Dear customer

Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully.

Before connecting, operating or adjusting this product, please read these instructions completely.
Please keep this manual for future reference.

Region number supported by this unit

Region numbers are allocated to DVD players and software according to where they are sold.

● The region number of this unit is "**1**".
● The unit will play DVDs marked with labels containing "**1**" or "**ALL**".

Example:

1 | **ALL** | **1 2 4**

For U.S.A. only
The warranty can be found on page 51.
For Canada only
The warranty can be found on page 50.

Surround speakers	SB-PS1500
Active subwoofer	SB-WA1500

Operations in these instructions are described mainly with the remote control, but you can do the operations on the main unit if the controls are the same.

The remote control

■ Batteries

Opening the rear cover.

❶ Press with your finger.

❷

❸

R6/LR6, AA, UM-3

Closing the rear cover.

Slide into place.

●When the cover comes off

①

②

●Insert so the poles (+ and −) match those in the remote control.
●Do not use rechargeable type batteries.

Do not:
●Mix old and new batteries.
●Use different types at the same time.
●Heat or expose to flame.
●Take apart or short circuit.
●Attempt to recharge alkaline or manganese batteries.
●Use batteries if the covering has been peeled off.
Mishandling of batteries can cause electrolyte leakage which can damage items the fluid contacts and may cause a fire.

Remove if the remote control is not going to be used for a long period of time. Store in a cool, dark place.

Note
If you cannot operate the unit or television using the remote control after changing the batteries, please re-enter the codes (➡page 8).

■ Use
Aim at the sensor (➡page 5), avoiding obstacles, at a maximum range of 7 m (23 feet) directly in front of the unit.

The manufacturer accepts no responsibility and offers no compensation for loss of recorded or edited material due to a problem with the unit or recordable media, and accepts no responsibility and offers no compensation for any subsequent damage caused by such loss.
Examples of causes of such losses are
●A disc recorded and edited with this unit is played in a DVD recorder or computer disc drive manufactured by another company.
●A disc used as described above and then played again in this unit.
●A disc recorded and edited with a DVD recorder or computer disc drive manufactured by another company is played in this unit.

Table of contents

Useful features

This Recordable DVD Home Theater System records high quality images to rapid random access capable HDD (Hard disk drive) or DVD-RAM. This has resulted in many new features that out perform older tape formats. The following information summarizes a few of these features.

Instant recording
You no longer need to search for empty disc space. By pressing the recording button, the unit finds available recording space and begins recording right away. There is no need to worry about overwriting already recorded content.

TV Guide On Screen™ system
The TV Guide On Screen™ system provides a handy electronic program guide (EPG) for checking what's on. Setting up to record a broadcast is easy too. Simply select the desired program from the displayed list. You can also search for desired programs alphabetically or by displaying only the programs in a certain category.
● TV Guide On Screen™ is available in the continental United States. In Canada, however, this service may not be available in some areas.

HDD recording
You can keep on recording your favorite programs to an internal HDD that is able to record up to 142 hours when using EP (8 Hour) mode.
You can also high speed transfer (dub) your favorite programs to DVD-RAM or DVD-R and create a backup disc.

Instant play
There is no need to rewind or search forward. Direct Navigator guides you to the beginning of the recorded video immediately.

Chasing playback
There is no need to wait until recording is complete. Without stopping recording, you can play the video currently being recorded from its beginning.

Simultaneous Recording and Playback
While recording, you can play another video program that was recorded previously.

Time Slip
During play and also while recording, you can jump to the scene you wish to view by specifying the skip time.

High-performance power supplies up to 800 W
Enables you to experience optimal theater sound performance with 6 speakers.

CAUTION!

THIS PRODUCT UTILIZES A LASER.
USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.
DO NOT OPEN COVERS AND DO NOT REPAIR YOURSELF. REFER SERVICING TO QUALIFIED PERSONNEL.

WARNING:

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR PRODUCT DAMAGE, DO NOT EXPOSE THIS APPARATUS TO RAIN, MOISTURE, DRIPPING OR SPLASHING AND THAT NO OBJECTS FILLED WITH LIQUIDS, SUCH AS VASES, SHALL BE PLACED ON THE APPARATUS.

THE FOLLOWING APPLIES ONLY IN THE U.S.A.
Note to CATV system installer:

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE SCREWS. NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

CAUTION!

DO NOT INSTALL OR PLACE THIS UNIT IN A BOOKCASE, BUILT-IN CABINET OR IN ANOTHER CONFINED SPACE. ENSURE THE UNIT IS WELL VENTILATED. TO PREVENT RISK OF ELECTRIC SHOCK OR FIRE HAZARD DUE TO OVERHEATING, ENSURE THAT CURTAINS AND ANY OTHER MATERIALS DO NOT OBSTRUCT THE VENTILATION VENTS.

THE FOLLOWING APPLIES ONLY IN THE U.S.A.
FCC Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, follow the attached installation instructions and use only shielded interface cables when connecting to peripheral devices.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT SAFETY INSTRUCTIONS

Read these operating instructions carefully before using the unit. Follow the safety instructions on the unit and the applicable safety instructions listed below. Keep these operating instructions handy for future reference.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Remote control

If **SHIFT** appears the function will not work unless you use in combination with the [SHIFT] button. Make sure you first press and hold the [SHIFT] button.

STEP 1 Setting up the TV Guide On Screen™ system

POWER ⏻/I

⏻ POWER

Numbered buttons

FUNCTIONS

▲,▼,◄,►
ENTER

RETURN
After plugging the unit into your household AC outlet and pressing [⏻ POWER] to turn the unit on for the first time, the unit starts TV Guide On Screen™ system setup.

Even if you do not want to use the TV Guide On Screen™ system, complete the setup. You cannot use timer recording unless the setup is completed.

Only English is displayed in the TV Guide On Screen™ system. Other languages cannot be displayed.

TV Guide On Screen™ system

This unit downloads a free television program list from a TV station and displays the list on the television screen. The list offers you many convenient functions such as timer recording (➡ page 15) and so on (➡ page 19).

●If you receive your programming solely from a satellite service, the program guide in this unit will not receive program listings or channel information. Without this information, program-based recordings cannot be made. However, recordings can still be set manually.

Downloading the television program list

●The unit downloads the television program list only when the unit is turned off.
●When the unit is connected to a cable TV box, the cable TV box must be turned on in order to download the television program list.
●In order to cool the circuits used for downloading the television program list, sometimes the cooling fan operates when the unit is turned off. This is not a malfunction.

Preparation
●Turn on the television and select the appropriate video input to suit the connections to this unit.
●When using the cable TV box, check the following.
  –Make sure the IR Blaster is connected and positioned properly (➡Setup Guide).
  –Make sure the cable TV box is turned on.

1 Press [⏻ POWER].

2 Press [▲, ▼] to select "Set up TV Guide On Screen now" and press [ENTER].

> **Welcome to your TV Guide On Screen System!**
3 Press [ENTER] to begin setup.

4 Following the on-screen messages, input the operating environment for your television.

●Move the cursor using [▲, ▼, ◄, ►] and press [ENTER] to confirm.
●Press the numbered buttons to enter numbers.
●Press [ENTER] to advance to the next screen.
●Refer to the guidance on the bottom of the screen.

Set the following;
●Country (USA/Canada)

> **Which country is your DVD Recorder located in?**
>
> **USA**
>
> **Canada**

●ZIP (Postal) code
> **Please enter the 5-digit ZIP code where your DVD Recorder is located:**
>
> **=   =   =   =   =**

●Cable service connected to this unit (Yes/No)

> **Do you have cable service connected to this DVD Recorder?**
>
> **Yes**
>
> **No**
When "No" is selected ➡ right, "The set contents are displayed together"

●Cable TV box receiver connected to this unit (Yes/No)
If you do not want to use the TV Guide On Screen™ system, select "No" at this point.

> **Is a cable box connected to this DVD Recorder?**
>
> **Yes**
>
> **No**
When "No" is selected ➡ right, "The set contents are displayed together"

If you are using a cable TV box, set the following:
- Cable TV box connection channel (Ch2/Ch3/Ch4/L3)
  - If you are connecting the cable TV box to this unit's IN3 (L3) terminal, select "L3".
  - If you are connecting the cable TV box to this unit's RF terminal, select "Ch2", "Ch3" or "Ch4", according to the cable TV box setting.
- Cable TV box brand
  (Move down with [▼] for more brands. Select "Not Listed" if you cannot find your cable TV box on the list.)
- IR signal code
  Make sure your cable TV box is set to the channel that appears on screen and press [ENTER]. A test is performed.

> **Is your cable box now tuned to channel 09?**
>
> **Yes**
>
> **No**
- If the cable TV box has changed to channel 09, select "Yes" and press [ENTER].
- If the cable TV box is still set to the same channel, select "No" and press [ENTER]. Repeat this step until the cable TV box changes to channel 09.

■ The set contents are displayed together

> Zip code   - 11111 (USA)
> Cable   - Yes
> Cable box - No
- If the information is correct, select "Yes, end setup" and press [ENTER].
- If the information is not correct, select "No, repeat setup process" and press [ENTER] to start the setting again.

Once you confirm the input content, the following screen appears.

> **What would you like to do now?**
>
> **Watch TV**

5 Press [ENTER].

A television reception screen or a blue background screen is displayed.

If you do not want to use TV Guide On Screen™ system
➡ page 41, Auto channel/clock settings

6 Press [⏻ POWER].

Leave the unit turned off until the unit downloads the television program list. This may take up to a maximum of 24 hours.

When the unit is connected to a cable TV box.
- The cable TV box must be turned on in order to download the television program list.
- Note that the television program list may not be downloaded correctly if you change the channel of the cable TV box while the unit is turned off.

If you find "There is no data for this screen" on the television when you turn the unit on, the unit has not yet downloaded the program list.
This unit may download more than one channel line-up. Follow the on-screen guidance and select one of the channel line-ups (➡ page 19).

> **To use immediately (Manual Clock Setting)**

Set the clock manually.
Please note that the program list is not displayed until the unit downloads it. Timer program recording is only possible manually.

1 Press [FUNCTIONS].

2 Press [▲, ▼] to select "SETUP" and press [ENTER].

3 Press [▲, ▼] to select "Set Up" and press [▶].

4 Press [▲, ▼] to select "Manual Clock Setting" and press [ENTER].
5 Press [◄, ►] to select the item you want to change and press [▲, ▼] to change the setting.

6 Press [ENTER].

The clock starts.

To exit the screen
Press [RETURN] several times.

- DST (Daylight Saving Time): ON or OFF
  If you select "ON", the clock is advanced one hour starting at 2 a.m. on the first Sunday in April and ending at 2 a.m. on the last Sunday in October.
- TIME ZONE shows the time difference from Greenwich meantime (GMT).

  EST (Eastern Standard Time)   = GMT −5
  CST (Central Standard Time)   = GMT −6
  MST (Mountain Standard Time) = GMT −7
  PST (Pacific Standard Time)   = GMT −8
  AST (Alaska Standard Time)   = GMT −9
  HST (Hawaii Standard Time)   = GMT −10

STEP *2* Set up to match your television and remote control

Selecting television type

You do not have to change the setting when connected to a 4:3 standard aspect television that is not compatible with progressive output (➡ page 45).

