

Enterprise Edge Telephone Feature Card

Using Enterprise Edge features

Using an Enterprise Edge

feature

Press Feature and enter the desired feature code on the dial pad.

or

Press a programmed memory button.

2. Follow the display messages.

On a two-line display telephone, some features are also available on display

Programming memory buttons

You can program memory buttons for one-touch access to frequently used features.

- 1. Press Feature * 3.
- 2. Press the memory button that you want to program. (This step is not necessary on the M7100 telephone.)
- 3. Press Feature and enter the feature code on the dial pad. You can also program frequently dialed numbers, using the following codes:

 Feature * 1 External autodial: Store an external number for one-touch dialing.

 Feature * 2 Internal autodial: Store an internal number for one-touch dialing.

See your Telephone User Card for details.

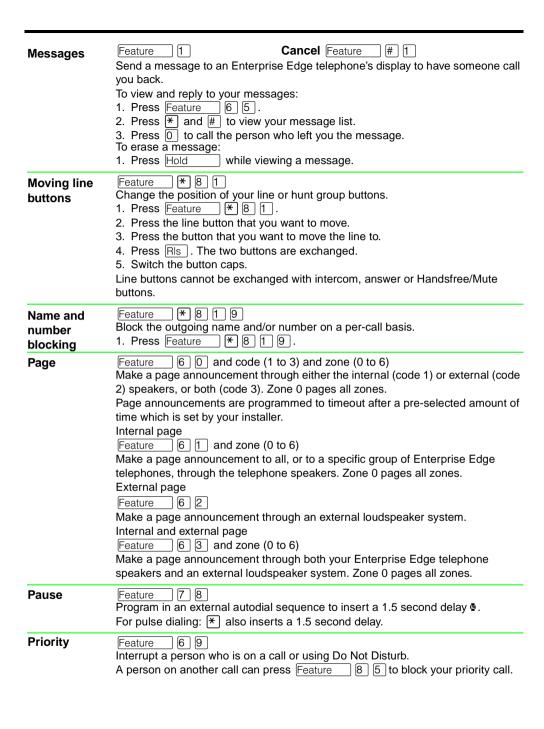

You cannot program line, intercom, answer, or Handsfree/Mute buttons.

Enterprise Edge features

Background Music	Feature 8 6 Cancel Feature # 8 6 Listen to music (provided by your office) through your telephone speaker when you are not on a call.
Button Inquiry	Feature * 0 Check what is programmed on any button. Use when labeling buttons.
Call Duration Timer	Feature 7 7 Briefly display the approximate length of your current or most recent call.
Call Forward	Feature 4 Cancel Feature # 4 Send your calls to another telephone in your Enterprise Edge system.
Call Park	Put a call on hold so that it can be picked up from any telephone in your Enterprise Edge system. The display shows a three-digit retrieval code. To retrieve a parked call, press Intercom and dial a retrieval code on any telephone in your Enterprise Edge system. On the M7100 telephone, just lift the receiver and dial the retrieval code.
Call Pickup - directed	Feature 7 6 Answer any ringing telephone. Press Feature 7 6 and dial that telephone's extension number.
Call Pickup - group	Feature 7 5 Answer a call that is ringing at another telephone in your pickup group. The external call that has been ringing longest is answered first.

Call Queuing	Feature 8 0 1 Answer the next call. If more than one call is waiting, priority is given to incoming external calls over callback, camped, or transferred calls.
Camp-on	Feature 8 2 Re-route a call to another telephone even if all its lines are busy. Press Feature 8 2, then dial the extension number of the receiving telephone.
Class of service password	Feature 6 8 Change the dialing filters on a line or telephone, or gain external access to your system. Dialing filters determine which numbers you can dial. Press Feature 6 8 and enter a password provided by your system coordinator to change your class of service.
Conference	Establish a conference call between yourself and two other parties. 1. Make or answer the first call. 2. Put the first call on hold. 3. Make or answer the second call. 4. After the second call is connected, press Feature 3. 5. Press the line or intercom button of the first held call (not required on the M7100 telephone). 6. Press Ris to end the conference call. To remove yourself from a conference permanently (unsupervised conference): Press Feature 7 0. The other two callers remain connected. (Some external lines may not support this feature. See your system coordinator.) To put a conference on hold: Press Hold . The other two callers can still talk to each other. To split a conference: Press the line or intercom button of one caller to consult privately while the other caller is on hold. To re-establish the conference, press Feature 3. To disconnect one party: Press the line or intercom button of the caller you want to disconnect, then press Ris . Press the line or intercom button of the remaining caller to resume your conversation. To independently hold two calls: Press the line or intercom button of the first caller, then press Hold . The second caller is automatically put on hold. To re-establish the conference, retrieve one call from hold, press Feature 3, then retrieve the second call from hold.
