (optional) interfaces, the scale can easily be connected to existing networks. Data exchange between the scale and PC or printer is made easier
- **ESD drain to protect against electrostatic discharge** e.g. for electrostatically-charged weighing items or people working with the scale

Technical data

- Large backlit LCD display, digit height 55 mm
- Weighing plate dimensions, stainless steel, WxDxH
 - A** 300x240x86 mm, **B** 400x300x89 mm
 - C** 500x400x135 mm, **D** 650x500x133.5 mm
- Dimensions of display device WxDxH 232x170x80 mm
- Cable length of display device approx. 2,5 m
- **Rechargeable battery pack internal** standard, operating time up to 80 h without backlight, charging time approx. 12 h

Accessories

- **Data interface RS-232**, must be ordered at purchase, KERN KXS-A04, **€ 40,-**
- **Data interface RS-485**, must be ordered at purchase, KERN KXS-A01, **€ 80,-**
- **Bluetooth data interface** for wireless data transfer to PC, must be ordered at purchase, KERN KXS-A02, **€ 100,-**
- **Foot switch**, must be ordered at purchase, details see page 160, KERN KXS-A03, **€ 65,-**
- **Suitable printers** see page 157 ff.

Verification at the factory, we need to know the full address of the location of use.

ATEX scales

IEX 78

Robust platform scale with ATEX approval for use in potentially explosive atmospheres

OEX 79

Robust stainless steel platform scale with ATEX approval for use in potentially explosive atmospheres

But also in the pharmaceutical or chemical industries, where you are processing oils, alcohols or Benzenes, in the manufacture of paints and lacquers, as well as in the cosmetics industry in the manufacture of alcohol-based cosmetics.

Note: Power supply to the ATEX scales is from a power source outside the explosion-proof area.

ATEX - Safe weighing in potentially explosive atmospheres!

ATEX is derived from the French words for explosive atmosphere (**AT**mosphère **EX**plosible) and is a synonym for EU guidelines, for the quality and the use of equipment in hazardous industrial environments.

ATEX balances were developed specifically for those areas where there is explosion danger, e.g. through handling of flammable substances, which are present in high concentrations in the form of gas, mist, vapour or dust.

Typical fields of application are to be found, for example, in the crude oil processing industry, i.e. in all kinds of refineries.

Your KERN product specialist will be happy to help:

NEW

Robust platform scale with ATEX approval for use in potentially explosive atmospheres

Features

- The range has European ATEX approval: II 2 G IIB T4 for use in hazardous industrial environments of zone 1, where there is an explosion danger, e.g. due to handling of flammable substances present in high concentrations in the form of gas, mist or vapour
- Especially suitable for:
 - Varnish industry
 - Chemistry/Petrochemical industry
 - Cosmetics production
 - Plastics production
- **Stainless steel weighing plate**, substruction in wing design, steel, lacquered
- **Load cells**: Aluminium, silicone-coated, protected against dust and water splashes (IP65)

- **Robust stainless steel display device**, protected against dust and water splashes (IP67)
- **Benchtop stand/wall mount** for display device as standard

Technical data

- Backlit LCD display, digit height 18 mm
- Weighing plate dimensions, stainless steel, WxDxH
 - A 300x300x70 mm
 - B 500x400x105 mm
- Dimensions of display device WxDxH 170x172x76 mm (incl. benchtop stand: WxDxH 226x250x120 mm)
- Cable length of display device, shielded and fail safe, 6-core, length approx. 2,5 m

4 Power supply through a power source outside the explosion-proof area. 20 m long cable with 3 screw coupling to fix the display device and integrated mains adapter. When ordering your scale, please state whether you require an EU or UK mains adapter, as this cannot be retrofitted.

- Permissible ambient temperature -10 °C / 40 °C

ATEX scale KERN OEX

KERN OEX-HM

1 Power supply through a power source outside the explosion-proof area. 20 m long cable with screw coupling to fix the display device and integrated mains adapter. When ordering your balance, please state whether you require an EU or UK mains adapter, as this cannot be retrofitted.

Robust stainless steel platform scale with ATEX approval for use in potentially explosive atmospheres

Features

- The range has European ATEX approval: II 2 G IIB T4 for use in hazardous industrial environments of Zones 1 and 2, where there is explosion danger, e.g. due to handling of flammable substances, present in high concentrations in the form of gas, mist or vapour
- Especially suitable for:
 - Paint industry
 - Chemistry/Petrochemical industry
 - Cosmetics production
 - Plastics production

- Scale entirely out of stainless steel with IP67 protected display device
- Load cells, stainless steel, silicone-coated protection against dust and water splashes (IP67)

Technical data

- Backlit LCD display, digit height 18 mm
- Weighing plate dimensions, stainless steel, WxDxH
 - A 250x300x155 mm
 - B 410x410x155 mm
 - C 500x500x155 mm

- Dimensions of display device WxDxH 170x172x76 mm (only OEX-M: incl. benchtop stand: WxDxH 226x250x120 mm)
- Only OEX-HM: Height incl. fitted column, approx. 790 mm
- Cable length of display device, shielded and fail safe, 6-core, length approx. 2,5 m
- Permissible ambient temperature -10 °C / 40 °C

Scales to meet Pre-packaging legislation

FKTF

82

Intuitive touchscreen bench scale with extensive statistics functionality for sample control, in accordance with pre-packaging legislation

Pre-packaging legislation

For scales which are intended for use with pre-packaged products, § 22 of the pre-packaging legislation is applicable. It says that:

(1) Pre-packed goods which are labelled by weight or volume and with the same nominal contents may only be produced commercially in such way that the content at the point of manufacture

- a. does not, on average, remain below the nominal content and
- b. does not exceed the values specified in clause 3 for the negative deviation from the nominal content.

(2) Pre-packed goods labelled by weight or volume and with the same nominal contents may be treated commercially within the scope of this ordinance, if the content at the point of manufacture

- a. does not, on average, remain below the nominal content and
- b. does not exceed the values specified in clause 3 for the negative deviation from the nominal content.

(3) The permitted negative deviations are:

Nominal contents Q_N in g or ml	Permitted negative deviation	
	in % of Q_N	in g or ml
5 to 50	9	–
50 to 100	–	4.5
100 to 200	4.5	–
200 to 300	–	9
300 to 500	3	–
500 to 1.000	–	15
1.000 to 10.000	1.5	–

When using this table, the values calculated in weight or volume units for the permitted negative deviation, given as a percentage, are rounded to the nearest 0.1 gram or 0.1 millilitre. Negative deviations may be exceeded by a maximum of 2 percent of the pre-packed goods.

(4) Pre-packed goods are labelled by weight or volume and with the same nominal contents may only be put on the market commercially for the first time, if the negative deviation from the nominal content does not exceed twice the values specified in the table of clause 3.

These rules give the manufacturers of pre-packed products clear guidelines for production control and give the consumer reassurance that the actual content of such products is consistent with the information printed on the goods by the manufacturer.

Pre-packed products, which are produced and tested in accordance with the pre-packaging legislation, generally carry this marking on their label: ∞

Scales which are to be used for the control of pre-packed goods must come with type approval as well as verification.

The selection of the non-automatic scale is based, on the hand, on to the required maximum load, as well as on largest permitted verification value [e] for the respective nominal contents:

Nominal contents Q_N of the pre-packed goods	largest permitted Verification Value [e]
≤ 10 g (ml)	0.1 g
from 10 g (ml) to ≤ 50 g (ml)	0.2 g
from 50 g (ml) to ≤ 150 g (ml)	0.5 g
from 150 g (ml) to ≤ 500 g (ml)	1.0 g
from 500 g (ml) to ≤ 2.5 kg (l)	2.0 g
2.5 kg (l) and more	5.0 g
from 10 kg (l) to ≤ 15 kg (l)	10 g
from 15 kg (l) to ≤ 25 kg (l)	20 g
from 25 kg (l) to ≤ 100 kg (l)	50 g

Finally, it is to be observed that for scales used for pre-packed goods control, in many European countries the re-verification intervals are shorter than for verified scales used in standard applications, usually one year.

○ = Option

Intuitive touchscreen bench scale with extensive statistics functionality for sample control, in accordance with pre-packaging legislation

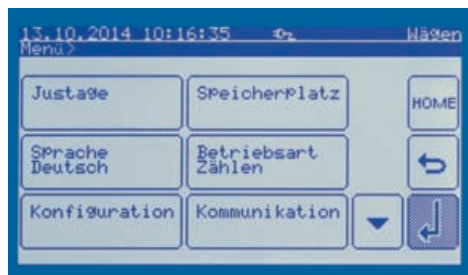

Wide range of options for sample control
such as, e.g., sample checking and analysis of with an average tare value without destroying the sample etc.

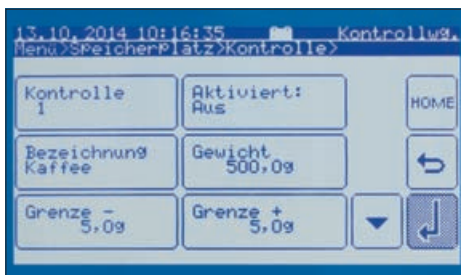

... or sample control which will lead to sample destruction

Printout of daily and weekly statistics from up to 45 series of measurements

Clear menu structure with plain text labelled keys and touch-sensitive display
The menu and processes are self-explanatory. This reduces training times, avoids operating errors and in this way, ensures more efficient functionality

400 item memories for master data such as PRE-TARE (packaging weight), free limit values, user name, machine number, batch description etc.

Easy input of text and values
e.g. item descriptions, user name, packaging weights etc. using large keypad

Features

- **Innovative touchscreen:** touch-sensitive, backlit screen with very good contrast for easy operation and convenient reading
- **Comfortable entering** of article master data, free limit values, username etc. by a large-area keypad
- **Complete analysis** of TO, TU, TU1 and TU2 including values not meeting the limits
- Possible print-out of sample analysis and statistics
- Scale can be protected from unauthorized use by means of a **password**
- **Hook for underfloor weighing** of hanging loads, standard

Technical data

- Backlit LCD graphic display with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm)
- Weighing plate dimensions, stainless steel, WxD 340x240 mm
- Dimensions housing WxDxH 350x390x120 mm
- Optional battery operation, 6 x 1.5 V Size C not included, operating time up to 15 h
- Net weight approx. 6,5 kg
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN FKB-A02, **€ 25,-**
- **Matrix needle printer**, to print the weights on normal paper, ideal for long-term archiving, KERN 911-013, **€ 330,-**
- **Suitable printers** see page 157 ff.

Modes

- ① Weighing
- ② Statistical analysis according to pre-packaging legislation

Functions

- Capacity display with ①
- PRE-TARE from the memory unit with ① and ②
- Input of item or batch description, operator etc. with ②
- Date/time with ① and ②
- 400 item memories with master data such as TU, TO, TU1, TU2 with ②
- Sampling tests according to weight and volume with ②
- GLP printout with ① and ②
- Analysis of samples with average tare value with ②
- Analysis of samples with individual tare first (in accordance with pre-packaging legislation) with ②
- Analysis of samples with differing tare values, followed by destructive analysis (in accordance with pre-packaging legislation) with ①
- Analysis of samples in accordance with the limits specified by pre-packaging legislation for TU1 + TU2 with ②
- Analysis of samples based on free limits for TO, TU, TU1 + TU2 with ②
- Daily statistics from 45 measurement series with ②
- Weekly statistics from 45 measurement series with ②

Price computing scales

RFB 85

Retail scale with protection against dust and water splashes, ideal for mobile applications

RPB 86

Retail scale with memories for item prices

Price computing scales are used wherever the price of goods is calculated dependent on the weight of the goods. These scales are subject to obligatory verification (→ **Verification**) in accordance with European Directive 2009/23/EC. Usually, are verification class **MIII** scales.

KERN mobile retail scales are compact in size and therefore save space on the sales counter. Thanks to the simple menu structure they are easy to use – saving time and money.

Fitted with mains or rechargeable batteries as standard, price computing scales can be used in retail shops as well as on mobile sales stalls.

All price computing scales from KERN have three displays showing you all important information at a glance:

- Weight display in kg (verifiable)
- Unit price in €/ kg or €/ 100 g
- Total price in €

KERN entry level retail scales have direct access keys (→ **PLU**), to which a sales item with its relevant price can be assigned to. In this way, frequently used sales items can called up at lightning speed. This accelerates customer service and reduces waiting times.

→ See the glossary on page 191 – 192

Price computing scale KERN RFB

Retail scale with protection against dust and water splashes, ideal for mobile applications

Note: In commercial trade, official verification duties exist

Features

- **IP65:** Protected against dust and water splashes, only when using rechargeable battery pack
- **Soil-resistant construction** with water channels at the edge of the housing and sealing rings over the upper housing inlets
- **Second display** on the rear of the scale
- **Three displays** for: weight (verifiable), unit price, total price
- **Unit price can be switched** from €/kg to €/100 g
- **4 direct price keys (PLU)** for frequently recurring article prices
- **High mobility** thanks to its rechargeable batteries and low weight
- **Compact size**, practical for small spaces

Technical data

- Large backlit LCD displays, digit height 24 mm
- Weighing plate dimensions WxD 260x200 mm
- Overall dimensions WxDxH 286x316x126 mm
- Rechargeable battery pack internal, standard, operating time up to 60 h, charging time approx. 12 h
- Net weight approx. 4,2 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN RFB-A01, **€ 25,-**
- **Tare pan made of stainless steel**, ideal for weighing loose fruit and vegetables, WxDxH 370x240x20 mm, for details see page 161, KERN RFS-A02, **€ 50,-**
- **Sturdy transport case** to protect and store the scale, internal dimensions balance compartment WxDxH 330x290x117 mm, dimensions WxDxH 510x360x220 mm, for details see page 162, KERN RFB-A02, **€ 95,-**

Retail scale with memories for item prices

Features

- **Elevated display** backlit, revolving on column, height of stand approx. 530 mm, only RPB-HM, must be ordered at purchase
- **Second display** on the rear of the scale, standard (only with models without the elevated indicator)
- **Three displays** for: weight (verifiable), unit price, total price
- **Unit price can be switched** from €/kg to €/100 g
- **Memory (PLU) for 10 article prices**
- **Auto-clear-key:** Unit price entry is automatically set to zero when scale is unloaded
- **High mobility** thanks to its rechargeable batteries (optional) and low weight

Technical data

- Large backlit LCD displays, digit height 20 mm
- Weighing plate dimensions, stainless steel, WxD 294x225 mm
- Overall dimensions WxDxH 320x350x125 mm
- Net weight
- RPB: approx. 3,3 kg,
- RPB-H: approx. 4,7 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** standard, can be retrofitted, KERN CFS-A02, € 25,-
- **Rechargeable battery pack internal**, operating time up to 80 h without backlight, charging time approx. 14 h (internal charging via mains adapter). AUTO-OFF function to preserve the battery, can be switched off, KERN GAB-A04, € 40,-

Counting scales / Counting systems / Special stocktaking scales

SMT	89	Innovative stocktaking scale with touchscreen to efficiently measure beverage residuals in bottles and information transfer to the PC	IFS	94	Industrial counting scale with convenient keypad for easy data entry - now also with EC type approval [M], counting resolution up to 75,000 points
CXB-N	90	Entry level model in professional counting, also with EC type approval [M], counting resolution of 30,000 points	CDS	95	Easy to use industrial counting scale for heavy loads, counting resolution up to 300,000 points
CPB	91	Professional model, also with EC type approval [M], counting resolution up to 60,000 points	CCS	96	Counting system to count very small parts in largest quantities, counting resolution up to 999,999 points
CFS	92	Professional, high-resolution counting scale with 100 item memories and second balance interface, counting resolution up to 75,000 points	FKA	98	Stocktaking scale with touchscreen to quickly measure the quantity of stock items and information transfer to the PC
CKE	93	Easy to use, self-explanatory counting scale with laboratory accuracy, counting resolution up to 360,000 points	FKC	99	High-resolution stocktaking counting system with touchscreen to quickly measure the quantity of stock items and information transfer to the PC

Counting, doing it right!

For counting correctly a few parameters need to be taken account when selecting a counting scale.

Minimum piece weight

Smallest piece the scale will accept for piece counting and piece count display. In practice, depending on the required accuracy, we recommend you choose a counting scale with a minimum piece weight is smaller than the weight the item to be counted.

→ Counting resolution

Describes the maximum quantity which can be counted with a counting accuracy of 1 %, with a minimum variation of item weights and a sufficiently large reference quantity (20 pieces with counting resolution ≤ 60,000 points, 50 pieces from 60,000 – 150,000 points, 100 pieces ≥ 150,000 points). This therefore is an indication of the quality of the counting scale.

Recommended → reference quantity

Weight tolerances of pieces to be counted are the the most significant sources of error when counting. Therefore, at the start of every counting procedure, establish an average weight, the so-called reference weight, by placing several pieces on the scale, the so-called reference quantity. Usually this would be:

5 pieces >> often sufficient

10 pieces >> common practise

20 – 100 pieces >> for large deviations among piece weights

The “automatic → **reference optimisation**” function increases the reference quantity gradually, whereby the average piece weight is optimised step by step. This contributes considerably to the accuracy of the subsequent counting processes.

Which counting scale for which application?

Simple counting scale

with self-explanatory user guidance on the keyboard. The graphic control panel enables you to start working immediately, without having to consult the user manual. Easy handling, value for money.

Professional counting scale

with 3 separate displays for reference weight (average weight of the pieces), total weight of all pieces and total quantity of all pieces. Very useful integrated memories, e.g. for container weight, item number, reference weight as well as audible and visual counting aids and an alphanumeric key pad for easy data entry.

Special tip for counting large quantities:

Counting systems

The weighing ranges of bench counting scales are often not sufficient to count large quantities, units, palletized items, etc. Here high-performance counting systems come into operation, as these combine a high-precision reference scale with a high-capacity bulk scale.

