Safety Instructions

WARNING

RISK OF ELECTRIC SHOCK DO NOT OPEN

WARNING: To reduce the risk of electric shock do not remove cover or back. No user-serviceable parts Inside Refer servicing to qualified service personnel

The lightning flash with arrow-head within a triangle is intended to tell the user that parts inside the product are a risk of electric shock to persons
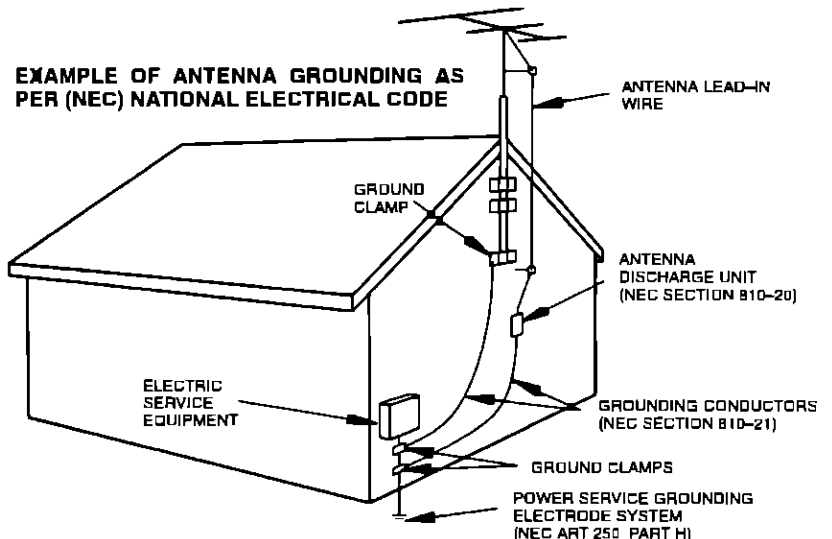

The exclamation point within a triangle is intended to tell the user that important operating and servicing instructions are in the papers with the appliance

Note To CATV System Installer: This reminder is provided to call the CATV system installer's attention to Article 820–40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical

Safety Instructions For Television Receivers

1 Read and apply the operating instructions provided with your television receiver

2 Read all of the instructions given here and retain them for later use

3 Unplug this television receiver from the wall outlet before cleaning Do not use liquid or aerosol cleaners Use a damp cloth for cleaning

4 Do not use attachments not recommended by the television receiver manufacturer as they may cause hazards

5 Do not use this television receiver near water For example Avoid placing it near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc

6 Do not place this television receiver on an unstable cart, stand, or table The television receiver may fall, causing serious injury to a child or adult, and serious damage to the appliance Use only with a cart or stand recommended by the manufacturer, or sold with the television receiver Wall or shelf mounting should follow the manufacturer's instructions, and should use a mounting kit approved by the manufacturer

6A An appliance and cart combination should be moved with care Quick stops, excessive force, and uneven surfaces may cause the appliance and cart combination to overturn

7 Slots and openings in the cabinet and the back or bottom are provided for ventilation, and to insure reliable operation of the television receiver and to protect it from overheating These openings must not be blocked or covered The openings should never be blocked by placing the television receiver on a bed, sofa, rug or other similar surface This television receiver should never be placed near or over a radiator or heat register This television receiver should not be placed in a built–in installation such as a bookcase unless proper ventilation is provided

8 Operate only from the type of power source indicated on the marking label If you are not sure of the type of power supplied to your home consult your television dealer or local power company For television receivers designed to operate from battery power, refer to the operating instructions

9 This television receiver is equipped with a polarized alternating–current line plug (a plug having one blade wider than the other) This plug will fit into the power outlet only one way This is a safety feature If you are unable to insert the plug fully into the outlet, try reversing the plug If the plug should still fail to fit, contact your electrician to replace your obsolete outlet Do not defeat the safety purpose of the polarized plug

10 Do not allow anything to rest on the power cord Do not locate this television receiver where the cord will be abused by persons walking on it

