Before use

FCC Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

 Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected Consult the dealer or an experienced radio/TV technician for help.
- Any unauthorized changes or modifications to this equipment would void the user's authority to
- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference

Responsible Party:

Panasonic Corporation of North America

One Panasonic Way Secaucus, NJ 07094 Telephone No.: 1-800-211-7262

This statement is applied to only Canada

This Class B digital apparatus complies with Canadian ICES-003.

Preparation Inserting batteries

Other play methods

Preparation Setting the time

When the year is flashing (e.g. 2006), begin from step 3 below.
 While setting the time, the clock will return to standby if there is no operation after 10 seconds have elapsed. If this happens set again from the start.

The clock has a monthly accuracy of ± -60 seconds at room temperature. When replacing the batteries, the clock stops and restarts when you reinsert them and close the battery cover

 \bigcirc 1

3

2

Saving (dubbing)

Adjust the recording volume on the source to the desired level.

Using the timer

- To cancel the timer ⇒select "OFF" in step 3-①
- To confirm the set time ⇒ From the menu (♣ page 4), select " ♠ , rEC" or " ▶ ♠ , PLAy" and press [▶].
- ! Even when " \circlearrowleft " or " \blacktriangleright $\stackrel{\square}{}$ " are displayed during timer play, the repeat play or continuous play cannot be used.

Various functions

■ To release move down

While stopped, switch to hold to save the batteries.

Using the unit with a computer

Recording and operating problems may occur on some computer systems. Please note that Panasonic and Panasonic dealers cannot be held liable for any lost audio data or other direct or indirect damage except in cases of intentional or gross negligence.

Use only the included USB cable with a ferrite core when connecting to computer.

Troubleshooting Guide

Before requesting service, make the following checks. If you are in doubt about some of the check points, or if the solutions indicated in the chart do not solve the problem, refer to the "Customer Services Directory" on

Symptom	Checkpoints
No operation.	The hold function is on. (▷ above) Make sure the battery cover is closed. Make sure the batteries are correctly inserted. Make sure the battery cover is attached to the rubber strap. You cannot operate when the unit is connected to a computer.
"U01" appears on the display.	•The battery has run down.
"2006" flashes.	●Set the time. (➪ page 1)
"EE:EE" is displayed. Available recording time does not increase correspondingly after erasing files.	This can occur after repeatedly recording and erasing files. Unlock all your files, then erase all folders to remedy this.
There is no sound from the earphone or it is difficult to hear or noisy.	Ensure the plug is inserted firmly. Wipe the plug clean.
Recording stops.	VAS (➪ page 4) may have functioned.
"" appears instead of the recording date.	●Set the time. (❖ page 1)
Playback speed is too fast or slow.	Set play speed to normal. (⇔ page 4)
"FULL" appears.	 There are 99 files in the folder. There is no remaining recording time. Erase unneeded files. (☼ page 2, 3)
No sound from the speaker.	There is no sound when you have connected an earphone.
Cannot erase a file or folder.	The file is locked. (⇔ page 2, 3) The folder is already empty.
Cannot move a file.	 You cannot move files to folders that already contain 99 files. You cannot move files from A−D folder to the dictation folder. (c) page 3)
A recording disappeared.	 Recordings can disappear if the unit receives a shock (e.g. it is dropped), or if the batteries and cover come loose during recording.
Cannot set timer recording/playback.	You can set the timers within 24 hours of the current time. Set the time. (❖ page 1)
Timer recording/playback does not work.	 The settings are canceled if the batteries are removed and the clock settings clear.
Cannot set timer recording/playback at the same time.	When you set both, only the one you set last works.
Timer recording does not work.	 You cannot set the timer if there is less than one minute of available recording time.
Cannot use a battery that can be used on other equipment.	 This unit determines the battery empty even if there is actually life left in it. This is to preserve the clock and other memory items.
Cannot select a folder.	 Press [◆FOLDER/ ■ MENU] briefly. You will enter the menu mode if you hold the button down for 2 or more seconds.
Sound is distorted.	When sound other than voice is recorded, this may occur during playback.
Voice Editing does not start or does not work correctly.	Make sure that "PC" is on this unit's display, and that this unit is recognized as a drive in Voice Editing. If it is not, disconnect the USB cable from this unit, then reconnect it. The connection may not work if you connect via a USB hub or USB extension cable.
Cannot successfully convert sound to text	Refer to "Frequently Asked Questions" in the Voice Editing operating instructions (PDF file)

operating instructions (PDF file).

Maintenance

To clean this unit, wipe with a soft, dry cloth.

Never use alcohol, paint thinner or benzine to clean this unit.

Product Service

1. Damage requiring service—The unit should be serviced by qualified service personnel if

Before using chemically treated cloth, read the instructions that came with the cloth carefully

- (a) Objects or liquids have gotten into the unit; or The unit has been exposed to rain; or
- The unit does not operate normally or exhibits a marked change in performance; or
- The unit has been dropped or the cabinet damaged. 2. Servicing—Do not attempt to service the unit beyond that described in these operating instructions. Refer all other
- servicing to authorized servicing personnel. 3. Replacement parts—When parts need replacing ensure the servicer uses parts specified by the manufacturer or parts that have the same characteristics as the original parts. Unauthorized substitutes may result in fire, electric
- 4. Safety check—After repairs or service, ask the servicer to perform safety checks to confirm that the unit is in proper

Care and Use

To reduce risk of radio interference caused by headphone-, earphone- or microphone cable, only use adequate accessories with cable length less than 3 m.

■ Unit

Mass:

• Avoid using or placing this unit near sources of heat. Do not leave it in an automobile exposed to direct sunlight for a long period of time with the doors and windows closed.

- •To avoid product damage, do not expose this product to rain, water or other liquids.
- Do not keep this unit and magnetized cards (bank cards, commuter passes, etc.) close together.
- •The speaker does not have magnetic shielding. Do not place it near televisions, personal computers or other devices easily influenced by magnetism.

- Do not peel off the covering on batteries and do not use if the covering has been peeled off.
- Align the poles ⊕ and ⊝ correctly when inserting the batteries.
 Do not mix different types of batteries or old and new batteries. Remove the batteries if you do not intend to use the unit for a long time.
- Do not throw into fire, short-circuit, disassemble, or sub-
- ject to excessive heat.

 Do not attempt to recharge dry cell batteries.

 Mishandling of batteries can cause electrolyte leakage
- which can damage items the fluid contacts and may cause a fire. If electrolyte leaks from the batteries, consult your dealer. Wash thoroughly with water if electrolyte comes in contact with any part of your body.
- Keep out of the reach of small children. Accidental swallow ing of batteries can result in stomach and intestinal damage

■ Allergies Discontinue use if you experience discomfort with the ear-

phones or any other parts that directly contact your skin. Continued use may cause rashes or other allergic reactions

Do not play your headphones or earphones at a high volume. Hearing experts advise against continuous extend

If you experience a ringing in your ears, reduce volume or discontinue use.

Do not use while operating a motorized vehicle. It may create a traffic hazard and is illegal in many areas.

You should use extreme caution or temporarily discontinue use in potentially hazardous situations. Even if your headphones or earphones are the open-air type designed to let you hear outside sounds, don't turn up the volume so high that you can't hear what's around

Sound can be deceiving. Over time your hearing "comfort level" adapts to higher volumes of sound. So what sounds "normal" can actually be loud and harmful to your

Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.

To establish a safe level:

 Start your volume control at a low setting. • Slowly increase the sound until you can hear it comfortably and clearly, and without distortion

Once you have established a comfortable sound level:
