

Confirming the device registration of COOLPIX990/880 (Windows 2000 Professional)

The following explanation uses COOLPIX990 as an example.

After installing Nikon View 5 (device driver) and restarting the computer, connect your camera to the computer using a USB cable and turn on the camera. The camera is registered automatically.

Follow the instructions below to check that the camera has been correctly registered with the system.

Step 1

Right-click the **My Computer** icon on the desktop. Select **Properties** from the menu which appears. The **System Properties** dialog box opens. Open the **Hardware** tab and click the **Device Manager** button in the **Device Manager** area.

Log on

You will need to log on as Administrator to register the camera.

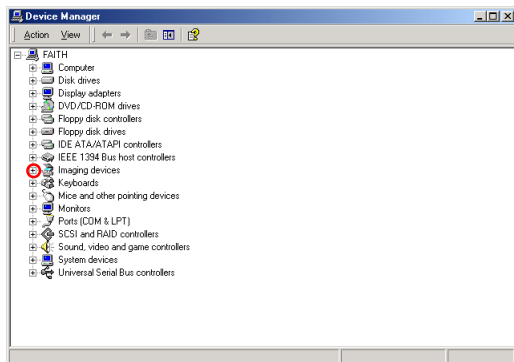

Before connecting the camera to the computer

Be sure to install Nikon View 5 (device driver) before connecting your camera to the computer.

[Click here](#)  to proceed to the next step.

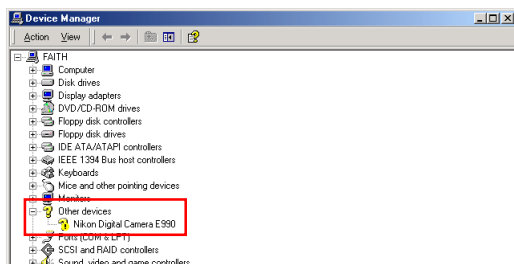

Step 2

Confirm that **Imaging devices** is listed in the **Device Manager** dialog box, then click the plus sign (+) next to **Imaging devices**.

If Imaging Device does not appear

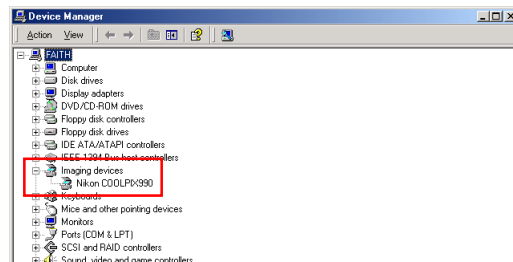

If **Nikon Digital Camera E990** is listed under **Other devices**, click [here](#) .

If **Imaging devices** is not listed in the **Device Manager** and **Nikon Digital Camera E990** is not listed under **Other devices**, re-start your computer and return to [Step 1](#).

Step 3

After confirming that **Nikon COOLPIX990** is listed under **Imaging devices**, double-click the listing to open the **Properties** window.

Step 4

Click the **General** tab of the **Nikon COOLPIX990 Properties** dialog box and confirm that **This device is working properly** appears under **Device status**. Click **OK**.

Device registration is now complete. Click **OK** to close the **System Properties** dialog box.

Click [here](#)  to return to the **Nikon View 5 Reference Manual**.