1 Press [FUNCTIONS].

2 Press [▲, ▼] to select "SETUP" and press [ENTER].

3 Press [▲, ▼] to select "TV Screen" and press [▶].

4 Press [▲, ▼] to select "TV Type" and press [ENTER].

SETUP	TV Type
	Aspect 4:3 & 480I
Channel	**Aspect 4:3 & 480P**
Set Up	**Aspect 16:9 & 480I**
Disc	**Aspect 16:9 & 480P**
Video	
Audio	
Display	
TV Screen	
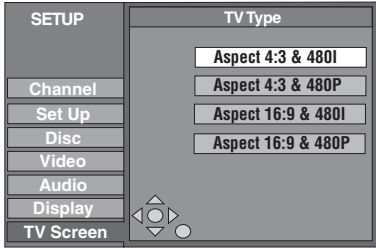

●Aspect 4:3/Aspect 16:9:

4:3	16:9

  4:3 standard aspect television   16:9 widescreen television
●480P/480I:
    Select "480P" if the television is compatible with progressive output.

5 Press [▲, ▼] to select the item and press [ENTER].

To exit the screen
Press [RETURN] several times.
To return to the previous screen
Press [RETURN].

Television operation

You can configure the remote control TV operation buttons to turn the television on/off, change the television input mode, select the television channel and change the television volume.

1 Switch [HOME THEATER, TV] to "TV".

2 Point the remote control at the television
While pressing [⏻ POWER], enter the code with the numbered buttons.
e.g., 01: [0] ➡ [1]

Manufacturer and Code No.

Panasonic		PHILIPS (RC-5)	03
National	01, 02	RCA	05
QUASAR		SAMSUNG	14, 18, 19
FISHER	10	SANYO	10
GE	05	SHARP	06, 07

HDD and discs you can use for recording and play

Type	Logo	Indicated in these instructions	Instructions
Hard disk drive (HDD) ●80 GB	–	`HDD`	**Temporary storage** ●You can record up to 142 hours [in EP (8H) mode] (➡ page 13, Recording modes and approximate recording times). ●You can perform chasing playback or Time Slip (➡ page 13). ●You can record digital broadcasts that allow "One time only recording". You can transfer (dub) a recorded title to a CPRM compatible DVD-RAM; however, the title is erased from the HDD. (➡ page 45).
DVD-RAM ●4.7 GB/9.4 GB, 12 cm (5″) ●2.8 GB, 8 cm (3″)	DVD R A M RAM4.7	`RAM`	**Re-writable discs for backup use** ●You can record up to 16 hours [in EP (8H) mode on double-sided disc. You cannot record or play continuously on two sides.] (➡ page 13, Recording modes and approximate recording times). ●You can perform chasing playback or Time Slip (➡ page 13). ●Scratch and dust resistant cartridge discs and large capacity double sided discs (9.4GB) are commercially available. ●You can record digital broadcasts that allow "One time only recording" when using CPRM (Content Protection for Recordable Media) compatible discs (➡ page 45). You cannot transfer (dub) a recorded title. ●This unit is compatible with 1✕–3✕ recording speed discs. ●You can transfer (dub) up to 24 ✕ recording speed by using a high speed recording compatible disc (➡ page 31).
DVD-R ●4.7 GB, 12 cm (5″) ●1.4 GB, 8 cm (3″)	DVD R R4.7	`DVD-R`	**One time recording discs for backup use (recordable until the disc is full)** ●You can record up to 8 hours [in EP (8H) mode]. ●By finalizing the disc, you can play it in a DVD player as DVD-Video (Play only) (➡ page 35, 45). ●You cannot record digital broadcasts that allow "One time only recording". ●This unit is compatible with 1✕–4✕ recording speed discs. ●You can transfer (dub) up to 32 ✕ recording speed by using a high speed recording compatible disc (➡ page 31).

●We recommend using Panasonic discs. DVD-R from other manufacturers may not be recorded or played due to the condition of the recording.

■ Which should I use, DVD-RAM or DVD-R?
The following chart indicates the differences. Select based upon what you require.

(○:Possible, ✕:Impossible)	DVD-RAM	DVD-R
Re-writable	○	✕
Edit	○	※1
Play on other players	○※2	○※3
Recording both Main and SAP of MTS broadcast	○	✕※4
Recording broadcasts that allow one copy	○※5	✕
Recording 16:9 aspect picture	○	※6

※1 You can erase, enter name and change thumbnail. Available space does not increase after erasing.
※2 Only on DVD-RAM compatible players.
※3 After finalizing the disc (➡ page 35, 45).
※4 Only one is recorded (➡ page 40, Select MTS).
※5 CPRM (➡ page 45) compatible discs only.
※6 The picture is recorded in 4:3 aspect.

Note
When "DVD-R High-Speed Recording" is set to "On" the restrictions on secondary audio recording, etc. are also applied to DVD-RAM. Turn this setting "Off" if high speed transfer (dubbing) to DVD-R is not necessary when recording a program (➡ page 40).

■ Protection `RAM` (Cartridge discs)
With the write-protect tab in the protect position, you cannot record to, edit, or erase from the disc.
Play automatically starts when inserted in the unit.
Play-only discs (12 cm/8 cm)

Disc type	Logo	Indicated in these instructions	Instructions
DVD-Audio	DVD AUDIO	`DVD-A`	High fidelity music discs
DVD-Video	DVD VIDEO	`DVD-V`	High quality movie and music discs
Video CD	COMPACT disc DIGITAL VIDEO	`VCD`	Recorded music and video (including CD-R/RW)
Audio CD	COMPACT disc DIGITAL AUDIO	`CD`	Recorded audio and music (including CD-R/RW)
	–		CD-R and CD-RW with music recorded in MP3 (➡ page 23)

●This unit plays CD-R/CD-RW (audio recording discs). Close the session or finalize the disc after recording.
Play may be impossible on some CD-R or CD-RW discs due to the condition of the recording.
●The producer of the material can control how discs are played. So you may not always be able to control play as described in these operating instructions. Read the disc's instructions carefully.

Discs that cannot be played
●2.6 and 5.2 GB DVD-RAM, 12 cm (5″)
●3.95 and 4.7 GB DVD-R for Authoring
●Unfinalized DVD-R recorded on other equipment (➡ page 45, Finalize)
●PAL discs (you can still play the audio on DVD-Audio)
●DVD-Video with a region number other than "1" or "ALL"
●DVD-ROM, DVD-RW, +R, +RW, CD-ROM, CDV, CD-G, Photo CD, CVD, SVCD, SACD, MV-Disc, PD, Divx Video Disc, etc.

9

INTRO

Disc handling

■ How to hold a disc

Do not touch the recorded surface.

■ If there is dirt or condensation on the disc

[RAM] [DVD-R]
● Clean with an optional DVD-RAM/PD disc cleaner (LF-K200DCA1, where available).
● Do not use cleaners for CDs or cloths.

[DVD-A] [DVD-V] [VCD] [CD]
Wipe with a damp cloth and then wipe dry.
■ Handling precautions

● Do not attach labels or stickers to discs. (This may cause disc warping and un-balanced rotation, rendering it unusable.)
● Do not write on the label side with a ball-point pen or other writing instrument.
● Do not use record cleaning sprays, benzine, thinner, static electricity prevention liquids or any other solvent.
● Do not use scratch-proof protectors or covers.
● Do not use the following discs:
  – Discs with exposed adhesive from removed stickers or labels (rented discs, etc).
  – Discs that are badly warped or cracked.
  – Irregularly shaped discs, such as heart shapes.

● Do not place in the following areas:
  – In direct sunlight.
  – In very dusty or humid areas.
  – Near a heater.

HDD (Hard disk drive) handling care

The HDD is a high precision recording instrument and because of its long recording capability and high speed operation it is a very special device that is easily susceptible to damage.
As a basic rule, save important video content to a DVD disc as backup.

■ The HDD is a device that is not built to withstand vibration/shock or dust

Depending on the setup environment and handling of the HDD some content may become damaged and play and recording may no longer be possible. Especially during operation, do not subject the unit to any vibration, shock, or remove the AC power plug from the household AC outlet. In the event of a power failure the content, during recording or play, may be damaged.

■ The HDD is a temporary storage device

The HDD is not an everlasting storage device for recorded content. Use the HDD as a temporary storage place for viewing once, editing, or for saving to a DVD disc.

■ Immediately save (backup) all content as soon as you feel there may be problem with the HDD

If there is an irregularity within the HDD, strange sounds or problems with picture (block noise, etc.) may result. Using the HDD in this condition may worsen the problem and in the worst case the HDD may no longer become usable. As soon as you notice this type of problem, save all content to the DVD disc.
Recorded content (data) on an HDD that has become unusable is unrecoverable.

■ Setup precautions

● **Do not place in an enclosed area so the rear cooling fan and the cooling vents on the side are covered up.**
● **Place the unit on a surface that is flat and not subject to vibration or impact.**
● **Do not place on anything that generates heat like a video cassette recorder, etc.**
● Do not place in an area often subject to temperature changes.
● Place in an area where condensation does not occur. Condensation is a phenomenon where moisture forms on a cold surface when there is an extreme change in temperature. Condensation may cause internal damage to the unit.

● **Conditions where condensation may occur**
  – When there is an extreme change in temperature (moving from a very hot location to a very cold location, or vice versa, or when subjected to an air conditioner or when cooled air directly impacts the unit.) When the HDD (warms during operation) is subjected to cold air, condensation may form on the inside of the HDD and may cause damage to the HDD heads, etc.
  – When there is high humidity or a lot of steam in the room.
  – During the rainy season.

● In the above situation, **without turning the unit on**, let the unit adjust to the room temperature and wait 2–3 hours until condensation is gone.

■ Cigarette smoke, etc. causes malfunction or breakdown

The unit may breakdown if cigarette smoke or bug spray/vapor, etc. gets inside the unit.

■ While operating

● Do not move the unit or subject to vibration or impact. (The HDD may become damaged.)
● Do not remove the AC power plug from the household AC outlet, or flip the power breaker switch.
While the unit is on, the HDD is rotating at high speed. Sound or movement due to rotation is normal.

■ When moving the unit

① Turn the unit off. (Wait until "BYE" disappears from the display.)
② Remove the AC power plug from the household AC outlet.
③ Move only after the unit has come to a complete stop (approx. 2 minutes) in order to avoid subjecting to vibration and shock. (Even after turning the unit off, the HDD continues operating for a short time.)

■ HDD recording time remaining

This unit records using a VBR (Variable bit rate) data compression system to vary recorded data segments to match video data segments which may cause differences in the displayed amount of time and space remaining for recording.
If the remaining amount of time is insufficient, erase any unwanted titles to create enough space before you start recording. (Erasing a play list will not increase the amount of time.)

■ When "HDD SLP (SLEEP)" appears in the display

The HDD has automatically gone into SLEEP mode in order to extend the life of the HDD.
● Press [HDD] to activate.
● While in SLEEP mode play or recording may not begin right away because the HDD takes time to be re-activated.
● If there is no disc in the unit, the HDD will go into SLEEP mode after there has been no operation for 30 minutes or longer. When not using the unit, we recommend removing the disc.

■ Indemnity concerning recorded content

Panasonic does not accept any responsibility for damages directly or indirectly due to any type of problems that result in loss of recording or edited content (data), and does not guarantee any content if recording or editing does not work properly. Likewise, the above also applies in a case where any type of repair is made to the unit (including any other non-HDD related component).