11 Follow all warnings and instructions marked on the television receiver

12 Do not overload wall outlets and extension cords as this can result in fire or electric shock

13 Never push objects of any kind into this television receiver through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock Never spill liquid of any kind on the television receiver

EXAMPLE OF ANTENNA GROUNDING AS PER (NEC) NATIONAL ELECTRICAL CODE

ANTENNA LEAD–IN WIRE

GROUND CLAMP

ANTENNA DISCHARGE UNIT (NEC SECTION 810-20)

ELECTRIC SERVICE EQUIPMENT

GROUNDING CONDUCTORS (NEC SECTION 810-21)

GROUND CLAMPS

POWER SERVICE GROUNDING ELECTRODE SYSTEM (NEC ART 250 PART H)

14 If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges In the U S Section 810 of the National Electrical Code and in Canada Part 1 of the Canadian Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode See Figure

15 For added protection for this television receiver during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna This will prevent damage to the receiver due to lightning and power-line surges

16 An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits When installing an outside antenna system extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal

17 Unplug this television receiver from the wall outlet, and refer servicing to qualified service personnel under the following conditions
   a   When the power cord or plug is damaged or frayed
   b   If liquid has been spilled into the television receiver
   c   If the television receiver has been exposed to rain or water
   d   If the television receiver does not operate normally by following the operating instructions Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the television receiver to normal operation
   e   If the television receiver has been dropped or the cabinet has been damaged
   f   When the television receiver exhibits a distinct change in performance – this indicates a need for service

18 Do not attempt to service this television receiver yourself as opening or removing covers may expose you to dangerous voltage or other hazards Refer all servicing to qualified service personnel

19 When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer that have the same characteristics as the original part Unauthorized substitutions may result in fire, electric shock, or other hazards

20 Upon completion of any service or repairs to this television receiver, ask the service technician to perform routine safety checks to determine that the television is in safe operating condition

21 **WARNING: To prevent fire or shock hazard, do not expose this appliance to rain or moisture.**

22 **CAUTION:** TO PREVENT ELECTRIC SHOCK DO NOT USE THIS (POLARIZED) PLUG WITH A RECEPTACLE OR OTHER OUTLET UNLESS THE BLADES CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE

NOTE: This equipment is designed to operate in the U S A , Canada and other countries where the broadcasting system and AC house current is exactly the same as in the U S A and Canada

Important Information Regarding Use of Video Games, Computers, Teletext or Other Fixed Image Displays

The extended use of fixed image program material can cause a permanent "shadow image" on the picture tube This background image is viewable on normal programs in the form of a stationary fixed image This type of irreversible picture tube deterioration can be limited by observing the following steps

A   Reduce the brightness/contrast setting to a minimum viewing level
B   Do not display the fixed image for extended periods of time
C   Turn the power off when not in actual use

NOTE: The marking or retained image on the picture tube resulting from fixed image use is not an operating defect and as such is not covered by Warranty This product is not designed to display fixed image patterns for extended periods of time

Specifications

Power Source.	120V, 60Hz, AC
Channel Capability	181 channels (See chart)
	VHF 2-13, UHF 14-69, Cable 125 channels

Introduction
Congratulations on Your New Purchase

Your new video component features an all solid state chassis which is designed to give you many years of enjoyment. It was thoroughly tested and adjusted at the factory for best performance.

In order for you to take full advantage of your new video component, please read and follow the installation and operating instructions supplied with this product.

Customer's Record

The model and serial number of this product may be found on its back cover. You should note the model and serial number in the space provided and retain this book as a permanent record of your purchase to aid in identification in the event of theft or loss.

