RICOH PRIPORT JP3000

Digital Duplicator

Feature Rich,
Low-Cost Printing
for Everyone

RICOH®

Convenience, Versatility, Economy and Speed

The RICOH® JP3000 Digital Duplicator combines the features schools, churches and non-profits value most. It's convenient, quiet and simple to use. It reliably prints black and colored inks on a wide variety of paper sizes and stocks – including 11" x 17" sheets & envelopes and up to 110 lb. index weight. Whether printing directly from a computer or reproducing from an original hard copy, its crisp 300 dpi resolution meets a wide range of needs.

Convenient Operation

The Ricoh JP3000 will appeal to both the casual user and key operator. The brightly lit LED control panel is intuitive and easy to read. The most advanced features are separated on the panel for easy access by the dedicated user. Loading consumables, including the paper supply, color drum, ink cartridge and master roll, is a breeze. Setting a wide gamut of tints is simple using the available Tint Mode. And, the removal of ejected masters couldn't be cleaner or easier.

The reliability of the JP3000 is ensured by its very short, straight paper path and unique re-try feed. Set-up in a convenient spot near where you work, its compact size and quiet operation make it a welcome addition anywhere in the office.

Versatile

The JP3000 outputs on the multiple sizes and types of stock that you need. From bond and NCR paper to construction stock, it handles sheets up to 11" x 17" and envelopes up to 10" x 13".

In addition to printing from original sheets, the JP3000 also prints from open books, and its handy Margin Erase feature eliminates shadowing caused by the center margins of an opened book.

Want to add color to your printing? Just swap the black-ink drum for a drum with your choice of standard or custom colors. The excellent registration of the JP3000 and its fast-drying inks print spot color with offset-like quality.

When reproducing hard-copy originals, the JP3000 uses advanced-technology image-reading software to recognize and separate line, text and photo areas for best quality reproduction. Print directly from a Windows or Macintosh platform or from a Windows-based network for maximum ease and superior print quality. The JP3000 connects to three types of optional print controllers. Whether internal or external, there's one just right for your needs.

Economical and Fast

For print runs from 50 to 5,000 copies, the JP3000 costs less per print than copiers, laser printers and even offset presses. User-selectable print speeds, from 60 to 120 pages per minute, allow even large print jobs to be completed in short order.

Specifications:

Type:	Floor standing
Resolution:	300 dpi (Fine Mode: 300 x 400 dpi)
Speed:	Min. 60 PPM, Max.120 PPM (5 user adjustable speeds)
First print speed:	23 seconds (letter size)
Printing area:	A3 drum: 11.4" x 16.1"; A4 drum: 11.4" x 7.9"
Original type:	Sheets, books
Original size:	Max. 12" x 17"
ADF:	Max. 11.7" x 34", Min. 5.8" x 8.3"
Print paper size:	Max. 12.8" x 17.6", Min. 2.8" x 5.9"
Print paper weight:	13 lb. bond to 110 lb. index
Paper feed tray and delivery tray capacity:	1,000 sheets each (20 lb. paper)
Reproduction ratios:	4 reductions: 93%, 77%, 74%, 65% 3 enlargements: 121%, 129%, 155%
Zoom:	50% to 200% (1% increments)
Image tuning:	Text Mode, Photo Mode and Text/Photo Auto Separation
Image density:	Light, normal, dark and darker
