Memorex
MP3 / WMA

Before operating this product, please read these instructions completely.

To play music right away, simply follow these steps:

For those using Window 98 & Window 98SE systems, installation of the driver(CD included) prior to operating the unit is required.

1. Open the battery cover and insert an **AA size** battery (an Alkaline Battery is recommended), make sure to observe the correct polarity before insertion.)

2. Insert the USB plug (Type "A") of USB cable (included in the package) into the USB port of PC. Then press and hold the Stop ON/OFF ⏻ to power on the Player.

3. The Player status will be displayed on the LCD. Then insert the other end of the connector into the USB port of the Player.

4. A **"new USB device found"** message will be shown on PC monitor.

5. Click the icon **"My Computer"**.

6. A **Removable Disk** is shown on the **My Computer** window.

7. You can copy the music files to this removable disk (i.e. Digital Audio Player).

8. After all musical files are copied, remove the Player from cable. (Remarks: Double click the **"safe removal"** icon on the task bar; the **"Unplug or Eject Hardware"** window will be pop up. You can select the device you want to remove. Then, click the **"Stop"** button. You can then unplug the device from the USB port of your computer.)

9. Press ▶■ to play music. Pressing the ▶■ button will stop the music.

10. Press ◄◄ to play previous music file and ►► to play next music file.

11. Press + to increase the volume and - to decrease the volume.

12. Press and hold ⏻ key three seconds to power off the player. Pressing and holding down the ⏻ will turn the player on again.

● **Installing the Driver (for Win 98 and Win 98SE only)**

The USB mass storage function will not be activated without driver installation. To activate the USB mass storage function, please use the installation CD-Rom to install the driver.

1. Install the "Memorex Solid State Digital Audio Player" program in your computer
   1.1 Insert the Installation CD
   1.2 An InstallShield Wizard will pop up automatically
   1.3 Click on **Next** to proceed the installation
   1.4 Once the installation is done, click on **Finish**

Remarks:
No Driver is required for Win ME, Win 2000 and Win XP. The OS will detect the Audio Player automatically after connection with the USB port is established.

● Firmware Upgrade Procedure
For WinME, Win2000 or WinXP only

1. Install the "Memorex Solid State Digital Audio Player" program in your computer
    1.1 Insert the Installation CD
    1.2 An InstallShield Wizard will pop up automatically
    1.3 Click on Next to proceed the installation
    1.4 Once the installation is done, click on Finish

2. Firmware Download
    2.1 Download the latest firmware from our website www.memorexeletronics.com. Unzip the firmware file into the directory C:\Program Files\Memorex\Digital Audio Player
    2.2 Click on Start and select Program. From program, select the Memorex Solid State Digital Audio Player, then click on Update.
    2.3 An Update dialogue box will pop up. Click on Start and the application program will begin to download the firmware.

Remarks:
Some memory space in Flash Memory is reserved for Firmware Upgrade Features. Therefore, usable memory space will be less than 64MB.

● Downloading Files

1. Connect the USB cable to the Digital Audio Player and the USB port of the computer.
2. Store files/songs in the newly created removable hard disk.

● Formatting the Player

1. Click on **Start** and select **Program**. From program, select the Memorex Solid State Digital Audio Player, then click on **Format**.
2. A Format dialogue box will pop up, click on **Start** and the application program will format the Player.

M M P 3 6 4 2 MP3/WMA

● Operation

1. Insert the earphone plug into the earphone jack of the Digital Audio Player.
2. Turn on the unit by pressing ⏻ button.
3. The unit will playback automatically, if it does not playback the music, press the ▶ ■ to playback the music.
4. Press ▶ ■ again to stop playing music.
5. Press + button to increase the volume.
6. Press - button to decrease the volume.
7. Press ◄◄ position to select the previous track.
8. Press ►► position to select the next track.

