Android SW aPAT Link

# A 1434 aPAT Link Android

## From Scan to Test in Seconds

The aPATLink Android is Advanced Portable Appliance Testing tool. It enables fast and simple data management of tested appliances, as well as a quick overview of already performed tests by simply scanning a QR code. The Application enables the user to send results to the main office before leaving test site, enter and save data to the test instrument by using a Smart phones' keyboard. Also it enables a creation of the custom made database for portable appliances' ID's, the appliances's names and the appliances' locations. All these features enable the user a faster and easier data handling.

### KEY FEATURES:

- Complete database of tested appliances on one location;
- Upcoming retest warning on your smart phone or tablet;
- Simple, custom auto-test creation;
- Use of smart phones barcode or QR code scanner for quicker data entry;
- Remote control of PAT tester;
- Easy data entering;
- Projects can be stored to your drop box account;
- Sending data to main office, before leaving test site;
- Built in risk assessment calculator;
- None skilled user can perform test simply by scanning the QR code containing all needed information for specific appliance;
- Overview of testing parameters by simple scanning QR code.

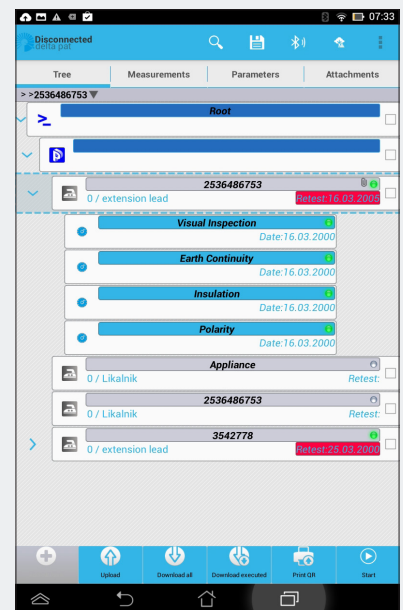

### ADDITIONAL FEATURES:

- In Built Risk Assessment Tool to provide correct Re-Test periods in accordance with COP version 4;
- Protect your business by applying QR codes instead of Bar Codes.

### aPATLINK PV ANDROID IS COMPATIBLE WITH:

- MI 3309 BT DeltaPAT
- MI 3310 25A SigmaPAT

### SCREENS:

## How it works:

aPAT application normally serves as a link between Instrument and one of the supported Printers. In areas where appliances are still tagged mainly with barcodes, application also enables use of professional barcode reader while smartphones camera is more suitable for scanning of QR codes.