Special stocktaking scales SMT, FKA and FKC

For demanding quantity measurement, e.g. as part of a stocktake. With its easy-to-use touch screen, special stocktaking software and PC connection this makes it quicker to collect and analyse stock levels

Bottle stocktaking scale KERN SMT

Innovative stocktaking scale with touchscreen to efficiently measure beverage residuals in bottles and information transfer to the PC

Features

- **Your advantage:** Less time consuming, compared with the measuring method used up to now
 - Up to now: Generally, the content of a bottle is established by a visual check, i.e. estimated, documented manually and then manually entered into the PC.
 - New with KERN SMT: Now you can easily select drinks and spirits by item name, item number, autolist or using a barcode scanner, then you can weigh the bottle, transfer the results to the PC - and stocktaking is done!
- **400 item memories** for master data such as item name, item description, PRE-TARE, i.e. weight of the empty bottle, max. bottle content in g, specific weight of liquid etc. The associated stock list can easily be generated at the PC
- **Easy entering of items at the PC:** An excel list with spirit bottles produced at a PC can be transferred to the balance using the software included as standard. Whether in the bar or in the warehouse, the spirits can be weighed in their bottles. In Doing so, the stored bottle weight will be subtracted automatically. After the stocktaking, the results will be transferred back to the PC where they can then be processed further as an Excel table

- Determination of beverage inventory according to an internal stock list
- **Selecting the spirit:** During stocktaking, the beverage to be registered can be selected using item name, item number, autolist or using a barcode scanner

Technical data

- Backlit LCD graphic display with digit height 13 mm, screen diagonal 4,3" (approx. 109 mm)
- Weighing plate dimensions, stainless steel, WxD 160x200 mm
- Overall dimensions WxDxH 180x310x85 mm
- Rechargeable battery pack internal, standard, operating time up to 12 h without backlight, charging time approx. 10 h
- Net weight approx. 2,7 kg
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN 572-A02, **€ 25,-**
- **Volume kit** for determining the specific weight of beverages, scope of delivery: precision balance KERN EMB 600-2, beaker, pipette, KERN SMT-A05, **€ 350,-**

Counting scales / Counting systems / Special stocktaking scales

Counting scale KERN CXB

Note: Official verification duty for commercial trade

Entry level model into professional counting, also with EC type approval [M], counting resolution of 30,000 points

Features

- Precise counting:** The automatic reference weight optimisation gradually improves the average value of the piece weight
- Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- Three displays** for
 - Total weight (verifiable)
 - Piece weight
 - Total count
- Audible Fill-to-target:** target quantity or target weight can be programmed. When the target value is reached, a signal will sound

- Counting results memory:** adds up all individual piece counts, result is shown in total weight and total pieces
- Energy management:** Backlight turns off after 5 sec
- Soil-resistant construction** with water channels at the edge of the housing and sealing rings over the upper housing inlets
- PRE-TARE function** for manual subtraction of a known container weight, value can be saved

Technical data

- Large backlit LCD displays, digit height 18 mm

- Weighing plate dimensions, stainless steel WxD 300x225 mm
- Dimensions housing WxDxH 300x330x110 mm
- Rechargeable battery pack internal, standard, operating time up to 200 h without backlight, charging time approx. 8 h
- Net weight approx. 4 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN CXB-A01, € 25,-

New model

Counting scale KERN CPB

Professional model, also with EC type approval [M], counting resolution up to 60,000 points

Features

- **Precise counting:** The automatic reference weight optimisation gradually improves the average value of the piece weight
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Three displays** for total weight (verifiable), piece weight, total count
- **Counting results memory:** adds up all individual piece counts, result is shown in total weight and total pieces
- **Audible Fill-to-target:** target quantity or target weight can be programmed, e.g. for checkweighing. When the target value is reached, a signal will sound

- **High mobility:** thanks to battery operation (optional), compact, flat construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department, ...)

Technical data

- Large backlit LCD displays, digit height 20 mm
- Weighing plate dimensions, stainless steel, WxD 294x225 mm
- Overall dimensions WxDxH 320x350x125 mm
- Net weight approx. 3,3 kg
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Protective working cover,** KERN CFS-A02, **€ 25,-**
- **Rechargeable battery pack internal,** operating time up to 90 h without backlight, charging time approx. 12 h, can be retrofitted, KERN GAB-A04, **€ 40,-**
- **Signal lamp** for visual support of weighing with tolerance range, for details see page 160, KERN CFS-A03, **€ 250,-**
- **Y cable** for parallel connection of two terminal devices to the RS-232 interface on the scale, e.g. signal lamp and printer, for details see page 160, KERN CFS-A04, **€ 35,-**
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Professional, high-resolution counting scale with 100 item memories and second balance interface, counting resolution up to 75,000 points

Features

- **Memory for 100 items** with additional text, reference weight and tare weight, e.g. of a container
- **Precise counting:** The automatic reference weight optimisation gradually improves the average value of the piece weight
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Weighing with tolerance range (checkweighing)**, ideal for portioning, dispensing, grading, only in weighing & counting mode
- **Fill-to-target function:** Programmable target quantity or target weight. An acoustic and visual signal will be displayed when the target value is reached

- **Second balance interface** to construct a high-resolution counting system, standard, e.g. with weighing bridges KERN KFP V20 (see page 138)

Technical data

- Large backlit LCD displays, digit height 20 mm
- Weighing plate dimensions
 - A Ø 80 mm
 - B WxD 294x225 mm, see enlarged picture
 - C WxD 370x240 mm
- Overall dimensions WxDxH
 - A 320x350x180 mm (incl. draft shield)
 - B 320x350x125 mm
 - C 370x360x125 mm
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing standard, can be retrofitted, only for models with weighing plate size B, KERN CFS-A02, € 25,-
- **Rechargeable battery pack internal**, operating time up to 70 h without backlight, charging time approx. 14 h, can be retrofitted, KERN GAB-A04, € 40,-
- **Signal lamp** for visual support of weighing with tolerance range, WxDxH 100x180x300 mm, KERN CFS-A03, € 250,-
- **Y cable** for parallel connection of two terminal devices to the RS-232 interface on the scale, e.g. signal lamp and printer, KERN CFS-A04, € 35,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Counting scale KERN CKE

Easy to use, self-explanatory counting scale with laboratory accuracy, counting resolution up to 360,000 points

Features

- **Self-explanatory graphic control panel**, counting process can be understood immediately, even without operating instructions
 - no learning time = reduces costs
 - ideal for untrained users
 - visualised process avoids operating errors
- The 4 steps are carried out from left to right:
 - 1 Place the empty container onto the weighing plate and tare by pressing the TARE key
 - 2 Place the reference quantity for the goods to be counted into the container (5, 10, or 20 pieces)
 - 3 Confirm the selected reference quantity by pressing the key (5, 10 or 20)
 - 4 Pour in the goods to be counted. The number of pieces will immediately be shown in the display

- **Precise counting:** The automatic reference weight optimisation gradually improves the average value of the piece weight
- **Two scales in one:** Switching from counting mode to weighing mode at the touch of a key

Technical data

- Large backlit LCD display
 - A, B digit height 9 mm
 - C digit height 18 mm
- Dimensions of weighing plate (stainless steel*)
 - A Ø 81 mm
 - B WxD 150x170 mm*
 - C WxD 340x240 mm*, see larger picture
- Overall dimensions WxDxH
 - A, B 167x250x85 mm
 - C 350x390x120 mm
- Optional battery operation for models with weighing plate size C, batteries 6 x 1.5 V
- Size C not standard, operating time up to 40 h

- Net weight for models with weighing plate size
 - A approx. 1 kg
 - B approx. 1,8 kg
 - C approx. 6,5 kg
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing standard, can be retrofitted, for models with weighing plate size
 - A KERN PCB-A02, € 25,-
 - B KERN PCB-A05, € 25,-
 - C KERN FKB-A02, € 25,-
- **Rechargeable battery pack external**, operating time up to 25 hours with backlight, charging time approx. 10 h, KERN KS-A01, € 180,-
- **Rechargeable battery pack internal** only for models with weighing plate size A and B, operating time up to 25 hours with backlight, charging time approx. 10 h, can be retrofitted, KERN KB-A01N, € 50,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Industrial counting scale with convenient decimal keypad for easy data entry - now also with EC type approval [M], counting resolution up to 75,000 points

Features

- **Industrial quality:** because of its stable construction and robust design, it is ideal for continuous use in an industrial environment
- **Ergonomic display device** with large keypad and high-contrast LCD display for easy entry and reading of, e.g., tare weights, reference weights, limit values etc.
- **99 item memories** for master data such as reference weight, reference quantity, container weight (PRE-TARE) etc.

- **Precise counting:** The manual reference weight optimisation gradually improves the average value of the piece weight
- **Totalising** of piece counts

Technical data

- Large backlit LCD displays, digit height 16,5 mm
- Weighing plate dimensions, stainless steel, WxDxH

- A 300x240x110 mm B 400x300x128 mm
- C 500x400x137 mm
- D 650x500x142 mm, see enlarged picture
- Dimensions of display device WxDxH 260x150x65 mm
- Cable length of display device approx. 2,5 m
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Protective working cover** standard, can be reordered, KERN KFB-A02, € 30,-
- **I Stand** to elevate display device, height of stand approx. 330 mm, KERN IFB-A01, € 45,- height of stand approx. 600 mm, for models with weighing plate size C and D, KERN IFB-A02, € 60,-
- **Rechargeable battery pack internal**, operating time up to 40 h, charging time approx. 12 h, must be ordered at purchase, KERN KFS-A01, € 35,-
- **Suitable printers** see page 157 ff.

NEW New model

Easy to use industrial counting scale for heavy loads, counting resolution up to 300,000 points

Features

- **Self-explanatory graphic control panel.**
The counting process can be understood immediately even without operating instructions
 - No learning time = reduces costs
 - Ideal for untrained users
 - Visualised process avoids operating errors
- The 4 steps are carried out from left to right:
 - 1 Place the empty container onto the weighing plate and tare by pressing the TARE key
 - 2 Place the reference quantity for the goods to be counted into the container (5, 10, or 20 pieces)
 - 3 Confirm the selected reference quantity by pressing the key (5, 10 or 20)

- 4 Pour in the goods to be counted. The number of pieces will immediately be shown in the display
- **Precise counting:** The automatic reference weight optimisation gradually improves the average value of the piece weight

Technical data

- Backlit LCD display, digit height 18 mm
- Weighing plate dimensions, stainless steel, WxDxH
 - A 228x228x70 mm
 - B 308x318x75 mm
 - C 450x350x115 mm
- Dimensions of display device WxDxH 225x115x60 mm

- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over the display device, standard, can be retrofitted, KERN DE-A12, € 30,-
- **Wall mount** for display device, KERN DS-A02, € 30,-
- **Mount** to fasten the display device to the platform, KERN DE-A11N, € 35,-
- **Stand** to elevate display device, height of stand approx. 480 mm, KERN DE-A10, € 90,-
- **Rechargeable battery pack external**, operating time up to 15 hours with backlight, charging time approx. 10 h, KERN KS-A01, € 180,-
- **Rechargeable battery pack internal**, operating time up to 15 hours with backlight, charging time approx. 10 h, can be retrofitted, KERN KB-A01N, € 50,-

Quantity scale KERN KFP

Reference scale KERN CFS

Counting system to count very small parts in largest quantities,
counting resolution up to 999,999 points

Features

- **This highly accurate counting system**
KERN CCS can replace a whole range of individual counting scales, efficiently and at a reasonable price

Reference scale KERN CFS:

- The professional KERN CFS counting scale, which can also be used as a stand-alone scale, meets the highest demands for accuracy, weighing range and volume of items, by being connected to a high-capacity weighing bridge (up to 999.999 pieces)

• Programmable using numerical key pad:

- required reference quantity
- known reference weight

• Memory (PLU) for 100 items with additional text

• Fill-to-target function: Programmable target weight. An acoustic and visual signal will be displayed when the target value is reached

• Precise counting: The automatic reference weight optimisation gradually improves the average value of the piece weight

- For additional details on the KERN CFS reference scale, see page 92

Quantity scale KERN KFP:

- The high-accuracy quantity counting takes place on the weighing platform (= weighing bridge) KERN KFP
- **Stainless steel weighing plate**, painted steel base with **A-E**, see page 97
- **Aluminium singlepoint load cell** (1 x 3000 e), dust and spray protection IP65
- For additional details on the KERN KFP quantity scale, see page 138

Counting system KERN CCS

Technical data

CFS:

- Large backlit LCD displays, digit height 20 mm
- Overall dimensions WxDxH 320x350x125 mm
- Dimensions of weighing plate, stainless steel
 - 1 CFS 300-3 Ø 80 mm
 - CFS 3K-5, CFS 6K0.1 LxP 294x225 mm
- Net weight approx. 3,3 kg

KFP:

- Dimensions of weighing plate, stainless steel, WxDxH
 - A 230x230x100 mm
 - B 300x240x100 mm
 - C 400x300x128 mm
 - D 500x400x137 mm
 - E 650x500x142 mm
 - F 1000x1000x80 mm
 - G 1500x1250x80 mm
 - H 1500x1500x80 mm
 - I 842x1300x90 mm

- Connection cable

- A - E approx. 2,5 m
- F - I approx. 5 m

Accessoires

- **Reference scale** also available separately, details see page 92, KERN CFS 300-3, **€ 350,-**, KERN CFS 3K-5, **€ 290,-**, KERN CFS 6K0.1, **€ 270,-**
- **Rechargeable battery pack internal**, operating time up to 70 h without backlight, charging time approx. 14 h, not for models CFS 300-3, KERN GAB-A04, **€ 40,-**
- **Signal lamp** for visual support of weighing with tolerance range. Three-colour LED (yellow, green, red). Overall dimensions WxDxH 100x180x300 mm, details see page 160, KERN CFS-A03, **€ 250,-**

Information on other high-capacity bulk scales, such as, for example, pallet scales, drive-through scales or floor scales is available on request, for information on other counting systems with the KERN CFS reference scale (d = 0.1g), please refer to the website

- **Y cable** for parallel connection of two terminal devices to the RS-232 interface on the balance, e.g. signal lamp and printer, details see page 160, KERN CFS-A04, **€ 35,-**
- **Suitable printers** and further, extensive accessories from page 157 ff.

Counting scales / Counting systems / Special stocktaking scales

Stocktaking scale with touchscreen to quickly measure the quantity of stock items and information transfer to the PC

Features

- **Application-orientated scale-PC system** for rapid and reliable recording of stock levels, e.g. as part of stocktaking
- **Using the software included as standard**, an Excel list produced on a PC with stocktaking items can be transferred to the scale. In the warehouse, stocktaking items can then be weighed, counted and stored by the scale, while still in their containers. In doing this, the stored container weight will be subtracted automatically. After the stocktaking, the stock level will then be transferred back to the PC, to then be processed further as an Excel table. In this way the workload and input effort at the scale is kept at a minimum and time efficiency is maximised = cost saving
- **Counting** with fixed and variable reference quantities
- **Precise counting:** The automatic reference weight optimisation gradually improves the average value of the piece weight

- **High Flexibility:** During stocktaking, stored PRE-TARE can be corrected immediately on the scale. Items which have not yet been recorded can easily entered using the scale and then transferred in the stock level list
- **1000 item memories** for master data, such as item number, PRE-TARE (container weight), reference quantity, refer. weight etc.
- During stocktaking it is possible to print individual items recorded

Technical data

- Large backlit and touch-sensitive LCD screen with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm)
- Dimensions housing WxDxH 350x390x120 mm
- Optional battery operation, 6 x 1.5 V Size C not included, operating time up to 15 h
- Net weight approx. 6,5 kg
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, KERN FKB-A02, € 25,-
- **Rechargeable battery pack external**, operating time up to 20 h without backlight, charging time approx. 10 h, KERN KS-A01, € 180,-
- **Barcode scanner**, table-top version, dimensions WxDxH 230x150x135 mm, KERN SMT-A02, € 685,-
- **Barcode scanner**, hand-held version, dimensions WxDxH 235x210x115 mm, KERN SMT-A03, € 445,-
- **Radio barcode scanner**, hand-held version, dimensions WxDxH 225x220x110 mm, KERN SMT-A04, € 495,-
- **Converter cable** (RS-232 to USB), KERN AFH 12, € 85,-
- **Y cable**, KERN FKA-A01, € 46,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

New Model

Price reduction

NEW

High-resolution stocktaking counting system with touchscreen to quickly measure the quantity of stock items and information transfer to the PC

Features

- **Counting with a reference balance for high counting accuracy:** the highly accurate KERN counting system FKC can replace a whole range of individual balances, efficiently and at a reasonable price. The counting system consists of an FKA bulk scale (see page 98 for details) and a KB-N reference balance (see page 26 for details) as well as an interface cable.
- **Application-orientated scale-PC system** for rapid and reliable recording of stock levels, e.g. as part stocktaking
- **Item recognition** using the optional bar-code scanner is possible.
- **Individual printout templates** can be stored for Weighing Mode and Counting Mode. Can be edited directly at the balance or at the PC
- **Note:** As well as stocktaking, the balance can be used in many other applications, e.g. as a weighing scale, commissioning scale or as a professional counting scale with item memory for up to 500 items and associated daily totals memory for each item.

Technical data Reference balance KB-N

- Large backlit LCD screen with digit height 9 mm
- Weighing plate dimensions Ø/WxD
KB 120-3N: Ø 81 mm
KB 1200-2N: 130x130 mm
- Dimensions housing KB-N:
WxDxH 167x250x85 mm
- Permissible ambient temperature 10 °C / 40 °C

Technical data Quantity scale FKA

- Large backlit and touch-sensitive LCD screen with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm)
- Dimensions housing FKA:
WxDxH 350x390x120 mm
- Optional battery operation, 6 x 1.5 V Size C not included, operating time up to 15 h
- Net weight approx. 6,5 kg
- Permissible ambient temperature 10 °C / 40 °C

Accessories Reference balance KB-N

- **Protective working cover** over keyboard and housing, standard, can be retrofitted, € 25,-
KB 120-3N: PCB-A02
KB 1200-2N: PCB-A04
- **Rechargeable battery pack external**, operating time up to 15 h without backlight, charging time approx. 10 h, KERN KB-A01N, € 50,-

SFE	110		
Platform scale with dust and spray protection IP65 and EC type approval [M]			

Platform scales – the all-rounder among industrial scales

In the KERN range there are portable, affordable entry level models for weighing post or parcels, high-quality models with a high → **IP protection** and type approval (→ **Verification**) for commercial trade applications, up to top level models with touchscreen technology for complex recipe or checkweighing applications with relay control – there is the right platform scale for each application.

Platform scales benefits are obvious:

- Weighing range from 3 kg – 600 kg
- Robust platform construction for harsh industrial applications
- Versatile, available with stand
- High overload protection
- Stainless steel weighing plate, shock proof and easy to clean
- Display device can be positioned separately, e.g. wall-mounted, on a stand or next to the platform.
This guarantees for an always clear view on the display despite bulky items on the scale
- Large selection of platform sizes

In order to meet the various requirements of our industrial customers, KERN platform scales have a large number of practical functions. From counting and recipe functions over → **data interfaces** for connecting scales to a network, PC or printer to the useful battery or rechargeable battery operation for mobile use. The funktion for “Weighing without vibrations” particularly useful for industrial weighing and guarantees stable results even in turbulent locations or when weighing animals – a true all-rounder.

