

IC2501 (LOADING MOTOR DRIVE)

The diagram shows the internal structure of the IC2501, which contains a **LOADING MOTOR DRIVE** block. The connections are as follows:

- Pin 15 is connected to P2502 7.
- Pin 16 is connected to P2502 5.
- Pin 19 is connected to P2503 2.
- Pin 21 is connected to P2503 1.

The external connections show a **LOADING MOTOR** block with a positive (+) terminal and a negative (-) terminal. The positive terminal is connected to the output of P2503 1, and the negative terminal is connected to the output of P2503 2.
