Instrument driver

for GSM

Please use the CMD55 driver for GSM

for DECT

Please use the CMD60 driver for DECT

Additional Help

LabWindows/CVI

The LabWindows/CVI instrument driver consists of a ZIP archive containing the driver sources. In addition, the instrument driver documentation is also included in compressed HTML format (Windows CHM help file) and stored together with the driver sources.

VXIplug&play Instrument Driver

In addition, the instrument driver documentation is also included in compressed HTML format (Windows CHM help file) and stored together with the driver sources in the ~VXI\pnp\WinNT\rscmd55 and ~VXI\pnp\WinNT\rscmd60 directory.

For more information regarding the VXIPnP instrument drivers, please read the readme.txt file that comes with each driver.