The newest development for an even greater level of user-friendliness is the wireless communication between platform and display device, giving the highest level of flexibility – weighing at the location of use of installation and read the weight up to 20 m away.

Particularly practical: the touchless tare function allows for taring the scale without having to touch it by using movement sensors which is useful when working with gloves or dirty hands, see page 105, 116.

→ See the glossary on page 191 – 192

Parcel scales KERN EOA · EOE

KERN EOA

KERN EOE

Parcel scale for fast and easy weighing in the office, production, dispatch etc.

Features

- **High mobility:** Battery operation, compact, flat construction and low weight make this scale ideal for the use in several locations
- Weighing plate steel, lacquered

EOA:

- **Simple and convenient 2-key operation**
- **Adjusting program CAL**, external test weights at an additional price, see page 165 ff.

EOE:

- **Wall mount** for display device standard
- **Vibration-free weighing:** When the weighing conditions are unstable, a stable weight is calculated determining an average value

Technical data

- Large LCD display, digit height 25 mm
- Permissible ambient temperature 10 °C / 35 °C
- Ready for use: Batteries included, 9 V Block (EOA) / 6 x 1.5 V AA (EOE), operating time up to 60 h

EOA:

- Dimensions of display device WxDxH 226x55x111 mm

EOE:

- Dimensions of display device WxDxH 210x110x45 mm

Accessories

EOE:

- **Ascending ramp** incl. pair of base plates for models with weighing plate size WxD 505x505 mm, not included. WxDxH 505x507x61 mm, can be retrofitted, KERN EOE-A02, **€ 130,-**
- **Non-slip rubber mat**, WxD 945x505 mm, KERN EOE-A01, **€ 40,-**
- **Sturdy transport case**, for models with weighing plate size ≤ 315x305x65 mm, for details see page 162, KERN MPS-A07, **€ 105,-**

Parcel scales KERN EOB · EOS

KERN EOB

KERN EOS

The bestsellers in parcel- and veterinary scales, also with XL platform, and big weighing ranges

Features

- **Stainless steel weighing plate**, painted steel base
- **Simple and convenient 4-key operation**
- **Wall mount** for display device, standard
- **Vibration-free weighing:** When the weighing conditions are unstable, a stable weight is calculated determining an average value

EOS:

- The scale can be easily transported using 2 rollers and a handle and does not require much storage space

Technical data

- Large LCD display, digit height 25 mm

- Dimensions of display device WxDxH 210x110x45 mm
- Cable length of display device approx. 1,8 m
- Optional battery operation, 6 x 1.5 V AA not included, operating time up to 60 h
- Permissible ambient temperature 10 °C / 35 °C

EOB:

- Dimensions of weighing plate WxDxH
 - A 315x305x65 mm
 - B 550x550x65 mm, see enlarged picture
 - C 945x505x65 mm

EOS:

- Dimensions of weighing plate (stainless steel) WxDxH
 - D 900x550x60 mm

Accessories

- **1 Stand** to elevate display device, height of stand approx. 950 mm, can be retrofitted, KERN MWS-A01, **€ 160,-**

EOB:

- **Non-slip rubber mat**, only for models with weighing plate size **C**, KERN EOE-A01, **€ 40,-**
- **2 Stand** to elevate display device, height of stand approx. 450 mm, only for models with weighing plate size **A**, can be retrofitted, KERN EOB-A01N, **€ 70,-**

EOS:

- **Non-slip rubber mat** standard, can be retrofitted, KERN EOS-A01, **€ 35,-**

Parcel scales KERN EOB-F · EOS-F

KERN EOB-F

KERN EOS-F

Radio platform scales for maximum flexibility - now with new platform sizes

Features

- **Display device with integrated radio module** for wireless communication with the weighing platform: ideal for weighing contaminated items, weighing in loud environments or with physical separation. Range approx. 20 m
- **Touchless tare function:** by the wave of your hand. No need to operate the scale with dirty gloves anymore
- **Network operation:** 3 frequencies for parallel use of several weighing platforms with a single display device
- **High mobility** thanks to battery operation for display device and platform
- **Simple and convenient 4-key operation**
- **Stainless steel weighing plate**, painted steel base

- **Wall mount** for display device standard
- **Vibration-free weighing:** When the weighing conditions are unstable, a stable weight is calculated determining an average value

EOS-F:

- **2 rollers and handle** for easy transport of the scale

Technical data

- Large LCD display, digit height 25 mm
- Weighing plate dimensions, stainless steel, WxDxH
 - A 315x305x65 mm
 - B 550x550x65 mm
 - C 900x550x60 mm
- Dimensions of display device WxDxH 210x110x45 mm
- Optional battery operation, 6 x 1.5 V AA not included, operating time up to 70 h

- Permissible ambient temperature 10 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing, can be retrofitted, KERN EOB-A02, **€ 25,-**
- **Stand** to elevate display device, height of stand approx. 450 mm, only for models with weighing plate size A, can be retrofitted, KERN EOB-A01N, **€ 70,-**
- **Stand** to elevate display device, height of stand approx. 950 mm, can be retrofitted, KERN MWS-A01, **€ 160,-**

EOS-F:

- **Non-slip rubber mat** standard, can be retrofitted, KERN EOS-A01, **€ 35,-**

The long-time success story with dust and spray protected display device

Piece counting

Recipe weighing

Animal weighing

Features

- **High mobility:** Battery or rechargeable battery (optional) operation, compact and flat construction and low weight make this scale ideal for the use in several locations (production, warehouse, dispatch department ecc.)
- **Flexible positioning of display device:** e.g. free-standing or mounted to the wall (optional)

- **IP65 indicator.** Protected against dust and spray (only when using battery or rechargeable battery pack)
- **Stainless steel weighing plate,** painted steel base
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- With the **recipe function** you can weigh the different ingredients of a mixture. As a check, you can also call up the total weight of all the ingredients

- Freely programmable weighing unit, e.g. display direct in special units such as length of wire g/m, surface weight g/m², or else

Parcel scale KERN DE-D

Technical data

- Large backlit LCD display, digit height 25 mm
- Weighing plate dimensions stainless steel WxDxH
 - A 318x308x75 mm
 - B 318x308x85 mm
 - C 522x406x100 mm
 - D 522x403x90 mm, see enlarged picture
 - E 650x500x105 mm
- Dimensions of display device WxDxH 225x110x45 mm
- Optional battery operation, 9 V Block, not included
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over the display device, standard, can be retrofitted, KERN DE-A12, **€ 30,-**
- **Rechargeable battery pack internal**, operating time up to 15 h, charging time approx. 10 h, can be retrofitted, KERN NDE-A02, **€ 40,-**
- **Mount** to fasten the display device to the platform, can be retrofitted, KERN DE-A11N, **€ 35,-**
- **Wall mount** for display device, can be retrofitted, KERN DE-A13, **€ 30,-**
- **Stand** to elevate display device, can be retrofitted, height of stand approx. 480 mm, KERN DE-A10, **€ 90,-**

- **Individual header data:** the free software KERN SHM-01 can be used to set-up 4 header lines on the printout for printers YKN-01 and YKB-01N
- **Suitable printers** and an extensive accessories range see page 157 ff.

Robust platform scale with EC type approval [M], now also up to [Max] 600 kg

Features

- **Industrial quality:** because of its stable construction and robust design, it is ideal for continuous use in an industrial environment
- **Superior display size:** digit height 52 mm for the easy reading of weighing results, even under poor lighting conditions
- **Benchtop stand incl. wall mount** for display device as standard
- **Stainless steel weighing plate,** painted steel base
- **Level indicator and levelling feet** for precise levelling of the scale, fitted as standard, to give the most accurate weighing results
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual and audible signal assists with portioning, dispensing or grading
- **Totalising** of weighing results and piece counts
- **Vibration-free weighing:** When the weighing conditions are unstable, a stable weight is calculated determining an average value
- **New:** high-resolution models for high-precision weighing and models with a weighing range of 600 kg!

Industrial platform scale KERN IFB

Technical data

- Large backlit LCD display, digit height 52 mm
- Weighing plate dimensions (stainless steel) WxDxH
 - A 300x240x110 mm
 - B 400x300x128 mm
 - C 500x400x137 mm, see enlarged picture
 - D 650x500x142 mm
 - E 800x600x150 mm
- Cable length of display device approx. 2,5 m
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be retrofitted, KERN KFB-A02, **€ 30,-**
- **Signal lamp** for visual support of weighing with tolerance range. Details see page 160, can be retrofitted, KERN CFS-A03, **€ 250,-**
- **Stand** to elevate display device, height of stand approx. 330 mm, see illustration, can be retrofitted, KERN IFB-A01, **€ 45,-**
height of stand approx. 600 mm, can be retrofitted, for models with weighing plate size C, D and E, KERN IFB-A02, **€ 60,-**
height of stand approx. 750 mm, can be retrofitted, KERN BFS-A07, **€ 115,-**

- **Y cable**, RS-232, for details see page 160, can be retrofitted, KERN CFS-A04, **€ 35,-**
- **Rechargeable battery pack internal**, operating time up to 35 h, charging time approx. 12 h, must be ordered at purchase, KERN KFB-A01, **€ 35,-**
- **Large indicator with superior display size**, details see page 160, can be retrofitted, KERN YKD-A02, **€ 200,-**
- **Suitable printers** and an extensive accessories range see page 157 ff.

Platform scales 109

IP protected platform scale KERN SFE

Platform scale with dust and spray protection IP65 and EC type approval [M]

Features

- Robust stainless steel display device, ideal for industrial applications, hygienic and easy to clean
- **Load cells aluminium, silicone-coated. IP65:** Dust and spray protected
- **Stainless steel weighing plate**
- Painted steel base
- **Stainless steel display KERN KFE-TM**, for details see page 136. Flexible positioning, e.g. free-standing or mounted to the wall
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual and audible signal assists with portioning, dispensing or grading

- **Vibration-free weighing:** When the weighing conditions are unstable, a stable weight is calculated determining an average value
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels (only for non-verified models)

Technical data

- Large backlit LCD display, digit height 22 mm
- Weighing plate dimensions, stainless steel, WxDxH
 - A 300x240x110 mm
 - B 400x300x128 mm
 - C 500x400x137 mm
 - D 650x500x142 mm
- Dimensions of display device WxDxH 195x118x83 mm

- Cable length of display device approx. 1,5 m
- Rechargeable battery pack internal, standard, operating time up to 35 h without backlight, charging time approx. 12 h. Charge status indicator on display
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Tare pan made of stainless steel**, ideal for weighing loose screws, small parts etc., WxDxH 370x240x20 mm, KERN RFS-A02, **€ 50,-**
- **Stand** to elevate display device, can be retrofitted for models with weighing plate size
 - A, B, C, D: 2 height of stand approx. 200 mm, KERN SFE-A01, **€ 50,-**
 - B, C, D: 3 height of stand approx. 400 mm, KERN SFE-A02, **€ 50,-**
 - C, D: 3 height of stand approx. 600 mm, KERN SFE-A03, **€ 55,-**

IP protected platform scale KERN IXS

Platform scale with stainless steel IP68 indicator, XL display and EC type approval [M]

Features

- **Ideal for the robust industrial applications**
- **Robust stainless steel indicator** with IP68 protection, ideal for industrial applications, for easy and hygienic cleaning, with integrated power supply. Wall mount standard. For additional information see page 136, KERN KXS-TM
- **Superior display size:** digit height 55 mm. Bright backlight for easy reading of weighing results, even in poor lighting conditions
- **Stainless steel weighing plate**
- Substruction in wing design, extremely resistant to bending, steel, lacquered

- **3 Load cells** aluminium, silicone-coated. **IP65:** Dust and spray protected
- **ESD drain to protect against electrostatic discharge** e.g. for electrostatically-charged weighing objects or people who work with the scale
- Thanks to the RS-232, RS-485 and Bluetooth (optional) interfaces, the scale can easily be connected to existing networks to facilitate data exchange between scale, PC or printer

Technical data

- Large backlit LCD display, digit height 55 mm
- Weighing plate dimensions, stainless steel, WxDxH
 - A** 300x240x86 mm
 - B** 400x300x89 mm
 - C** 500x400x123 mm
 - D** 650x500x133.5 mm
- Dimensions of display device WxDxH 232x170x80 mm
- Cable length of display device approx. 2,5 m
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Rechargeable battery pack internal**, operating time up to 80 h without backlight, charging time approx. 12 h, must be ordered at purchase, KERN GAB-A04, **€ 40,-**
- **Bluetooth data interface** for wireless data transfer to PC or tablets, must be ordered at purchase, KERN KXS-A02, **€ 100,-**
- **Data interface RS-232**, must be ordered at purchase, KERN KXS-A04, **€ 40,-**
- **Data interface RS-485**, must be ordered at purchase, KERN KXS-A01, **€ 80,-**
- **Foot switch**, must be ordered at purchase, for details see page 160, KERN KXS-A03, **€ 65,-**
- **Suitable printers** see page 157 ff.

Precision industrial scale with laboratory accuracy, also with EC type approval [M] class II

Features

- High-capacity precision balance, ideal for high volume or heavy samples to be weighed with a high degree of accuracy
- **User guidance step by step** on display by Yes/No dialogue
- **Numerical subtraction of tare weight** for known container weight. Useful for checking fill-levels
- **Precise counting:** The automatic reference weight optimisation of reference weight gradually improves the average piece weight value

Technical data

- Large backlit LCD display, digit height 18 mm
- Weighing plate dimensions stainless steel WxDxH
 - A** 228x228x70 mm
 - B** 308x318x75 mm, see enlarged picture
 - C** 450x350x115 mm
- Dimensions of display device WxDxH 225x115x60 mm
- Cable length of display device
 - A, B** approx. 2 m
 - C** approx. 0,6 m
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over the display device, standard, can be retrofitted, KERN DE-A12, **€ 30,-**
- **1 Stand** to elevate display device, for models with weighing plate size **B, C**, height of stand approx. 480 mm, can be retrofitted, KERN DE-A10, **€ 90,-**
- **Mount** to fasten the display device to the platform, for models with weighing plate size **B, C**, can be retrofitted, KERN DE-A11N, **€ 35,-**
- **Wall mount** for display device, can be retrofitted, KERN DS-A02, **€ 30,-**
- **2 Set for underfloor weighing**, for models with weighing plate size **B**, can be retrofitted, KERN DS-A01, **€ 200,-**
- **Rechargeable battery pack external**, operating time up to 25 hours with backlight, charging time approx. 10 h, can be retrofitted, KERN KS-A01, **€ 180,-**
- **Rechargeable battery pack internal**, operating time up to 10 hours with backlight, charging time approx. 10 h, can be retrofitted, KERN KB-A01N, **€ 50,-**
- **Suitable printers** see page 157 ff.

High-resolution industrial scale, available also with internal adjustment and EC type approval [M]

Features

- **Laboratory balance with separate platform:** Ideal when working in a glove bag or under laboratory fume hoods. Particularly practical for weighing toxic, volatile or contaminated substances
- **1** Particularly suitable for compact, very dense samples, such as e.g. those in road construction or the construction industry
- **Robust construction of platform** ensures stability, protects the weighing system and is durable enough for with everyday use
- **2** only KERN ILJ-C: **Automatic internal adjustment** in the case of temperature change $\geq 3\text{ }^{\circ}\text{C}$ and time-controlled every 3 hours
- **Alibi memory:** paperless archive of weighing results, see page 11

- **Internal memory** for up to 999 weighing results, 1000 items or recipe ingredients, 100 container weights, 100 users
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Weighing with tolerance range (checkweighing):** a visual signal helps with portioning, dispensing or grading
- **Totalising** of weights (manual/automatic)
- **GLP/ISO record keeping of weight values** with date, time, user ID, project and serial number in combination with an appropriate KERN printer
- **Density determination** of liquids and solids. Step by step user guidance on display. The density is indicated directly on the display. Note: For interesting facts about density determination see page 11

Technical data

- Large backlit LCD display, digit height 18 mm
- Weighing plate dimensions WxD 347x259 mm
- Dimensions of display device WxDxH 270x165x115 mm
- Permissible ambient temperature $10\text{ }^{\circ}\text{C} / 40\text{ }^{\circ}\text{C}$

Accessories

- **Protective working cover** over the display device, standard, can be retrofitted, KERN ILS-A02, € 25,-
- **Suitable printers** see page 157 ff.

Touchscreen platform scale with enormous range of functions, available also with EC type approval [M]

Display at full size, operating mode weighing

• **Innovative touchscreen:** High-contrast, backlit and touch-sensitive display for easy operation and convenient reading

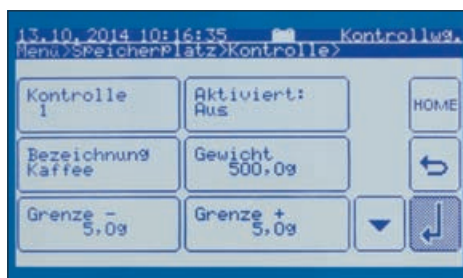

• **Advantages:**

- The menu and processes are self-explanatory
- No more errors or lost time through keys which have several functions assigned to them or unclear markings
- Large keys, which can also be operated when wearing gloves
- More efficient, rapid operation

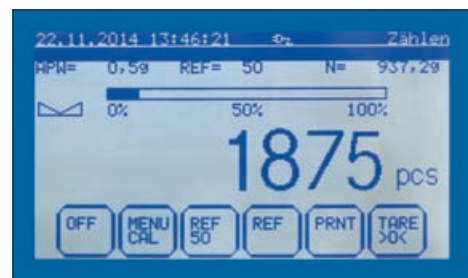

Easy entering of text and values

e.g. up to 80 item descriptions, user name, weights of tare containers, etc. using large keypad

80 memories for each mode

(IKT-M: 40) e.g. for checkweighing, PRE-TARE, reference weight, target weight for dispensing etc.

