

MPA Version 1.01 Release Notes

This release is tested for compatibility with the following LeCroy analyzer systems:

- SASTracer v2.01 or later
- SATracer v4.01 or later
- FCTracer v2.11 or later

Within the Multi-protocol Analyzer integrated software environment, all the primary features of the protocol specific applications are available with the exception of support for the LeCroy Exerciser/Generator and application specific short-cut keys.
