

Benefits of going from paper to eDocuments

Improved File Management. eCabinet stores and indexes files by communicating with Ricoh network peripherals such as copiers, scanners, fax machines and printers. Even PCs can communicate with the eCabinet-all without creating network bottlenecks.

Increased Productivity. eCabinet provides faster access to eDocuments vs. paper, reducing the time required to respond to customers or resolve issues. File errors are also reduced creating a consistent work environment.

Expanded Collaboration. Stored documents can be shared within workgroups, departments or remote offices. Access controls can be adjusted to share commonly accessed documents, or restrict confidential documents.

Reliable Backup & Disaster Recovery. Lost or destroyed files can easily be retrieved, ensuring continuity within your office.

RICOH
 eCabinet™
 1000 and 2100 Series

What is eCabinet?

eCabinet is a network document repository for departments and workgroups that integrates seamlessly with Ricoh office equipment. eCabinet provides its users with the ability to capture documents and automatically index them, providing a secure archive while enabling fast retrieval.

Faxes, emails, copies, scans and PC documents can all be archived by the eCabinet and then:

- Stored in a central location
- Accessed remotely by a standard Web browser interface
- Shared with colleagues

eCabinet can be configured to communicate with Ricoh office equipment your company is using today such as:

- High Speed MFPs
- Network Faxes
- Scanners

eCabinet integrates with Ricoh office equipment to provide a seamless solution for converting paper to eDocuments.

Feature	Details
Indexing	Full-text and keyword.
Flexible Search options	search across multiple ecabinets by keyword, full text and directly from the homepage. Frequent searches can be saved.
Front End Scanning Software	Enables users to capture scanned documents or images.
PC Capture Software	Enables users to schedule documents and image captures.