Professional counting function

All relevant counting information at a glance, such as, e.g. reference weight, reference quantity, total count, total weight, tare container weight, available weighing range and much more

Industrial platform scale KERN IKT

Features

- **Convenient recipe weighing:** 99 recipes each with 10 components can be stored in plain text (IKT-M: 5 recipes each with 7 components). If there is an excess amount of one ingredient the practical back calculation function automatically calculates the new target weights of the other ingredients. The actual and target values and the proportional percentage can then be printed
- **Multiplier function:** recipes where the ingredients have been recorded as percentages can easily be multiplied when entering the new target weight, which is ideal for the production of larger containers, bulk packs etc.
- **Rapid function** for shortened stabilisation time with reduced resolution
- **Control outputs (optocoupler, digital I/O)** to connect relays, signal lamps, valves etc. (35 V / 80 mA)

Technical data

- Backlit LCD graphic display with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm, WxH 108x74 mm)
- Weighing plate dimensions, stainless steel, WxDxH
 - A 228x228x70 mm, B 318x308x75 mm
 - C 450x350x115 mm, see enlarged picture
 - D 650x500x142 mm

- Dimensions of display device WxDxH 200x155x68 mm
- Cable length of display device for weighing plate size
 - A approx. 1 m B, D approx. 2 m
 - C approx. 0,6 m
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, KERN IKT-A01, **€ 25,-**
- **Rechargeable battery pack external**, operating time up to 20 h without backlight, charging time approx. 10 h, can be retrofitted, not for IKT-M, KERN KS-A01, **€ 180,-**
- **Signal lamp** for visual support of weighing with tolerance range, KERN IKT-A04, **€ 250,-**
- **RS-232/Ethernet adapter**, to connect balances with an RS-232 interface to a network, via Ethernet, for details see page 158, KERN YKI-01, **€ 390,-**
- **Set for underfloor weighing**, consisting of platform, handle and hook, only for models with weighing plate size B, KERN DS-A01, **€ 200,-**
- **Stand** to elevate display device, height of stand approx. 480 mm, only for models with weighing plate size B, C, KERN IKT-A06, **€ 100,-**
- **Wall mount** for display device, KERN IKT-A03, **€ 35,-**
- **Suitable printers** de page 157 ff.

Modes

- ① Weighing
- ② Counting
- ③ Dispensing
- ④ Recipe weighing
- ⑤ Checkweighing
- ⑥ Totalising with daily total
- ⑦ Percentage determination
- ⑧ Animal weighing
- ⑨ Surface weight
- ⑩ Density determination, only with B, not for M
- ⑪ Rapid function, not for M

Functions

- Capacity display, with ① - ②, ⑤ - ⑦, ⑨ - ⑪
- Dispensing aid (-/+), with ③, ④
- Net/gross display, permanent with ①, ③ - ⑤, ⑧ - ⑪
- Variable reference quantity, with ②
- Automatic reference optimisation, with ②
- PRE-TARE numerical or from the memory unit, with ① - ⑦, ⑪
- Input of item or batch description, operator etc., with ① - ⑦, ⑪
- Freely programmable weighing unit, e.g. display direct in special units such as length of thread g/m, grammage g/m², or similar, with ⑨
- Date/time, with ① - ⑪
- Statistical function, with ①
- GLP printout, with ① - ⑪
- Individual formatting of up to 16 printer forms, recipes, operating mode master data in MS Excel, import using RS-232, for examples, see the internet, with ① - ⑪

Platform scale KERN ILT

KERN ILT-BM

KERN ILT-BM

KERN ILT-NM

KERN ILT-GM

State-of-the-art premium touchscreen platform scale with the complete range of functions for demanding processes

Backlit and touch-sensitive LCD display with digit height 21 mm, screen diagonal 5,7" (approx. 145 mm), WxH 115x86 mm. Dimensions of display device WxDxH 215x156x71 mm. Thanks to the interactive touch display, the menu and processes are self-explanatory. This reduces training times, avoids operating errors and like this, ensures a more efficient functionality

Intuitive operation, increases efficiency and saves costs: Easy capture of item data at the PC, call up of items on the scale using the connected barcode or RFID scanner, output of weighing data using the large or second display or control outputs, data transfer to the PC, printer or alibi memory.

User-friendly piece-counting function: entry and call up of items to be counted from the database with all relevant additional data such as piece weight, name, price (for internal valuation), reference quantity, tare container weight, barcode, item image etc. Also integrated: automatic reference optimisation, correction of reference weights, freely selectable reference quantity and much more. Note: on the basis of the KERN ILT range, you can entry and call up of a wide range of high-performance counting systems - your KERN product specialist will be pleased to assist you

High level of connectivity

- 1 x Ethernet interface
- 2 x RS-232 interface
- 2 x USB interface, e.g. for data exchange or connection of barcode or RFID scanners for quick call up of stored items
- Digital I/O interface (4 in / 4 out) e.g. for machine and plant control
- 1 x Interface for additional display

Identification by RFID: rapid and secure identification of users, items, vehicles, etc. using the optional RFID transponder card reader. The data can be read and edited (suitable for ILT-BM, -GM)

Possible record of items using the optional barcode scanner, see accessory. Ideal for rapid recording of items, e.g. as part of stocktaking or to record recipe ingredients during recipe weighing etc.

Features

- **Convenient recipe-weighing:** complete recipes with all recipe ingredients and associated target values, names, tolerances, tare weights etc. can be stored. If there is an excess amount of one ingredient the practical back calculation function automatically calculates the new target weights of the other ingredients
- **Multiplier function:** recipes and their ingredients can be multiplied at will at the press of a button, which is ideal for the production of larger containers, bulk packs etc.
- **Best-before dates** can be stored and printed for each item
- **Statistical function** for statistical analysis of series of measurements
- **User-friendly batch management** with batch master and batch number assignment, classification, batch derivation, batch determination, batch status management, shelf-life processing, documentary, original and WIP batches, batch-specific units of measurement, batch where-used list
- **Individual user settings can be stored**
 - User name and number
 - Password
 - Menu language
 - User profile
 - Additional guest mode for users without log-in
 - Authorisations etc.
- **Enormous database (1 GB)** for thousands of weighing results, items, recipes, recipe ingredients, container weights, user data etc.

- **Alibi memory:** paperless archive of weighing results, see also page 11
- **Electronic level indicator** continuously checks the position of the scale, sounds an alarm when the device is out of balance and gives visual instructions on how to correct the situation (only ILT-NM, -C)
- **High level of process reliability:** for define limit values for selected parameters, such as, e.g. temperature, levelling, minimum load, adjustment, etc. When the value falls outside these limits, a warning message will be issued and this can be stored with the measuring result
- **Individual print formats:** Printouts can be individually adjusted depending on operating mode, application or your own requirements, directly at the balance or the PC. In this way the data related to these processes is documented accurately, efficiently and clearly

Technical data

- Weighing plate dimensions, stainless steel, WxD
 - A 195x195 mm B 230x230 mm
 - C 300x240 mm D 347x259 mm
 - E 400x300 mm F 500x400 mm
 - G 650x500 mm
- Permissible ambient temperature 15 °C / 35 °C; 15 °C / 30 °C (verified)

Accessories

- **Transponder card reader**, RFID technology, dimensions WxDxH 133x98x30 mm, for details see page 164, KERN KET-A05, € 450,-
- **Transponder cards**, 10 pieces, for details see page 164, KERN KET-A08, € 65,-

- Barcode scanner, hand-held version, dimensions WxDxH 152x84x63 mm, for details see page 163
- Version RS-232, KERN PET-A05, € 350,-
- Version USB, KERN PET-A09, € 350,-
- **USB keyboard** for easy capture of items, descriptions etc., dimensions WxDxH 440x128x24 mm, for details see page 164, KERN PET-A06, € 45,-
- **Wall mount for display device**, dimensions WxDxH 135x148x110 mm, for details see page 164, KERN KET-A02, € 190,-
- **Second display**, dimensions WxDxH 150x34x80 mm, for details see page 164, KERN KET-A03, € 210,-
- **Large display**, stainless steel, digit height 111,7 mm, dimensions WxDxH 635x195x48 mm, details see page 163, KERN KET-A06, € 1450,-
- **Analogue/Digital converter** to connect up to two platforms to the display device, for details see page 164, KERN KET-A01, € 350,-
- **Direct thermal label printer**, inclusive software for easy editing of (adhesive) labels included, for details see page 163, KERN PET-A13, € 980,-
- **Thermal transfer and direct thermal label printer**, included software for easy editing of (adhesive) labels, for details see page 163, KERN PET-A14, € 1000,-
- **Software for database management**, for convenient administration of item data at the PC. For details see page 163, KERN KET-A04, € 300,-
- **Suitable printers** and an extensive accessories range see page 157 ff.

Robust aid for weighing large loads

KERN offers a carefully coordinated range from affordable entry level models, to practical built-in solutions up to the top level verified models made of stainless steel. Their common feature is the long-lasting industrial quality as well as the high level of protection against dust and spray.

The installation, startup, and possible verification of floor, pallet, and drive-through scales require specialized knowledge, which is the basis for a successful sale. Please ask for our “Floor scale info sheet”.

High-capacity scales – ideal for piece counting with large item quantities

The weighing ranges of bench counting scales are often not sufficient to count large quantities, units, palletized items etc. This is where high-performance counting systems are employed as these combine a high-precision reference balance with a high-capacity bulk scale, such as e.g. floor scales, pallet scales or drive-through scales. Your personal KERN customer consultant will be happy to help you setting up the right high-capacity counting system.

Your KERN product specialist will be happy to help:

● = Standard

○ = Option

Robust floor scale with EC type approval [M] - up to 6 t

Features

- **Weighing bridge made of non-slip steel chequer plate, lacquered**, overall height 80 mm
- **4 load cells steel, silicone-coated**, dust and spray protection IP67
- **Easy access to the junction box** from the top
- **Comfortable levelling of the weighing bridge** from above
- **Display device KERN KFB-TM**, for details see page 134
- **Benchtop stand incl. wall mount** for display device as standard
- **Totalising** of weights and piece counts

Technical data

- Large backlit LCD display, digit height 52 mm
- Weighing plate dimensions WxDxH
 - A 1000x1000x80 mm
 - B 1500x1250x80 mm
 - C 1500x1500x80 mm
 - D 1500x1500x130 mm
- Dimensions of display device WxDxH 250x160x58 mm
- Cable length of display device approx. 5 m
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be retrofitted, KERN KFB-A02, **€ 30,-**
- **Signal lamp** for visual support of weighing with tolerance range, for details see page 160, KERN CFS-A03, **€ 250,-**
- **Stand** to elevate display device, height of stand approx. 750 mm, similar to illustration, KERN BFS-A07, **€ 115,-**
- **Pair of base plates** to fix the weighing bridge to the floor, for models with weighing plate size
 - A, B, C KERN BFS-A06, **€ 60,-**
 - D KERN BFS-A10, **€ 60,-**
- **Stable pit frame** for weighing bridge installation, allowing for easy access for models with weighing plate size
 - A WxD 1085x1085 mm, KERN BFS-A03, **€ 210,-**
 - B WxD 1335x1585 mm, KERN BFS-A04, **€ 250,-**
 - C WxD 1585x1585 mm, KERN BFS-A08, **€ 250,-**
- **Rechargeable battery pack internal**, operating time up to 35 h, charging time approx. 10 h, must be ordered at purchase, KERN KFB-A01, **€ 35,-**

Note: With verified scales the weighing bridge must be fixed to the floor. Optionally, with an access ramp, a base plates or a pit frame

Limited tare range with verifiable models (1/6 from [Max])

Shipment via freight forwarder. Please ask for dimensions, gross weight, shipping costs

- **Ascending ramp**, not included, for models with weighing plate size
 - A WxDxH 1000x750x85 mm, KERN BFS-A01, **€ 280,-**
 - B WxDxH 1250x750x85 mm, KERN BFS-A02, **€ 350,-**
 - C WxDxH 1500x750x85 mm, KERN BFS-A09, **€ 380,-**
 - D WxDxH 1500x750x121 mm, KERN BFS-A11, **€ 450,-**
- **Large display with superior display size**, Digit height 76 mm. WxDxH 541x55x180 mm, for details see page 160, KERN YKD-A02, **€ 200,-**
- **Cable with special length 15 m**, between display device and platform, must be ordered at purchase, KERN BFB-A03, **€ 150,-**
- **Suitable printers** and an extensive accessories range see page 157 ff.

Floor scale KERN BFN

Note: With verified scales the weighing bridge must be fixed to the floor. Optionally, with an access ramp, a base plates or a pit frame

1 Shipment via freight forwarder. Please ask for dimensions, gross weight, shipping costs

Stainless steel floor scale in XL size with IP68 platform

Features

- **Weighing bridge entirely out of stainless steel**, extremely resistant to bending because of its high material thickness. Weighing plate fixed with stainless steel screws. Weighing bridge can also available as component without display device, KERN KFP-V40, for details see page 141
- **Easy access to the junction box** from the top
- **4 Load cell stainless steel**, welded, IP68
- **5 Display device KERN KFN-TM**, stainless steel, IP65, for details see page 136
- **Benchtop stand incl. wall mount** for display device as standard
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual and audible signal assists with portioning, dispensing or grading
- **Totalising** of weights and piece counts
- Your support for an **HACCP**-compliant quality system

Technical data

- Large backlit LCD display, digit height 52 mm
- Weighing plate dimensions WxDxH
 - A** 1000x1000x80 mm
 - B** 1500x1250x80 mm
- Dimensions of display device WxDxH 266x165x96 mm
- Rechargeable battery pack internal, standard, operating time up to 35 h without backlight, charging time approx. 12 h
- Cable length of display device approx. 5 m
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **1 Stand** to elevate display device, stainless steel, height-adjustable, height of stand 75-100 cm, KERN BFN-A04, **€ 250,-**

- **2 Ascending ramp**, stainless steel, incl. attachment plate to fix it to the weighing bridge, for models with weighing plate size
 - A** WxDxH 1250x750x85 mm, KERN BFN-A01, **€ 1020,-**
 - B** WxDxH 1000x750x85 mm, KERN BFN-A05, **€ 950,-**
- **Pair of base plates** to fix the weighing bridge to the floor, KERN BFN-A03, **€ 70,-**
- **3 Stable pit frame** for weighing bridge installation, allowing for easy access stainless steel, dimensions WxDxH 1335x1585x80 mm, only for models with weighing plate size **B**, KERN BFN-A02, **€ 730,-**
- **Data interface RS-232**, interface cable included, must be ordered at purchase, KERN KFN-A01, **€ 95,-**
- **Cable with special length 15 m**, between display device and platform, must be ordered at purchase, KERN BFB-A03, **€ 150,-**
- **Suitable printers** and further, extensive accessories from page 157 ff.

NEW New model

Weighing beams KERN UFA

Highly versatile weighing beams for large loads - now up to 6 t!

Features

- Ideal for weighing large, bulky or long items
- **High mobility:** thanks to battery operation (optional) and compact, flat construction, it is suitable for use in several locations (production, warehouse, dispatch department etc.)
- **Sturdy handles** for transporting the weighing beams
- **Weighing beams steel**, lacquered, solid steel construction, extremely resistant to bending
- **Load cells steel, silicone-coated**, IP67 protection
- **Display device KERN KFB-TM**, for details see page 134
- **Models with suffix -L:** Each weighing beam has a roller and handle for easy transport of the scale
- **Totalising** of weights and piece counts
- **Benchtop stand incl. wall mount** for display device as standard
- Weighing beams also available as components without the display device, for additional information see page 140

Technical data

- Large backlit LCD display, digit height 52 mm
- Weighing beams dimensions WxDxH
 - A** 1200x120x100 mm
 - B** 1200x163x80 mm
 - C** 2000x120x100 mm
 - D** 2100x160x85 mm
- Dimensions of display device WxDxH 250x160x58 mm
- Cable length of display device approx. 5 m
- Cable length weighing beams approx. 2,5 m
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be retrofitted, KERN KFB-A02, **€ 30,-**
- **Stand** to elevate display device, height of stand approx. 750 mm, KERN BFS-A07, **€ 115,-**
- **Rechargeable battery pack internal**, operating time up to 35 h, charging time approx. 10 h, must be ordered at purchase, KERN KFB-A01, **€ 35,-**

Shipment via freight forwarder. Please ask for dimensions, gross weight, shipping costs

- **Signal lamp** for visual support of weighing with tolerance range, for details see page 160, KERN CFS-A03, **€ 250,-**
- **Large display with superior display size**, digit height 76 mm. WxDxH 541x55x180 mm, details see page 160, KERN YKD-A02, **€ 200,-**
- **Y cable** for parallel connection of two terminal devices to the RS-232 interface on the scale e.g. signal lamp and printer, KERN CFS-A04, **€ 35,-**
- **Cable with special length 15 m**, between display device and platform, for models with EC type approval, this must be ordered at the time of purchase, KERN BFB-A03, **€ 150,-**
- **Suitable printers** see page 157 ff.

Pallet scale KERN UFB

Mobile pallet scale with EC type approval [M]

Features

- **High mobility:** thanks to battery operation (optional) and compact, flat construction, it is suitable for use in several locations (production, warehouse, dispatch department etc.)
- **2 rollers and handle** for easy transport of the scale
- **Weighing with tolerance range (check-weighing):** Input of an upper/lower limit value. A visual and audible signal assists with portion division, dispensing or grading or the rapid checking of items on palettes
- **Totalising** of weights
- **4 load cells steel, silicone-coated, IP67**
- **Solid steel construction load support** lacquered, extremely resistant to bending. Also available as component without the display device, KERN KFU-V20, see page 140
- **Display device KERN KFB-TM**, for details see page 134

- A counting scale can be connected using the data interface, and this can be used to create a high-capacity counting system for counting very small parts in largest quantities

Technical data

- Large backlit LCD display, digit height 52 mm
- Cable length of display device approx. 5 m
- Dimensions of display device WxDxH 250x160x58 mm
- Net weight approx. 43 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be retrofitted, KERN KFB-A02, € 30,-
- **Stand** to elevate display device, height of stand approx. 750 mm, similar to illustration, KERN BFS-A07, € 115,-

Limited tare range with verifiable models (1/6 from [Max])

Shipment via freight forwarder. Please ask for dimensions, gross weight, shipping costs

- **Rechargeable battery pack internal**, operating time up to 35 h, charging time approx. 12 h, must be ordered at purchase, KERN KFB-A01, € 35,-
- **Signal lamp** for visual support of weighing with tolerance range, WxDxH 100x180x300 mm, see page 160, KERN CFS-A03, € 250,-
- **Large display with superior display size**, digit height 76 mm, WxDxH 541x55x180 mm, for details see page 160, KERN YKD-A02, € 200,-
- **Y cable** for parallel connection of two terminal devices to the RS-232 interface on the balance, e.g. signal lamp and printer, KERN CFS-A04, € 35,-
- **Cable with special length 15 m**, between display device and platform, must be ordered at purchase, KERN BFB-A03, € 150,-
- **Suitable printers** see page 157 ff.

