# If you are using a camera equipped with a TRANSFER button

If your camera is equipped with a TRANSFER button, you can use it to transfer images.

This section outlines the transfer process, from installing the necessary software to transferring images using the TRANSFER button.

## Step 1 : Install the software

Install the software necessary for transferring images from the camera memory card to the computer, or for uploading images to NikonNet.

For further details, refer to the *Installation Guide*.

**Installation Guide**

## Step 2 : Transfer the images

Press the TRANSFER button on the camera to transfer images to the computer.

For further details, refer to the *Transferring images using the TRANSFER Button*.