Model Number: _____   Serial Number: _____

Table of Contents

Installation

Receiver Location

This unit is intended to be used with an optional stand or entertainment center Consult your dealer for available options
Locate for comfortable viewing Avoid placing where sunlight or other bright light (including reflections) will fall on the screen

Use of some types of fluorescent lighting may reduce remote control transmitter range

Adequate ventilation is essential to prevent internal component failure Keep away from areas of excessive heat or moisture

To insure optimum color purity do not position magnetic equipment (motors, fans, other speakers, etc) nearby

Optional External Equipment Connections

The Video/Audio connections between components can be made with shielded video and audio cables For best performance, video cables should utilize 75 ohm coaxial shielded wire Cables are available from your dealer or electronic supply house

Before you purchase any cables, be sure you know what type of output and input connectors your various components require Also determine the length of cable you'll need

AC Power Supply Cord

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT OF AC OUTLET AND FULLY INSERT DO NOT USE THIS (POLARIZED) PLUG WITH A RECEPTACLE OR OTHER OUTLET UNLESS THE BLADE CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE
Polarized Plug

Remote Control Battery Installation & Replacement
Battery Installation

Batteries Use two "AA" batteries
1   Turn the Transmitter face down To remove top cover, press down on marking and slide cover off in the direction indicated
2   Install the batteries as shown in the battery compartment (Polarity (+) or (−) must be correct)
3   Replace the cover and slide in reverse until the lock snaps
4   For heavy Remote Control use, replace old batteries with Alkaline batteries for longer life

Precaution on Battery Use

Incorrect installation can cause battery leakage and corrosion that will damage the Remote Control Transmitter

Observe the Following Precautions:

1   Batteries must be replaced as a pair
2   Do not combine a used battery with a new one
3   Do not mix battery types (Example "Zinc Carbon" with "Alkaline")
4   Do not attempt to charge, short−circuit, disassemble, heat or burn used batteries
5   Battery replacement is necessary when Remote Control reacts sporadically or stops operating the Receiver
Press Down Here And Slide Cover Back

Antenna/Cable Connections

Antenna Connection – For proper reception of VHF/UHF channels an external antenna is required For best reception an outdoor antenna is recommended Antenna Mode must be set to TV (Refer to Antenna Mode section)

Indoor   **Outdoor**

Typical VHF/UHF Antenna
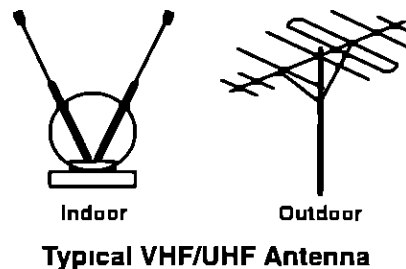

Incoming Cable From Home Antenna (75 Ohm)

VHF/UHF
on Back of Set

Incoming Cable From Home Antenna (300 Ohm)

VHF/UHF
on Back of Set

300 to 75 ohm Matching
Transformer (Not Included)
Cable Connection – For reception of cable channels (01–125) connect the cable supplied by your local cable company Antenna Mode must be set to CABLE (Refer to Antenna Mode section)

Incoming 75 Ohm Cable (From Cable Company)

VHF/UHF
on Back of Set
NOTE. Certain cable systems offset some channels to reduce interference or have Premium (scrambled) channels A cable converter box is required for proper reception Check with your local Cable company for its compatibility requirements

Other Video Equipment

VCRs, Video Disc Players, Computers, TV games and Teletext equipment can also be connected to the antenna input connection

Cable Power Button – The CABLE POWER

button on the Remote Control has been designed to operate selected brands of Cable Television Converter boxes The proper cable television converter box infrared code must be obtained prior to use (Please refer to Programming the Universal Remote for programming instructions) The Remote Control TV/CABLE switch should be in the CABLE position

NOTE The CHANNEL UP and DOWN buttons on the Remote may be used for selecting Cable Converter box channels

CABLE POWER

Located On Remote Control

Use to select Cable Box Channels after programming Infrared Code

Multi Button

The MULTI button can be programmed to operate up to 6 Remote function buttons at the same time

For Example: TV Power/On, VCR Power/On (selected brands) can be operated at the same time with one press of the MULTI button

Procedure

1 First program the Remote for the selected VCR Infrared access code Confirm that the Remote Control is compatible with the equipment
2 Face the Remote Control transmitter away from all equipment remote sensors

3 Press and hold down the Remote TV Power button, then press and hold down the MULTI button at the same time Release buttons (All previous commands will be erased)

(TV)
POWER   MULTI

PRESS SIMULTANEOUSLY

4 Press a maximum of 6 Function buttons on the Remote

Each button you press is equal to one function If six Remote button functions are entered, all will register in the MULTI button memory in the sequence entered When less than six Remote button functions are entered, press the MULTI button to end the program mode (Waiting more than 30 seconds without pressing another button will also end the program mode)

The following is an example of Remote functions that can be programmed into the MULTI button.