Pallet scale KERN UFN

- 1 Limited tare range with verifiable models (1/6 from [Max])
- 2 Shipment via freight forwarder. Please ask for dimensions, gross weight, shipping costs

Mobile stainless steel pallet scale with EC type approval [M]

Features

- **High mobility:** thanks to battery operation and compact, flat construction, it is suitable for use in several locations (production, warehouse, dispatch department etc.)
- **2 rollers and handle** for easy transport of the scale
- **Vibration-free weighing:** when the weighing conditions are unstable, a stable weight is calculated as an average value
- **Weighing with tolerance range (check-weighing):** Input of an upper/lower limit value. A visual and audible signal assists with portioning dispensing or grading
- **Totalising** of weights
- Your support in an **HACCP**-compliant quality system
- 4 load cells steel, silicone-coated, IP67

- **Solid stainless steel construction load support** extremely resistant to bending. Also available as component without the display device, KERN KFU-V30, see page 140
- 2 **Display device KERN KFN-TM, stainless steel**, for details see page 136

Technical data

- Large backlit LCD display, digit height 52 mm
- Cable length of display device approx. 5 m
- Dimensions of display device WxDxH 266x165x96 mm
- Rechargeable battery pack internal, standard, operating time up to 35 h without backlight, charging time approx. 10 h
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Stand** to elevate display device, stainless steel, height-adjustable, height of stand 750-1000 mm, KERN BFN-A04, € 250,-
- **Data interface RS-232**, interface cable included, must be ordered at purchase, KERN KFN-A01, € 95,-
- **Cable with special length 15 m**, between display device and platform, must be ordered at purchase, KERN BFB-A03, € 150,-
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Drive-through scale KERN NFB

Industrial drive-through scale with two integrated access ramps and EC type approval [M]

Features

- **Robust drive-through scale** for rapid weighing of e.g. wire cage trolleys, shelf trolleys, container trolleys, storage trolleys, sack trucks, transpallets, mobile containers refuse bins etc.
- **Weighing bridge made of non-slip steel chequer plate, lacquered**, extremely resistant to bending. Also available as component without the display device, KERN KFD-V20, see page 139
- **4 Load cells steel, silicone-coated**. Protection against dust and water splashes IP67, temporary use in wet areas is possible
- **Display device KERN KFB-TM**, details see page 134

Technical data

- Large backlit LCD display, digit height 52 mm
- Overall dimensions WxDxH
 - A 1600x1200x78 mm
 - B 1800x1400x78 mm
- Weighing surface, without access ramps WxD
 - A 1000x1000 mm
 - B 1200x1200 mm
- Dimensions of display device WxDxH 250x160x58 mm
- Cable length of display device approx. 5 m
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be retrofitted, KERN KFB-A02, € 30,-
- **Rechargeable battery pack internal**, operating time up to 35 h without backlight,

Note: For verified scales the weighing bridge must be fixed to the floor with a base plate pair

Limited range of tare with verifiable models (1/6 from [Max])

■ Shipment via freight forwarder. Please ask for dimensions, gross weight, shipping costs

- charging time approx. 10 h, must be ordered at purchase, KERN KFB-A01, € 35,-
- **2 Stand** to elevate display device, height of stand approx. 750 mm, KERN BFS-A07, € 115,-
 - **Signal lamp** for visual support of weighing with tolerance range, WxDxH 100x180x300 mm, see page 160, KERN CFS-A03, € 250,-
 - **Pair of base plates** to fix the weighing bridge to the floor, KERN BFS-A06, € 60,-
 - **Y cable** for parallel connection of two terminal devices to the RS-232 interface on the balance, e.g. signal lamp and printer, KERN CFS-A04, € 35,-
 - **Large display with superior display size**, digit height 76 mm. WxDxH 541x55x180 mm, for details see page 160, KERN YKD-A02, € 200,-
 - **Cable with special length 15 m**, between display device and platform, for verified models, this must be ordered at the time of purchase, KERN BFB-A03, € 150,-
 - **Suitable printers** and an extensive accessories range, see page 157 ff.

1 Shipment via freight forwarder. Please ask for dimensions, gross weight, shipping costs

Stainless steel drive-through scale with two integrated access ramps and EC type approval [M]

Features

- **Robust drive-through scale** made of stainless steel for rapid weighing of e.g., shelf trolleys, container trolleys, storage trolleys, transport cases, transpallets, mobile containers etc.
- Low platform height and integrated access ramps on both sides facilitate access.
- **Weighing bridge stainless steel**, extremely resistant to bending. Also available as component without the display device, KERN KFD-V40, see page 141
- **4 load cells steel, encapsulated.** Protection against dust and water splashes IP68, suitable for continuous use in wet areas
- Ideal for the ever-increasing hygienic requirements in the food, pharmaceutical and chemical industries
- Your support in an **HACCP**-compliant quality system
- **Totalising** of weights and piece counts

- **2** Display device KERN KFN-TM, stainless steel, details see page 136

Technical data

- Large backlit LCD display, digit height 52 mm
- Overall dimensions WxDxH 1600x1200x78 mm
- Weighing surface, without access ramps WxD 1000x1000 mm
- Dimensions of display device WxDxH 266x165x96 mm
- Cable length of display device approx. 5 m
- Net weight approx. 131 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Rechargeable battery pack internal**, operating time up to 35 h without backlight, charging time approx. 10 h, must be ordered at purchase, KERN GAB-A04, **€ 40,-**

- **3** **Stand** to elevate display device, stainless steel, height-adjustable, height of stand 750-1000 mm, KERN BFN-A04, **€ 250,-**
- **Data interface RS-232**, interface cable included, approx. 1.5 m, must be ordered at purchase, KERN KFN-A01, **€ 95,-**
- **Pair of base plates** to fix the weighing bridge to the floor, KERN BFN-A03, **€ 70,-**
- **Large display with superior display size**, digit height 76 mm. WxDxH 541x55x180 mm, for details see page 160, KERN YKD-A02, **€ 200,-**
- **Cable with special length 15 m**, between display device and platform, must be ordered at purchase, KERN BFB-A03, **€ 150,-**
- **Suitable printers** and an extensive accessories range, see page 157 ff.

Axle load scales

VHP

130

Modular axle load scale for the mobile monitoring of vehicles up to 15 tons

Over the legal limit!

Axle load or wheel load scales are an ideal weighing solution for the mobile weighing of trucks, trailers, small airplanes and similar, on a non-verified basis.

Mobile axle load scales are often used to give indicative measurements, in particular on building sites, during harvest time in the agricultural industry or in the field of traffic monitoring, in order to establish whether vehicles are overloaded or incorrectly loaded. If, such measurements bring about inconsistencies then a second measurement can be carried out on a verified vehicle scale.

Compared with fixed vehicle scales axle load scales are usually more affordable do not require costly installation and with their compact dimensions and low weight they clearly score highly in terms of mobility.

Using the convenient software in the KERN axle load scales, individual axles can be weighed quickly and easily, one after another. Subsequently the individual wheel weight, the weight of the axle or the total weight of the vehicle can be displayed or transferred to a printer or PC when connected via the data interface.

Thanks to its compact design with a depth of just 50 cm and the equalisation platforms, two axles can be weighed individually, even if they are installed to one another.

Alternatively the innovative design of the weighing pad allows for 2 axles to be measured at the same time and the results to be added when these 2 axles are installed right next to each other. This double construction is also recommended for vehicles or trailers with exceptionally large wheels.

The modular construction of the KERN VHP facilitates a wide range of different combination and can therefore be adapted quickly to suit the on-site conditions:

Your KERN product specialist will be happy to help:

13 Modular axle load scale for the mobile monitoring of vehicles up to 15 tons

Weighing of trucks, motor homes, trailers etc. for carrying out quick checks of axle weights in any location (Police), to detect and avoid incorrect loading or overloading

Weighing of tractors, trailers, trucks etc. for products and goods control at the point of receipt or dispatch in locations where there is no permanently installed vehicle scale or one is not available for financial reasons

Weighing of airplanes to calculate the loading scheme and determine the centre of gravity, to make sure that the maximum permissible flight mass is not exceeded and that the airplane is correctly loaded

Axle load scale KERN VHP

1

2

3

4

5

Features

- **Mobile axle load scale for rapid monitoring of vehicles.** Space-saving and affordable. Ideal for mobile police or customs checks, on landfill sites, gravel works, biogas plants etc.
 - **1 Display device with integrated thermal transfer printer** in stable, lined transport case. 4 quick-release connectors to connect up to 4 weighing pads. The weighing results from the individual weighing pads can be issued individually or cumulatively
 - **2 Weighing pad - extremely resistant to bending because of its high material thickness.** Particularly flat design, only 35 mm. Brackets for access ramps and spacer plates on both sides, and therefore quickly expendable
 - **2** 2 rollers and 2 handles for easy transport of the weighing pad
 - **2** 6 Load cells, aluminium, silicone-coated, IP65
 - The standard scope of supplies (see technical data) can be complemented with further weighing pads, ramp extensions and equalising platforms (see accessories). Like this the system can be adapted to cover a wide range of applications.
- Do you have questions or special requests?
Your KERN product specialist will be happy to help

Technical data

- Backlit LCD display, digit height 10 mm
- Weighing plate dimensions WxDxH 900x500x35 mm
- Dimensions ascending ramp WxD 900x250 mm
- Dimensions display device (case) 355x300x165 mm
- Net weight for each weighing pad approx. 30,2 kg
- Net weight of each access ramp approx. 12 kg
- Net weight display device (case) approx. 9,2 kg
- Rechargeable battery pack internal, standard, operating time up to 13 hours with backlight without use of printer, charging time approx. 12 h
- Cable length of display device approx. 10 m
- Permissible ambient temperature -40 °C / 70 °C
- **Scope of supply: 2 weighing pads (wheel load plates), 4 access ramps, 1 display device in stable transport case**

Accessories

- **3 Ascending ramp** (see application examples on page 129), extremely resistant rubber compound, dimensions WxDxH 900x250x35 mm, KERN VHP-A01, **€ 220,-**
- **4 Ramp extension** (see application examples on page 129), extremely resistant rubber compound, dimensions WxDxH 900x545x35 mm, KERN VHP-A02, **€ 310,-**
- **5 Compensation pad** (see application examples on page 129), extremely resistant rubber compound, dimensions WxDxH 900x545x35 mm, KERN VHP-A03, **€ 310,-**
- **Weighing pad, to expand the weighing system VHP** (see application examples on page 129), steel, lacquered (orange), 2 rollers and 2 handles, dimensions WxDxH 900x500x35 mm, 1 piece, for model VHP 6T-3: [Max] = 3000 kg, [d] = 5 kg, KERN KHP 3000V20LM, **€ 2750,-** VHP 15T-2: [Max] = 7500 kg, [d] = 10 kg, KERN KHP 7500V20LM, **€ 2750,-**
- **Thermal receipt rolls** (10 pieces), suitable for the thermal transfer printer integrated in display device, length approx. 13 mm, width 57 mm, Ø 51 mm, KERN RFS-A10, **€ 35,-**
- **DAkks calibration certificate** (German accreditation authority (for both pads), see table. DAkks calibration certificate for one pad, see page 186

Individuality is the key

Do you have special requests, which are not covered by our extensive balance range? Then why not configure your ideal model yourself, it's quick, individual and affordable.

The choice is yours:

- Choose one of the many KERN weighing bridges, pallet scales or drive-through scales and combine these with one of the many KERN display devices
- Combine your weighing bridge with a KERN display device
- Combine your display device with a KERN weighing bridge

Have your ideal scale verified – with KERN

To help you obtain a verified individual scale combination KERN offers you full support, such as for example

- Issuing of → **proof of compatibility**, see page 133
- Support in preparing for verification, EC type approval, installation conditions
- Issuing of → **declaration of conformity** upon the executed → **conformity evaluation** (manufacturer's initial verification)

Of course there is also the complete service available for you and we set up the required scale combination including verification. All further details can be found on the following pages. Your personal customer consultant will be pleased to assist you, too.

→ See the glossary on page 191 – 192

Consultation service on verification for individual scale combinations

Information for specialist scale companies:

When display devices (terminals) with EC-Type approval and weighing bridges (e.g. pallet scales, floor scales or drive-through scales) with EC-Type approval are combined to a complete unit, then this weighing system can be verified as a class III commercial scale.

For this procedure KERN offers the following support:

- 4 **Proof of compatibility:** To confirm whether combinations of weighing modules such as display devices, load cells and connecting elements are appropriate for verification. We would be pleased to perform this for your application.
- Authorisation to initial verification by the manufacturer:** We will support you in your preparations for verification, issuing the declaration of conformity and being involved in the manufacturer's initial verification
- Issuing of declaration of conformity** upon evaluation for conformity (manufacturer's initial verification)

For further combinations within the KERN product range, please ask for details.

Display devices KERN KXE-TM · KFB-TM

- 1 KERN KXE-TM**

Affordable display device with EC type approval [M]

Platforms / Weighing bridges KERN KFP · KXP

1 KERN KFP V20 IP65

Platform

- **1 Stainless steel-weighing plate,**
A Painted steel base
- **1 load cell, aluminium, silicone-coated,**
IP65, OIML-R60-approved, class III, 3000 e
- **Level indicator and levelling feet** for
precise levelling of the scale

2 KERN KXP V20 IP65

Platform

- **2 Stainless steel-weighing plate,**
B Painted steel base, is extremely rigid,
wing design
- **1 load cell, aluminium, silicone-coated,**
IP65, OIML-R60-approved, class III, 3000 e
- **Level indicator and levelling feet** for
precise levelling of the scale

3 KERN KXP V20 IP67

Weighing bridge

- **Weighing bridge steel,** lacquered, extremely
resistant to bending. Painted steel base
- **4 Load cells, steel, silicone-coated, IP67,**
OIML-R60-approved for verification,
class III, 3000 e
- Possible installation in pit frame
- **Easy access to the junction box**
from the top
- **Screwed and therefore, easily removable**
weighing plate
- Accessories page 128 (KERN BXS)

Can be used in any combination, e.g. with all display devices on page 134 – 137

Weighing and transporting – just one operation

Speed up your warehouse and dispatch processes with the KERN pallet truck scales.

Get the exact weight of a load and at the same time, transport it to a specific location, all in one operation. This reduces commissioning times and avoids queues in front of fixed floor scales.

These mobile weighing solutions are space-saving and deliver reliable weighing results. Differences between given and actual weights can be determined quickly e.g. in the goods-in and out department. Like this you uncover inaccurate quantities, save time and money and therefore ensure a very short amortisation period of the scales original cost.

KERN offers a carefully coordinated range from the affordable entry level model, to the easy-to-use models with counting function, printer or removable battery pack for a constant functionality.

KERN pallet truck scales are of robust industrial quality, with high-level protection against dust and water splashes, with high-contrast, easy-to-read displays as well as solid wheels and load rollers – all this helps to give you practical support in your work – day after day.

Of course, all KERN pallet truck scales can also be calibrated and delivered with a DAKkS calibration certificate (optional). This ensures the high level of accuracy of your pallet truck scale.

Your KERN product specialist will be happy to help:

Pallet truck scale KERN VHE-A

NEW

Robust entry-level model into mobile weighing

Features

- **Very manoeuvrable** thanks to its compact construction and low weight
- **Particularly robust** with its components having been relocated from the load fork into the protected housing area. It is therefore also ideal for heavy applications in the production area and on board lorries
- **Display device:** Protection against dust and water splashes IP65
- **Low height of the loading forks** easy uplifting of low pallets
- **Pivot range 206°**
- **Castors:** Solid rubber on aluminium rims
- **Load rollers:** Polyurethane
- **Specially constructed for general checkweighing**, e.g.: plausibility check at goods receiving, determining shipping weights, avoiding overloads, safety checks

- **Operation:**
 - 1 Switch on and then pump up the load fork to the reference height
 - 2 Tare
 - 3 Release the load fork and load the goods to be weighed
 - 4 Weighing: Pump the load fork with the goods to be weighed up to the reference height, read off the weight
- **Ready for use:** Batteries included (2 x 1.5 V AA). AUTO-OFF function to preserve the batteries. Operating time approx. 1 year / approx. 3000 weighings. Charge status indicator on display

Technical data

- Large LCD display, digit height 18 mm

Pallet truck scale with integrated rechargeable battery pack

Features

- **PRE-TARE function** for manual deduction of a known container weight (e.g. pallet, mesh crate etc.), this value can be stored
- **Load cells:** Protection against dust and water splashes IP67, temporary use in wet areas is possible
- **Pivot range 180°**
- **Castors:** Solid rubber on aluminium rims
- **Load rollers:** Tandem tyres to overcome thresholds and obstacles more easily. Material: Polyurethane
- **Net/gross weight:** to control the consumed weighing range at the touch of a key
- **Totalising** of weights
- **Rechargeable battery pack internal,** standard, operating time up to 40 h without backlight, charging time approx. 12 h

Technical data

- Backlit LCD display, digit height 22 mm

Accessories

- **Protective working cover** over the display device, can be retrofitted, KERN VFB-A01, € 25,-

Note: As standard, the unit is dispatched without the shaft and display fitted. The shaft and display can be fitted at our factory for an additional cost, delivery + 2 working days, KERN VFS-M01, € 150,- Please state when ordering

Pallet truck scale KERN VHB

Robust pallet truck scale, with a memory for a container weight

Features

- **PRE-TARE function** for manual subtraction of a known container weight, which can be saved
- **1 Display device:** Protection against dust and water splashes IP65
- **2 Load cells:** Protection against dust and water splashes IP67, temporary use in wet areas possible
- **Pivot range 206°**
- **Castors:** Solid rubber on aluminium rims
- **3 Load rollers:** Tandem tyres to come over thresholds and obstacles more easily. Material: Polyurethane
- **Totalising** of weights
- **Ready for use:** Batteries included (4 x 1.5 V AA). AUTO-OFF function to preserve the batteries. Operating time approx. 80 h / 1700 weighings (without use of printer)

Technical data

- Large LCD display, digit height 28 mm

Accessories

- **Castors made of red polyurethane on aluminium rims.** Ideal for light-coloured flooring as they leave less visible abrasive marks. Suitable for the current models of the pallet truck scale ranges KERN VHB, KERN VHS (when retrofitting, please give the serial number of the pallet truck scale available when ordering), KERN VHB-A02, € 120,-

Hanging scales KERN HDB-N · CH

KERN HDB-N

KERN CH

Convenient, economical and always handy

Features

- With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- Ideal for rapid control in goods-in and goods-out
- Essential too in the private sector to determine the weight of fish, game, fruits, bicycle parts, suitcases etc.
- **Data hold function:** For easy reading of the weighing result, the display can be “frozen” in different ways. Either automatically when the weighing value remains unchanged or manually by pressing the Hold key

