Device Registration (if Nikon Transfer does not start)

Registering your camera with Windows

Windows

If Nikon Transfer does not start, the camera may not have been registered successfully as a device with the system.

The following sections, divided according to camera type and operating system used, describe how to register and confirm the device. You will be returned to the *Nikon View 5 Reference Manual* after reading the instructions for your camera and operating system.

Camera	Operating system
COOLPIX series (excluding 990/880)	*Windows Millennium Edition (Me)*
	Windows 98 Second Edition (SE)
	Windows 2000 Professional
	Windows XP Home Edition/Professional
COOLPIX990 **COOLPIX880**	*Windows Millennium Edition (Me)*
	Windows 98 Second Edition (SE)
	Windows 2000 Professional
	Windows XP Home Edition/Professional