Maintenance

The precision parts in this unit are readily affected by the environment, especially temperature, humidity, and dust. Cigarette smoke also can cause malfunction or breakdown.

To clean this unit, wipe with a soft, dry cloth.
≥Never use alcohol, paint thinner or benzine to clean this unit.
≥Before using chemically treated cloth, read the instructions that came with the cloth carefully.

Observe the following points to ensure continued listening and viewing pleasure.
Dust and dirt may adhere to the unit's lens over time, making it impossible to record or play discs.
Use the **DVD-RAM/PD lens cleaner (LF-K123LCA1, where available)** about once every year, depending on frequency of use and the operating environment. Read the lens cleaner's instructions carefully before use.

Listening caution

Selecting fine audio equipment such as the unit you've just purchased is only the start of your musical enjoyment. Now it's time to consider how you can maximize the fun and excitement your equipment offers. This manufacturer and the Electronic Industries Association's Consumer Electronics Group want you to get the most out of your equipment by playing it at a safe level. One that lets the sound come through loud and clear without annoying blaring or distortion—and, most importantly, without affecting your sensitive hearing.

We recommend that you avoid prolonged exposure to excessive noise.

Sound can be deceiving. Over time your hearing "comfort level" adapts to higher volumes of sound. So what sounds "normal" can actually be loud and harmful to your hearing.
Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.
To establish a safe level:
≥Start your volume control at a low setting.
≥Slowly increase the sound until you can hear it comfortably and clearly, and without distortion.

Once you have established a comfortable sound level:
≥Set the dial and leave it there.

Taking a minute to do this now will help to prevent hearing damage or loss in the future. After all, we want you listening for a lifetime.

The model number and serial number of this product can be found on either the back or the bottom of the unit.
Please note them in the space provided below and keep for future reference.

[HDD] [RAM] [DVD-R]
- It is not possible to record to both HDD (Hard Disk Drive) and DVD drive simultaneously.
- It is not possible to record continuously from one side of a double sided disc to the other. You will need to eject the disc and turn it over.
- When using 8 cm (3″) DVD-RAM, remove the disc from the cartridge.
- You can record up to 500 titles on HDD, 99 titles (one side) on one disc.
- It is not possible to record CPRM (➡ page 45) protected material onto DVD-R or 2.8 GB DVD-RAM discs.

Regarding DVD-R
- When transferring (dubbing) a title recorded with the high speed mode to a DVD-R, set "DVD-R High-Speed Recording" to "On" before recording to the HDD. (➡ page 40)
- **In order to play a DVD-R recorded using this unit on another playback source, the disc must first be finalized (➡ page 35).**

Preparation
- Switch [HOME THEATER, TV] to "HOME THEATER".
- Press [RETURN] to exit the television program list if it is displayed on the television. To turn off auto start up of the television program list
➡ page 19, Selecting the TV Guide On Screen™ system start up pattern.

1 Press [HDD] or [DVD] to select the recording drive.

The main unit: Press [INPUT SELECTOR] several times to select "HDD" or "DVD".
The HDD or DVD indicator lights up on the unit.

2 If you selected the DVD drive

Press [▲ OPEN/CLOSE] on the main unit to open the tray and insert a disc.

- Press the button again to close the tray.
- If you put a disc in while the HDD is selected, the DVD indicator on the unit will flash while the unit reads the disc.

Insert label-up.

Insert fully so it clicks into place.

Insert with the arrow facing in.
3 Press [∧ ∨ CH] to select the channel.

HDD SP 4 R 52:00

To select with the numbered buttons:

TV Mode (Airwaves)	CATV Mode (Cable)
e.g., 5: [0] ➡ [5]	e.g., 5: [0] ➡ [0] ➡ [5]
15: [1] ➡ [5]	15: [0] ➡ [1] ➡ [5]
	115: [1] ➡ [1] ➡ [5]

- Select the audio to record (➡ page 13).

4 Press [REC MODE] to select the recording mode (XP, SP, LP, or EP).

HDD XP 4 R 26:00
CH

Remaining time on the disc

- To record sound using LPCM (XP mode only):
Set "Audio for XP Recording" to "LPCM" in the SETUP menu. (➡ page 40)

5 Press [● REC] to start recording.

HDD XP 4 0:00.01
(REC) CH

Recording will take place on open space on the HDD or on disc. Data will not be overwritten.
- You cannot change the channel or recording mode during recording.

- You can record while the unit is on standby for timer recording, but once the time for the timer recording to begin is reached, any recording taking place will stop and the timer recording will begin.

■ To stop recording
Press [■].
Recorded as 1 title until the position where stopped.
[HDD]
When continuously recording for long durations, titles are automatically divided every 8 hours.
[DVD-R]
It takes about 30 seconds for the unit to complete recording management information after recording finishes.

■ To pause recording
Press [◼◼].
Press again to restart recording.
(Title is not split into separate titles.)

■ To specify a time to stop recording—One Touch Recording
During recording
Press [● REC] to select the recording time.
Each time you press the button:

0:30 ⟶ 1:00 ⟶ 1:30 ⟶ 2:00 ⟶ 3:00 ⟶ 4:00
↑——————— Counter (cancel) ⟵————————┘

- This does not work during timer recordings (➡ page 15) or while using Flexible Recording (➡ page 14).

Off Timer
The unit switches to standby after about 6 hours in the stop mode. You can turn this feature off or change the time to 2 hours (➡ page 39, "Off Timer").

RECORDING

Recording modes and approximate recording times

Depending on the content being recorded, the recording times may become shorter than indicated.

(Unit: hour)

Mode	HDD (80GB)	DVD-RAM		DVD-R (4.7 GB)
		Single-sided (4.7 GB)	Double-sided (9.4 GB)	
XP (High quality)	17	1	2	1
SP (Normal)	34	2	4	2
LP (Long play)	68	4	8	4
EP (Extra long play)	142 (106※)	8 (6※)	16 (12※)	8 (6※)

Picture quality / Recording time

- XP
- SP
- LP
- EP (6H)※
- EP (8H)
※ When "Recording Time in EP Mode" is set to "EP (6H)" in the SETUP menu.
The sound quality is better when using "EP (6H)" than when using "EP (8H)".

Note

When recording to DVD-RAM using EP (8H) mode, play may not be possible on DVD players that are compatible with DVD-RAM. In this case use EP (6H) mode.

FR (Flexible Recording Mode)

The unit automatically selects a recording rate between XP and EP (8H) that will enable the recordings to fit in the remaining disc space with the best possible recording quality.
- You can set when transferring (dubbing) or programming timer recordings.
- When recording to the HDD, picture quality is automatically adjusted to precisely fit a transferred (dubbed) title on a 4.7 GB disc.
- All the recording modes from XP to EP appear in the display.

Repeat steps 1–4 to program other recordings.

- As long as the setting is not changed, the program is recorded to the HDD in the recording mode selected by the unit. To change the setting ➡ page 15, To change the setting, steps ③–④.

5 Press [TV GUIDE].

Returns to the television screen.
- The unit is not off. To save power, turn the unit off by pressing [Ⓞ POWER].
- When using the cable TV box, make sure the cable TV box is turned on.

■ To cancel recording when recording has already begun
Press [■], then [ENTER] within 5 seconds.
- You can also press and hold [■] on the main unit for more than 3 seconds to stop recording.
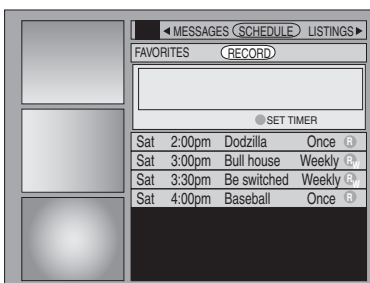

Notes on timer recording

- "Ⓞ" lights on the unit's display to indicate that the unit is in timer recording standby.
- "Ⓞ" flashes when the unit cannot go to timer recording standby.
- Timer recordings are activated regardless of whether the unit is turned on/off.
- Timer recordings begin when the set time is reached even when recording or when playing.
- Timer recordings do not begin while transferring (dubbing) in normal speed mode (➡ page 31).
- When you program successive timer recordings to start immediately one after the other, the unit cannot record the part at the ending of the earlier program (approximately 15 seconds). In addition, when recording to DVD-R, the unit cannot record the part at the beginning of the later program (approximately 15 seconds).

```
Program │ Program   Not recorded  DVD-R
Recorded         Recorded
         Not recorded
```
- If you set DST (Daylight Saving Time) to ON when manually setting the clock (➡ page 7), timer recording may not work when summer switches to winter and vice versa.

■ Relief Recording
When the recording drive is set to **"DVD"** for timer recording and if the program will not fit onto the disc, the recording drive will be changed to the **"HDD"** automatically.
- If there is no disc in the tray or the disc cannot be recorded on or when timer recording starts while transferring (dubbing), the recording drive will be changed to the HDD.
- The Direct Navigator shows which programs were relief-recorded (" " is displayed.)(➡ page 20).
- If the time remaining on the HDD is insufficient, as much of the program as possible will be recorded onto the HDD.

On-screen guidance
The "Green" button refers to [CHAPTER] button.
The "Blue" button refers to [DUBBING] button.
Programs are categorized by color.
Green: Sports   Blue: Children's
Purple: Movies   Teal: Other categories

■ Selecting the program from the desired program category and setting timer recording
1 Press [▲] several times to select "LISTINGS".
2 Press [◀, ▶] to select "SORT" and press [▼].
3 Press [◀, ▶] to select the major category and press [▼].
4 Press [▲, ▼, ◀, ▶] to select the minor category and press [ENTER].
5 Press [▲, ▼, ◀, ▶] to select.
   ● When sorting alphabetically, press [ENTER] and [▲, ▼] to select.
6 Press [CHAPTER] (Green).

■ Changing the size of information window
Press [Info] while the program is highlighted.

■ Adjusting the channel line-up
If the television program list's channel line-up differs from what you were expecting, perform the following steps.
1 Press [▲] several times to select "LISTINGS".
2 Press [◀, ▶] to select "SETUP" and press [▼].
3 Press [▲, ▼] to select "Change system settings" and press [ENTER].
4 Press [▲, ▼] to select "Yes, but my channel line-up is incorrect" and press [ENTER].

● When there is more than one cable network transmitting television program listings in the area where you are living, more than one channel line-up is displayed. Press [▲, ▼] to select one and then press [ENTER].
● Alternatively, you can customize the channel line-up in the Channel Editor (➡ right, Customizing the channel line-up). Press [▲, ▼] to select "No Match" and then press [ENTER].

■ Selecting the TV Guide On Screen™ system start up pattern
1 Press [▲] several times to select "LISTINGS".
2 Press [◀, ▶] to select "SETUP" and press [▼].
3 Press [▲, ▼] to select "Review options" and press [ENTER].
4 Press [▲, ▼] to select the option and press [ENTER].
   ● On: Turns on auto start up.
   ● Off: Turns off auto start up.

■ Reading messages
You may receive messages regarding new TV Guide On Screen™ system functions or special promotions. When there are unread messages, an envelope-shaped icon appears at the upper left of the screen.

1 Press [▲] several times to select "LISTINGS".
2 Press [◀, ▶] to select "MESSAGES" and press [▼].
3 Press [▲, ▼] to select the message and press [ENTER].
   ● To delete unwanted messages press [CHAPTER] (Green).
   ● Messages are automatically deleted after 60 days.
   ● The ID number appears at the end of the list.