– TV Power – For turning TV ON and OFF

– VCR Power – For turning VCR ON and OFF (selected brands after programming it's Infrared access code, if necessary)

Both can be turned ON or OFF with one press of the MULTI button

(TV)
POWER → VCR POWER → MULTI
To delete entered functions – Repeat step 3 Now you can enter from one to six different Remote functions

NOTE.

You can also program the MULTI button to perform most individual Remote Control button functions Buttons which continuously perform a function as long as pressed (Volume Up/Down, Channel Up/Down, etc) cannot be programmed Only those buttons which perform a function when initially pressed (Power On/Off, Mute, Direct Channel Entry, etc) can be programmed

Timer Features

- Sleep Timer
- Program Timer

Special Feature:

Automatic turn "OFF" after 90 minutes

The TV has a special feature that will shut itself OFF after 90 minutes when turned ON by the program timer unless a function key is pressed during the 90 minutes

This feature is useful so that the TV will not remain ON unattended for an extended period of time

Programming the OFF timer will also cancel the automatic OFF feature

---

Sleep Timer — This feature is used for automatic turn off in 30, 60 or 90 minutes

NOTE· Display will flash 3, 2 and 1 to indicate the last three remaining minutes prior to turn off The Recall display will also appear

1 Press the ACTION button to display the Main Menu
2 Press the CH UP/DOWN and VOL LEFT/RIGHT buttons to highlight the Timer Icon
3 Press the ACTION button to display the Timer Control Menu SLEEP TIMER position should already be highlighted If not, press CH UP/DOWN to highlight SLEEP TIMER
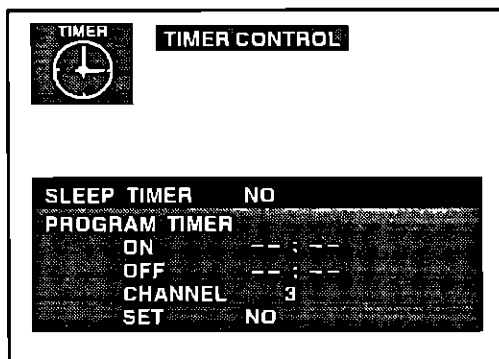

4 Press the VOL RIGHT button to select 30, 60 or 90 minutes (Sleep Timer will be activated)
5 Press the ACTION button twice to exit the Timer Control Menu

NOTE: To deactivate Sleep Timer repeat steps 1 through 4 In step 4 select "NO" instead of minutes

---

Helpful Hints:

Press the RECALL button to display the remaining minutes for Sleep Timer, the time will display in the bottom left corner

---

Program Timer — This feature is capable of turning the TV on, tuned to a desired channel and off at a predetermined time (one day or daily)

NOTE· The clock must be set for this feature to operate (Refer to the Set-Up Menu to set time)

1 Press the ACTION button to display the Main Menu
2 Press the CH UP/DOWN and VOL LEFT/RIGHT buttons to highlight the Timer Icon
3 Press the ACTION button to display the Timer Control Menu
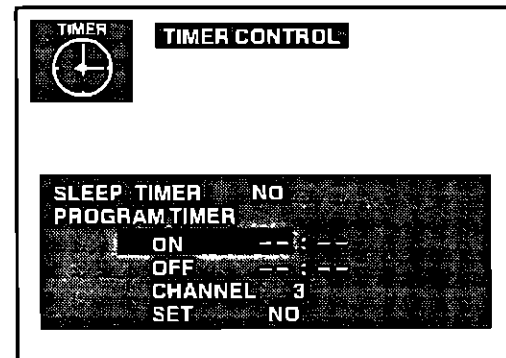

