This RTB has been issued to announce firmware release information.

### General Information

Firmware Version	Program No.	Effective Date
6.01	J0035130	April 2005 production

### History

Service Card Version	Symptom Corrected
6.01	Other changes: Print speed control is disabled for "High-Speed" mode. <b>Note:</b> As a result, the machine will not decrease the print speed in "High-Speed" mode, even under low-temperature, low-humidity conditions.

### Important Notes for When Installing This Firmware:

- This firmware is only for **Model P-G1**. It cannot be used on Model A-G1.
- Install this firmware via a **direct USB connection** between a PC and the printer.  
**Note:** This firmware cannot be installed via a network connection.
- Before you start the installation:
  - Shut down all other foreground applications on the PC.
  - Make sure that the printer main power is ON.
- If the installation fails, execute the ".exe" file again.