■ Customizing the channel line-up
1 Press [▲] several times to select "LISTINGS".
2 Press [◀, ▶] to select "SETUP" and press [▼].
3 Press [▲, ▼] to select "Change channel display" and press [ENTER].
4 Press [▲, ▼] to select the channel.
   ● Press [PAGE ∨ CH ∧] to skip one screen.

To hide the channel
Press [CHAPTER] (Green) to select "OFF".

Repeat step 4 as necessary.

5 Press [TV GUIDE].

■ Registering a program you don't want to miss as a "Favorite"
By registering a program as "Favorite" in advance, you can later tune to that program quickly by pressing [DUBBING] (Blue) when that program begins broadcasting.
When you cannot remember the television program you want to watch, we recommend you press [DUBBING] (Blue) when the television reception screen is displayed. This unit may tune in your "Favorite" program.

1 Press [TV GUIDE].
2 Press [▲, ▼, ◀, ▶] to select the program.
3 Press [DUBBING] (Blue).

" ♥ " appears in the list to indicate that the program is set as a "Favorite".
● Press [CHAPTER] (Green) to change the frequency.
  Each time you press the button:

  ♥   Registers as "Favorite" only once.

  ♥R   A program becomes a "Favorite" when the broadcast time and program name match.

  ♥W   Registers as "Favorite" weekly.

  ♥/   "Favorite" registration temporarily off.

● Press [DUBBING] (Blue) to cancel.
Repeat steps 1–3 to set other programs.

● When there is more than one program registered as "Favorite" in the same time frame, each time you press [DUBBING] (Blue), the program switches to the other.

■ Viewing TV Guide On Screen™ system explanations and promotions
1 Press [▲] several times to select "LISTINGS".
2 Press [◀, ▶] to select "PROMOTIONS" and press [▼].
3 Press [▲, ▼] to select and press [ENTER].

Tips for making MP3 discs
- Discs must conform to ISO9660 level 1 or 2 (except for extended formats).
- Compatible compression rate: between 32 kbps and 320 kbps
- Compatible sampling rate:
      16 kHz, 22.05 kHz, 24 kHz, 32 kHz, 44.1 kHz and 48 kHz
- Maximum number of tracks and groups recognizable:
                        999 tracks and 99 groups
- This unit is compatible with multi-session.
- This unit is not compatible with ID3 tags or packet writing.
- Depending on recording, some items may not be playable.
- Reading or play of the disc may take time if there are a lot of still pictures or sessions.
- The display order may differ from how the order is displayed on a computer.

Naming folders and files
- MP3 files must have the extension ".MP3" or ".mp3".
- At the time of recording, give folder and file names a 3-digit numeric prefix in the order you want them to play (this may not work at times).
- English alphabets and Arabic numerals are displayed correctly. Other characters may not be displayed correctly.

e.g.,
Root

001 (folder=group)
001track.mp3 (file=track)
002track.mp3
003track.mp3

002 group
001track.mp3

Press [RETURN].
Text is not saved.

Note
If you enter a long name, only part of it is shown in the TOP MENU after finalization (➡ page 35). When entering a title name, the name that will appear in the TOP MENU can be previewed in "Display in DVD-R TOP MENU" window.
Transferring (dubbing) titles or play lists

`HDD` `RAM` `DVD-R`
You can select from a variety of methods to transfer (dub) on this unit.

■ Transferring (dubbing) direction

You can transfer (dub) your favorite titles and play lists to an archive disc. ●Transferring (dubbing) a play list will create a title.		When you want to re-edit finalized content on a DVD-R, etc.

High speed mode

HDD ⬛⬛⬛➡ RAM

Normal speed mode

High speed mode※

HDD ⬛⬛⬛➡ DVD-R

Normal speed mode

●When you want to play a transferred (dubbed) disc on other equipment, you must finalize the disc after transferring (dubbing) (➡ page 35, 45).
※Before recording to HDD, set "DVD-R High-Speed Recording" to "On" (➡ page 40).

HDD ⬅ DVD-V※

Normal speed mode

※Finalized DVD-R or DVD-Video on sale that is not copy-protected, etc.

Normal speed mode: Select XP, SP, LP, EP or FR as the recording mode for transferring (dubbing) (➡ page 13).

■ Transferring (dubbing) mode

Transferring (dubbing) a title or a play list	Transferring (dubbing) multiple titles and play lists together
⬇	⬇
One Touch Transfer (dubbing) (➡ page 32)	Transferring (dubbing) using the transferring (dubbing) list (➡ page 32)
	⬇
	You can select transferring (dubbing) speed mode and picture quality (➡below)

■ Transferring (dubbing) speed mode types and features

	High speed	Normal speed (XP, SP, LP, EP, FR)
Features	You can transfer (dub) in a very short amount of time. You can transfer (dub) even faster if you use a high speed recording compatible disc. You can record and play using the HDD while high speed transferring (dubbing).	You can record for a long period of time on 1 disc. For example, using LP mode, you can record approximately 4 hours on 1 (4.7 GB) disc (➡ page 13). e.g., 1 hour TV drama XP — Only one episode using XP mode LP LP LP LP — 4 episodes using LP mode
Transferring (dubbing) times	➡below, Approximate transferring (dubbing) times	The same amount of time it takes to record the source
Picture quality	Original picture quality	Can change※
Are chapters/thumbnails maintained?	Yes	No (One title is recorded as one chapter. Thumbnails return to the default position.)
Other operations while transferring (dubbing)	You can record/play using the HDD.	No

※If you select a recording mode with better picture quality than the original, the picture quality does not improve. (However, it does prevent against degradation of picture quality.)

■ Approximate transferring (dubbing) times (Max. speed)

HDD		3× high speed recording compatible DVD-RAM		4× high speed recording compatible DVD-R	
Recording mode	Recording time	Required time	Speed	Required time	Speed
XP	1 hour	Approx. 20 min.	3×	Approx. 15 min.	4×
SP	2 hours		6×		8×
LP	4 hours		12×		16×
EP (6H)	6 hours		18×		24×
EP (8H)	8 hours		24×		32×

`Note`
●When recording or playing while transferring (dubbing), the unit may not use the maximum recording speed.
●Depending on the condition of the disc, the unit may not transfer (dub) using the maximum speed.

Regarding high speed transfer (dubbing) to DVD-R
To high speed transfer (dub) titles (or play lists created from those titles), set "DVD-R High-Speed Recording" to "On" before recording to the HDD (➡ page 40).
However, in the following cases, transferring (dubbing) to DVD-R using the high speed mode does not work.
●Play lists created from titles using a variety of recording modes
●Play lists created from multiple titles using FR recording mode
●Play lists mixed with a variety of audio types (Dolby Digital and LPCM, etc.)
●Titles that contain many erased segments.

Regarding transferring (dubbing) of digital broadcasts that allow "One time only recording"
You can transfer (dub) a recorded title to a CPRM (➡ page 45) compatible DVD-RAM; however, the title is erased from the HDD.
●You cannot use one touch transfer (dubbing). Use the transferring (dubbing) list (➡ page 32).
●Titles will not be transferred if they are protected (➡ page 27).
●You cannot transfer play lists created from "One time only recording" titles.
●Titles with recording limitations and play lists cannot be registered on the same transferring (dubbing) list.

●Transferring (dubbing) lists are also cancelled in the following cases.
 –The source title or play list is erased.
 –The tray is opened or the unit is turned off when the transferring (dubbing) source is DVD-RAM.

To show other pages
Press [▲, ▼, ◄, ►] to select "Previous" or "Next" and press [ENTER].
●You can also press [|◄◄, ►►|] to show other pages.
Multiple editing
Select with [▲, ▼, ◄, ►] and press [▮▮]. (Repeat.)
Press [ENTER] to register to the list.
●A check mark appears. Press [▮▮] again to cancel.
●When you switch between the "Title" and "Play List" tab, the check mark is cancelled.

Transferring (dubbing) a finalized DVD-R

DVD-V → HDD

While playing a disc, the content being played is transferred (dubbed) to the HDD according to the set time.

●**Operations and on screen displays during transfer (dubbing) are also recorded.**
●**Almost all DVD-Video on sale have been treated to prevent illegal copying, and cannot be transferred (dubbed).**
●**The following cannot be transferred (dubbed): DVD-Audio, Video CD, Audio CD and so on.**

After performing steps 1–4 (➡ page 32, right column)

5 Press [▲, ▼] to select "Time to end" and press [►].

6 Press [◄, ►] to select "Hour" and "Min." and press [▲, ▼] to set the recording time.

●You can also set the recording time with the numbered buttons.
●Set a few minutes longer than the source title, in order to include the operation time before play begins.

7 Press [◄] to select "Time to end" and press [▼].

8 Press [▲, ▼] to select "Start dubbing" and press [ENTER].

Press [◄, ►] to select "Yes" and press [ENTER] to start transferring (dubbing).
The disc top menu is displayed.
●Disc play automatically begins from title 1 when "Title 1" is selected from the "Select First play" menu when finalizing the disc (➡ page 35).

9 When the top menu is displayed

Press [▲, ▼, ◄, ►] to select the title you want to start transferring (dubbing), and press [ENTER].
While playing in order, all the titles after the selected title are recorded until the set time. (After the last title on the disc has finished playing the top menu is recorded until the set time is reached.)

To end transfer (dubbing) manually
Press [■].

Note
●The screen on the right (screen saver) is recorded at the beginning.
●Recorded as 1 title from the start of transfer (dubbing) to the end.
●If play does not begin automatically or if the top menu does not display automatically, press [►] (PLAY) to start.
●Even if you transfer (dub) a high quality video/audio DVD, the original picture and audio quality cannot be exactly replicated.

■ To stop transferring (dubbing)

Press and hold [RETURN] for 3 seconds.
●If stopped partway, transferring (dubbing) will be up to that point. However, in high speed mode, only titles that have completed transferring (dubbing) at the point stopped are transferred (dubbed). [Even if the title was not transferred (dubbed) to the DVD-R, the amount of remaining writable disc space becomes less.]

■ To return to the previous screen

Press [RETURN].

■ Recording and playing while transferring (dubbing)

You can record and play using the HDD while high speed transferring (dubbing).
Press [ENTER] to cancel the screen display.
●**To confirm the current progress**
 Press [STATUS].
Note
●You cannot perform chasing play or edit, etc. while transferring (dubbing).
●Timer recordings executed while transferring (dubbing) are recorded to the HDD regardless of the recording drive settings.
●You cannot play a play list while transferring (dubbing) titles with "One time only recording" restriction (➡ page 31).

Press [RETURN].

Note
- Once the disc has been formatted, the contents cannot be restored. Check carefully before proceeding. The contents on the disc are erased when you format it even if you have set title or disc protection.
- After finalizing `DVD-R`,
  –The disc becomes play-only and you can no longer record or edit.
  –There is a pause of several seconds between titles and chapters.
  –When transferring (dubbing) in high speed, chapter points will be replicated.
  –Titles are divided into about 5-minute※ chapters, if
    –the titles were directly recorded to DVD-R.
    –the titles were transferred (dubbed) using any mode other than the high speed mode.
  ※This time varies greatly depending on the condition and mode of recording.

CONVENIENT FUNCTIONS

Numbered buttons

HOME THEATER, TV

FM/AM

∧ ∨ CH

+ − VOLUME

◄◄, ►►

ENTER

FM MODE

SHIFT

CH∨, CH∧

∨ TUNE ∧

VOLUME DOWN, UP
Preparation
- Turn off TV while using radio since noise may occur.
- Switch [HOME THEATER, TV] to "HOME THEATER".
- Press [FM/AM] to select "FM" or "AM" as the source.