4 Press the CH DOWN button to highlight "ON" (time)
5 Press the VOL LEFT or RIGHT button repeatedly to set hours (set AM/PM accordingly)
6 Press the CH DOWN button to highlight the minutes position
7 Press the VOL LEFT or RIGHT button repeatedly to set minutes
8 Press the CH DOWN button to highlight "OFF" (time)
9 Repeat steps 5 through 7 for setting "OFF" (time)
10 Press the CH DOWN button to highlight "CHANNEL"
11 Press the VOL LEFT or RIGHT button or use the Remote Control Keyboard to enter the channel number desired when the set turns "ON"
12 Press the CH DOWN button to highlight "SET"
13 Press the VOL RIGHT button to select
   - NO – not activated
   - ONE DAY – activated
   - DAILY – activated

NOTE: To deactivate Program Timer select "NO" in step 13

14 Press the ACTION button twice to exit the Timer Control Menu

---

Helpful Hints:

- If you see "GAME GUARD" in the upper right hand corner, the channel or Video Input you have selected has been locked out
- If the Program Timer "ON" functions while the set is operating, the set will automatically tune to the channel designated in the Timer Program

---

Care and Cleaning

Picture Tube (Turn set off)
Use a mild soap solution or window cleaner and a clean cloth DO NOT USE ABRASIVE CLEANERS Avoid excessive moisture and wipe dry

Plastic Cabinets
Wipe the cabinet with a soft cloth dampened with water or a mild detergent solution and wipe dry with a soft clean cloth Avoid excessive moisture Do not use benzene, thinners or other petroleum based cleaners

Wood Cabinets
When dusting or polishing the cabinet, use a clean soft cloth and stroke straight with the grain An occasional coat of furniture polish will help preserve the finish Do not use benzene, thinners or other petroleum based cleaners Do not place objects made of plastic or rubber directly on top of the cabinet A chemical reaction could result causing permanent marring of the finish

Remote Control Transmitter
Do not use benzene, thinners or other petroleum based cleaners to clean the Remote Control Transmitter To clean, wipe with a soft cloth slightly moistened with a mild detergent and then wipe dry with a soft clean cloth

---

Programming The Universal Remote Control

VCR

Preferred Procedure – Code Known
Programming Universal Remote Using Infra–Red Access Codes for VCRs
- Determine brand of VCR
- Identify code(s) associated with the brand in the infra–red code index for VCRs (located in this manual)

Procedure
1. Place the Remote TV/CABLE switch into the TV position (Left)   TV/CABLE

2. Press and hold VCR POWER button down on Universal Remote   VCR POWER

3. Enter two digit code using keyboard "0 through 9" buttons Release VCR Power button The Universal Remote is now programmed

NOTE: Some brands have multiple codes Repeat procedure using each code listed until VCR responds correctly

Alternate Procedure – Code Unknown
Programming Universal Remote Using the "Sequence Method" for VCRs
- Confirm VCR is plugged in and operating properly, then turn OFF

Procedure
1. Place the Remote TV/CABLE switch into the TV position (Left)   TV/CABLE

2. Press and hold the VCR POWER button down on Universal Remote   VCR POWER

3. Press VOL RIGHT button repeatedly Check for the VCR to turn ON after each press When the VCR turns ON, release VCR Power button The proper infra–red code has now been accessed

NOTE:
1. It may take several attempts before the correct code is found
2. The VOL LEFT button can be used to return to a code that was accidently passed by
3. Some Remote Controls may have unique operating functions for some buttons For Example The POWER button may only turn the VCR OFF as opposed to both ON and OFF It will then be necessary to modify the procedure Turn the VCR ON and repeatedly press the VOL RIGHT button until the VCR turns OFF

Cable Converter Box

Preferred Procedure – Code Known
Programming Universal Remote Using Infrared Access Codes for Cable Television Converter Boxes
- Determine brand of Cable Television Converter box
- Identify code(s) associated with the brand in the infra–red code index for Cable Television Converter boxes (located in this manual)