Technical data

HDB-N:

- **Hook (stainless steel)**, can be hinged
- **Ready for use:** Batteries included, 2 x 1.5 V AAA, operating time up to 180 h, AUTO-OFF function to preserve the battery, can be switched off
- Further weighing units: kg, lb, N
- Permissible ambient temperature 5 °C / 35 °C

CH:

- **Hook (stainless steel)**
- **Tape measure**, extractable, length approx. 100 cm
- **Peak load display** (peak hold), measuring frequency 5 Hz
- **Ready for use:** 9 V Block included, operating time up to 20 h. AUTO-OFF function to preserve the batteries, can be switched off
- Further weighing units: kg, lb, N
- Permissible ambient temperature 5 °C / 35 °C

Hanging scales KERN HCB · HCN

KERN HCB

KERN HCN

The handy scales for higher loads - now up to 1 t

Features

- **1** With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- Ideal for rapid control in goods-in and goods-out
- Essential too in the private sector to determine the weight of fish, game, fruits, bicycle parts, suitcases etc.
- **Data hold function:** For easy reading of the weighing result, the display can be "frozen" in different ways. Either automatically when the weighing value remains unchanged or manually by pressing the Hold key

- **Peak load display** (peak hold), measuring frequency 5 Hz

Technical data

- LCD display, digit height 12 mm
- Hole diameter of load support model with [Max] ≤ 200 kg: approx. 14 mm
- [Max] > 200 kg: approx. 16 mm

HCB:

- **Ready for use:** Batteries included 3 x 1.5 V AA, operating time up to 300 h
- **2** HCB with [Max] ≥ 0,5 t: Reinforced version for heavy loads. Snap link and hook not included

HCN:

- Housing stainless steel, IP65 protection
- **3** **Second display** on the rear of the scale
- **Ready for use:** batteries 2 x 1.5 V AA standard, operating time up to 200 h

Accessories for models with [Max] ≤ 200 kg

- **Hook (stainless steel)** standard, opening approx. 25 mm, can be retrofitted, KERN HCB-A02, **€ 30,-**
- **Snap link (stainless steel) with safety catch** standard, opening approx. 15 mm, can be retrofitted, KERN HCB-A01, **€ 30,-**

Hanging scales / Crane scales

Crane scale KERN HFB

The professional alternative up to 600 kg with rear-facing second display

Features

- 1 With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- 2 **Second display** on the rear of the balance
- High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department etc.)
- Data hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically “frozen” until the HOLD key is pressed
- Tare:** Resets the display to “0” when there is a load on the scale. Now removed or added loads are directly displayed

- Hook with safety catch**, revolving
- Shackle and hook connection made of nickel-plated steel
- 3 **Radio remote control** standard. Range approx. 20 m. All functions can be selected (excl. ON/OFF). WxDxH 48x10x95 mm. Batteries included 2 x 1,5 V AAA

- Rechargeable battery pack internal, standard, operating time approx. 40 h, charging time approx. 14 h with mains adapter, charge status indication visualised through LED
- Precision: 0.2 % from [Max]
- Permissible ambient temperature 0 °C / 40 °C

Technical data

- Superior display size: digit height 25 mm. Bright backlight for easy reading of weight, even from a distance
- Dimensions housing WxDxH 163x126x158.5 mm

Crane scale KERN HFA

NEW

Compact crane scale with integrated display for use in harsh environmental conditions

Features

- With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- With its high-quality finish, low weight and compact dimensions, this crane scale (tensile force gauge) is an essential device for industrial use, on building sites, in freight centres, ports etc.
- Because of its compact design ideally suited for installation in a system plant etc.
- Ideally suited for determining weight quickly while loading and unloading
- Peak load display** (peak hold)
- Data hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically “frozen” until the HOLD key is pressed

- Tare:** Resets the display to “0” when there is a load on the scale. Now removed or added loads are directly displayed

Technical data

- Large backlit LCD display, digit height 23 mm
- Material and design of housing/load support, models with
[Max] ≤ 3 t: aluminium/stainless steel bearing
[Max] > 3 t: steel
- Rechargeable battery pack internal, standard, operating time up to 30 h, charging time approx. 12 h (internal charging with mains adapter), charge status indicator on display

- Optional battery operation, 3 x 1.5 V AA not included, operating time up to 40 h
- Precision: 0,2 % of [Max]
- Measuring frequency: 60 Hz
- Further weighing units: kg, lb, N
- Permissible ambient temperature 5 °C / 35 °C

NEW

Compact crane scale for use in harsh environmental conditions, with convenient hand-held terminal

Features

- With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- With its high-quality finish, low weight and compact dimensions, this crane scale (tensile force gauge) is an essential device for industrial use, on building sites, in freight centres, ports etc.
- Because of its compact design ideally suited for installation in a system plant etc.
- Ideally suited for determining weight quickly while loading and unloading
- Peak load display** (peak hold)
- Data hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically “frozen” until the HOLD key is pressed

- Tare:** Resets the display to “0” when there is a load on the scale. Now removed or added loads are directly displayed
- Display device with integrated radio module,** which the user can carry around with him, thanks to the convenient hand strap. In this way the weighing data can always be read off the display device even though the user might find himself in a remote distance from the crane scale (force gauge) or under poor lighting conditions Standard. Range up to 100 m. All functions can be selected. LCD display, digit height 23 mm, rechargeable battery pack internal, standard (internal charging with mains adapter). Operating time up to 30 h without backlight, charging time approx. 12 h. Dimensions housing WxDxH 88x64x256 mm

Technical data

- Large backlit LCD display, digit height 23 mm
- Material and design of housing/load support, models with
[Max] ≤ 3 t: aluminium/stainless steel bearing

Crane scale KERN HFM

Industrial crane scale up to 10 t

Features

- **1** With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- **Professional device for robust applications** in production, quality control, logistics etc.
- Because of its stable construction and robust design, it is ideal for continuous use in industrial applications
- **High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department etc.)

- Adaptation to unstable environmental conditions by changing the readability
- **Data hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically “frozen” until the HOLD key is pressed
- **Tare:** Resets the display to “0” when there is a load on the scale. Now removed or added loads are directly displayed
- **Hook with safety catch**, revolving
- **2 Radio remote control** standard. Range up to 20 m. All functions can be selected (excl. ON/OFF). WxDxH 48x10x95 mm. Batteries included, 2 x 1,5 V AAA

Technical data

- Superior display size: digit height 30 mm. Luminescent LED display for easy reading of weight values, even from a distance or under poor lighting conditions
- Rechargeable battery pack internal, standard, operating time up to 50 hours with backlight, charging time approx. 14 h, can be retrofitted, KERN HFM-A01, **€ 50,-**
- Precision: 0,2 % of [Max]
- Permissible ambient temperature 0 °C / 40 °C

Crane scale KERN HTS

Robust industrial crane scale up to 10 t, with EC type approval [M]

Features

- With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- Professional device for robust applications in production, quality control, logistics etc.
- Because of its stable construction and robust design, it is ideal for continuous use in industrial environment
- High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department etc.)
- Range of tare: 100 % of [Max]
- Tare:** Resets the display to "0" when there is a load on the scale. Now removed or added loads are directly displayed

- Hook with safety catch**, non-revolving
 - Infrared remote control** standard. Range up to 8 m. All functions can be selected. WxDxH 65x24x100 mm. Batteries included, 9 V
- Additional functions:**
- LED display with Gross/Tare/Net
 - Charge status indicator visualised through LED
 - Standby function: display automatically switched off after 5 min without a change of load. Automatic activation with the touch of a key

Technical data

- Superior display size: digit height 25 mm. Large backlit LCD display for easy reading of the weight, even from a distance or under poor lighting conditions
- Rechargeable battery pack internal, standard, operating time up to 100 hours with backlight, charging time approx. 12 h
- Precision: 0,1 % of [Max]
- Net weight approx. 20 kg
- Permissible ambient temperature -20 °C / 40 °C

Crane scale KERN HFT

Robust industrial crane scale up to 15 t with radio display and RS-232 data interface for transferring weighing results

Features

- With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- Professional device for robust applications** in production, quality control, logistics etc. Because of its stable steel construction and robust design, it is ideal for continuous use in industrial applications
- Weighing unit without display, therefore very robust
- Data hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically “frozen” until the HOLD key is pressed
- Hook with safety catch**, revolving

- Display with integrated radio module**, in this way the weighing data can easily be read off the display by the user, even if the user might find himself in a remote distance from the crane scale. Range up to 100 m. The integrated RS-232 data interface allows from connection to a printer, PC or network

Technical data

- Separate display with large, backlit LCD display, digit height 22 mm. Dimensions WxDxH 175x135x39 mm, incl. antenna WxDxH 240x135x55 mm
- Precision: 0,2 % of [Max]
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- Rechargeable battery pack internal**, standard, can be retrofitted, scale: operating time up to 80 h, charging time approx. 8 h display device: operating time up to 40 h, charging time 4 h, KERN HFM-A01, € 50,-

Printers

Important note for printer orders: Please state your balance model when ordering, so that the printer can be preconfigured in the factory to suit your balance.

STANDARD

RS 232

KERN YKN-01

Matrix needle printer

For printing the weights on normal paper, which is ideal for long-term archiving

Technical data

- Needle print
- Speed: 1 line/sec
- Max. 16 characters per line
- Paper stripes: 44 mm wide
- Operation via mains adapter 230V/50Hz (standard)

- Dimensions: WxDxH 158x106x40 mm
- Interface cable not included with delivery

Price printer without interface cable, KERN YKN-01, **€ 200,-**

Accessories

Paper rolls (5 pieces), KERN YKN-A01, **€ 35,-**

STANDARD

RS 232

KERN YKB-01N

Thermal printer

For printing weighing results, recipes, quantities etc. or for GLP record keeping of balance adjustment with date and time print. Language versions: DE, GB, FR.

Technical data

- Thermal print
- Speed: 0,75 lines/sec
- Max. 40 characters per line
- Paper stripes: 112 mm wide
- Operation via mains adapter 230V/50Hz (standard)

- Dimensions: WxDxH 165x140x50 mm
- Interface cable not included with delivery

Price printer without interface cable, KERN YKB-01N, **€ 355,-**

Accessories

Paper rolls (10 pieces), KERN YKB-A10, **€ 55,-**

STANDARD

RS 232

KERN YKS-01

Thermal statistics printer

For printing weights, recipes etc. or for GLP record keeping of weighing data with date and time print (not in combination with KERN counting scales or KERN MLS, MLB moisture analysers).

Numerator; with statistical functions such as count and total of all measurements, minimum and maximum values of the main unit, range (Max-Min), average value, standard deviation, available units: mg, g, kg, pcs. Language versions: DE, GB, FR.

Technical data

- Thermal print
- Speed: 0,75 lines/sec

- Max. 40 characters per line
- Paper stripes: 112 mm wide
- Operation via mains adapter 230V/50Hz (standard)
- Dimensions: WxDxH 165x140x50 mm
- Interface cable not included with delivery

Price printer without interface cable, KERN YKS-01, **€ 390,-**

Accessories

Paper rolls (10 pieces), KERN YKB-A10, **€ 55,-**

Individual header data:

For printers **KERN YKN-01, YKB-01N** the free software **KERN SHM-01** (see www.kern-sohn.com) can be used to print 4 header lines on the printout (see marking on balance).

Compatible models: KERN 440, DE, FCB, FKB-A, PCB, PCD.

STANDARD

KERN YKC-01

Bluetooth thermal printer

For printing weights, recipes, etc. or for GLP record keeping of weighing data. Suitable for wireless connection to compatible, Bluetooth-enabled balances (Kern: DLT-N or all models with RS-232 data interface in combination with RS-232/Bluetooth Adapter KERN YKI-02), dynamometers, etc.

- Operation via mains adapter 230V/50Hz (standard)
- Dimensions: WxDxH 85x113x57 mm
- Interface cable not included with delivery

Price printer without interface cable, KERN YKC-01, € 690,-

Technical data

- Thermal print
- Speed: 60 mm/sec
- Max. 42 characters per line
- Paper stripes: 57 mm wide

Accessories

Paper rolls (10 pieces), KERN YKC-A01, € 35,-

Interface cable for RS-232

For direct connection to a printer or PC, cable length approx. 1.5 m. The interface parameters can be set using the balance keypad.

STANDARD

KERN YKI-01

RS-232 / Ethernet adapter

Adapter to connect balances, force measuring devices etc. with an RS-232 interface 2 to an IP-based Ethernet network 1. The adapter allows direct integration of measuring devices into most company networks, with automatic configuration using DHCP or statistical IP allocation. You can access the current measuring data at any time from within the whole network, without having to use additional cables. The adapter supports a wide range of configurational options using the enclosed administration software or through the web interface. The driver delivered with the goods allows you to access the measuring device with existing, non-network-compatible applications using a virtual COM port.

Compatible with KERN BalanceConnection software.

DIN track mount 3 or free-standing. Scope of supplies: RS-232 Ethernet adapter with 1x Port RS-232 1, mains adapter 4, CD (driver, software, operating instructions), adhesive feet.

Price interface cable incl. (please provide balance model in order), KERN YKI-01, € 390,-

Note: To connect to your network, you will need information from your network administrator. We recommend discussing connecting your device into your network with the administrator before you place your order.

STANDARD

KERN YKI-03

RS-232 / WLAN adapter

High-quality adapter for the wireless connection of balances, force measuring devices etc. with RS-232 interface to WLAN-enabled devices, such as tablets, laptops, Smartphones etc. In this way, where there is a physical separation or a large distance between the devices, the weighing data from one or several balances can be easily transferred wirelessly to a WLAN device or a network (relevant software on the WLAN device needed, not included with the delivery). The adapter allows for direct integration of measuring devices into most company networks, with automatic configuration using DHCP or statistical IP allocation. You can access the current measuring data at any time from within the whole network, without having to use additional cables. The adapter supports a wide range of configurational options using the enclosed administration software or through the web interface. The driver delivered with the goods allows you to access the measuring device with existing, non-network-compatible applications using a virtual COM port.

Compatible with **KERN Balance Connection Software**. The adapter also has an Ethernet interface for a wired connection to an IP-based Ethernet network **1**. Thanks to the screw terminals **2**, the power connection can be implemented individually using individual wires or using the robust, screw-in power connector **3**. Large input voltage range from 12 V – 8 V. Suitable for wall mounting and DIN track mount **4** or free-standing.

Scope of supplies: RS-232/WLAN adapter, mains adapter, network cable (1 m), driver CD.

Price without interface cable, KERN YKI-03, **€ 780,-**

Note: to connect to your network, you will need information from your network administrator. We recommend discussing connecting your device into your network with the administrator before you place your order.

STANDARD

KERN YKI-02

RS-232 / Bluetooth adapter

Adapter for the wireless connection of balances, force measuring devices etc. with an RS-232 interface to Bluetooth devices, such as Bluetooth printers (e.g. KERN YKC-01), tablets, laptops, Smartphones etc. In this way, where there is a physical separation or a large distance between the devices, the weighing data from one or several balances can be easily sent wirelessly and printed on a Bluetooth printer or transferred to a Bluetooth device (you would need the relevant software on the Bluetooth device, not included with the delivery). The compact adapter with its attractive design can usually be connected directly to the balance **1**, i.e. an additional interface cable would not be necessary. Power supply will be either through the balance (if compatible) or with the mains adapter which is supplied as standard **2**.

Range up to 100 m in the open, depending on obstacles, such as, e.g., walls, and the sensitivity and type of antenna of the receiver. Intersections of send and receive lines using the DCE/DTE switch **3**.

Scope of supplies: RS-232/Bluetooth adapter, mains adapter (EU/GB/USA/AUS/CH) **2**, USB-A to Mini USB-B cable **4**, gender changer **5**, driver CD.

Price without interface cable, KERN YKI-02, **€ 260,-**

KERN SCD-4.0

Balance Connection Software

For the direct transmission of weighing data to Windows applications (operating systems Windows XP, Vista, 7, 8)

- Transfer via RS-232 to the PC, e.g. to MS Excel
- Transfer at the touch of a key or on a time-controlled basis
- Date and time can be displayed at any time
- The interface protocols for KERN balances are already predefined

- Interface cable included. Please specify balance model when ordering (see interface cable table)

Benefits:

- Typing errors during e.g. manual transfer are avoided
- GLP-compliant lab software

KERN SCD-4.0, **€ 150,-**

KERN CFS-A04

2nd RS-232 data interface

separate Y cable, e.g. for simultaneous connection of a printer, signal lamp etc. Suitable for BFB, CPB-N, CFS, GAB-N, GAB-P, IFB, KFB-TM, NFB, UFA, UFB, SFB, BAN, UFN, NFN

Sim. to illustration, KERN CFS-A04, **€ 35,-**

KERN AFH 12

RS-232 / USB adapter

RS-232 to USB converter, fits on all balances and measuring instruments with RS-232 port.

Scope of supplies:
Converter cable, CD with driver,

KERN AFH 12, **€ 85,-**

KERN AFH 14

2x RS-232 / USB adapter

RS-232 to USB converter, fits on all balances and measuring instruments with RS-232 port.

Scope of supplies:
Converter cable, CD with driver,
KERN AFH 14, **€ 115,-**

KERN KXS-A03

Foot switch

Ideal, when 2 free hands are required for application. TARE or PRINT function can be selected. For the PRINT function you will need the RS-232 interface cable KERN KXS-A04.

Must be ordered at purchase, suitable for series IXS, SXS, KXS-TM, KXG-TM.

KERN KXS-A03, **€ 65,-**

KERN YKD-A02

Large display

with superior display size, digit height 3" (76 mm). Luminescent, red LED display for easy reading of weight, even from a distance or under poor lighting conditions. 6 segments, mains connection as standard (230 V, EU/GB), connection using RS-232 data interface, dimensions WxDxH 541x55x180 mm.

Suitable for series IFB, BFB, NFB, UFA, UFB.

KERN YKD-A02, **€ 200,-**

KERN CFS-A03

Signal lamp

Signal lamp for visual support of weighing with tolerance range. Three-colour LED, red, green, yellow. Power supply via balance using RS-232. Total dimensions WxDxH 100x180x300 mm

Suitable for series GAB-N, GAB-P, CPB-N, IFB, NFB, KFB-TM, BFB, UFA.