Manual tuning

1 **Press [◄◄] or [►►] to select the frequency of the required station.**

Main unit: Press [∨ TUNE] or [TUNE ∧].
TUNED: Displayed when a radio station is tuned.
ST: Displayed when a stereo FM broadcast is being received.

TUNED ST

Press and hold [◄◄] or [►►] ([∨ TUNE] or [TUNE ∧] on the main unit) until the frequency starts scrolling to start automatic tuning. Tuning stops when a station is found.

2 **Adjust the volume.**

∎ If noise is excessive
Press [SHIFT]+[FM MODE].
Each time you press the button:
FM:Changes between stereo and forced monaural.
AM:BP1⟷BP2 (BP=Beat Proof)
Select either BP1 or BP2, whichever receives better reception.
The FM mode is canceled when you change the frequency.

∎ FM frequency step
The step is factory-set to 0.2 MHz, but you can change it to receive broadcasts allocated 0.1-MHz steps.
1 Press [FM/AM] to select "FM".
2 Press and hold [∎] on the main unit.
After a few seconds the display changes to show the current minimum frequency. Continue to hold the button down. The minimum frequency changes and the step is changed.
To return to the original step, repeat the above steps.
Note
Any FM/AM frequencies preset in channels will be changed by this procedure. Preset them again.

Preset tuning
Preset channels to make selection simple.
Up to 30 stations can each be set in the FM and AM bands.

Automatic presetting

1 **Press [◄◄] or [►►] to tune to the lowest frequency ("FM 87.9" MHz or "FM 87.5" MHz).**

2 **Press and hold [ENTER].**

Release the button when "AUTO" is lit on the display.

The tuner presets all the stations it can receive into the channels in ascending order.
- "SET OK" is displayed when the stations are set. The last station to be set is then played.

3 **Repeat steps 1 and 2 to set the AM bands (the lowest frequency is "AM 520" kHz).**

- The unit of display is MHz for FM radio and kHz for AM radio when the selector is in FM/AM mode.
- **"ERROR" is displayed**
  Presetting was unsuccessful. Preset manually.

Manual presetting

1 **Tune to the station (➜ left).**

2 **Press [ENTER].**

3 While "MEMO" is flashing on the display

Press the numbered buttons to select a channel and press [ENTER].

Alternatively, press [CH ∧] or [CH ∨] then press [ENTER].

The station occupying a channel is erased if another station is preset in that channel.

TUNED ST   CH   MEMO

Selecting channels

1 **Press [FM/AM] to select "FM" or "AM".**

2 **Press the numbered buttons or [∧ ∨ CH] to select the channel.**

e.g., "2": [0] ➜ [2]
"12": [1] ➜ [2]

TUNED ST   CH

Note
If there is nearby electrical interference during auto tuning the frequency may come to a halt without locating a channel. Turn off the power of the nearby electrical equipment.

∎ Use FM outdoor antenna if radio reception is poor.
- Disconnect the FM indoor antenna.
- The antenna should be installed by a competent technician.
Note
- Disconnect the outdoor antenna when the unit is not in use.
- Do not use the outdoor antenna during an electrical storm.

FM outdoor antenna (Using a television antenna)

75 Ω coaxial cable (not included)

Dolby Digital and DTS

- ≥Dolby Digital and DTS are digital encoding systems used on DVD to carry surround sound. Both were originally developed for use in cinemas.
- ≥This unit automatically recognizes and decodes these systems.

Software encoded with Dolby Digital can be identified with this mark.	Software encoded with DTS can be identified with this mark.

Play a Dolby Digital or DTS source.
The Dolby Digital or DTS indicator lights.

∎ To down-mix Dolby Digital or DTS (multiple-channel) signals to 2 channels
Press [SHIFT]+[MIX 2CH].

To cancel, press [SHIFT]+[MIX 2CH] again.

When "D.MIX" flashes on the display
DVD-A
The DVD-Audio contains multiple-channel signals that cannot be down-mixed.

- ≥When connected with headphones, the following sound field systems (➡ below, ➡ page 38) cannot be used. (Excluding "BASS/TREBLE" control)
- ≥You may experience a reduction in sound quality when these sound field systems are used with some sources. If this occurs, turn the sound field system off.

Dolby Pro Logic II

The Dolby Pro Logic II processor works not only on sources recorded with Dolby Surround, but also on any stereo source.

1 Press [SHIFT]+ [ꄱꄱPRO LOGIC II].
Each time you do this:
OFF→MOVIE→MUSIC→PANORAMA
⟵_____⏋

MOVIE: Use this mode when playing movie software, especially videotapes, recorded in Dolby Surround.
MUSIC: Adds surround effects to stereo sources.
PANORAMA: Sound is spread out more so you feel like you are surrounded by music.

2 Play a Dolby Surround or stereo source.

To cancel
Select "OFF".

Note
This does not work when playing multi-channel sources.

Adjusting the bass and treble with manual equalizer

Press [EQ/SFC] several times to select "BASS/TREBLE".

BASS: [◄]→[▲ ▼] −6 to +6 (in 2 units)
TREBLE: [►]→[▲ ▼] −6 to +6 (in 2 units)

To cancel
Press [EQ/SFC] several times to select "FLAT".
- ≥Each level for "BASS" and "TREBLE" remains intact. (Even after the unit is turned off.)

Using the built-in sound quality settings (SFC—Sound Field Control)

This function derives multi-channel surround from any stereo program material.

Press [EQ/SFC] several times to select "SFC AV/MOVIE" or "SFC MUSIC".

SFC AV/MOVIE: [◄ ►]
DRAMA⟷ACTION⟷SPORTS
↕   ↕
MONO※⟷GAME⟷MUSICAL
※For monaural sound

SFC MUSIC: [◄ ►]
LIVE⟷POP/ROCK⟷VOCAL
↕   ↕
PARTY※⟷DANCE⟷JAZZ
※Sound is in stereo regardless of the direction you are facing.
This function does not work when:
−Playing multi-channel sources.
−"Dolby Pro Logic II" (➡above) is on.
−"Virtual Rear Surrrond" or "Multi Rear Surround" (➡ page 38) is on.

- ≥**To check the current setting**
  Press [EQ/SFC]
- ≥**To cancel**
  Press [EQ/SFC] several times to select "FLAT".
  - ≥Each mode remains intact. (Even after the unit is turned off.)

RADIO & SOUND

Center Focus

(Discs where the dialogue is recorded in the center channel)

You can make the sound of the center speaker seem like it is coming from within the television.

Press [SHIFT]+[C.FOCUS].

Each time you do this:
CENTER FOCUS ON→CENTER FOCUS OFF

≥This will have less effect when Dolby Pro Logic II is turned on.
≥This doesn't work when "SFC" is lit on the display.

Virtual Rear Surround

This mode is useful if you have to place your surround speakers near the front speakers due to the layout of your room.
This mode makes it seem like the sound from the surround speakers is coming from behind you.
Virtual speakers

Press and hold [SHIFT]+[MULTI REAR] for more than 5 seconds.
Each time you do this:
V.R.S ON←→V.R.S OFF

This function works with:
–multi-channel discs
–2-channel discs with Dolby Pro Logic II on
Multi Rear Surround

This mode makes it seem like sound is coming from multiple rear surround speakers virtually when connected with surround speakers.

## Press [SHIFT]+[MULTI REAR].

Each time you do this:
M.R.S ON←→M.R.S OFF

Virtual speakers

This function works with:
–multi-channel discs
–2-channel discs with Dolby Pro Logic II on

Seat position

Using this function makes you feel like you are sitting in the ideal seating position (in the center of the circle formed by the speakers), even if you cannot due to the layout of your room.

1 Press [SHIFT]+[S.POSITION].

2 While "ON" is displayed
Press [▲, ▼, ◀, ▶] to select a position.

This function works with:
–multi-channel discs
–2-channel discs with Dolby Pro Logic II on

To cancel
Press [SHIFT]+[S.POSITION] again.

Note
≥This doesn't work when "SFC" is lit on the display.
≥While virtual rear surround is on, the seat position is changed in three horizontal steps.

Adjusting the subwoofer level
Press [S W.LEVEL].

SUB W 4

Each time you press the button:
SUB W 1→SUB W 2→SUB W 3→SUB W 4 (factory preset)

≥This doesn't work when "SFC" is lit on the display.

Speaker level adjustments

Adjust the level of the speakers so they are the same apparent level as the front speakers where you would normally be sitting and listening. (L, R ➡below, Balance)

Preparation
≥Dolby Digital and DTS: Turn off the other sound field systems.
≥Dolby Pro Logic II: Press [SHIFT]+[DᴅPRO LOGIC II].

1 **Press [SHIFT]+[TEST] to output a test signal.**
   Lch: Front left   RSch: Right surround
   Cch: Center   LSch: Left surround
   Rch: Front right

2 **Press [VOLUME +] or [−] to set the volume level normally used for listening.**

3 **Press [▲] (to increase) or [▼] (to decrease).**
   L, R: (➡below, Balance)
   C, RS, LS: −6 dB to +6 dB

To stop the test signal, press [SHIFT]+[TEST] again.

■ To adjust speaker level during play
(This doesn't work when "SFC" is lit on the display.)
1 **Press [SHIFT]+[CH SELECT] to select the speaker.**
   L   R→Cch→RSch→LSch→SWch

   SW: Subwoofer
   ≥You can only adjust SW if there is output from the subwoofer channel.

2 **Press [▲] (to increase) or [▼] (to decrease).**
   L, R: (➡below, Balance)
   C, RS, LS: −6 dB to +6 dB
   SW: −6 dB to +6 dB

Balance

You can adjust the balance of the front speakers.
1 **Press [SHIFT]+[CH SELECT] to select "L R".**
2 **Press [◀, ▶] to adjust the "L", "R" balance.**

Channel/Clock settings when TV Guide On Screen™ system is not used

Preparation:
If the television program list has already been downloaded, return the
unit to the factory preset condition using the steps indicated below.

When the unit is on and stopped
① **Press and hold [∨ CH] and [∧ CH] on the main unit for about
five seconds.**
The unit turns off.

② **Press [⏻ POWER] to turn the unit on.**

③ **Complete the TV Guide On Screen™ system setup (until [ENTER]
is pressed after the "Watch TV" message screen is displayed).**

Note
You can set timer recording only manually after you set the unit with
"Auto Channel Setting".

Auto channel/clock settings

1 Press [FUNCTIONS].

2 Press [▲, ▼] to select "SETUP" and press [ENTER].

3 Press [▲, ▼] to select "Channel" and press [▶].

4 Press [▲, ▼] to select "Auto Channel Setting" and press [ENTER].

5 Press [◀, ▶] to select "Yes" and press [ENTER].

6 Press [ENTER].

Auto Channel Setting starts.
This takes a few minutes.
The unit then proceeds with
Auto Clock Setting. The time is
displayed when finished.
≥DST, Daylight Saving Time, shows the summertime setting.
≥TIME ZONE shows the time difference from Greenwich
meantime (GMT).

