INSTALLATION PROCEDURE:

Please follow the following instructions carefully!

1.) Connect a PC to the instrument with a serial cable (Supplied with the tester), either direct to computer or via a USB/serial converter.
2.) Unzip the attached zip file.
3.) Open the extracted folder and run the "FlashMe.exe" and follow instructions inside the application.*
   - Connect a PC to the instrument with the original supplied serial cable.
   - Select the COM port to which serial cable is connected to. (See Extra Notes)
   - If connected, disconnect the charger.
   - On instrument hold down UP and LIGHT keys and turn ON the instrument (or connect charger).
   - Press CONTINUE button on the PC-SW.
   - Wait until the instrument's firmware is updated.

* If "FlashMe.exe" fails to start do the following:
      - right click on "FlashMe.exe"
      - click Properties
      - click Compatibility tab
      - click on the checkbox near the label: "Run this program in compatibility mode for:"
      - in the dropdown menu select "Windows 7" or "Windows XP" if the former doesn't work
      - click OK, and try to run "FlashMe.exe" again

EXTRA Notes:

Your computers COM port can be identified by viewing windows device manager and looking in "Ports/ Comm & LPT". If nothing is listed here you do not have a COM port or the drivers for the USB/Serial converter are not correctly installed.
