## CAUTION:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

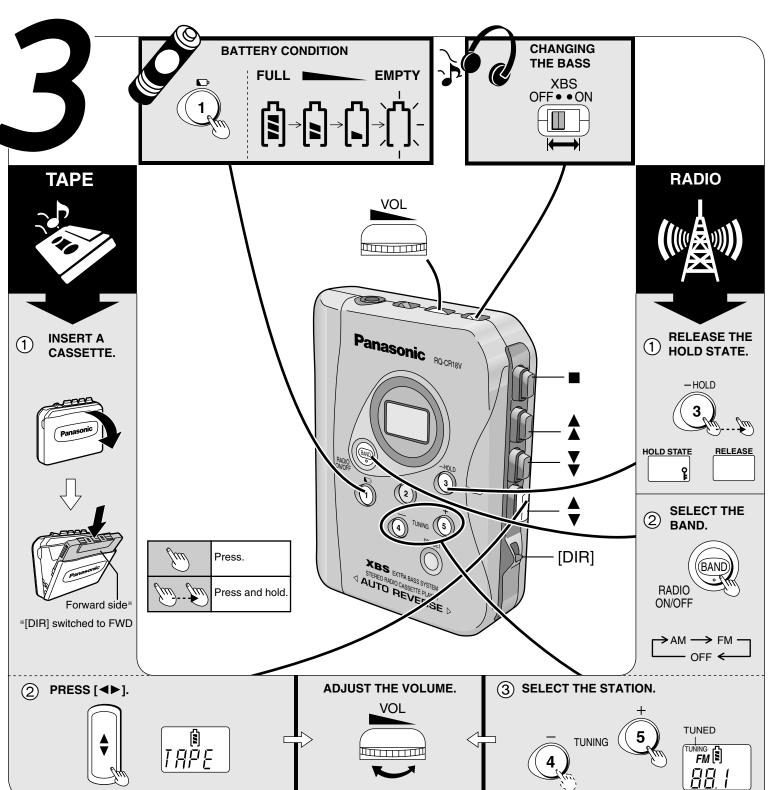

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

•Consult the dealer or an experienced radio/TV technician for help.

Any unauthorized changes or modifications to this equipment would void the user's authority to operate this device.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### **Basic Operation**

#### TAPE PLAYBACK

Function	Operation
To stop	During playback, press [■].
To fast forward or rewind	[DIR] switched to FWD: In the stop mode, press [►►] (fast forward) or [◄◄] (rewind).
	[DIR] switched to REV: In the stop mode, press [◄◄] (fast forward) or [►►] (rewind).
Reverse tape direction	In the stop mode or during playback, set [DIR] to REV or FWD.

You can use normal type tapes only. This unit will not be able to do full justice to characteristics of high and metal position tapes even if they are played back.

#### **RADIO RECEPTION**

#### NOTE:

Press ■ to stop the tape before operating the radio. While playing a tape, the radio will not turn on even if you press [RADIO ON/OFF].

Before requesting service, make the below checks. If you are in doubt about some of the check points, or if the remedies indicated in the chart do not solve the problem, contact the Panasonic Customer Call Center at 1-800-211-7262, or e-mail consumerproducts@panasonic.com, or web site (http://www.panasonic.com).

## Problem

No tape operations in spite of radio operations.

## Checkpoint

Are the batteries worn?

No radio operations.

•Is the unit in the hold state?

•Is a tape playing?

No operations.

Have the batteries been installed with their polarities  $(\oplus, \bigcirc)$  reversed?

No sounds.A gritty noise is heard.

Is the headphone plug firmly connected to the [Ω] jack?Is the plug dirty?

Cannot hear music - too noisy.  $\Box$ 

Separate the unit from mobile phones.

Auto-reverse Play continues, looping forward and reverse, until you press [■].

Note: •Do not open the cassette compartment cover during tape operation.

Concerning the hold function

This function prevents the unit from

being operated even if any of the front

panel buttons are pressed in error.

 Between functions (play, fast forward or rewind), always press [■] first to avoid jamming the tape. When the tape reaches the end after fast forward or rewind, press  $[\blacksquare]$  to release the button.

# CAUTION

 Avoid using or placing this unit near sources of heat. Do not leave it in an automobile exposed to direct sunlight for a long period of time with doors and windows closed.

 To avoid product damage, do not expose this product to rain, water or other liquids.

#### Listening caution

Do not play your headphones or earphones at a high volume. Hearing experts advise against continuous extended play.

If you experience a ringing in your ears, reduce volume or discontinue use.

Do not use while operating a motorized vehicle. It may create a traffic hazard and is illegal in many areas. You should use extreme caution or temporarily discontinue use in potentially hazardous situations.

Even if your headphones or earphones are the open-air type designed to let you hear outside sounds, don't turn up the volume so high that you can't hear what's around you.

If the surfaces are dirty

dry cloth.

To clean this unit, wipe with a soft,

Sound can be deceiving. Over time your hearing "comfort level" adapts to higher volumes of sound. So what sounds "normal" can actually be loud and harmful to your hearing. Guard against this by setting your
