INSTALLATION GUIDE

⚠ **Caution**
- Before installing options, the machine should be turned off and unplugged for at least thirty minutes. Components inside the machine become very hot, and could result in a burn if touched.
- When lifting the machine, use the grips on both sides. The machine could break or cause injury if dropped.
- It is dangerous to handle the plug with wet hands. Doing this may result in receiving an electric shock.
- Before moving the machine, unplug the power cord from the outlet. If the cord is unplugged abruptly, it could become damaged. Damaged plugs or cords can cause an electrical or fire hazard.
- When moving the machine, each person should hold a handle, located on two sides of the printer, and then lift slowly. Lifting carelessly or dropping it may cause injury.
- When moving the paper feed unit, hold the bottom of both sides, and then lift slowly. Lifting carelessly or dropping it may cause injury.

🔩 **Important**
- ❒ Check the printer nameplate to confirm the model code.
- ❒ If you want to use the optional duplex unit, 2 tray finisher and 4-bin mailbox at the same time, install the optional paper feed unit first, and then install these options.
- ❒ If you have already installed the optional duplex unit, 2 tray finisher and 4-bin mailbox, remove all these options before installing the optional paper feed unit.
- ❒ Before installation, check the orientation of the 2000-sheet Large Capacity Tray you want to place.
- ❒ When installing multiple options, install the Large Capacity Tray first.
- ❒ Four people are needed to install the Large Capacity Tray. Start the installation work after all four people are ready.

📝 **Note**
