STRAIGHT FEMALE RECEPTACLE FOR PCB

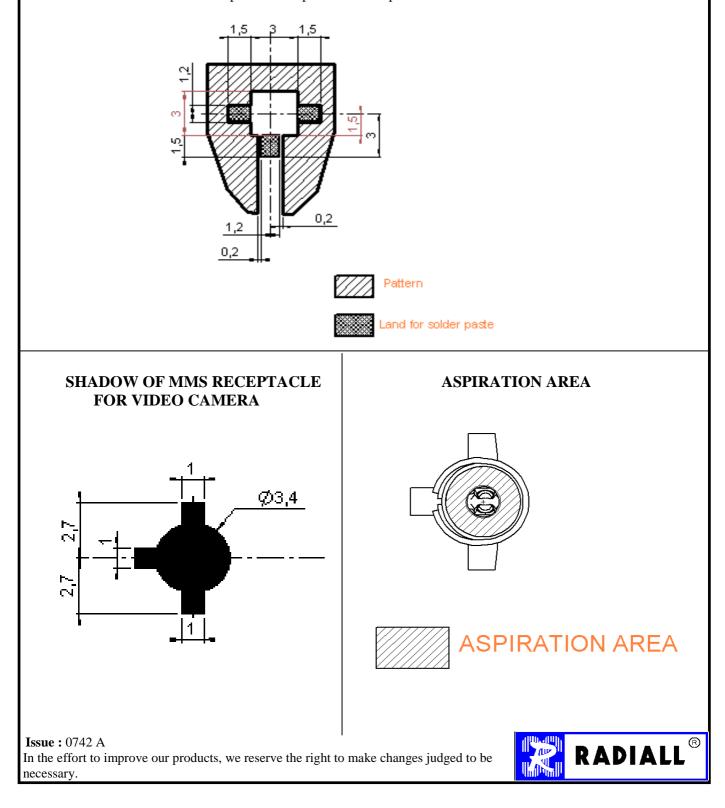

SMT TYPE - REEL OF 3000

R209.408.302

Series : MMS

MMS SERIES – INFORMATION

Coplanar line : Ground and signal are on the same side . Thicknass of PCB : 1mm The material of PCB is glass-epoxy composite. (Er = 4.8) The sold er resist should be printed except for the land pattern on the PCB.

3 / 5

TECHNICAL DATA SHEET

STRAIGHT FEMALE RECEPTACLE FOR PCB

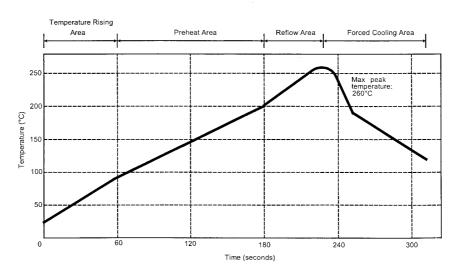

SMT TYPE - REEL OF 3000

R209.408.302

Series : MMS

SOLDER PROCEDURE

- Deposit solder paste 'SnAg4Cu0.5' on mounting zone by screen printing application. We recommend a low residue flux. We advise a thickness of 150 micromm (5.850 microinch). Verify that the edges of the zone are clean.
- 2. Placement of the receptacle on the mounting zone with an automatic machine of 'pick and place' type.
- 3. Soldering by infra-red reflow.
- 4. Cleaning of printed circuit boards.
- 5. Checking of solder joints and position of the component by visual inspection.

Parameter	Value	Unit
Temperature rising Area	1 - 4	°C/sec
Max Peak Temperature	260	°C
Max dwell time @260°C	10	sec
Min dwell time @235°C	20	sec
Max dwell time @235°C	60	sec
Temperature drop in cooling Area	-1 to - 4	°C/sec
Max dwell time above 100°C	420	sec