Procedure
1. Place the Remote TV/CABLE switch into the CABLE position (Right)   TV/CABLE

2. Press and hold the CABLE POWER button down on Universal Remote   CABLE POWER

3. Enter two digit code using keyboard "0 through 9" buttons Release CABLE Power button The Universal Remote is now programmed **Use the Remote CHANNEL UP/DOWN buttons for selecting Cable Converter Box channels.**

NOTE. Some brands have multiple codes Repeat procedure using each code listed until Cable Television Converter box responds correctly

Alternate Procedure – Code Unknown
Programming Universal Remote Using the "Sequence Method" for Cable Television Converter Boxes
- Confirm Cable Television Converter box is plugged in and operating properly, then turn OFF

Procedure
1. Place the Remote TV/CABLE switch into the CABLE position (Right)   TV/CABLE

2. Press and hold the CABLE POWER button down on Universal Remote   CABLE POWER

3. Press VOL RIGHT button repeatedly Check for the Cable Television Converter box to turn ON after each press When the Cable Television Converter box turns ON, release Cable Power button The proper infrared code has now been accessed

NOTE:
- It may take several attempts before the correct code is found
- The VOL LEFT button can be used to return to a code that was accidently passed by
- Some Remote Controls may have unique operating functions for some buttons For Example The POWER button may only turn the Cable Television Converter box OFF as opposed to both ON and OFF It will then be necessary to modify the procedure Turn the Cable Television Converter box ON and repeatedly press the VOL RIGHT button until the Cable Television Converter box turns OFF

NOTE: When operating equipment (VCR or Cable Converter box) with the Universal Remote Control, the TV/CABLE Switch should be set to the same position where the Access Code was first programmed for the equipment Otherwise, leave the switch in the TV position

VCR and Cable Converter Box Infrared Codes Index

The Universal infrared Remote Control is capable of operating many brands of VCRs and Cable Television Converter Boxes after entering the proper infrared code

NOTE: The Universal Remote Control memory is limited Some models of VCRs or Cable Television Converter Boxes may not operate The Universal Remote Control is not designed to control all features that are available in all models

Troubleshooting Chart

Before you call for service, determine the symptoms and make a few simple checks shown below

Symptoms		Check
Picture	**Sound**	**Check**
SNOWY PICTURE	NOISY SOUND	– ANTENNA LOCATION AND/OR CONNECTION
MULTIPLE IMAGE	NORMAL SOUND	– ANTENNA DIRECTION AND/OR LOCATION – ANTENNA LEAD–IN WIRE
INTERFERENCE	NOISY SOUND	– ELECTRICAL APPLIANCES, LIGHTS, CARS AND TRUCKS – DIATHERMY AND OTHER MEDICAL EQUIPMENT
NORMAL PICTURE	NO SOUND	– VOLUME CONTROL SETTING – MUTE CONTROL (IF APPLICABLE) – TRY ANOTHER CHANNEL – TV SPEAKERS SWITCH (IF APPLICABLE) IN THE OFF POSITION
NO VIDEO	NOISY SOUND	– TV OR CABLE TUNING MODE SET TO PROPER SETTING – ANTENNA INPUT CORRECT (IF APPLICABLE)
NO PICTURE	NO SOUND	– CHECK THAT AC POWER LINE IS PLUGGED INTO AC OUTLET – BRIGHTNESS & AUDIO CONTROLS SET PROPERLY – TRY ANOTHER CHANNEL
NO COLOR	NORMAL SOUND	– COLOR CONTROL SETTINGS – TRY ANOTHER CHANNEL
BLUE PICTURE	NO SOUND	– RECEIVER IN VIDEO MODE WITH NO SIGNAL
BLACK BOX IN PICTURE	SOUND	– CC (CLOSED CAPTION) IN TEXT MODE – SELECT CAPTION OFF MODE TO ELIMINATE BLACK BOX

Should this unit turn ON momentarily and then turn OFF, or fail to operate, unplug the AC cord and contact your Authorized Servicer for repairs