EST (Eastern Standard Time)	= GMT −5
CST (Central Standard Time)	= GMT −6
MST (Mountain Standard Time)	= GMT −7
PST (Pacific Standard Time)	= GMT −8
AST (Alaska Standard Time)	= GMT −9
HST (Hawaii Standard Time)	= GMT −10
For other areas: xx hr	

≥If the Auto Clock Setting does not start automatically, select
"Auto Clock Setting" from the "Set Up" tab.
≥If the time was not set correctly, use manual clock setting
(➡ page 7) or time zone adjust.

7 Press [ENTER].

≥**The unit configures channels according to the Antenna
System settings as follows.**

Antenna system	Band	Channel
TV	VHF	2–13

5 Press [▲, ▼] to select the caption and press [▶].

You can choose from the following captions.
ABC, PBS, CBS, CNN, FOX, ESPN, NBC, HBO, A&E, AMC, FAM, MAX, MTV, SHOW, TBS, USA, TNT, CBC, UPN, CTV, WB, TSN, DSC, GLOB
●When selecting the caption, press and hold [▲, ▼] to scroll up and down the screen.

6 Press [▲, ▼] to select the channel corresponding to the caption and press [◀].

●Channels are only displayed if they contain a station and if captions have not been added manually.
●To delete the channel number, press [✱ CANCEL].

Repeat steps 5 and 6 to enter other channels.

7 Press [ENTER].

Manual Channel Captions

4 Press [▲, ▼] to select "Manual Channel Captions" and press [ENTER].

5 Press [▲, ▼] to select the channel and press [▶].

●Channels are only displayed if they contain a station and if preset captions have not been added.

6 Press [▲, ▼] to select the first character and press [▶].

●You can choose from the following characters:
A–Z, 0–9, -, &, !, /, (space)
●To delete the caption, press [✱ CANCEL].
●Repeat this step to enter the other characters.

SHIFT

Receiving digital audio using the optical connection

If your cable TV box or satellite receiver has an OPTICAL OUT terminal you can connect with this unit's OPTICAL IN terminal to enjoy digital audio including multi-channel Dolby Digital. Refer to your cable TV box or satellite receiver's operating instructions for details.

Note

You cannot record digital audio received using the optical connection. Make certain to also connect to the L1 AUDIO/VIDEO terminals when using the OPTICAL IN terminal connection.

Make the following connections in combination with connections in Setup Guide, page 10.

Cable TV box or satellite receiver

OPTICAL OUT

Optical digital audio cable
Do not bend sharply.

Insert fully, with this side facing up.

Preparation
Press [HDD] or [DVD] to select "HDD" or "DVD" as the source.

1 Press [HDD/DVD INPUT] to select "L1".

You can select the input channel by pressing [∧ ∨ CH].

2 Press [SHIFT]+[L1/OPT] to select audio input.

L1 ANALOG (factory preset): Audio input into the L1 AUDIO terminals is output to the speakers.

L1 OPT: Audio input into the L1 OPTICAL IN terminal is output to the speakers.

When "L1 OPT" is selected

■ Audio reception setting
While "L1 OPT" is displayed on the unit's display
Press and hold [SHIFT]+[L1/OPT].
L1 AUTO (factory preset): When receiving Dolby Digital and PCM
↓ ↑ signals
L1 PCM FIX: When receiving only PCM audio

■ When receiving Dolby Digital Dual Mono signals
You can change the audio mode.
Press [AUDIO].
MAIN←→**SAP**

■ Dynamic range compression
You can change this setting to listen to Dolby Digital sound at low volume (such as late at night) and maintain audio clarity. It reduces the peak level in loud scenes without affecting the sound field.
Press and hold [AUDIO] for about 2 seconds.
→ **DR COMP OFF** (factory preset): The original dynamic range.
↓
DR COMP STD: The level recommended for household viewing.
↓
DR COMP MAX: The maximum allowable compression (recommended for night viewing).

■ SPEAKER SECTION

●Front speakers `SB-FS1500`
Type: 2 way, 3 speaker system, Bass-ref.
Woofer: 6.5 cm (2¹/₂″) CONE type×2
Tweeter: 6 cm (2³/₈″) RING SHAPED DOME type
Impedance/Input power (IEC):   4 Ω/70 W (Max)
Output sound pressure level: 84 dB/W (1.0 m)
Frequency range: 100 Hz–50 kHz (−16 dB)
     120 Hz–45 kHz (−10 dB)
Dimensions (W×H×D):
     250 mm×1122.5 mm (Max)/715.5 mm (Min)×247 mm
     [9²⁷/₃₂″×44³/₁₆″ (Max)/28⁵/₃₂″ (Min)×9²³/₃₂″]
    Speaker height adjustment range: 1122.5–715.5 mm
     (44³/₁₆″–28⁵/₃₂″)
Mass: Approx. 4.2 k**g** (9.3 lb.)

●Center speaker `SB-PC1500`
Type: 2 way, 3 speaker system, Bass-ref.
Woofer: 6.5 cm (2¹/₂″) CONE type×2
Tweeter: 6 cm (2³/₈″) RING SHAPED DOME type
Impedance/Input power (IEC):   4 Ω/260 W (Max)※
Output sound pressure level: 84 dB/W (1.0 m)
Frequency range: 100 Hz–50 kHz (−16 dB)
     120 Hz–45 kHz (−10 dB)
Dimensions (W×H×D):   320 mm×88 mm×109 mm
     (12¹⁹/₃₂″×3¹⁵/₃₂″×4⁹/₃₂″)
Mass: Approx. 1.5 kg (3.3 lb.)
※ Ratings with the low cut filter equipped amplifier.

●Surround speakers `SB-PS1500`
Type: 2 way, 2 speaker system, Bass-ref.
Woofer: 6.5 cm (2¹/₂″) CONE type
Tweeter: 6 cm (2³/₈″) RING SHAPED DOME type
Impedance/Input power (IEC):   4 Ω/70 W (Max)
Output sound pressure level: 80 dB/W (1.0 m)
Frequency range: 95 Hz–50 kHz (−16 dB)
     110 Hz–45 kHz (−10 dB)
Dimensions (W×H×D):   202 mm×548 mm×200 mm
     (7¹⁵/₁₆″×21⁹/₁₆″×7⁷/₈″)
Mass: Approx. 2.3 kg (5.1 lb.)

●Subwoofer `SB-WA1500`
Type: 1 way, 1 speaker system, Bass-ref.
Superwoofer: 20 cm (7⁷/₈″) CONE type
Output sound pressure level: 84 dB/W (1.0 m)
Frequency range: 34 Hz–220 Hz (−16 dB)
     38 Hz–190 Hz (−10 dB)
Dimensions (W×H×D):   285 mm×418 mm×475 mm
     (11⁷/₃₂″×16¹⁵/₃₂″×18¹¹/₁₆″)
Mass: Approx. 14.4 kg (31.7 lb.)

■ GENERAL

Power supply: AC 120 V, 60 Hz
Power consumption: Main unit `SA-HT1500`: 36 W
     Subwoofer `SB-WA1500`: 320 W
Dimensions (W×H×D) (Main unit `SA-HT1500`):
     448 mm×81.5 mm×372 mm
     (17⁵/₈″×3³/₁₆″×14⁵/₈″)
Mass (Main unit `SA-HT1500`)**:**   Approx. 5.8 k**g** (12.8 lbs)
     (Dimensions and Mass do not include the speakers.)
Operating temperature range: 5 °C–40 °C (41 °F–104 °F)
Operating humidity range: 10 %–80 % RH (no condensation)

> **Power consumption in standby mode:**
>   Main unit `SA-HT1500`   Approx. 14 W
>   (When FL display is off except timer recording)

Note
Specifications are subject to change without notice.
Mass and dimensions are approximate

CPRM (Content Protection for Recordable Media)
CPRM is technology used to protect broadcasts that are allowed to be recorded only once. Such broadcasts can be recorded only with CPRM compatible recorders and discs.

Dolby Digital
This is a method of coding digital signals developed by Dolby Laboratories. Apart from stereo (2-channel) audio, these signals can also be multi-channel audio. A large amount of audio information can be recorded on one disc using this method.
When recording on this unit Dolby Digital (2 channel) is the default audio.

Dolby Pro Logic II
Dolby Pro Logic II is an advanced decoder that derives 5 channel surround (Left, Center, Right, Left and Right Surround) from any stereo program material, whether or not it has been specifically Dolby Surround encoded. Pro Logic II provides two full-range surround channels, as opposed to Pro Logic's single surround channel.

Down-mixing
This is the process of remixing the multi-channel audio found on some discs into two channels output. Some discs prohibit down-mixing and this unit can then only output the front two channels.

Drive
In the instance of this unit, this refers to the hard disk (HDD) and DVD. These perform the reading and writing of data.

DTS (Digital Theater Systems)
This surround system is used in many movie theaters. There is good separation between the channels, so realistic sound effects are possible.

Dynamic range
Dynamic range is the difference between the lowest level of sound that can be heard above the noise of the equipment and the highest level of sound before distortion occurs. Dynamic range compression means reducing the gap between the loudest and softest sounds. This means you can listen at low volumes but still hear dialog clearly.

Film and video
DVD-Video are recorded using either film or video. This unit can determine which type has been used, then uses the most suitable method of progressive output.
Film is 24 or 30 frames per second, with motion picture film generally being 24 frames per second.
Video is 60 fields per second (two fields making up one frame).

Finalize
A process that makes play of a recorded CD-R, CD-RW or DVD-R etc. possible on equipment that can play such media. You can finalize DVD-R on this unit.
You cannot record onto or edit finalized discs.

Formatting
Formatting is the process of making media such as DVD-RAM recordable on recording equipment.
You can format the HDD and DVD-RAM on this unit.
Formatting irrevocably erases all recordings on the disc.

Frames and fields
Frames refer to the single images that constitute the video you see on your television. Each frame consists of two fields.
Frame = Field + Field

- A frame still shows two fields, so there may be some blurring, but picture quality is generally better.
- A field still shows less picture information so it may be rougher, but there is no blurring.

HDD (Hard disk drive)
This is a mass data storage device used in computers, etc. A disk with a surface that has been treated with magnetic fluid is spun and a magnetic head is brought in close proximity to facilitate the reading and writing of large amounts of data at high speed.

LPCM (Linear PCM)
These are uncompressed digital signals, similar to those found on CDs. LPCM sound is available when recording in XP mode.

MP3 (MPEG Audio Layer 3)
An audio compression method that compresses audio to approximately one tenth of its size without any considerable loss of audio quality. You can play MP3 you have recorded onto CD-R and CD-RW.

Pan&Scan/Letterbox
In general, DVD-Video are produced with the intention that they be viewed on a widescreen television (16:9 aspect ratio), so images often don't fit regular (4:3 aspect ratio) televisions. Two styles of picture, "Pan & Scan" and "Letterbox", deal with this problem.

Pan&Scan: The sides are cut off so the picture fills the screen.
Letterbox: Black bands appear at the top and bottom of the picture so the picture itself appears in an aspect ratio of 16:9.

Playback control (PBC)
If a Video CD has playback control, you can select scenes and information with menus. (This unit is compatible with version 2.0 and 1.1.)

Progressive/Interlace
NTSC, the video signal standard, has 480 interlaced (I) scan lines, whereas progressive scanning uses twice the number of scan lines. This is called 480P.
Using progressive output, you can enjoy the high-resolution video recorded on media such as DVD-Video.
Your television must be compatible to enjoy progressive video.

Protection
You can prevent accidental erasure by setting writing protection or erasure protection.

