## **For use with:**

### **Digital VTRs:**

AJ-D930, AJ-D955, AJ-SD930, AJ-SD955, AJ-SD955A

## **Features**

Installing this board in a digital VTR makes it possible to input and output digital data using the SDTI format (Serial Data Transport Interface).

<p>SDTI complies with the SMPTE 305M standard. SDTI's data stream format complies with the SMPTE 321M standard.</p>
---

## **Accessories**

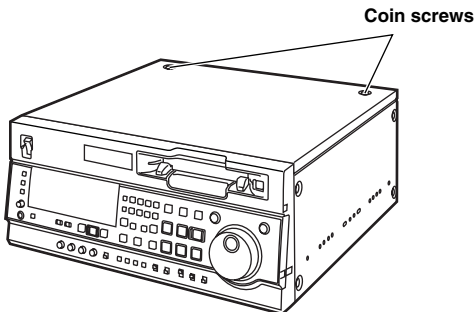

- Connector board (1)
- Connecting cables (3)

## ***Installing the board***

### **CAUTION:**

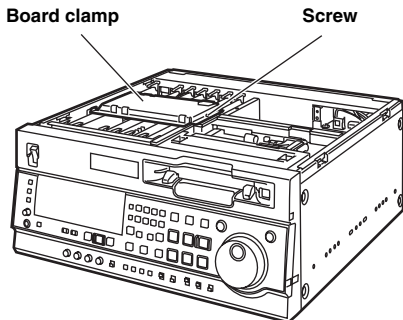

These servicing instructions are for use by qualified service personnel only. To reduce the risk of fire or electric shock do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

- 1** Disconnect the power cord from the VTR.
- 2** Remove the 2 coin screws, then remove the top panel.

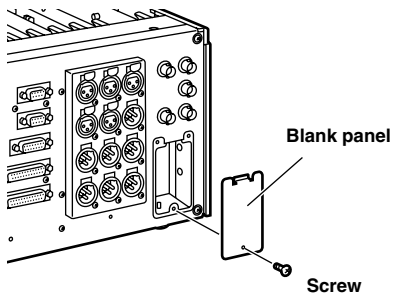

## ***Installing the board***

- 3** Loosen the screw indicated in the diagram below, then remove the board clamp.

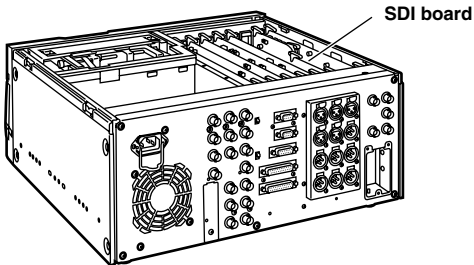

- 4** Remove the screw, then remove the blank panel from the rear panel.

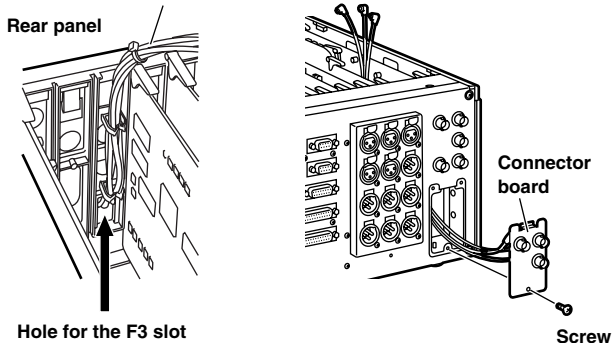

## Installing the board

- 5 Remove the SDI board from the F3 slot on the rear panel side of the VTR unit.

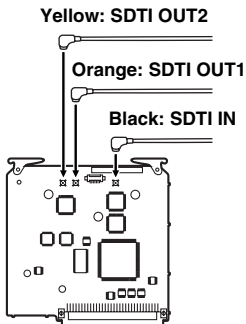

- 6 Attach the accessory connector board to the rear panel. As shown in the diagram below, after passing the SDI board's connecting cables through the hole provided for the F3 slot, plug them into the top section of the connector board and then fix the connector board in place using the screw.

**SDI board's connecting cables**

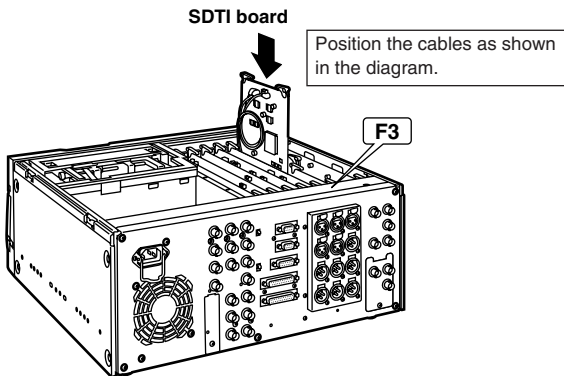

# Installing the board

7 Connect the connecting cables to the SDTI board.

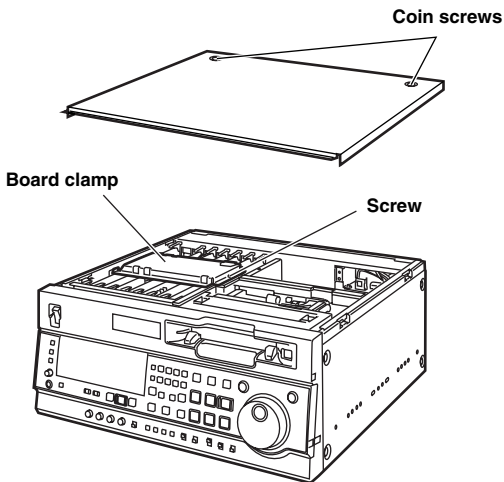

8 Reinsert the SDI board in the F3 slot, then insert the SDTI board in the same F3 slot located on the front panel side.

## ***Installing the board***

- 9** Reattach the board clamp using the screw, then fix the top panel in place using the 2 coin screws.

**Refer to the operating instructions of the digital VTR being used for details on the settings, operation, warning messages, etc.**

# ***Specifications***

## ■ **SDTI board**

### **Dimensions (W×H×D):**

5 11/16×5 7/8×9/16 inch (143×148×13 mm)

### **Weight:**

0.2244 lb (102 g)

## ■ **Input/Output:**

### **SDTI IN (audio/video data):**

BNC×1

(complies to the SMPTE 305M/321M standard)

### **SDTI OUT (audio/video data):**

BNC×2

(complies to the SMPTE 305M/321M standard)
