

"The World of Radio Communications" Catalog 2000/2001

Type Index

Contents Overview

R&S Addresses

... before you turn to the next page:

In this catalog you will find all current equipment and systems for Radio Communications. It replaces the edition 1297. The catalog comes with a CD-ROM where the contents of the catalog are available in PDF format.

Specifications

Specifications given in this catalog are in part abridged. For full and binding specifications please refer to the relevant data sheet or system description on request.

Other R & S Publications

Catalogs

- Test and Measurement Products
- The How, Where and What of EMC (CD-ROM)
- Sound and TV Broadcasting
- Antennas (HF, VHF, UHF, SHF)

Data Sheets

The data sheets give a detailed description of instrument features, applications and specifications.

News from Rohde & Schwarz

In our in-house journal you can find articles from the development lab or test hints for a specific instrument. As a regular subscriber to News you will also be kept informed about all newly developed Rohde & Schwarz products.

News from Rohde & Schwarz is published in German, English, French and Chinese six times a year. The volumes 1996/97 as well as 1998 are now also completely available in three languages each on a CD-ROM. Please contact your local Rohde & Schwarz sales engineer.

MIL NEWS from Rohde & Schwarz

In this special journal you can find articles for the military market. As a regular subscriber to MIL NEWS you will also be kept informed about all newly developed Rohde & Schwarz products in this business field. MIL NEWS from Rohde & Schwarz is published in German, English and Spanish approx. two times a year. Please contact your local Rohde & Schwarz sales engineer.

Application Notes

From time to time a list of new application notes will be published in our News journal. On request you will receive the desired documentation free of charge and some of the application notes are also available as software against a small fee.

Special Publications

Additional technical literature from Rohde & Schwarz such as special publications on current items, refresher topics, compendia, etc is available for various fields of application. Please contact your local sales engineer or Dept. HW-UKD (Fax +49 89 4129-3208).

Technical Publications

The revised index of publications enclosed with News No. 163 lists all Rohde & Schwarz articles that were published in News from Rohde & Schwarz

and in other technical magazines in 1997 and 1998. This index is divided into equipment categories within which the articles are arranged in alphabetical order of the authors' names. We shall be glad to send you a copy of any publications from this index. Please address your requests to Dept. HW-UKD (Fax +49 89 4129-3208).

Request for printed material

Please fill in the reader service cards or fax forms provided at the end of the catalog and we will promptly forward you the information requested. International Sales Dept. (Fax +49 89 4129-3567).