Sampling frequency
Sampling is the process of converting the heights of sound wave (analog signal) samples taken at set periods into digits (digital encoding). Sampling frequency is the number of samples taken per second, so larger numbers mean more faithful reproduction of the original sound.

VBR (Variable bitrate)
This is a method of video recording that adjusts the bit rate according to video signal.

Troubleshooting guide

Before requesting service, make the following checks. If you are in doubt about some of the check points, or if the remedies indicated in the chart do not solve the problem, refer to the "Customer Services Directory" on page 51 if you reside in the U.S.A., or refer to the "Product information" on Backcover if you reside in Canada.

The following do not indicate a problem with this unit:

●Regular disc rotating sounds. The sound of disc rotating may become louder especially when finalizing a DVD-R. ●Poor reception due to atmospheric conditions. ●Image disturbance during search.	●Interruptions to reception due to periodic satellite broadcasting breaks. ●A sound is heard when the HDD goes into the SLEEP mode, or operations are slow to respond in SLEEP mode.

Power		Page
No power.	●Insert the AC power supply cord and system cable securely.	Setup Guide
The unit switches to the standby mode.	●This is a power saving feature. Change "Off Timer" in the SETUP menu, if you would prefer. ●One of the unit's safety devices is activated. Press [POWER ⏻/I] on the main unit to turn the unit on.	39 —

Displays   **Page**

The display is dim.	≥Change "Front Display" in the SETUP menu.	**41**
"12:00" is flashing on the unit's display.	≥Set the clock.	**7**
Compared to the actual recorded time, the remaining time displayed is less.	≥The displayed recording/play time is converted from the number of frames at 29.97 frames (equal to 0.999 seconds) to one second. There will be slight a difference between the time displayed and the actual elapsed time (e.g., actual one-hour elapsed time may display as approximately 59 minutes 56 seconds). This does not affect the recording.	—
The time recorded on the disc and the available time shown do not add up. **The play time shown for MP3 does not agree with the actual time.**	≥Times shown may disagree with actual times. ≥More disc space than the actual recording time is used after recording or editing the DVD-R 200 times or more. ≥While searching, the elapsed time may not display correctly. ≥Even if you erase recorded content from the DVD-R, there is no increase in disc space.	— — — —

TV screen and video

Television reception worsens after connecting the unit.	≥This can occur because the signals are being divided between the unit and other equipment. It can be solved by using a signal booster, available from audio-visual suppliers.	—
Status messages do not appear.	≥Select "Automatic" in "Status Messages" in the SETUP menu.	**41**
The blue background does not appear.	≥Select "On" in "Blue Background" in the SETUP menu.	**41**
The 4:3 aspect ratio picture expands left and right. **Screen size is wrong.**	≥Use the television to change the aspect. If your television does not have that function, set "Progressive" in the Video menu to "OFF". ≥Check the settings for "TV Type", "4:3 TV Settings for DVD-Video" or "4:3 TV Settings for DVD-RAM" in the SETUP menu.	**25** **41**
There is a lot of after-image when playing video.	≥Change the settings for "3D NR", and "Integrated DNR" to "0" or turn "MPEG-DNR" off if it is on.	**25**
When playing DVD-Video using progressive output, one part of the picture momentarily appears to be doubled up.	≥Set "Progressive" in the Video menu to "OFF". This problem is caused by the editing method or material used on DVD-Video, but should be corrected if you use interlace output.	**25**
There is no apparent change in picture quality when adjusted with the Video menu in the on-screen menus.	≥The effect is less perceivable with some types of video.	—
The images from this unit do not appear on the television. **Picture is distorted.**	≥Make sure that the television is connected to the VIDEO OUT terminal, S-VIDEO OUT terminal or COMPONENT VIDEO OUT terminals on this unit. ≥Make sure that the television's input setting (e.g., VIDEO 1) is correct. ≥The television isn't compatible with progressive signals. Press and hold [∎] and [TIME SLIP] on the main unit at the same time for about 5 seconds. The setting will change to interlace.	Setup Guide — —

Radio and sound

Cannot select the tuner	≥Check and see if the subwoofer's AC power supply cord is connected.	Setup Guide
Noise is heard. **"ST" is flashing or doesn't light.** **Sound is distorted.**	≥Adjust the position of the FM or AM antenna. ≥Use an FM outdoor antenna. ≥Press [SHIFT] + [FM MODE] to set to "MONO".	— 36 36
A beat sound is heard.	≥Turn the television off or separate it from the unit.	—
A low hum is heard during AM broadcasts.	≥Separate the antenna from other cables and cords.	—
The radio cannot be tuned in.	≥Turn off nearby televisions, video cassette recorders, satellite receivers and computers.	—
All programmed radio presets are erased. **Returns to the original setting even after making changes to the sound field system settings.**	≥Radio and sound field system settings are stored to memory after pressing [⏻ POWER]. Do not remove the AC power supply cords until "BYE" disappears from the unit's display.	—
No sound. **Low volume.** **Distorted sound.** **Cannot hear the desired audio type.**	≥Check the connections. ≥Press [AUDIO] to select the audio. ≥The disc may have a restriction on the method of audio output. If "D.MIX" flashes in the display when playing multi-channel DVD-Audio, only audio for the two front channels will be output. Refer to the disc's jacket. DVD-A ≥Turn the volume up. ≥Turn muting off. ≥Switch off the unit, determine and correct the cause, then switch the unit on. Causes include: –Shorting (bare wires touching) of positive and negative speaker wires. –Using speakers with an impedance lower than that rated for this unit. –Straining of the speakers through excessive volume or power. –Using the unit in a hot environment without proper ventilation. ≥"SFC AV/MOVIE" and "SFC MUSIC" do not work with muiti-channel discs. ≥"SFC AV/MOVIE" does not work with 1 ch DVD-video discs. ≥"SFC AV/MOVIE" or "SFC MUSIC" will be cancelled when: –A source switches to multi-channels. –"5.1 channel" is selected on disc menu. It is activated again when a source switches to 2-channels, or "Stereo" is selected on disc menu.	Setup Guide **13, 22** — — **5** — — — —

RQT7619

INFO

Radio and sound   **Page**

Cannot switch audio.	●You cannot switch the audio in the following cases.
	  –When a DVD-R disc is in the disc tray while DVD drive is selected.
	  –When the recording mode is XP and "Audio for XP Recording" is set to "LPCM".
	  –When "DVD-R High-Speed Recording" is set to "On"
	●You cannot change the audio type when playing a DVD-R. (You can select "Main" or "SAP" in "Select MTS" in the SETUP menu before recording.)
	●There are discs which audio cannot be changed because of how the disc was created.
		—
		
		40
		
		—

Humming heard during play.	●An AC power supply cord or fluorescent light is near the subwoofer. Keep other appliances and cords away from the subwoofer.	—
Beginning of audio is cut off when receiving audio from a digital broadcast using the optical connection.	●When using the "L1 AUTO" setting, sound may be cut off when the signal is being switched automatically between Dolby Digital and PCM. Set to "L1 PCM FIX" to avoid this.	43

Operation

Cannot operate the television.	●Change manufacturer code. Some televisions cannot be operated even if you change the code. ●[HOME THEATER, TV] is not switched to "TV". Switch to "TV" when selecting the receiving channel for the television.	8 8
The remote control doesn't work.	●[HOME THEATER, TV] is not switched to "HOME THEATER". Switch to "HOME THEATER" when operating this unit. ●The remote control and main unit are using different codes. Change the code on the remote control. 　　　　　　Press and hold [ENTER] and the indicated number button 　CHK REMOTE1　at the same time for more than 2 seconds. ●The batteries are depleted. Replace them with new ones. ●Colored glass may obstruct the signal reception/transmission. ●Don't place the signal sensor in direct sunlight or in areas that may be subject to sunlight exposure.	— 8 2 — —
The unit is on but cannot be operated.	●Recording drive or playback drive has not been selected properly. ●Some operations may be prohibited by the disc. ●The unit is hot ("U14" appears on the display). Wait for "U14" to disappear. ●One of the unit's safety devices may have been activated. 　Reset the unit as follows: 　Press [POWER Φ/I] on the main unit to switch the unit to standby. 　If the unit doesn't switch to standby, press and hold [POWER Φ/I] on the main unit for about 10 seconds. The unit is forcibly switched to standby. 　Alternatively, disconnect the AC power supply cord, wait one minute, then reconnect it.	12, 20 — — —
HDD activation is slow.	●The HDD is in SLEEP mode. ("HDD SLP" appears in the unit's display.)	10
Cannot eject disc.	●The unit may have a problem. While the unit is off, press and hold [■] and [CH ∧] on the main unit at the same time for about 5 seconds. Remove the disc and consult the dealer.	—
During disc operation the unit does not respond.	●The selector has been set to "FM", "AM" or "AUX". Press [DVD] to select "DVD" as the source.	—

Recording/Timer recording/Transferring (Dubbing)

Cannot record.	●You haven't inserted a disc or the disc you inserted cannot be recorded on. Insert a disc the unit can record onto. ●The disc is unformatted. Format the disc. [RAM] ●The write-protect tab on the cartridge is set to PROTECT, or the disc is protected with DISC SETTING. ●Some programs have limitations on the number of times they can be recorded. (CPRM) ●You cannot record when there is not enough space or when the number of titles has reached its limit. Erase unwanted titles. ●You cannot record on finalized DVD-R discs. ●Due to peculiarities of DVD-R, you may be unable to record onto them if you either insert and remove the disc or switch the unit on and off while a disc is loaded, a total of fifty times. ●A DVD-R recorded on this unit may not be recordable on other Panasonic DVD recorders. ●Audio from FM/AM broadcasts and the L1 OPTICAL IN terminal cannot be recorded.	9 35 9, 35 — 22, 27,35 — — — —
Timer recording does not work properly. VCR Plus+ system does not work properly.	●The timer program is incorrect or different timer program times overlap. Correct the program. ●Timer recording program may be deleted if there is an interruption to the power. ●VCR Plus+ system works only after this unit downloads the television program list.	18 — —
Timer recording does not stop even when [■] is pressed.	●Press [■] and then [ENTER] within 5 seconds. Recording stops.	15, 16, 17
The timer program remains even after recording finishes.	●The timer program remains unless set to "Once".	15, 16
A part or whole of a recorded title has been lost.	●If there is a power failure or the plug is disconnected from the household AC outlet while recording or editing, the title may be lost or the HDD/disc may become unusable. You will have to format the disc ([HDD] [RAM]) or use a new disc. We cannot offer any guarantee regarding lost titles or discs.	35
Cannot transfer (dub) to a DVD-R disc using the high speed mode.	●When recording to the HDD, set "DVD-R High-Speed Recording" to "On" in the SETUP menu.	40

Recording/Timer recording/Transferring (Dubbing)   **Page**

When transferring (dubbing), it takes a long time even when high speed mode is selected.	●Use a disc that is compatible with high speed recording. Even if the disc is high speed recording compatible, the maximum speed recording rating may not be possible due to the condition of the disc.	—
	●It takes longer than normal to transfer (dub) many titles.	—
	●You cannot high speed transfer (dub) to DVD-R titles longer than 6 hours when using other Panasonic DVD recorders that are not compatible with EP (8 hour) mode recording.	—
An unusually loud sound coming from the rotating DVD-R.	●When recording or high speed transferring (dubbing) to a DVD-R, the sound of the disc rotating may be louder than normal; however, this is not a problem.	—