KERN CFS-A03, **€ 250,-**

KERN YKA-02

Power supply adapter set

from standard EU to GB/US/AUS/CH etc. Four pieces. Ideal for devices with Class II protection (not earthed). Ideal for Euro moulded plug,

KERN YKA-02, € 25,-

KERN YDB-03

Universal density set

Universal density set for precise and convenient density determination of liquids and solids $\leq/\geq 1$. Suitable for all KERN analytical balances.

Scope of supplies: Beaker, thermometer, sample holder, adapter, equalising weights, volume plummet (stainless steel, 20 g), universal submersible basket for solid bodies which float and sink. The wire of the submersible

basket has a diameter of 0.5 mm and therefore complies with the requirements of DIN EN ISO 1183-1 (Test methods for the determination of density of non-foamed plastics),

KERN YDB-03, € 520,-

KERN 962-335V

Density determination of the volume plummet

The density of the enclosed steel volume plummet can be determined by using the universal density set to measure solids. We would be pleased to determine the density of the volume plummet for you quickly and at a reasonable price in our DAkKS calibration laboratory.

You will receive a calibration certificate with all data relating to the density and volume,

KERN 962-335V, € 141,-

KERN RFS-A02

Tare pan

Made of stainless steel, which makes cleaning easy and hygienic. Ideal for weighing loose screws, small parts, fruit, vegetables, cheese, etc.

- WxDxH 370x240x20 mm
- Net weight approx. 524 g

KERN RFS-A02, € 50,-

KERN CH-A01N

Tare pan with pan beam

Made of stainless steel. Ideal for weighing loose small parts, fruit, vegetables etc. Max. load 30 kg. Removable tare pan which makes cleaning easy and hygienic. Suitable for models KERN CH 15K20, HCB 20K10, HCN 20K50IP, HDB-N.

- Dimensions: Tare pan Ø/H 273x40 mm
- Pan beam: WxDxH 320x273x300 mm
- Total dimensions: WxDxH 320x273x340 mm
- Total net weight approx. 1000 g

KERN CH-A01N, € 65,-

KERN ABS-A08

Protective dust cover

For protection from dust and light. Suitable for all KERN analytical balances and precision balances with glass draught shield.

KERN ABS-A08, € 30,-

KERN RFB-A02

Sturdy transport case

for the safe transport and storage of series WTB-N, RFB, lockable.
Inner dimensions WxDxH 330x290x117 mm,
total dimensions WxDxH 510x360x220 mm,
(scale not included with delivery!)

KERN RFB-A02, € 95,-

KERN MPS-A07

Sturdy transport case

for the safe transport and storage of series EOE, EOB scales with weighing plate size ≤ 315x305mm without stand,
inner dimensions WxDxH 425x315x65 mm,
net weight approx. 2,2 kg,
(scale not included with delivery!)

KERN MPS-A07, € 105,-

KERN YBI-01

Ioniser to neutralise electrostatic charge

Weighing items which are non-conductive, such as plastic, china, glass, etc often carry electrostatic charge. The electromagnetic field which then occurs between the items and the balance can cause the weighing result to be distorted by up to a gramme.

Therefore, when weighing in milligrammes or even smaller increments, we recommend neutralising the electrostatic charge with the KERN AC-Korona discharge ioniser.

- Neutralisation ± 20V
- Discharge of ozone 0,04 ppm/h
- Dimensions WxDxH 97x53x31 mm, WxDxH 190x60x110 mm incl. mount
- Net weight approx. 0,11 kg approx. 0,55 kg incl. mount
- Mains connection 110-230V/50Hz, AC power supply, 12V DC output

KERN YBI-01, € 1350,-

With the mount, **1** conveniently next to the balance or you can manually direct it from all sides onto a particular weighing item **2**.

KERN YPS-03

Weighing table

Accurate measuring results require stable working conditions! The KERN YPS-03 weighing table has been constructed to absorb vibrations and oscillations, which would otherwise distort the weighing result.

The YPS-03 weighing table consists of:

- Polished granite plate (34 kg) as integrated working surface, positioned on absorbing rubber components
- Work table with steel profile frame and height-adjustable feet

- Total dimensions WxDxH 770x650x815 mm
- Dimensions granite plate WxD 270x410 mm
- Net weight approx. 55 kg (scale not included with delivery!)

! Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs,

KERN YPS-03, € 900,-

KERN PET-A01 / KERN KET-A04

Software for database management

for easy maintenance of item data at the PC, such as, e.g., creating item detail links, capturing or deleting item data, creating item text etc. Data of the following categories can be edited: customers, stocks, universal variables, labels, packaging, users, products. Data trans-

fer to the balance using the interface cable (included as standard in the delivery with the balance),

for serie AET, PET: KERN PET-A01, **€ 300,-**
for serie ILT: KERN KET-A04, **€ 300,-**

STANDARD

RS 232

PET-A05

PET-A09

KERN PET-A05 / KERN PET-A09

Barcode scanner

ergonomically optimised hand-held version, for connection to an RS-232 interface. Particularly robust and durable. Scratchproof scan window made of hardened glass. Large working area: data collection is possible up to a distance of 43 cm, dimensions WxDxH 152x84x63 mm,

Scope of supplies: barcode scanner, interface cable, mount,

RS-232 version: KERN PET-A05, **€ 350,-**
USB version: KERN PET-A09, **€ 350,-**

STANDARD

RS 232

USB

KERN PET-A13

Direct thermal label printer

very quiet and very quick, print speed of 150 mm/sec, maximum print width: 104 mm, maximum print length: 812 mm, internal power supply, interfaces: USB, RS-232. Especially suitable for the logistics industry, the pharmaceutical industry and in the retail sector. Dimensions WxDxH 231x289x186.

Scope of supplies: Printer, USB interface cable, labeling software.

Suitable for series KERN AET, PET, BBB, BBN, ILT, KET-TM, KEN-TM.

KERN PET-A13, **€ 980,-**

STANDARD

RS 232

USB

KERN PET-A14

Thermal transfer and direct thermal label printer

very quiet and very quick print speed of 101.6 mm/sec, maximum print width: 104 mm, maximum print length: 812 mm, internal power supply, interfaces: USB, RS-232. Especially suitable for the food, chemical and pharmaceutical industries. Software for easy editing of (adhesive) labels included with delivery. The sample labels can be sent to the balance as well as the printer. The sample labels can be

sent to the balance as well as the printer. Dimensions WxDxH 231x289x270 mm.

Scope of supplies: Printer, USB interface cable, labeling software.

Suitable for series KERN AET, PET, BBB, BBN, ILT, KET-TM, KEN-TM.

KERN PET-A14, **€ 1000,-**

STANDARD

RS 232

RS 485

IP 66

KERN KET-A06

Large display

with superior display size, digit height 4,4" (117,7 mm). Luminescent LCD display for easy reading of weight, even from a distance or under poor lighting conditions. Ready for wall mounting. 6 segments, mains connection as standard (230 V, EU / GB). Connection to the balance using the RS-232 or RS-485 interface. Stainless steel housing IP66 protection.

Dimensions WxDxH 541x55x180 mm.

Suitable for series KERN ILT-GM, BBB, BBN, KET-TM.

KERN KET-A06, **€ 1450,-**

STANDARD

RS 232

KERN PET-A03 / KERN KET-A03

Second display

Ideal for training and demonstration purposes in laboratories or industry. Large backlit LCD display with digit height 25 mm.
KERN KET-A03: 6 segments, KERN PET-A03: 8 segments. 2 additional data interfaces RS-232. Interface cable to the balance, length approx. 1,5 m, as well as mains adapter standard.

Dimensions WxDxH 200x55x100 mm.

Suitable for series KERN AET, PET:
KERN PET-A03, **€ 210,-**
Suitable for series KERN ILT:
KERN KET-A03, **€ 210,-**

STANDARD

USB

KERN PET-A06

USB keyboard

For easy capture of item data at the balance, for connection to a USB interface. 105 keys, separate numeric keypad, black housing, Dimensions WxDxH 152x84x63 mm.

Suitable for series KERN AET, PET, BBB, BBN, ILT, KET-TM, KEN-TM.

KERN PET-A06, **€ 45,-**

KERN KET-A01

Analogue/Digital converter

to connect up to two platforms to the display device, suitable for series KERN ILT-BM, ILT-GM, KET-TM, KEN-TM, BBB, BBN,

KERN KET-A01, **€ 350,-**

KERN KET-A02

Wall mount

for mounting the display device, (see illustration), dimensions WxDxH 135x148x110 mm, suitable for series KERN ILT-BM, ILT-GM, KET-TM,

KERN KET-A02, **€ 190,-**
(Display device is not included with the delivery)

KERN KET-A05 / KET-A08

Transponder card reader

RFID technology, dimensions WxDxH 133x30x98 mm, suitable for series KERN ILT-BM, ILT-GM, BBB, BBN, KET-TM, KEN-TM. Scope of delivery: transponder card reader, interface cable for connecting to the digital I/O interface. Transponder cards are not included with the delivery.

KERN KET-A05, **€ 450,-**

Transponder cards for transponder card reader KET-A05, pack of 10 pcs.,

KERN KET-A08, **€ 65,-**

Test weights

Weights yesterday and today

Weights have always been used to carry out weighing procedures. This original purpose has almost disappeared. Today, weights are used almost exclusively for adjusting and testing = calibration of electronic balances. We therefore call them "Test weights" as this is their purpose of use.

Adjustment or calibration?

→ **Adjusting** a balance means that you are intervening in the weighing system, to make sure that the display is set to show the correct nominal value. With → **calibration**, on the other hand, there is no intervention, you are testing whether the display is correct and documenting any deviation.

Testing, the right way!

The internationally valid OIML norm R111-2004 classifies test weights hierarchically in accuracy classes, where E1 is the most accurate and M3 is the least accurate weight class. With KERN you get the whole test weight range in all OIML accuracy classes E1, E2, F1, F2, M1, M2, M3.

As the appropriate test weight is only classed as checking equipment according to → **ISO 9000ff** if it has the relevant proof of accuracy, all KERN test weights come with an appropriate → **DAkkS-calibration certificate**. For further details, see the calibration service section on page 185.

KERN offers you the appropriate test weight package for your balance, consisting of the test weight, box and DAkkS-calibration certificate, as proof of its accuracy. The best pre-requisite for proper balance calibration.

→ See the glossary on page 191 – 192

Test weights: classes of accuracy E, F, M and their general relation to the types of balances:

- E1 Test weights for customers who require a high degree of accuracy for the most demanding applications. For high-resolution balances with $d > 1,000,000$ Use recommended with DAkkS calibration certificate only.
- E2 Most accurate test weights for high resolution analytical balances of verification class I $\geq 100,000$ e
- F1 Test weights for analytical balances / precision balances for verification class I / II $\leq 100,000$ e
- F2 Test weights for precision balances of verification class II, $\leq 30,000$ e
- M1 Test weights for industrial and commercial scales of verification class III $\leq 10,000$ e

Selection of the appropriate test weight for your balance

Correctly selected test weights with DAkkS calibration certificate are the pre-requisite for ensuring that your balances are not only correctly adjusted, but also correctly calibrated. Scheduled testing of your balances with such test weights helps to guarantee your quality requirements and to maintain your quality targets.

Here's how you find the right test weight for your balance:

A balance can never be more accurate than the test weight used to adjust it, it all depends on its tolerance.

Accuracy of the test weight: Should correspond to the readout [d] of the balance, or rather be better.

Nominal weight value: This is shown in adjust mode "CAL" in the balance display. Given a choice, the heaviest weight is the most suitable for accurate measurement.

Once accuracy and nominal weight value are specified, the suitable test weight is selected according to the tolerances "Tol" of the individual accuracy classes E2 – M3, see column "Tol ± mg" at the respective weight and table at page 167.

Example:

Balance with weighing range [Max] 2000 g = 2 kg
and readout [d] = 0,01 g = 10 mg

- The accuracy of the required test weight is determined by readout [d] with approx. ± 10 mg.
- Displayed weight size on "CAL" mode: 1000 g or 2000 g.
The required test weight has a 2 kg weight size.
- Suitable test weights with ± 10 mg tolerance and 2 kg weight size, can be found in accuracy class F1. KERN-No 327-72, see page 172.

Exception, analytical balances (readout [d] ≤ 0,1 mg):

E1 test weights are recommended. Depending on the safety requirements, E2 test weights with a DAkkS calibration certificate will also be sufficient.

OIML norm R111-2004 for weights

The key points from the OIML norm R111-2004

OIML (Organisation Internationale de Metrologie Legale) has established the exact metrological requirements for weights in verified applications in approx. 100 states all over the world. The OIML recommendation R111 (2004 Edition) for weights relates to sizes 1 mg – 50 kg. Statements are made on the accuracy, materials, geometric shape, marking and storage of the weights.

Error limits for weights of classes E1 to M3

The error limit classes are in fixed hierarchical levels in the proportion of 1:3, where E1 is the most accurate and M3 is the least accurate weight class. When testing weights with other weights, the correct test class is the next highest class.

Error limit classes (= tolerances)

The values given in the table below (tolerances ± ... mg) are the respective permitted fabrication tolerances. They are to be equal to the → *measuring uncertainty* of the weight, if no → *DAkkS calibration certificate* is available.

Conventional mass

The problem is the air buoyancy, which makes the weight appear lighter. In order to avoid this “distortion” in daily use, all weights are adjusted to the unit specifications as given in R111, i.e. it is accepted that: material density of the weights is 8000 kg / m³, air density is 1.2 kg / m³ and measuring temperature is 20 °C.

KERN cylindrical test weights

Comply with OIML R111-2004 in all respects, without exception.

→ See the glossary, page 191 – 192

You can create your own individual weight set yourself:

It contains only the weights which you need for testing purposes. KERN will customise your own personal box out of plastic, wood or aluminium. For more details on this, please see page 184.

Newton weights (N)

All hook and slotted weights as well as beam bars are available with N adjustment according to M1 tolerances, additional price € 8,-. We need to know the location of use and postal code.

DAkkS calibration certificate for N weights: identical to DAkkS prices for individual weights M1, additional price € 8,-.

Weight carriers for block weights or other test weights

Individual weight carriers for testing high capacity floor scales, pallet scales, pallet truck scales, crane scales, etc. This can also be used for storing the weights.

This means the weight container and the weights can be placed on the scale in one go, saving time and money.

The weight container can be calibrated to OIML accuracy classes M1 – M3.

On request, KERN will make you a "tailor-made" weight carrier to your specifications.

The German Calibration Service

DAkkS, successor of the German Calibration Service (DKD), is responsible for measuring "correctly" in accordance with legally binding international standards. It is part of DAkkS = Deutsche Akkreditierungsstelle (German accreditation authority) which was founded in Germany. The basis is the European range of standards DIN EN ISO/IEC 17000 for conformity assessment, in particular the accreditation standard 17025, which governs the organisation of a calibration laboratory, as well as basic metrological technical requirements.

Only an accredited calibration laboratory can issue DAkkS/DKD calibration certificates. This defines not only the measuring method, but also gives information on tracing the test means to a national standard and the relevant measuring uncertainty is given.

- ➔ **You are certified to ...**

- ➔ **You need ...**
to control your measuring equipment
- ➔ **Our solution ...**
DAkkS calibration certificate (traceability, measuring uncertainty, internationally recognised)

KERN – Precision is our business

The KERN calibration laboratory for electronic balances and weights has been DKD accredited since 1994 and today it is one of the most modern and best-equipped DAkkS calibration laboratories for balances, test weights and force measurement in Europe.

Thanks to the high level of automation, we can carry out DAkkS calibration of balances, test weights and force-measuring devices 24 hours a day, 7 days a week.

Do you have any further requests or questions on this matter? We would be pleased to help you or visit us on the web at www.kern-lab.com

Range of services:

- DAkkS calibration of balances with a maximum load of up to 6000 kg
- DAkkS calibration of weights in the range of 1 mg – 500 kg. Calibrations can be carried out in the following classes: E1, E2, F1, F2, M1, M2, M3
- Database supported management of checking equipment and reminding service

- In combination with periodic recalibration we can offer you a wide range of further services:
 - Reconditioning of weights, e.g. cast weights (sand blasting, painting, adjustment etc.)
 - Collection service with special transport packaging, even for heavy weights
 - Volume determination for weights of accuracy class E1
 - Measuring of sensitivity (magnetic characteristics)
- Calibration of force-measuring devices
- DAkkS calibration certificates in the following languages DE, GB, FR, IT, ES, NL

DAkkS calibration

- Why?** DAkkS calibration is always necessary when checking equipment (balance or test weight) is to be used in a QM process (e.g. to ISO 9000ff, GS 9000, TS 16949, VDA 6.1, FDA, GLP, GMP, GMP etc.)
- What?** Any checking equipment in proper condition can be DAkkS calibrated.
- How?** Determination of accuracy throughout the world by a laboratory which is accredited to DIN EN ISO 17025. Traceability to internationally recognised standards. The DAkkS calibration certificate confirms both the measurement characteristics of the checking equipment and the general requirements for the control of checking equipment.
- Where?** Internationally recognised – this is monitored by ILAC (International Laboratory Accreditation Cooperation) and e.g. DAkkS (German calibration service) in Germany.
- When?** Operator control the use of checking equipment and periodic recalibration time intervals themselves

Mindesteinwaage / Minimum weight of sample

Nettobelastung

The advantages of using the KERN in-house calibration

You send your balance to us.

Recommendable with new equipment and for balances which can be transported economically, as the travel costs for on-site calibration are then not applied. On request, we can also provide a pick-up and collection service with our parcel service.

The advantages of using the KERN on-site calibration

We visit you.

In Germany, KERN has access to a comprehensive network of employees at the KERN DAkkS calibration laboratory, who can carry out on-site calibration of scales up to 6000 kg.

The calibration service is **independent of the brand**.

Preliminary maintenance work by agreement.

Prices for on-site calibration on request.

Recalibration

- The recalibration schedule depends on the frequency of use, the conditions of use and the safety requirements.
- We would recommend that you recalibrate your balances every 6 months if they are used intensively, and every 12 months with normal use.

Initial calibration and recalibration of balance at the KERN factory	KERN	Price excl. of VAT ex works €

A

Accuracy classes for test weights

E, F, M → **Error limit classes**

Adjusting of measuring equipment

Precise setting of a measure value via a professional intervention in the measurement system.

Adjusting the weighing range of a balance

Either with the external test weight via **the adjusting program CAL**, or with the **internal automatic adjustment resp. adjusting switch**. It is necessary with variations in temperature, a change of environmental conditions, change of location, etc. **Recommended as a daily check routine.**

Application accuracy

Allowance for → **measuring uncertainty** during practical use of a balance. Is given in the appendix to the DAKkS calibration certificate.

