

**Memorex®**

**communications:** Corded Desktop Phone system  
with Cellular Phone Docking Station

## MCD200DS

Switching between landline and cellular service has never been easier. Simply place your cell phone in the docking station and it automatically switches to cellular service. Push the TEL/CEL button and you can talk on either line using your desktop phone. With a wide range of adapters, it can work with most leading manufacturer's cellular phones and most cellular services.

Eliminates the need for a traditional landline | Allows true hands-free cellular calls via speakerphone | 3-line dot matrix LCD display on base | Recharges cellular phone while docked | Dual keypad |
