Foreword

This section of the service manual contains information about the RAE-3NU* PDA variants.

Different European language versions of RAE-3* are supported using different keymats and different FLASH software. All other components (modules & mechanics) are identical.

A detailed exploded diagram is available in Section 10, Parts lists.

Country versions

Table 1. Country versions

Product code	Product type	Variant name	Language	QWERTY Keyboard, code	CMT Keypad code	Sales area
