Product Highlights

Real Flat Black Line S

Philips TV picture tube provides non-distorted picture quality, while offering a wider viewing angle without light reflections. Thanks to the highly pigmented phosphors, the brightness and contrast performance are considerably improved compared to conventional picture tubes.

Crystal Clear III

A unique package of picture innovations including Combfilter, Scavem, Dynamic Contrast. Crystal Clear III, using 10 bit processing, offers 30% more contrast, natural colors and a high level of detail.

Continuous Zoom

Able to expand the picture from 4:3 to 16:9 in many steps so the user can select the best aspect ratio for the material being viewed.

Dolby Pro-Logic 3D Surround

Using full Dolby Pro-Logic decoding, 3D Surround offers a cinema surround sound experience with integrated centre speaker, and without cables and rear speakers.

On Board CD/DVD Player

Integrated DVD mechanism which can be used to show DVD films without the need for any other equipment or cables. The DVD player will also play CD's enabling one to listen to music.

FM Cordless Kit

Two speaker kit which will upgrade the TV from Dolby 3D surround to full Dolby Prologic. This is done by means of an FM Transmitter which clips neatly on the back of the TV. This transmits the rear sound signal to the rear speakers without the need for any wires between the Television and the rear speakers.

Plug and Play

The ultimate ease of use feature for quick automatic searching, sorting(ATS/ACI) and storing of all the available channels.

100 Page Smart Text

Extremely fast access to many text pages and the ability to scroll through subpages with no wait.

Twin Page Teletext

You can watch 2 pages of the Teletext page consecutively, display on 2 halves of the screen.

Top Controls

Volume and channel change controls on top of the tv to enable easy adjustment without the remote control.

Side Connections

Connections for headphone and other inputs such as cam-corder, side entry for ease of use.