9. Push and hold the Player function button to ⏮ position for fast reverse.

10. Push and hold the Player function button to ⏭ position for fast forward.

11. Push HOLD switch to lock all buttons. In this mode, the buttons will not function when pressed. This is useful so that you don't accidentally change your settings. (In the case of the stop status in the *Music Mode*, the player turns off automatically.)

12. Press and hold ⏻ key three seconds to power off the player. Holding down the ⏻ key will turn the player on again.

● Installing the Battery
1. Push and open the battery compartment door.
2. Insert the battery with correct polarity.
3. Close the battery compartment door.

Notes:

- To avoid battery leakage or corrosion, remove the battery from the player if the player is not to be used for a long time.
- Remove a dead battery from the player immediately to avoid damaging the player.
- When corrosion occurs, wipe the battery compartment immediately with a dry cloth and insert a new battery.

● RealOne Player Installation

1. Insert the Installation CD
2. Click on **Start** and select **Program**. From program, click on **Windows Explorer**.
3. Select the directory of CD-ROM from **Windows Explorer**, and click on the folder of **RealOne Player**. Different versions of the application program will be displayed.
4. Double click the version that you want to install in computer; the installation will then begin automatically.
5. Follow the RealOne Install Wizard step by step to finish the installation.

● Safe Removal Procedure

Before disconnecting the Digital Audio Player from the USB cable, please make sure the following procedure is adhered to; otherwise damage may occur to the Player.

● Double click the "**safe removal**" icon on the task bar; the "**Unplug or Eject Hardware**" window will be pop up. You can select the device you want to remove. You can now safely unplug the device from the USB port of your computer.

● Trouble Shooting

No Sound from earphones	● Check whether the jack is detached from the unit.	● Re-insert the earphones again.
	● Check whether VOLUME is set to "0".	● Increase the volume.
	● Check whether the battery is exhausted.	● Replace with a new battery.
	● Check whether the plug is contaminated/oxidized.	● Clean the jack.
	● Corrupted MP3 or WMA file.	● Download the files again.
Failed to download or upload of MP3/WMA file	● Check whether the battery is exhausted.	● Replace with a new battery.
	● Check the connection of USB cable.	● Re-plug the cable at both ends.
	● Damaged USB cable.	● Replace a new USB cable.

● Precautions

- Copyright
  - Distributing copies of MP3 tracks without permission is a violation of the international copyright laws.
- Safety
  - Vibration experienced during walking or exercising will not affect the player. However, dropping the player or dropping a heavy object on the player may result in damage or sound distortion.
  - Avoid spilling any liquid onto or into the player.
  - Do not leave the player in a location near heat sources or in a place subject to direct sunlight, excessive dust or sand, moisture, rain, mechanical shock, or an unleveled surface or in a car with windows closed during periods of excessive heat.

- On Headphones and Earphones
  - Road Safety

    Do not use headphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headsets at high volume while walking, especially at pedestrian crossing. You should exercise extreme caution or discontinue to use in potentially hazardous situations.

- Preventing hearing damage
  Avoid using the headphone at a high volume. Hearing Experts advice not to play music loudly and for continuously long periods.
  If you experience a ringing in your ears, reduce the volume or discontinue using the headphones.
- Have consideration for others, keep the volume at a moderate level. This allows you to hear the sound from outside and to be considerate to the people around you.

● **Included Accessories**
- Earphone

● Care and Maintenance

Your Digital Audio Player is a precision electronic device, and should not be subjected to rough handling or exposed to extreme temperatures or moisture. Do not use chemical agents or liquids to clean the unit, as they may damage the plastic. Be sure to remove the batteries before cleaning the unit. Weak batteries should be replaced promptly, since they can leak and damage the player.

Use only alkaline or zinc carbon batteries. Do not mix different types of batteries or new and used batteries. Do not recharge non-rechargeable batteries. Use only recommended batteries or equivalent. Be sure to observe the correct polarity when inserting the batteries. Worn out batteries should be removed from the unit promptly. Do not short-circuit the supply terminals.