ATEX

Derived from **AT**mosphere **EX**plosibles. (explosive atmosphere). A synonym for EU guidelines, which controls the quality and use of equipment in hazardous industrial environments, where there is explosion danger, e.g. through handling of flammable substances, which are present in high concentrations in the form of gas, mist, vapour or dust. See also 94/9/EC as well as 199/92/EC.

B

Balances which are verified/not approved for verification

Almost identical regarding measuring technology. For verified balances certain details are regulated by law, e.g. software changes and additional markings.

C

Calibration Certificate DKD/DAKkS

DAKkS

Documentation of measured characteristics of balances or test weights and of traceability to the national standard. Additional price.

Calibration of measuring equipment:

determination of the precision of a measure value without intervention in the measurement system. Example: to check a balance you load a → **test weight upon it**. The term “Calibrating” was formerly also used for → **Adjusting**.

Calibration or verification

DAKkS-Calibration is possible for every balance in perfect condition. DAKkS calibration is a private service monitored by the state for ensuring high quality requirements according to ISO 9000ff and others, e.g. in production or research. **M Verifying** is only possible for type-approved balances marked with the green **M**

→ **Verification**

Control of measuring equipment in the QM system in conjunction with quality standards

An organisation certified to a quality standard such as DIN/EN/ISO 9000 ff. e.g. a production plant is obliged to adhere to a defined quality standard within the framework of its quality management system. To do this, it is imperative that you have measuring equipment which is working accurately. DIN/EN/ISO 9001, December Edition 2008 states in section 7.6 “Guidance of monitoring and measuring equipment”, that measuring equipment must be calibrated at defined intervals and before use. The measuring devices and measuring standards needed to do this must:

- be traced back to international or national standards. (→ **Traceability to the National Standard**)
- their measuring uncertainty must be known
- they must be marked with a clear identification
- the test must be documented

The → **DKD/DAKkS calibration** fulfils all these requirements.

Conformity assessment

Procedure for confirming warranted characteristics in accordance with recognised rules. For balances this relates to verification.

Conformity declaration from the manufacturer

The manufacturer declares that the product fulfils the applicable EU directives. With electronic balances this is always in conjunction with the CE mark.

Counting resolution

The counting resolution is calculated in points from the ratio of the weighing range [Max] divided by the smallest part weight. It is a statement of counting accuracy.

D

Data interface/parameters

To connect the balance to a printer, PC, network or a second balance. The interfaces available are stated in the model description. Typical interfaces are, for example, RS-232, USB, LAN, DUAL, Digital I/O etc. The interface parameters can be set using the balance.

DKD = German Calibration Service DAKkS = German accreditation authority

See product group 19 “Calibration service”

DMS = Strain gauge

An electrical resistor strip that is glued to an elastic deforming body made of aluminium. As the strain gauge is mechanically deformed its resistance value changes, allowing the measured value to be calculated.

Draught shield

Required for balances with → **Readout** $d \leq 1 \text{ mg}$, to avoid disturbing air movements.

Dual-range balance

As the load increases, the balance switches automatically to the next largest range, for both weighing range [Max] as well as readout [d].

E

Error limit classes for test weights in accordance with R111 OIML

For further details, see chapter 18 “Test weights”

F

FACTORY

These options can only be carried out in the KERN factory.

FORCE = Electromagnetic force compensation

A counterforce is created by means of a coil in a permanent magnet. This counterforce is the same as the load of the weight being measured on the scale and therefore equalising. The measured value is calculated via the change in the coil current.

G

GLP = Good Laboratory Practice

→ **ISO/GLP**

Gravitational acceleration

→ **Gravitational force**

Gravitational force

very important influence on precise electronic balances. Due to the varying influence balances have to be → **adjusted** at the location of use. → **Adjusting the weighing range of a balance**

I

ISO 9000ff/DIN EN ISO 9000ff

Quality Management System in the form of a DIN Norm for quality assurance in a factory.

ISO calibration/ISO certificate = factory calibration certificate

Testing measuring devices for accuracy in accordance with a procedure which is recognised, but not accredited.

ISO/GLP record keeping

Quality Assurance Systems demand record keeping of weighing results and the correct adjusting of the balance giving details of date, time and balance identification. The easiest way to obtain this documentation is by means of a connected printer.

L

Linearity/precision

Greatest deviation of the weight display of a balance to the value of the respective test weight in terms of plus and minus over the whole weighing range.

M

Minimum load [Min]

Lower limit of the verifiable weighing range. Is marked on the verification plate. The function of the balance is also given below the minimum load.

O

Optimisation of reference weight when piece counting

The reference weight is generated automatically several times during the counting process. Increases the counting accuracy.

P

Permissible ambient temperature

Measuring errors are possible with readings of either side of the limits. With verified balances this is stated on the identification plate.

Percentage determination

Example: Reference weight prior to drying: 50g = balance display 100%. After drying 40g = balance display 80% absolute (dry mass) or 20% relative (humidity).

Proof of compatibility

This documents the verification compatibility for combinations of weighing modules such as display devices, load cells and connecting elements.

R

Readout [d]

Smallest readable weight increment on a digital display.

Recalibration

periodic checking of the precision of measurement equipment/checking equipment (e.g. balances/weights) to control accuracy,

→ **Control of measuring equipment**

Reference weight (when piece counting)

See product group 10 "Counting balances / Counting systems / Stocktaking scales".

Reproducibility (standard deviation)

sequenced measure of conformity in repeated weighing (e.g. balances) subject to the same conditions. Mostly 1 d or less. Quality feature.

S

SC-TECH = Single-Cell Technology

→ **FORCE**. The load cell consists of a single aluminium block, which gives a very high measuring quality.

Semi-micro balance

Analytical balance with a readout [d] = 0,01 mg.

Smallest part weight when counting

The smallest piece weight, which a balance can accept for piece counting. For the relevant model, enter "g / piece" in the product data table.

T

Taring, automatic (PRE-TARE)

When the tare pan is put in place the balance immediately displays zero.

Taring, subtractive

The available weighing range of a balance is reduced by the value of the tare load. Example: weighing range of a balance Max 6000g, Tare (= container) 470g, available weighing range 5530g.

Test weight, external (previously calibration weight)

for adjusting or checking the balance accuracy → **Adjusting the weighing range**. The external test weight can be DAkkS calibrated at any time, even afterwards, see product group 19 "DAkkS-Calibration service".

Test weight, internal

Like test weight external, but installed in the balance and powered.

T-FORK = Tuning fork principle

A resonating body (like a tuning fork) is electromagnetically excited, causing it to oscillate. The measured value is calculated via the change in frequency corresponding to the load of the weight being measured on the scale.

Totalising

Various individual weighings are added automatically to aggregate, e.g. all individual weighings of a batch.

Traceability to the National Standard

A pre-requisite for every perfect measurement is the validated comprehensive proof that the measuring equipment can be traced back to the international or national standards. In Germany the statutory binding standards are available from the PTB.

U

Uncertainty of measurement of a balance (= standard deviation)

Determined for each balance according to a precisely given test method and documented in the → **Calibration certificate**. It depends on various factors both internal and external. With increasing the uncertainty load of measurement rises, see product group 19 "DAkkS-Calibration Service"

V

Verification

Verification, in accordance with the new terminology "Conformity assessment". Only balances with → **EC type approval** can be evaluated for conformity. These balances have an identification plate with the green → **M**. Verification is stipulated by the state and serves as consumer protection.

According to the EU directive 2009/23/EG, balances must be verified if they are used as follows:

- in commercial trade when the price of a commodity is determined by weighing.
- in the manufacture of pharmaceuticals in pharmacies and analysis in pharmaceutical and medical laboratories.
- for official purposes.
- in the production of prepackaging.
- in medical applications.

Every balance is tested by the metrological service and stamped with a verification mark. Its accuracy within the framework of permissible standard tolerances is thereby confirmed. EU verification applies to all member states of the EU.

Verification classes of balances

Class I – Analytical balance (precision balance), Class II – precision balance, Class III – industrial scale (commercial scale).

Verification of a balance with adjusting program CAL EXT

the adjusting program is sealed with an official mark after the verification. Thus the verification is only valid for the specific location of use.

→ Gravitational force

For the preparation of verification it is therefore necessary to advise the location of use and post-code.

See individual model details for the information as to whether verification can be carried out in the factory or at the location of use.

Verification of a balance with automatic internal adjusting CAL INT

the above restrictions in respect of the location of use do not apply, because the automatic internal adjusting works also after the verification, therefore it is not sealed. In this case the verification does not depend on the location.

Verification validity for balances

Generally 2 years for all verification classes, for control balances generally 1 year, after expiry the balance has to be reverified.

Verification value [e]

measure of the verification tolerance, depending on balance, mostly between 1 [d] and 10 [d]

→ Readout

W

Weighing range [Max]

is the working range of the balance. The balance can be loaded up to the specified upper limit.

Sales conditions

All prices are valid as of January 1st 2015 until a new version of the KERN catalogue is released. In Europe, all prices do not include the applicable V.A.T.

At KERN there is no minimum order value. For orders less than € 15.00 there is no re-sale discount available. A minimum fee of € 15.00 (net) will be charged for orders less than € 15.00 (net).

Delivery Conditions: we supply ex works Balingen, i.e. the transport costs are invoiced. With our contract logistics partners we always offer you shipping at a good rate. When shipping to islands or other more distant areas, or areas which are difficult to access, the transport costs may possibly be higher, please ask for details. Any goods supplied remain KERN's property until complete payment for the goods sold has been received.

Delivery is usually via courier service.

When you see this symbol by truck, please ask for prices.

Extract from general terms and conditions:

Court of jurisdiction/Legal domicile: 72336 Balingen, Germany;
Commercial register N°: HRB 400865, AG Stuttgart;
Managing director: Albert Sauter, Martin Sauter.
For the full Terms and Conditions, please refer to the website.
www.kern-sohn.com/en/kern/agbs.html

Price changes and product changes are likely in individual cases due to product modifications as well as error.

Sale or return: within 14 days of purchase. Not valid for customised items, such as, for example, special orders or test services such as, e.g. calibration, verification, etc.

Warranty: 3 years.

2 years for products with list price ≤ € 400.00

Does not apply to consumables such as batteries, rechargeable battery packs, etc.

Services

Free delivery: all orders from dealers through the KERN online shop with an order value over € 150.00 (list price) and parcel shipment, within the EU (except of MT, CY) with our parcel service (no pallet shipment) are delivered free of charge.

3 % web discount: Additional discount for dealer orders from the KERN online shop (only in combination with KERN e-invoice, please ask for details).

KERN DirectCash: The quick, secure COD procedure for protection against non-payment. With the KERN DirectCash COD system, you can safely deliver orders to end customers with unknown credit rating, with no risk of non-payment. Please request further details on this procedure.

After-Sales-Service

Repair service within 1 week at our plant in Balingen, transportation costs are additional. In urgent cases, if requested by customer, a replacement device will be provided until all repairs are completed; please ask.

Price reduction for a new device:

if repair costs exceed the current value of the defective device, a new device will be offered at a discount price. This offer is valid only up to 2 years after warranty expiration.

Spare parts service within 48 hours, transportation costs are additional.

Marketing support

KERN catalogues, brochures, branch prospectuses – your own personalised marketing tools

This catalogue and branch prospectuses are available free of charge. A neutral version of the catalogue, without the KERN address imprint, is also available free of charge for your marketing activities (200 pcs.), larger quantities on request.

On demand, your company logo and address can be printed on the back of the KERN catalogue free of charge (200 pcs.), larger quantities on request. In this way you have your own individual marketing tool. The KERN catalogue and branch prospectuses are available in the following languages: DE, GB, FR, IT, ES.

For further details, see page 2.

Important notice

Explosion hazard or humidity

With the exception of the specially labelled models (ATEX), our balances are not suitable for rooms with a risk of explosion. Our models are also not suitable for rooms with a high level of air humidity (condensing). Please observe the applicable electrical regulations.

Earth's gravitational force

Electronic balances are subject to location regulations due to the earth's gravitational force. If location of use is changed, reverification and recalibration of the electronic balance is needed.

See the glossary, page 191 → **Adjusting**

KERN Pictograms

**Internal adjusting:**

Quick setting up of the balance's accuracy with internal adjusting weight (motordriven).

**Adjusting program CAL:**

For quick setting up of the balance's accuracy. External adjusting weight required.

**Memory:**

Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.

**Data interface RS-232:**

To connect the balance to a printer, PC or network.

**RS-485 data interface:**

To connect the balance to a printer, PC or other peripherals. High tolerance against electromagnetic disturbance.

**USB data interface:**

To connect the balance to a printer, PC or other peripherals.

**Bluetooth data interface:**

To transfer data from the balance to a printer, PC or other peripherals.

**WLAN data interface:**

To transfer data from the balance to a printer, PC or other peripherals.

**Control outputs (optocoupler, digital I/O):**

To connect relays, signal lamps, valves, etc.

**Interface for second balance:**

For direct connection of a second balance.

**Network interface:**

For connecting the scale to an Ethernet network. With KERN products you can use a universal RS-232/LAN converter.

**GLP/ISO log:**

The balance displays the weight, date and time, regardless of a printer connection.

**GLP/ISO log:**

With weight, date and time. Only with KERN printers, see "Accessories"

**Piece counting:**

Reference quantities selectable. Display can be switched from piece to weight.

**Recipe level A:**

Separate memory for the weight of the tare container and the recipe ingredients (net total).

**Recipe level B:**

Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display.

**Recipe level C:**

Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display. Additional convenient functions, such as barcode and back calculation functions.

**Totalising level A:**

The weights of similar items can be added together and the total can be printed out.

**Totalising level C:**

Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display. Additional convenient functions, such as barcode and back calculation.

**Percentage determination:**

Determining the deviation in % from the target value (100 %).

**Weighing units:**

Can be switched to e.g. nonmetric units at the touch of a key. See balance model. Please refer to KERN's website for more details.

**Weighing with tolerance range:**

Upper and lower limiting values can be programmed individually for e.g. dosing, sorting and portioning.

**Vibration-free weighing:**
(Animal weighing program)

When the weighing conditions are unstable, a stable weight is calculated as an average value.

**Protection against dust and water splashes IPxx:**

The type of protection is shown in the pictogram. For details see the glossary.

**ATEX explosion protection:**

Suitable for use in hazardous industrial environments, in which there is explosion danger. The ATEX marking is specified for each device.

**Stainless steel:**

The balance is protected against corrosion.

**Suspended weighing:**

Load support with hook on the underside of the balance.

**Battery operation:**

Ready for battery operation. The battery type is specified for each device.

**Rechargeable battery pack:**

Rechargeable set.

**Mains adapter:**

230V/50Hz in standard version for EU. On request GB, AUS or USA version available.

**Power supply:**

Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, AUS or USA on request.

**Strain gauges:**

Electrical resistor on an elastic deforming body.

**Tuning fork principle:**

A resonating body is electromagnetically excited, causing it to oscillate.

**Electromagnetic force compensation:**

Coil inside a permanent magnet. For the most accurate weighings.

**Single cell technology:**

Advanced version of the force compensation principle with the highest level of precision.

**Verification possible:**

The time required for verification is specified in the pictogram.

**DAkKS calibration possible:**

The time required for DAkKS calibration is shown in days in the pictogram.

**Package shipment:**

The time required for internal shipping preparations is shown in days in the pictogram.

**Pallet shipment:**

The time required for internal shipping preparations is shown in days in the pictogram.

**Warranty:**

The warranty period is shown in the pictogram.

KERN – measuring technology and testing services from a single source

**Balances & Test service catalogue**

Provides a complete overview of the KERN line of balances, test weights, and services.

**Medical scales catalogue**

Complete line of medical scales, from infant scales to professional patient scales, chair scales and adiposity scales, as well as innovative hand grip dynamometers, chemist's balances, and veterinary scales.

**Microscopes & refractometers catalogue**

Extensive range in the area of optical instruments, such as, for example, biological microscopes, stereo microscopes, metallurgical microscopes, polarisation microscopes as well as analogue and digital refractometers.

**SAUTER measuring equipment catalogue**

Test instruments for industry and commerce, such as force, coating thickness, material thickness, and hardness measuring systems.

**KERN DAKKS calibration service brochure**

Detailed information on topics pertaining to the calibration of balances, test weights, and force measuring devices.

**KERN branch prospectuses**

Compact overview of the best-sellers for many different lines of business – just the balances your customers need!

**The gnome guide**

Travel report from KERN, the famous scientific gnome, who travelled all over the world, in order to illustrate the physical law of gravitational force. Ideal for use in school education – please request, it's free of charge.

**170 years of KERN**

Interesting and readable overview of the history of the origins of Southern German balance manufacturing, as well as the company history, which stretches right back to 1770 – please request, it's free of charge.

Your advantages

**Quick Delivery**

Items in stock are sent the same day if orders are placed before 1:00 pm (valid for parcel service delivery within the EC).

**Price performance ratio**

KERN scales are always an inexpensive alternative. They are durable, uncomplicated and easy to place into operation.

**Direct dispatch**

of ordered goods to your customer is available, with personalised delivery note if desired (please ask), invoice will be issued to you (third party business).

**3 years warranty**

Items under € 400,-: 2 years

**No stock-keeping necessary.**

KERN does the warehousing for you.

**Sale or return**

within 14 days of purchase.

Tradition and innovation for more than 170 years

An independent family business, KERN since already 6 generations is synonymous with quality and reliability in customer service.

**► 1844**

KERN is founded – precision balances are produced

**► 1863**

A proud Gottlieb Kern with his staff

**► 1880**

Pharmaceutical balance with Aesculap

**► 1923**

Inflation – KERN wages are paid with self printed currency

**► 1980**

The electronic balance ousts mechanical devices

**► 1994**

Accredited DKD laboratory (ISO 17025)

**► 2000**

New premises in Balingen

**► 2002**

Existing QM system certification in accordance with DIN EN ISO 9001:2000 standards

**► 2007**

Approval for the manufacture of medical products (DIN EN 13485 and 93/42/EEC)

**► 2008**

Authorisation for initial verification by the manufacturer (2009/23/EC)

**► 2009**

Approval for the manufacture and sale of height rods (DIN EN 13485 and 93/42/EEC)

**► 2012**

New customer portal www.kern-sohn.com goes live

**► 2013**

Starting construction of Ziegelei 2.0 with computer-controlled high-bay warehouse

**► 2014**

Expansion of the product range to include optical instruments (microscopes and refractometers)

Our Tip

Come to see the Museum of scale and weight ...

How a scale learned to weigh! Come and experience KERN history in the Zollernschloss at Balingen ...
