# Intergy DC Power Systems Service

At Powerware Global Services our mission is to consistently deliver outstanding service through customer-focused operational excellence.

Even the highest quality DC Power System needs to be properly maintained. Intergy DC Power Systems Service, available exclusively from Powerware Global Services, provides factory trained and authorized service for your Intergy DC Power System. Whether you choose individual services or decide to take advantage of the attractive Intergy ProActive Service Plan, let Powerware Global Services begin caring for your DC Power System from the moment it begins supporting your mission-critical applications.

Powerware Global Services delivers on-site support from a base of more than 250 U.S. technicians and 950 certified international service providers. These technicians support all brands manufactured by Invensys Powerware Division including Best Power, Deltec, DataTrax, Exide Electronics, Industrial Power Management (IPM), Intergy, Lortec, and Powerware. Please contact your local service sales manager or Global Services at 919-872-3020 or 800-843-9433 for more information.
