## Power protection that goes anywhere

The 5115 integrates easily with SNMP based Network Management Systems such as Tivoli, HP OpenView, IBM Director, CiscoWorks, etc.

Mount it  
anywhere  
and save  
expensive  
rack  
space

Ease of configuration and connectivity with standard USB, serial port and the option of additional connectivity cards

Optional Web/SNMP Card shown

USB Serial

### When size counts, opt for the power management solution that delivers maximum protection while conserving valuable rack space.

With the new Powerware 5115 rack mount UPS we've increased your options exponentially, delivering all the protection of a mid-sized UPS - with a ZERO U rack configuration! So if you thought you didn't have room for a UPS - you do now. With features including outlet control, Advanced Battery Management (ABM<sup>®</sup>) technology, and complete software and connectivity options, the Powerware 5115 rack mount UPS delivers superior power protection that goes anywhere - that

you won't find from anyone else!

1U rack height provides a high density/low profile power solution.