TV Guide On Screen™ system

Television program list does not display when [TV GUIDE] is pressed.	●Leave the unit turned off over night.	—
	●Check the connection and set up the TV Guide On Screen™ system again.	Setup Guide, 6
	●Consult your service provider if you are using a cable TV box.	—
	●Television program list is not available in your area. Set the unit using "Auto Channel Setting". Note that you can only set timer recording manually after you set the unit using "Auto Channel Setting".	41
"Cable code -INCOMPLETE-" appears in the TV Guide On Screen™ system setup.	●The unit cannot find the correct IR code for the cable TV box. Consult your service provider.	—
As soon as the unit is turned on, and when you try to start timer recording, the TV Guide On Screen™ system setup begins.	●Even if you do not want to use the TV Guide On Screen™ system, you need to complete the TV Guide On Screen™ system setup (until [ENTER] is pressed after the "Watch TV" message screen is displayed). It will not be displayed after this point.	6
Several days of television program listings are blank.	●Immediately after beginning use there are several days of blank listings. You can display program listings up to 8 days forward without any blank listings by downloading program lists continuously over several days.	—
Channel changes even when no operation is performed.	●When the unit is connected to a cable TV box, the cable TV box channel changes while the unit is turned off in order to download the television program list.	—

Play

Play fails to start even when [▶] (PLAY) is pressed. Play starts but then stops immediately.	●Insert the disc correctly with the label facing up.	20
	●You tried to play a blank DVD-RAM/DVD-R, or disc unplayable on this unit.	9
	●You may be able to transfer (dub) a "One time only recording" title that was recorded to DVD-RAM using a different Panasonic DVD Recorder to this unit's HDD, but play is not possible due to copyright protection.	—
	●When recording to DVD-RAM using EP (8H) mode, play may not be possible on DVD players that are compatible with DVD-RAM. In this case use EP (6H) mode.	40
Audio and video momentarily pause.	●This occurs between play list chapters.	—
	●This occurs between chapters and with partially deleted titles on finalized DVD-R that have been transferred (dubbed) using the high speed mode.	—
DVD-Video is not played.	●Some DVD-Video cannot be played when you change the ratings level.	39
Alternative soundtrack and subtitles cannot be selected.	●The languages are not recorded on the disc.	—
	●You may have to use the disc's menus to select languages.	—
No subtitles.	●When progressive output is on, closed captions cannot be displayed.	—
	●Subtitles are not recorded on the disc.	—
	●Turn the subtitles on.	24
Angle cannot be changed.	●Angles can only be changed during scenes where different angles are recorded.	—
You have forgotten your ratings password.	●While the disc tray is open, press [DVD] then press and hold [⏮/⏪] and [⏩/⏭] on the main unit at the same time for 5 or more seconds.	—
Quick View does not work.	●This does not work if the setting is "Off" in "Search Audio & PLAY ×1.3".	40
	●This does not work when audio is other than Dolby Digital.	—
	●This does not work when recording is in XP or FR mode. **RAM**	—
The resume play function does not work.	●This function only works when "PLAY" is flashing in the unit display.	—
	●Memorized positions are canceled when the unit is turned off or when the tray is opened. The memorized position on the play list is also canceled when the play list and title are edited.	—

Edit

Cannot format.	●The disc is dirty. Use a special cleaner and wipe clean.	10
	●You tried formatting a disc that is not compatible with this unit.	9
Cannot create chapters. **Cannot mark the start point or the end point during "Shorten" operation.**	●The unit writes the chapter division information to the disc when you turn it off or remove the disc. The information is not written if there is an interruption to the power before this.	—
	●These operations are not possible with still pictures.	—
	●You cannot set points if they are too close to each other. You cannot set an end point before a start point.	—
Cannot erase chapters.	●When the chapter is too short to erase, use "Combine Chapters" to make the chapter longer.	27
The available recording time doesn't increase even after erasing recordings on the disc.	●Available recording space on the DVD-R does not increase even after erasing previously recorded titles.	—
Cannot create a play list.	●You cannot select all the chapters at once in a title if the title also includes still pictures. Select them individually.	—

Frequently asked questions

Set up
<div align="right">Page</div>

The television has both S-VIDEO IN terminal and COMPONENT VIDEO IN terminals. Which terminal should I connect with?	•We recommend the COMPONENT VIDEO IN terminal. Component signal outputs the color difference signals (P$_B$/P$_R$) and luminance signal (Y) separately in order to achieve high fidelity in reproducing colors. If the television is compatible with progressive output, a high quality picture can be output because this unit's component video output terminal outputs a progressive output signal.	**Setup Guide**
Is my television progressive output compatible?	•All Panasonic televisions that have 480P input terminals are compatible. Consult the manufacturer if you have another brand of television.	—

Disc

Can I play DVD-Video, DVD-Audio and Video CDs bought in another country?	•You can play them if the video standard is NTSC. •However, you cannot play DVD-Video if their region number does not include "1" or "ALL".	— —
Can a DVD-Video that does not have a region number be played?	•The DVD-Video region number indicates the disc conforms to a standard. You cannot play discs that do not have a region number.	—
Please tell me about DVD-R and DVD-RW compatibility with this unit.	•This unit records and plays DVD-R. However, you cannot record onto DVD-R discs that are finalized. •This unit also records and plays the high speed recording compatible discs. •This unit does not record or play DVD-RW.	— — —
Please tell me about CD-R and CD-RW compatibility with this unit.	•You can play CD-R and CD-RW on this unit that are created using a compatible format. •You cannot write to a CD-R or CD-RW with this unit.	**9, 23** —

Recording

Can I record from a commercially purchased video cassette or DVD?	•Most commercially sold video cassettes and DVD are copy protected; therefore, recording is usually not possible.	—
Can a DVD-R recorded on this unit be played on other equipment?	•You can play on DVD-R compatible players after finalizing the disc on this unit; however, due to the condition of the recording, play may not be possible.	**35**
How many times can I write to a DVD-RAM disc?	•You can write to the disc approximately 100,000 times depending upon the conditions of use.	—
Can I high speed transfer to a disc?	•You can record up to a 32× recording speed to DVD-R and up to 24× recording speed to DVD-RAM when using a high speed compatible disc.	**31**
Can I record digital audio signals using this unit?	•You cannot record digital signals. You can record analog audio signals with L1 AUDIO terminal connections.	**43**
Can I switch to MTS during recording?	•With HDD and DVD-RAM, you can, and the audio recorded also changes. Just press [AUDIO]. •With DVD-R, you cannot. Change before recording with "Select MTS" in the SETUP menu.	**13** **40**

TV Guide On Screen™ system

I do not want TV Guide On Screen™ system to automatically appear on screen.	•Select "Off" in "Review options" menu, so that TV Guide On Screen™ system appears only when you press [TV GUIDE].	**19**
I do not want to use TV Guide On Screen™ system.	•Set the unit with "Auto Channel Setting". Note that you can set timer recording only manually after you set the unit with "Auto Channel Setting".	**41**

Panasonic Audio Products Limited Warranty

Limited Warranty Coverage

If your product does not work properly because of a defect in materials or workmanship, Panasonic Consumer Electronics Company or Panasonic Sales Company (collectively referred to as "the warrantor") will, for the length of the period indicated on the chart below, which starts with the date of original purchase ("warranty period"), at its option either (a) repair your product with new or refurbished parts, or (b) replace it with a new or a refurbished product. The decision to repair or replace will be made by the warrantor.

Product or Part Name	Parts	Labor
Audio Products (except items listed below)	One (1) year	One (1) year
All Audio Racks (cabinets)	Thirty (30) days	Not Applicable
Stand Alone Speakers, Subwoofer Speakers	Three (3) years	Three (3) years
USB Reader-Writer, Personal Computer Card Adapters (in exchange for defective item)	One (1) year	Not Applicable
Accessories: Headphones, Cartridges, Microphones, Adapters	Ninety (90) days	Ninety (90) days
Rechargeable Batteries, DVD-R/-RAM Discs (in exchange for defective item)	Ten (10) days	Not Applicable
SD Memory Cards, Rechargeable Battery Packs (in exchange for defective item)	Ninety (90) days	Not Applicable

During the "Labor" warranty period there will be no charge for labor. During the "Parts" warranty period, there will be no charge for parts. You must carry-in or mail-in your product during the warranty period. If non-rechargeable batteries are included, they are not warranted. This warranty only applies to products purchased and serviced in the United States or Puerto Rico. This warranty is extended only to the original purchaser of a new product which was not sold "as is". A purchase receipt or other proof of the original purchase date is required for warranty service.

Carry-In or Mail-In Service

For Carry-In or Mail-In Service in the United States call 1-800-211-PANA (1-800-211-7262) or visit Panasonic web site: http://www.panasonic.com
For assistance in Puerto Rico call Panasonic Sales Company (787)-750-4300 or fax (787)-768-2910.

Limited Warranty Limits And Exclusions

This warranty ONLY COVERS failures due to defects in materials or workmanship, and DOES NOT COVER normal wear and tear or cosmetic damage. The warranty ALSO DOES NOT COVER damages which occurred in shipment, or failures which are caused by products not supplied by the warrantor, or failures which result from accidents, misuse, abuse, neglect, mishandling, misapplication, alteration, faulty installation, set-up adjustments, misadjustment of consumer controls, improper maintenance, power line surge, lightning damage, modification, or commercial use (such as in a hotel, office, restaurant, or other business), rental use of the product, service by anyone other than a Factory Servicenter or other Authorized Servicer, or damage that is attributable to acts of God.

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED UNDER "LIMITED WARRANTY COVERAGE". THE WARRANTOR IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. (As examples, this excludes damages for lost time, travel to and from the servicer, loss of media or images, data or other memory content. The items listed are not exclusive, but are for illustration only.) **ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.**

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. If a problem with this product develops during or after the warranty period, you may contact your dealer or Servicenter. If the problem is not handled to your satisfaction, then write to the warrantor's Consumer Affairs Department at the addresses listed for the warrantor.

PARTS AND SERVICE WHICH ARE NOT COVERED BY THIS LIMITED WARRANTY ARE YOUR RESPONSIBILITY.

Index

Product Service

1. **Damage requiring service**—The unit should be serviced by qualified service personnel if:
   (a) The AC power supply cord or AC adaptor has been damaged; or
   (b) Objects or liquids have gotten into the unit; or
   (c) The unit has been exposed to rain; or
   (d) The unit does not operate normally or exhibits a marked change in performance; or
   (e) The unit has been dropped or the cabinet damaged.
2. **Servicing**—Do not attempt to service the unit beyond that described in these operating instructions. Refer all other servicing to authorized servicing personnel.
3. **Replacement parts**—When parts need replacing ensure the servicer uses parts specified by the manufacturer or parts that have the same characteristics as the original parts. Unauthorized substitutes may result in fire, electric shock, or other hazards.
4. **Safety check**—After repairs or service, ask the servicer to perform safety checks to confirm that the unit is in proper working condition.

The servicer will require all components to service your system. Therefore, should service ever be necessary, be sure to bring the entire system.

Product information

For product information or assistance with product operation:

In the U.S.A., refer to "Customer Services Directory" on page 51.
In Canada, contact the Panasonic Canada Inc. Customer Care Centre at 1-800-561-5505, or visit the website (www.panasonic.ca), or an authorized Servicentre closest to you.
