

## X-Stream Oscilloscope Version 4.9.2 Release Notes

August 2006

Product	New Feature	Enhancement	Behavior Change	Item	Description
WaveMaster SDA	x			MB-OFDM UWB software option	LeCroy is pleased to introduce our MB-OFDM UWB compliance software solution for analyzing the WiMedia Ultra-wideband (UWB) radio platform. MB-OFDM UWB is the only solution tightly integrated into the scope's core firmware, which does not require you to run external applications, thereby providing the highest measurement throughput. Visit <a href="http://www.lecroy.com">www.lecroy.com</a> for more information.
WavePro WaveRunner WaveMaster			x	acquisition lockups	Under certain combinations of channels and time/div settings, it was possible for acquisition processing to be halted when settings were changed by means of the front panel controls. This has been corrected.
